Walker, Donald D.	Realtor	West St.

## Report of Selectmen

---

To the Citizens of Duxbury:

We submit herewith the Ninety-Fourth Annual Report of the various officers and committees for the year 1946.

This has been a year of increasing costs. The hourly wage rate has been 75c for the past two years. This year it has been necessary to raise the rate to 85c. Increases have been allowed for the heads of some departments.

It has been necessary that the Town Dump be kept open seven days a week during this past year. In order to keep it accessible to the public it has been necessary to have a man on duty most of each day. This will mean that the appropriation for the coming year will be somewhat higher.

We are asking for a sum of money to purchase a dump truck for the Highway Department, as was suggested in our last report. The Chapter 90 Highway program will be continued to the extent of the participation by the State and County.

In the spring Lewis B. Randall replaced Edward S. O'Neil as Superintendent of Streets. Mr. O'Neil had served the town in this capacity for more than thirty years and was also interested in many other town affairs.

In pursuance of the vote at the Annual Meeting in March, the Alms House was sold at public auction on December 21st, to Mr. Moses F. Carr for \$5600.00, that being the highest bid received.

The Highway Department moved from the Alms House yard to a new location at the rear of the old Partridge Academy site. This location was chosen because it is central and because equipment and materials can be stored there, and are out of sight.

It was necessary to shingle the major portion of the roof of the Abbott House. Also repairs were made to other buildings. During 1947 the Town Hall, the Abbott House, and the Town Office Building, should be painted on the outside, and it may be necessary to make repairs on some of the other town buildings.

The money appropriated for dredging and improving the basin of Duxbury Harbor was not used during the year because the Federal Government apparently was not in a position to expend money for that purpose. We are not sure whether this project will be carried out in 1947, but we hope that conditions may be such that it can be done. Meanwhile, we will hold the money available until such time as the State and Federal Governments wish to proceed.

The shore protection at Duxbury Beach has been started by the Department of Public Works, and it is our understanding that it will complete the work early in 1947.

The Welfare Department has moved to the rooms formerly occupied by the Civilian Defense in the Abbott House, where the accommodations are better suited to the requirements of the department.

A. Elliot Holmes, who had served as Shellfish Constable for seven years, resigned on November 15, 1946, and was replaced by Henry P. McNeil, a veteran of World War II.

Chapter 599 of the Acts of 1946 requires that a Department of Veterans' Services shall be established in every city and town in the Commonwealth. In accordance with this law, we made the following appointments on November 7th: Charles R. Carlson, Director; and Rev. John H. Philbrick, Willard Murray, Walter Deacon, M. D.; John Whitehead, Philip Delano, Clement Briggs, Advisory Board.

As a result of many complaints from various parts of the town in 1945, we requested the Department of Public Utilities to make a survey relative to the service and plant of the Plymouth County Electric Company in the town of Duxbury. This survey was completed last July, at which time we received a letter from Thomas A. Flaherty, Chairman of the Commission, which reads in part as follows:

"It is interesting to note that we have received no complaints in the past year from customers relative to service, which may be indicative of a relative degree of satisfaction with the service by the consumers. The Department is very much interested in the quality of service supplied by the utilities companies throughout the state, and appreciates your bringing this condition to our attention. I am of the opinion that conditions are satisfactory and no further action or consideration is necessary by the department in this matter."

The increases in the regular departments would seem to indicate that the tax rate will be about \$36.00 per thousand. However, if the town votes additional sums of money in special articles, the tax rate will be directly affected at a rate of about 13c upward for each \$1000.00 raised.

May we at this time express our appreciation of the cooperation and assistance given us by the various officers and committees in the administration of the affairs of the town.

Respectfully submitted,

PHILIP W. DELANO, Chairman,  
CHARLES R. CROCKER,  
WALTER G. PRINCE,

Selectmen of Duxbury.

## Report of State Auditor

---

February 15, 1946

To the Board of Selectmen  
Mr. Philip W. Delano, Chairman  
Duxbury, Massachusetts

Gentlemen:

I submit herewith my report of an audit of the books and accounts of the town of Duxbury for the year ending December 31, 1945, made in accordance with the provisions of Chapter 44, General Laws. This is in the form of a report made to me by Mr. Herman B. Dine, Assistant Director of Accounts.

Very truly yours,

THEODORE N. WADDELL,

Director of Accounts.

TNW:HDK

---

Mr. Theodore N. Waddell  
Director of Accounts  
Department of Corporations and Taxation  
State House, Boston  
Sir:

As directed by you, I have made an audit of the books and accounts of the town of Duxbury for the

year ending December 31, 1945, and submit the following report thereon:

The financial transactions, as recorded on the books of the several departments receiving or disbursing money for the town or committing bills for collection, were examined and reconciled with the reports and records in the office of the town accountant.

The town accountant's ledger was analyzed, the receipts being checked with the treasurer's books and the payments being compared with the warrants authorizing them and with the treasurer's records of payments.

The appropriation accounts were checked with the town clerk's records of town meeting proceedings and the recorded transfers from the reserve fund were verified. A trial balance was taken off, proving the accounts to be in balance, and a balance sheet, which is appended to this report, was prepared showing the financial condition of the town on December 31, 1945. An examination of the appended balance sheet shows that the town is in excellent financial condition.

The books and accounts of the town treasurer were examined and checked in detail. The receipts, as recorded, were analyzed and checked with the records of the several departments collecting money for the town and with other sources from which money was paid into the town treasury. The payments were compared with the selectmen's warrants authorizing the treasurer to disburse town funds.

The cash book additions were verified, and the cash balance on January 8, 1946 was proved by actual count

of the cash in the office and by reconciliation of the bank balances with statements furnished by the banks of deposit.

The payments made for maturing debt and interest were compared with the amounts falling due and with the cancelled securities on file.

The savings bank books and securities representing the investment of the trust and investment funds in the custody of the town treasurer and the Plymouth Five Cents Savings Bank were examined and listed, the income being proved and the transfers to the town being verified.

The records of tax titles held by the town were examined and the taxes transferred to the tax title account were compared with the collector's records. The payments to the treasurer were verified and the outstanding accounts were listed and proved.

The books and accounts of the tax collector were examined and checked. The taxes outstanding at the time of the previous examination, as well as all subsequent commitments, were audited and compared with the assessors' warrants issued for their collection. The payments to the treasurer were verified, the recorded abatements were checked with the assessors' records, and the outstanding accounts were listed and proved.

The records of departmental accounts receivable were examined and checked. The commitments were proved, the payments to the treasurer were verified, and the outstanding accounts were listed and proved.

The outstanding tax and departmental accounts were verified by mailing notices to a number of persons whose names appeared on the books as owing money

to the town, and from the replies received it appears that the accounts, as listed, are correct.

The records of licenses and permits issued by the selectmen, town clerk, and by the police and health departments, as well as those of all other departments collecting money or committing bills for collection, were examined and checked, the reported payments to the treasurer being verified.

The surety bonds of the various town officials re-to file them were examined and found to be in proper form.

Appended to this report, in addition to the balance sheet, are tables showing a reconciliation of the treasurer's and collector's cash, summaries of the tax, tax title, and departmental accounts, together with tables showing the condition and transactions of the trust and investment funds.

For the co-operation extended by the town officials during the progress of the audit, I wish, on behalf of my assistants and for myself, to express appreciation.

Respectfully submitted,

HERMAN B. DINE,

Assistant Director of Accounts

## Report of Board of Appeals

---

To the Honorable Board of Selectmen  
of Duxbury

Gentlemen:

We respectfully submit our Annual Report.

The Board of Appeals has been quite active during the year 1946, has held many meetings and has conducted twenty public hearings.

In rendering its decisions the Board has always endeavored to act in accordance with the provisions of the Protective By-Law and to preserve the best interests of the Town, but at the same time to give desirable relief to petitioners, particularly in cases where no opposition was presented at the hearings.

It has been brought to the Board's attention that there is very little available space left in the existing business zones for the location of new business enterprises; also that on Route 3, beyond the limits of the existing business zone, there are and have been for several years a continuation of small businesses extending for a considerable distance along the street. These conditions would indicate that it is time for the Planning Board to make a further study of the business zones.

PARKER B. CHANDLER, Chairman  
WILLIAM B. COFFIN,  
H. RUSSELL CHANDLER.

## Report of Chief of Police

---

To the Honorable Board of Selectmen:

Gentlemen:

Following is the report of the Police Department for the year ending December 31, 1946.

### LIST OF OFFENSES

Assault	2
Delinquent Child	5
Disturbing peace	2
Drunk	11
Larceny of auto	1
Non Support	3
Operating to endanger	2
Operating under the influence	5
A. W. O. L. Army	1
	<hr/>
	32

### DISPOSITIONS

Fined	16
Sentenced to House of Correction	1
Placed on Probation	7
Found not Guilty	1
Continuation for Disposition	1
Released	2
Turned over to other Authorities	4
	<hr/>
	32

## MISCELLANEOUS

Complaints investigated	526
Motor Vehicle accidents investigated	37
Emergency trips to Hospitals	13
Committed to State Hospitals	3
Emergency messages delivered	50
Arrests for outside Police	4
Summons served for outside Police	43
Animals destroyed for owners	66
Animals returned to owners	19

Respectfully submitted,

JAMES T. O'NEIL,

Chief of Police.

## Report of Fire Department

---

To the Honorable Board of Selectmen:

Duxbury, Massachusetts

Gentlemen:

The Board of Fire Engineers submit the following report of the department activities for the year 1946.

The total number of calls was seventy-eight.

### Summary:

18 Chimney	7 Automobiles
8 False Alarms	12 Buildings
7 Oil Burners	1 Bridge
22 Emergencies	3 Stand-by

Of the twelve building fires only five were serious, and in each of these cases, the fire was confined to its point of origin. Property loss has been kept at a minimum, and when this is compared with the terrific loss of both property and human life over the state and nation this year, we feel that we are extremely lucky.

Again this year we have stayed well within our appropriation. We have purchased a two-way radio mobile unit. The doors of the Number 2 Engine House have been enlarged and other necessary repairs have been made.

We regret that we cannot acknowledge delivery of our new fire truck during 1946. Due to strikes and shortages of materials its assembly has been delayed.

However, we feel very confident that we will get delivery early in 1947.

As Chief, I would like to give much credit to the firemen for their splendid work in salvaging and protecting personal property. This is a very important factor in keeping our fire losses down. As always, we stand ready to serve in any emergency.

Again we thank the telephone operators, firemen, and all the townspeople for their splendid cooperation. Your help is greatly appreciated.

In case of fire or emergency call the Central Fire Station—Duxbury 333. Give the location of the fire, and if possible the nature of the fire. For example: chimney, house, forest, or grass. This is very important, for it enables us to send the proper equipment immediately.

Respectfully submitted,

EBEN N. BRIGGS, Chief

LeROY M. PETERSON

KENNETH O. MACOMBER

GEORGE S. BUTLER

HENRY M. GRISWOLD

CARL J. SANTHESON, JR.

FRANCIS W. PERRY

Board of Fire Engineers.

## Report of Forest Warden

---

To the Honorable Board of Selectmen:

Duxbury, Massachusetts

Gentlemen:

I herewith submit my report as Forest Fire Warden for the year 1946.

The total number of calls was 81.

### Summary:

3	Rubbish
11	Brush
17	Town Dump
19	Grass
3	False Alarms
3	Stand-by
6	Outside Aid
19	Forest

Of the 19 forest fires this year only two were serious. I refer to the fires off Keene Street on July 14. These were of incendiary origin and cost the department over \$400. After four days in the Plymouth and Brockton Courts the person responsible was found guilty and was duly prosecuted. On July 29 we had a call for a forest fire on the easterly side of Lincoln Street. This fire burned over only about 5 acres, yet had to be patrolled for 4 days and nights. This made the cost run up to more than \$400 again. If it had not been for these 2 fires I would have stayed well within my appropriation.

I feel that I should ask this year for an appropriation for a new forest fire truck to replace the 1924 Dodge-Graham truck which is obsolete and should not be on the highway. In talking with the Board of Selectmen I am told that this would further raise the tax rate. Therefore, I feel it my duty to cooperate and try to make the equipment go through another year.

I wish to thank the Deputy Wardens, citizens, and telephone operators for their splendid cooperation throughout the year.

Respectfully submitted,

EBEN N. BRIGGS,

Forest Warden.

## Report of Highway Department

---

To the Honorable Board of Selectmen:

I herewith submit the report of the Highway Department for the year ending December 31, 1946.

In addition to general repairs to streets throughout the town, approximately nine miles of the black roads were resurfaced; and many more need this treatment.

Roadsides were mowed and raked, and many new street signs were erected.

Due to the shortage of materials, only a limited number of fences were repaired.

Bay Road was resurfaced with A E-3 emulsion and  $\frac{1}{2}$  inch stone. This was done under Chapter 90 Maintenance; the State, County, and Town, sharing the cost. The balance of this money was used to resurface 1.2 miles of Route 14.

Under Chapter 90 New Construction, (the State, County, and Town, sharing the cost in this work also), Valley Street, and that portion of Franklin Street between Valley Street and Route 3, were straightened, widened, graveled, and finished with two applications of asphalt.

A new sand spreader and another sand loader were purchased by the Highway Department.

A great deal of work was done on Powder Point Bridge, and a great deal more will need to be done in the spring if material is available.

Respectfully submitted,

LEWIS B. RANDALL,  
Superintendent of Streets.

## Report of Moth Department

---

To the Honorable Board of Selectmen:

Duxbury, Massachusetts

Gentlemen:

I herewith submit the report of the Moth Superintendent for the year 1946.

Since the annual town meeting of March 1945, the work of the Moth Department has continued in the following order.

March and April were spent in creosoting gypsy moth egg masses. During the first part of May the tent caterpillar nests were creosoted along the sides of all streets in town. Spraying along the streets and in the cemeteries for the control of the tent caterpillar and gypsy moth started the second week in May and continued until the last of June. Since July marks the completion of a gypsy moth's life cycle after its eggs are laid, and where these eggs are often laid on the leaves and in dense foliage, extermination work was discontinued until after the leaves had started to drop.

October, November and December were spent creosoting egg masses, starting with the trees in the cemeteries.

There are fewer gypsy moth egg masses along the streets this year than last.

The brown-tail moth situation is improving. These insects are confined to the southerly beach section of

town as we were unable to find any on the north end of the beach and while there appeared to be more nests than last year, it might be due to shifting sand, as many nests were near the ground.

Respectfully submitted,

ROY E. PARKS,

Moth Superintendent.

## Report of Tree Warden

---

To the Honorable Board of Selectmen:  
Duxbury, Massachusetts

Gentlemen:

A report of progress of work in the Tree Warden Department for 1946 is as follows:

The work in this department started in May and continued through June with the spraying of all shade trees in the residential sections of town.

This spraying of the Tree and Moth departments over-lapped because our one sprayer serves both departments.

Again this year in July and August we were confronted with the Fall Web Worm nests which were sprayed in the heavy infestations and cut out in the more scattered sections.

August and September were spent in cutting branches and trees that hung too low out over the streets. The worst sections were taken first with a lot left to do as there are over one hundred miles of streets in town.

In conclusion I wish to say that in the past we have done just what was absolutely necessary. Now, if we are in hopes to maintain our trees in good shape it is essential that we give them more care and in addition we are going to have to fight the Dutch Elm Disease. Therefore, I suggest that this department be given more money to work with.

Respectfully submitted,

ROY E. PARKS,

Tree Warden.

## Report of Board of Health

---

Board of Health  
 Duxbury, Massachusetts  
 Gentlemen:

I herewith submit my annual report as Agent for the Board of Health. Contagious diseases reported during the year were as follows:

Whooping Cough	12 cases
Scarlet Fever	8 cases
Mumps	12 cases
Chicken Pox	30 cases
Measles	14 cases
Dog-Bite	9 cases
Tetanus	1 case

The Board of Health maintained the Town Dump, answered all complaints from overflowing cesspools, dead fish on the Beach and other nuisances to the public health. The Board of Health conducted a Diphtheria Clinic in October. Thirty-seven children were immunized. The Board of Health continued its support of a dental program in the public schools with \$500.00 used exclusively for treatment in dental defects of school children. The various tourist camps and cabins were inspected before licenses were issued and water supply and sanitation was inspected by the State Board of Health. I have no report of permits or licenses issued as this was done from the Selectmen's Office.

Respectfully submitted,

C. H. KING, M. D.,

Agent.

## Report of the Board of Public Welfare and Bureau of Old Age Assistance

---

To the Citizens of Duxbury:

The Board of Public Welfare moved into their new quarters on January 9, 1946, providing more space and privacy for interviewing. In making the change it was necessary to purchase additional equipment.

Mrs. Barbara S. Mallowney was appointed February 8, 1946 to fill the vacancy caused by the resignation of Mrs. Madeleine H. Baker, and in March Mrs. Mallowney was elected to the unexpired term of two years. Carl J. Santheson, Jr. was elected for the term of three years.

Under General Relief, the Department has assisted a total of 18 cases during the past year. This was an increase of 80 per cent over the 1945 case load.

The Town has received the sum of \$455.55 in reimbursements from individuals, for aid rendered.

### AID TO DEPENDENT CHILDREN

Little change has been effected in this category of assistance. The amount of assistance granted to the families was increased, as of October 1, 1946, due to the budget change which became effective at this time.

During the year 8 families, representing 23 children, were assisted under Aid to Dependent Children.

It was necessary to ask for a transfer of \$274.23 from the Reserve Fund in order to meet the payments

for the month of December. This was the first time in over five years that the appropriation was insufficient.

### OLD AGE ASSISTANCE

The case load in this category has greatly increased during the past year.

January 1, 1946, active cases	59
Added during the year	26
	<hr/>
Total aided during the year	85
Closed:	
By Death	6
Moved	1
Working	1
Institution	1
	<hr/>
Total cases closed	9
	<hr/>
Active cases December 31, 1946	74

There has been an increase of nearly 50 per cent in the number of individuals receiving Old Age Assistance. The increase may be attributed to the fact that the exemptions of children were increased and the defense plants closed. The cost of Old Age Assistance has been increased due to the high cost of living and sickness.

Respectfully submitted,

GEORGE S. BUTLER, Chairman  
CARL J. SANTHESON, JR.  
B. S. MULLOWNEY,

Board of Public Welfare  
Bureau of Old Age Assistance.

## Report of the Superintendent of Cemeteries

---

To the Cemetery Trustees:

I submit my report for the year 1946.

At Mayflower, Ashdod, Dingley and Myles Standish Cemeteries, the general work was done and the leaves were raked. The egg clusters were creosoted and the trees sprayed by the Moth Department.

At Mayflower Cemetery a great many old lots have been rebuilt. New lots have been built along Pine Avenue up to Oak Avenue.

All Perpetual and Annual Care lots were cared for. Sixty-five foundations for stones were built and there were sixty-three interments this year.

The asphalt roads have been resurfaced and a balance left from that appropriation.

Mr. Charles Edwards, who worked for the cemetery department for a number of years, passed away this year and he will be missed by his many friends.

Respectfully submitted,

LAUREL B. FREEMAN,

Superintendent of Cemeteries.

## Report of Cemetery Trustees

---

To the Honorable Board of Selectmen  
and the Citizens of Duxbury:

We submit the following report for the year 1946.

The Trustees regret the passing of one of our members, Theodore W. Glover, who has faithfully performed his duties as a Trustee for over twenty-one years. We miss him.

The report of the Superintendent has been accepted by the Board of Trustees and is printed as a part of this report.

Your Trustees have increased the charge made for building lots and opening graves to meet the increased labor costs.

The annual care charge has been maintained at the same figure but we urge that provisions be made to establish Perpetual Care Funds for these lots.

We are pleased to report a material increase in the amount of the Perpetual Care Funds. We would appreciate seeing the smaller funds increased to an amount which we need to render proper care for the lots covered. All care is furnished up to the amount of the income received for each lot covered.

We recommend the use of cement vaults for all burials. The increased cost will not be more than what is needed at some future date to fill in a sunken grave.

The Trustees request the appropriation of \$9,800 for carrying on the work of the Cemetery Department.

The Board of Trustees wish to express their appreciation of the cooperation of the citizens in maintaining the good appearance of the cemeteries.

Respectfully submitted,

HARRY A. TAMMETT, Chairman  
J. NEWTON SHIRLEY, Secretary  
ERNEST H. BAILEY,  
CONNIE H. KING, M. D.,  
EDWARD P. HOBART,

Cemetery Trustees.

## Report of Playground Committee

---

To the Honorable Board of Selectmen  
Duxbury, Massachusetts

Gentlemen:

The general routine work on the grounds has been completed as usual this year. The activity on the playground has been greater than for several years. The field has been in constant use during the school terms, and the renewal of our Duxbury Days Celebrations brought much activity to the area.

During both the high school sports and the Fourth of July activities seats for the general public are much in demand. This leads me to ask for an Appropriation for the rebuilding of the bleachers.

Respectfully submitted,

EBEN N. BRIGGS.

## Report of Honor Roll Committee

---

To the Citizens of Duxbury :

Since the last annual report of your committee five names have been added to the Honor Roll, bringing the present total of names to three hundred and eighteen.

The names added since our last report are as follows :

Blanchard, Howard M.  
Peterson, Abbott  
Randall, Louis B., Jr.  
Sprague, Russell W.  
Washburn, Richard C.

About the first of the year we bought flags which are placed on either side of the board and changed about every two months in order that they may not be torn or faded. The board has been given two coats of paint. All bills have been paid from the remainder of the appropriation voted in 1945 and there is a small balance. There are enough unused flags for the coming twelve months.

We estimate that the annual cost of maintainance will now be about forty dollars each year. We feel that the present committee could now be discharged and the question of maintainance left to the direction of the Selectmen. We recommend that this be done and that the amount of forty dollars be added to their esti-

mate for the Town Hall and Offices Department. However, if the Town feels that the committee should be retained we request that a special appropriation of forty dollars be made for the use of the Honor Roll committee.

Respectfully submitted,

WALTER R. HUNT,  
EDWIN M. NOYES,  
JAMES T. O'NEIL.

Honor Roll Committee.

## Report of Public Health Nurse

---

To the Honorable Board of Selectmen:

Gentlemen:

I submit herewith the report of the Public Health Nurse for the year 1946, these being services rendered under the annual appropriation for this purpose.

	Cases	Visits
Old Age Assistance	3	20
Soldiers Aid	1	11
Crippled Children	5	25
Acute Contagious Disease	10	18
Tuberculosis (cases and contacts)	4	12
Syphilis	2	3
	<hr/>	<hr/>
Totals	25	89

Well-Child Conferences—meetings 6—attendance 51

Diphtheria Immunization Clinic—38

Transportation

Brockton Orthopedic Clinic	2 trips
Children's Hospital	5 trips
Boston Artificial Limb Co.	2 trips
Plymouth County Hospital	2 trips
Lakeville State Sanatorium	1 trip
Taunton State Hospital	1 trip

Respectfully submitted,

SUSAN E. CARTER, R. N.,

Duxbury Public Health Nurse.

## Report of Librarian

### Duxbury Free Library, Inc.

---

The Library had a very successful year so far as patronage was concerned. Nearly seven thousand (7,000) visitors were recorded and the circulation was correspondingly satisfactory. The difference between summer and winter circulation is much less than it was two years ago, that in the winter showing a decided rise due to the increase of permanent residents.

It is reported with regret that the Library lost the Assistant Librarian who had served it so long and so well. Mrs. Leo Bencordo resigned in the fall to undertake more remunerative work at the Duxbury High School.

Her old position has now been filled by Mrs. Mildred W. Terry who has had a thorough secretarial and business training. The Library is fortunate to secure the services of so competent a young woman. Mrs. Terry was filling a full-time job when she decided to accept one that would put more time at her own disposal.

Mrs. Roderick N. MacDonald has again made a most welcome and valuable donation of several hundred books, mainly juveniles. The need for additions and replacements in this department is always pressing, due to constant and often careless handling. The Librarian also wishes to thank the many other donors for their generous gifts during the year.

Through the interest and kindness of Prof. Richard M. Field, the Library has on display and on file bulletins, journals and other data of the United Nations' meetings. Those who wish to consult them will find a convenient layout in the Reading Room.

Respectfully submitted,

FISHER AMES,

Librarian.

Treasurer.

## Report of Town Historian

For the Year 1946

---

To the Honorable Board of Selectmen:

Duxbury continues to make good its claim to be within the Hurricane district. A short but vicious cane swept through the town on Saturday evening, June 8, taking with it some more of our beautiful trees. This thing must stop.

July brought a drought but August evened the score by a rainfall which was near a record. Add to these items a long and glorious Fall with brilliant foilage and warm sunny weather nearly up to Christmas and you have the year's story weatherwise.

During the summer we were favored with a visit by two of the staff of the National Geographic Magazine. Messrs Long and Sisson will tell the Duxbury story in word and picture in a forth-coming issue of the magazine. Our historic scenes gave them a warm welcome and our homes and personal services were theirs to command.

The May issue of the Geographic carried a map of the south Pacific Ocean as a part of the article entitled "Pathfinders of the Pacific". Interesting to us was the memorandum in re Palau Island.

"Amasa Delano of Duxbury, Mass. helped  
subdue native revolt June 22, 1791."

This copy may be seen at the Historical Rooms.

The usual summer Fairs were topped this year by the Trading Post in aid of the Children's Hospital. Duxbury had a record Summer. The sign "standing room only" was prominently displayed. The count of the Custodian at the Standish Monument shows that 35,000 visitors saw the grand view. The Community Forums, and the monthly dinners of the Community Men's Club both shortened and enriched the year. The children of our schools, ninth grade made their annual pilgrimage to our historical shrines under the guidance of the president of the Historical Society, Mr. Herbert Walker.

The "Tree of Knowledge" in addition to the stone marker again swings its Coaching Sign of the mail stage on its route. It is the work of Mr. Samuel Warner.

The restoration of the King Caesar wharf as a memorial to Dr. Herman Carey Bumpus, by his children, is a great asset to our Harbor. It reminds of the great days of Duxbury when her men went down to the Sea in ships carrying her name honorably and with Yankee ingenuity round the world.

Recently a metropolitan paper in an interesting article on Bells, carried the statement that Duxbury was the birthplace of the Bell Foundry industry, established by Benjamin Hanks in 1785. Inasmuch as this was a new honor to the Town correspondence was started at once.

Mr. Clinton Meneely of the Meneely Bell Company of Troy, New York, a descendant of Benjamin Hanks writes in reply, "The Duxbury referred to was in the vicinity of Mansfield, Connecticut. I don't find this

on present day maps". Evidently our Duxbury has so many honors that people just naturally assume that she "did it all".

A very interesting work is going on in the Bridgewater. The Indian village of Titicut is being uncovered. Valuable and significant stone implements are being brought to light and evidence of communal life obtained. The work is under the direction of Mr. Maurice Robbins of Attleboro and is done by volunteers. The Finds are carefully documented and assembled in the Museum in Attleboro.

This fact is properly recorded here as all this territory was originally a part of the Duxbury grant. To the Indians it was all One World.

The monthly Bulletin which has made its appearance this year reminds us of the many interesting events which make up the life of our town.

Community singing of Christmas Carols at the High School on Sunday evening, December 22, met with general response.

The Christmas was green.

So ends the year.

WALTER R. HUNT,

Historian.

## Report of Shellfish Constable

---

To the Honorable Board of Selectmen:

Duxbury, Massachusetts

I herewith submit my final report as Shellfish Constable of Duxbury having resigned that office on November 15, 1946.

The bad storms of last winter washed away much of the topsoil on the flats taking away with it many bushels of small clams. This topsoil settled on the shores, then came the ice and caused many large clams to be suffocated. I found a great number of dead clams with their snouts stretched out where they had tried to reach above this frozen silt for food and air. According to the Federal Inspector these bad conditions are the same from Maine to Florida.

I never saw Duxbury Bay as alive with the enemies of shellfish as I have this past year, the cockles periwinkles and horseshoe crabs (King crab) are everywhere including the back river area. There has also been a considerable amount of fuel oil in the bay off and on during the year and in August for about 24 hours the shores were practically covered at one time—oil is sure death to shellfish.

During the first three months of this year ten men dug razor fish as long as the market lasted, selling them at a very fair price. In April eight regular diggers started to dig clams and quahogs and stayed on throughout the season.

Whenever a "closed area" was opened and there was fairly good digging there would be from twelve to fourteen new diggers arrive, stay through the best of the digging and then go back to their regular occupation. This makes it rather bad for the "year-round" diggers who depend on shellfish for their livelihood.

Five men dug seaworms off and on through the fishing season.

In May Wm. McNeil plowed an area on Standish Shore and Joe's Point in order to catch any clam spat for reseeding.

At the time I took over the office of Shellfish Constable in 1939 there had been an appropriation of \$7,000.00 granted for the propagation of Shellfish. I have tried to conserve the spending of this, especially during the war years, thinking it would be needed more when work slackened and the men were back home. There is a balance of \$1,754.69 still on hand.

The town bought seventy bushels (70) of seed clams from the State last June which were planted on Captain's Flat and in the back river area.

Fifty-three commercial permits (@ \$2.50) and one thousand twenty-seven (1027) family permits (@ 25c) were issued during the year.

Following is the record of shellfish and seaworms taken commercially as far as I could collect:

1056 bushels of razor fish @ \$3.33 1/3	\$3,500.00
1195 bushels of clams @ \$6.00	7,170.00
191 bushels quahogs @ \$2.50	477.50
49850 Seaworms @ .06 apiece	2,991.00
	<hr/>
	\$14,138.50

From the above 589 gal. of clams were shucked @ \$6.00 and 400 tubs of razor fish @ \$4.50.

There were 558 bushels of quahogs and 45 bushels of clams planted on grants during the year.

Respectfully submitted,

A. ELLIOT HOLMES.

---

To the Honorable Board of Selectmen  
Duxbury, Mass.

I respectfully submit my report as shellfish constable for the month of December, 1946.

Ten men dug in the bay during the month, the majority digging razorfish. The market for razors has not been stable and an urgent desire for a setting of clams is voiced by the diggers. I suggest the purchasing of a few barrels of seed clams, if made available by the Bureau of Marine Fisheries, to further the propagation of clams in the bay.

Forms have been sent out to grant holders, in accordance with State law, so that some check may be made as to how well grant owners have fulfilled their obligations.

Respectfully submitted,

HENRY P. McNEIL,

Shellfish Constable.

## Report of Committee on By-Laws

---

To the Selectmen of Duxbury:

Your Committee on By-Laws beg to report as follows.

We, as a Committee have held several meetings, have examined the by-laws of several towns similar to Duxbury both as to population, assessed valuation, commitment of taxes, general character and type of property.

We have read the records of all town meetings since records were kept, starting with the year 1857.

We, accordingly, submit to you a code of By-Laws to be presented to the Annual Town Meeting for its consideration.

Respectfully submitted,

HARRY L. TINKER,  
EDWIN M. NOYES,  
DONALD D. WALKER,  
JAMES T. O'NEIL,  
CLEMENT A. BRIGGS,

Committee on By-Laws.

## Report of the Elementary School Building Committee

---

To the Citizens of Duxbury:

We herewith present our report of the action taken subsequent to our appointment in November 1945. This committee was charged with the responsibility of planning a new elementary school. It has taken the following action:

1. Engaged Douglas Orr of New Haven, Connecticut, as architect.
2. Engaged John Nichols of Hartford, Connecticut, as educational consultant.
3. Adopted the statement of needs developed by the School Committee entitled "The Elementary School Program in Duxbury" as the basis for planning the new building.
4. Participated in a careful study of the modern elementary classroom.
5. Developed with the architects general specifications for all facilities of the building.
6. After developing many different schemes for the distribution of these units in order to conserve space, the plan we considered to be most efficient was adopted.
7. Planned a program for thoroughly informing all citizens of Duxbury of the details of the proposed building.

8. Made the following recommendations for town action in addition to the \$11,500.00 already appropriated.

- A. Authorize a bond issue of \$250,000.00.
- B. Authorize the use of \$113,500.00 from available funds.
- C. Authorize this committee to proceed with construction when conditions are such as to make this seem wise and when the project can be completed for \$375,000.00 including all fees, equipment and expenses.

The proposed building would contain twelve classrooms, a combination auditorium-gymnasium, a cafeteria and necessary administration and service facilities. The site selected is the area south and east of the present bandstand.

The members of this committee are unanimously in favor of the proposed program.

Respectfully submitted,

PHILIP W. DELANO, Chairman  
KENNETH G. GARSIDE, Secretary  
ELBERT A. HARVEY  
CONNIE H. KING  
LEROY M. PETERSON  
STEPHEN A. REED  
J. NEWTON SHIRLEY.

## Report of Planning Board

---

To the Honorable Board of Selectmen  
and Citizens of Duxbury:

We understand the Appeal Board is asking for more business area or areas. There is a demand for good business sites and good prices may be obtained for the same. Your Board in common with other authorities are of the opinion that "spot zoning" should be avoided and that any increase in business areas should be adjacent to or near existing business areas.

There is an application for an enlargement of the business district at Station Street (otherwise known as Railroad Avenue) and Alden Street, particularly with the idea of establishing a business at the corner of Alden and Station Streets, and the question arises as to the desirability of establishing a business district to include all properties adjoining Station Street. A hearing will have been held on this matter before this report is published. The proximity of business areas to school buildings is something that should be taken into consideration. Kingston has been advised to zone the area suggested for new school buildings to prevent commercial encroachments.

The location of the proposed Federal-State Highway is something that should receive consideration by our townspeople and property owners. It is a matter of great importance and a majority of your Board think that neither the railroad bed or Route 3A should be a three-lane highway. We fail to see how that would

benefit Duxbury and in taking that position feel that we are not failing to cooperate with the governments inasmuch as there are other more direct ways to get to the Cape.

The cutting of roadside trees is one of the things which is referred to your Board, usually after the trees are cut.

The opinion is often expressed that the town's people should not let Duxbury become too suburban. Some people think that rows of fine houses, even though these houses are 100 feet apart (in accordance with our by-laws), are not necessarily best for Duxbury.

Respectfully submitted,

BENJAMIN F. GOODRICH  
OLIVER L. BARKER  
MARY N. GIFFORD  
ARTHUR H. MURPHY  
PERCY L. WALKER.

## Report of Memorial Day Committee

---

To the Honorable Board of Selectmen  
and Citizens of Duxbury:

Greetings:

As we submit this report Comrade Charles B. Burt of Springfield is the only living member of the Mass. Dept. Grand Army of the Republic, which fifty years ago had 25,000 members.

We now have a great responsibility and a sacred duty to our ancestors to perform, and it is our hope that every son of a veteran, as well as every veteran, will take up this duty.

At 7:30 A. M., details from the Sons of Union Veterans Camp, American Legion Post, and Boy Scouts, went by bus to Ashdod Cemetery and decorated the graves of Civil War and World War veterans, closing the services by firing three volleys, and playing "Taps".

At 8:15 A. M.—decorated graves of Revolutionary Soldiers and War of 1812 veterans at Dingley Cemetery.

At 8:30 A. M.—decorated at No. Duxbury tomb.

At 9:00 A. M.—Services at the Honor Roll for 11 service men who gave their lives in World War II.

At 9:15 A. M.—Services at Blue Fish River Bridge for the Sailors and Marines who perished at Sea.

At 9:45 A. M.—Services at Myles Standish Grave.

At 10:30 A. M.—A fine program in the Unitarian Church by the Sons of Union Veterans, American Legion, school children, and the clergy. Address by Chaplain Col. Abbott Peterson.

At 11:30 A. M.—Decorated graves of veterans of Revolutionary War, War of 1812, Civil War, Spanish War, World Wars I and II. Services and three volleys by American Legion for World War veterans; services and three volleys by S. of U. V. Camp for Civil War veterans.

The American Legion, Sons of Union Veterans, Girl Scouts, Boy Scouts, Cub Scouts and school children, all participated in decorating the graves of Myles Standish, Col. Jonathan Alden, 25 Revolutionary War Vets, 4 War of 1812, 213 Civil War, 4 Civil War Nurses, 1 Spanish War, 22 World War I, 1 World War II, 3 Soldiers and 12 Sailors not war veterans: 290 Total.

The Committee is very grateful to all who assisted in any way.

Respectfully submitted,

PARKER B. CHANDLER,  
Chairman  
OSCAR B. RYDER  
CHARLES C. McNAUGHT  
G. FRANKLIN WHITE  
WILLARD CHUBBUCK  
WALTER G. PRINCE  
ELLIS HARRISON.

## Report of World War Memorial Committee

---

The aim of the Veterans' Memorial Committee has been the selection from the various suggestions submitted throughout the year of the memorial project best suited, in the opinion of the members, to commemorate the gallant and patriotic services of Duxbury's veterans of two World Wars.

Expense, appropriateness, permanence, dignity, usefulness, accessibility, were among the points to be considered.

Ultimately only one plan seemed to meet enough of the requirements to win unanimous approval; in brief, the acquisition of Duxbury Beach, or a suitable section thereof, from the Duxbury Beach Association, as a permanent Memorial Park. This should include the bridge-head, with the erection near the bridge of a roughly chiseled boulder sufficiently high and massive to be impressively visible to all approaching the beach. Suggested dimensions: 12 feet by 6 feet, resting on a concrete base, and bearing a bronze plaque suitably inscribed.

Two members of the committee have discussed the proposed memorial with Mr. Frederick S. Pratt, Chairman of the Trustees of the Duxbury Beach Association.

While Mr. Pratt pointed out that he could not speak for the other trustees or shareholders of the Association, he said he personally would be happy to cooper-

ate wholeheartedly in an attempt to work out an acceptable plan for setting aside a portion of the beach as a War Memorial.

The Trustees of the Association are legally bound to carry out the provisions of their Trust Agreement which is recorded in the Plymouth Registry of Deeds. This Agreement states that the general purpose of the Association is "The preservation of Duxbury Beach against encroachments detrimental to Powder Point and the Town of Duxbury". To be acceptable, any plan should insure that the spirit as well as the letter of this objective be achieved. The committee feels that it should be possible to devise a plan which will satisfy this restriction.

We therefore recommend that the Town negotiate with the Duxbury Beach Association through this or a similar committee to work out the details of this plan.

PHILIP W. DELANO, Chairman

FISHER AMES, Secretary

WALTER R. HUNT

STANLEY H. MERRY.

## Report of Water and Fire Protection Committee

---

To the Selectmen and Citizens of Duxbury:

The 1945 Water and Fire Protection Committee recommended a study of the Water and Fire Protection system in Duxbury, and possible extension to outlying sections. The moderator, following the 1946 Town Meeting appointed a committee representing all interests; the chairman of the board of Water Commissioners, Fire Chief, Mr. Briggs; the veteran superintendent of the Fire and Water District, Mr. Peterson; members from sections interested in having water, viz: Mr. Clark of North Duxbury, Mr. Nelson of High St., Mr. Reed of Winter St., Mr. Ricker of Tinkertown; also selectman and 1945 member, Mr. Prince.

The Consulting Engineers, Metcalf and Eddy, were engaged to make the survey. Copies of their full report were given to each selectman, each water commissioner, each committee member, and one for the town office. The satisfactory and comprehensive report should be valuable to the town and the Water District.

The essential points brought out by the engineers' report are as follows:

- A. There are now 1050 water services, 400 of which are disconnected during the winter. The area covered is about 23 % of the total of the town. The assessed value of the property within the Fire and Water District for 1945 was about \$6,312,000.00. Omitting the Green

Harbor area which is served from Marshfield, the value of the property that might be benefitted by further extensions is \$824,000.00, or about 11 %.

- B. The water system has been functioning since 1914 and needs large expenditures to restore and strengthen it.
- C. Cast iron pipe, installed in 1914, is badly corroded and filled. Recommend cleaning in place.
- D. There is an adequate supply, based on maximum days pumpage, for some years to come. Pumping units are well maintained and in excellent operating condition.
- E. Present storage tank in good condition but only adequate for 2.9 hours demand—additional storage needed which must be an elevated tank and it is recommended that it be placed in the North end of the town.
- F. For effective fire protection, a hydrant should deliver 500 gallons per minute or the equivalent of two full hose streams.

The following conclusions may be drawn from the hydrant flow tests:

1. The discharge from hydrants along or immediately adjacent to the 10-in. and 12-in. mains in Standish St., Washington St., and Tremont St. from the pumping station to St. George St. is more than adequate.

2. The discharge from hydrants along the 8-in. pipe in Bay Road as far south as Landing Road and along the 8-in. pipe in St. George St. is adequate.
  3. All other hydrants tested showed a discharge of less than 500 g.p.m. (equivalent to 2 fire streams at 250 g.p.m. each) and provide inadequate protection. Flows of less than 250 g.p.m. were found at hydrants on Enterprise St. and The Standish Shores.
  4. The dead end pipes in Chestnut St., Surplus St., Harrison St., Alden St., Mayflower Ave., and Standish St. should be extended to close pipe loops.
- G. Because of the remoteness of the High Street, North Duxbury, and Winter Street areas, the cost to connect them to the present system would be prohibitive, but connections could be made to the systems of the adjoining towns; namely, Pembroke, Marshfield, and Kingston.
1. If connected to Pembroke, the High Street area would have 20 potential services and the cost would be around \$20,000.00. Pembroke has an adequate water supply.
  2. North Duxbury would have 43 services. The extension cost would vary because of three or four alternate arrangements, since a sufficient supply could not be had from a single connection on Acorn St. One of

the few desirable elevations in the town for the location of the necessary additional storage tank is in the North Duxbury area. This should be a factor in any consideration of extension in this area. Marshfield apparently has plenty of water but there is some question of the adequate pipe sizes for service to North Duxbury.

3. Winter St. has 7 potential takers and an adequate supply is available at the Kingston boundary.

H. The engineers' recommendations are enumerated as follows in the order of their importance:

The estimates of cost include the distribution pipes, fittings, valves and hydrants, and, where necessary, allowance has been made for the cost of repaving. The estimates do not include the cost of service materials or laying of services. The estimates are based on present prices and may not be even approximately correct for work done at a future date, due to changes in cost of materials and labor.

1. Complete pipe loops by extensions in the following streets:

	Est. Cost
a. Surplus St., 1,300 ft. 6-in. pipe	\$5,000
b. Harrison St., 2,100 ft. 6-in. pipe	7,500
c. Alden St., 1,000 ft. 6-in. pipe	3,500

2. Construct a reinforcing main of 10-in. pipe in Tremont St. from Chestnut St. north

either to connect with the existing 10-in pipe at St. George St., or to continue through Bow St. and rights-of-way to the pumping station. Estimated cost \$63,000, exclusive of land and rights-of-way.

3. Replace the existing 6-in. pipe in Depot St. from Hall's Corner to Tremont St. with 10-in. pipe.

Estimated Cost	\$26,000
----------------	----------

4. Clean and line-in place with cement the following pipes:

- a. 12-inch from Myles Standish standpipe to Hall's Corner.

Estimated Cost	\$10,500
----------------	----------

- b. 12-inch in Washington St. from Hall's Corner to Surplus St.

Estimated Cost	\$14,000
----------------	----------

- c. 10-inch in Washington St. from Surplus St. to St. George St.

Estimated Cost	\$14,500
----------------	----------

- d. 8-inch in St. George St. from Washington St. to Tremont St.

Estimated Cost	\$11,500
----------------	----------

5. Install additional storage of at least 250,000 gal.

Estimated Cost of tank only	\$33,000
-----------------------------	----------

The cost of the above recommendations is summarized as follows:

1. Complete pipe loops	\$16,000
------------------------	----------

2. Tremont St. main	63,000
---------------------	--------

3. Depot St. main	26,000
4. Cleaning and lining in place existing mains	50,500
5. Additional storage	33,000
	<hr/>
Total	\$188,500

In all future pipe extensions and reinforcements a type of pipe should be used in which the interior remains smooth and maintains substantially the original carrying capacity. Such pipes as cement-lined cast iron pipe or "Transite" pipe would meet these requirements. In either case the interior surface should be sealed with an approved asphaltic material.

The committee believes the Water District could have done some of Metcalf and Eddy's list of needs along the way and now be in a better position to expand.

While the program mapped out by the engineers is intended to be a long time program requiring several years to complete, this committee would recommend that the work be started in the near future and carried on as rapidly as conditions permit.

The District is in fine financial condition and has voted to extend up Tremont St. and into Tinkertown, and is only waiting for the pipe. This is a splendid move in the right direction.

This committee has requested the Fire and Water District to state a specific basis whereby any section of the town can become a part of the Fire and Water District, either by extension of the present service or by

purchase of water and connecting into the service of an adjoining town.

This may help the High St., No. Duxbury, and Winter St. areas to organize and be voted into the district and have the advantage of water purchased from Pembroke, Marshfield, and Kingston respectively. The piping should be done with an eye to later connection to the Duxbury district supply.

Time and conditions being favorable, the district may go along Route 3 and later back via No. Duxbury to make a loop and feed the above sections from our own supply.

It is recommended that the Fire and Water District make all reasonable expansions as rapidly as possible. If this is done, we believe that the people may be served as well by the Fire and Water District as by a town department.

As a town department the coverage might be faster but there is some risk of too rapid expansion. However, there must be within the district the willingness to share the advantages of the Water and Fire Protection with the rest of the town just as soon as it is reasonable and possible.

Respectfully submitted,

WALTER G. PRINCE, Chairman

# Report of Plymouth County Extension Service

1946

---

The Plymouth County Extension Service represents this department. It is a cooperatively sponsored organization with the United States Department of Agriculture, Massachusetts State College, and the County of Plymouth participating. Plymouth County Extension Service, office located at the Court House, Brockton, has been conducting an educational campaign for farmers, homemakers, and rural youth for over thirty years.

In 1946 the Extension Service programs have been designed to be of greater educational value. Each of the Extension Service departments has carried on an intensified educational program in many project fields. This work has been under the general supervision of the Trustees, Plymouth County Aid to Agriculture, Russell Makepeace, Marion, Chairman. Joseph T. Brown, Director, has been responsible for coordination of departmental projects and for the office management and field work.

The Agricultural Agents have performed service in an organized way through meetings and demonstrations for dairymen, poultrymen, market gardeners, fruit growers and cranberry growers. A limited program was carried on for home gardeners, general livestock producers, woodlot owners, and for many of other interests.

The Home Demonstration Agents have been devoting their time to the teaching of classes in clothing, home furnishings, food production and preservation, home management, nutrition and child development. Additional help was given in planning home grounds and home furnishings projects.

The number of 4-H clubs is in direct proportion to the local leadership that is available in each town. Greater interest is anticipated in 4-H club work during 1947. There has been renewed interest in club work with more "teen" age club folk being interested in carrying on individual projects.

The work of the Extension Service is guided by the considered judgment of county and community committees made up of representative leaders for each project. In this sense, the program is democratically conceived and administered as efficiently as possible with the limited personnel of a single county office.

The statistical summary denotes the extent of the Extension Service activities during the past year.

ROGER C. GRISWOLD,

Town Director.

## STATISTICAL SUMMARY

## Report of Committee on Air Ports

Authorized by the Duxbury Town Meeting  
of 1946

---

To the Honorable Board of Selectmen:

This committee was created primarily to discuss on an equal basis with similarly appointed committees of the neighboring towns of Pembroke, Marshfield, and Scituate, the possibility of constructing an airport available to the citizens of all four towns through the use of Federal, State and local funds. The Marshfield committee which has been the prime mover in the program was notified that we were available for discussions, and waiting to be called upon. No meetings were called during the year, although considerable discussions had taken place amongst the selectmen of the various towns the previous year.

There have been occasional inquiries during the year, but definitely not enough interest to warrant serious consideration of a town airport for Duxbury.

Having conducted no business, the appropriation voted for the use of this committee remains intact.

Due to the large number of veterans with flying experience either as pilots or crew members, as well as increasing interest in aviation with succeeding generations, it is suggested that this or a similar committee be continued so that it may act as a central point for any information or discussions involving airport facilities for the town.

Respectfully submitted,

MORRISON M. BUMP

## Report of the Trustees of the Jonathan and Ruth Ford Fund

---

To the Citizens of Duxbury:

The following is a statement of the operations of the principal and income accounts of the Jonathan and Ruth Ford Fund for the year of 1946:

### MARRIAGES RECORDED IN DUXBURY IN 1946

- January 1. In Duxbury, David Lee Webb of Upper Darby, Manoa, Pa. and Constance Lucille Lovell of Duxbury, by Rev. John H. Philbrick.
- January 2. In Duxbury, Arthur William Edwards of Duxbury and Anne Archer Talmage of Duxbury, by Rev. John H. Philbrick.
- January 12. In Weymouth, Eugene Paul Merlet of Duxbury and Mary Elizabeth Drummey of East Braintree, by Rev. Joseph J. Bulsay.
- January 16. In Duxbury, William H. Salsman of Duxbury and Edna M. Arnold of Duxbury, by Rev. Melville M. Nyman.
- January 26. In Hanson, George A. Hager of Duxbury and Elizabeth S. Hill of Duxbury, by Rev. Harold S. Winship.
- March 2. In Duxbury, Harvey H. Boulerice of Adams and Dorothy Idella Randall of Duxbury, by Rev. Melville M. Nyman.
- March 2. In Malden, David W. Crockett of Duxbury and Joan Luitwieler of Malden, by Rev. Roy L. Minich.
- March 2. In Bridgewater, George A. Estes of Bridgewater and Betty Ann Hughes of Duxbury, by Rev. M. Walker Coe.

- March 3. In Cambridge, Frank W. Putnam of Duxbury and June E. Taylor of Cambridge, by Rev. Frank G. Potter.
- March 11. In Plympton, John B. Dennett of Plympton and Dorothy Lynn Pickering of Duxbury, by George S. Soule, Justice of the Peace.
- May 8. In Duxbury, Willie Edward Barton of Wilmington, N. C. and Thelma I. Ferrell of Duxbury, by Rev. Lewis G. Adamson.
- May 12. In Scituate, Lawrence F. Govoni of Duxbury and Frances Grace Conte of North Scituate, by Rev. Frederick R. Condon.
- May 22. In Duxbury, Robert E. Tarr of Taunton and Elizabeth Crowninshield of Taunton, by Rev. John M. Manion.
- May 26. In Duxbury, Edmund P. Frazar of Duxbury and Helen Phyllis Peterson of Duxbury, by Rev. Joseph P. Flynn.
- June 1. In Duxbury, Robert F. Main of Warren, Pa. and Gladys Elizabeth Benson of Duxbury, by Rev. John M. Manion.
- June 1. In Plymouth, Percy L. Walker, Jr. of Duxbury, and Ruth B. Huntley of Plymouth, by Rev. Carl Knudsen.
- June 8. In Duxbury, Manuel J. Veiga of Duxbury and Elsie S. Perry of Duxbury, by Rev. John M. Manion.

- June 9. In Carver, Raymond A. Randall of Duxbury and Natalie Ann Baker of Duxbury, by Rev. George L. Parker.
- June 14. In Kingston, Roland E. Tuttle of Kittery, Maine and Ruby E. Osborn of Duxbury, by Rev. Lewis G. Adamson.
- June 16. In Plymouth, Edwin C. Vickery of Plymouth and Elinor L. Putnam of Duxbury, by Rev. Carl Knudsen.
- June 22. In Duxbury, John Crocker, Jr. of Groton and Elinor Winslow of Brookline, by Rev. Walter R. Hunt.
- June 23. In Marshfield, Ronald C. Garnett of Carver and Regina E. Peterson of Duxbury, by Rev. George D. Hallowell.
- June 29. In Duxbury, John W. Johnson, Jr. of Winchester and Elizabeth Benedict of Brookline, by Rev. Dwight W. Hadley.
- June 30. In Plymouth, Francis R. Boucher of Duxbury and Mary S. Corshia of Plymouth, by Rev. Luke A. Farley.
- June 30. In Plymouth, Alfred W. Freeman of Duxbury and Esther Baker Rae of Plymouth, by Rev. Carl Knudsen.
- June 30. In Duxbury, George R. Nava of Kingston, and Josephine C. Peterson of Duxbury, by Rev. John M. Manion.

July 11. In Kingston, Norman E. Gilman of Duxbury and Virginia M. Merry of Duxbury, by George W. Cushman, Town Clerk and Justice of the Peace.

July 20. In Duxbury, Joseph A. Moran, Jr. of Boston and Patricia A. Rock of Great Neck, N. Y., by Rev. John M. Manion.

July 21. In Duxbury, Leo Edward Prince of Haverhill and Doris Jane Prince of Duxbury, by Rev. John M. Manion.

July 27. In Manchester, N. H., Walter G. Prince and Joyce Elizabeth Harvey both of Duxbury, by M. J. Quinn, Justice of the Peace.

July 28. In Duxbury, Winslow B. Weston of Stoughton and Marjorie Murray of Quincy, by Rev. Walter H. Hunt.

August 4. In Carver, Albert Thomas, Jr. of Carver and Alice E. Caron of Duxbury, by Rev. George L. Parker.

August 10. In Duxbury, George Burrows and Miriam L. Arnold both of Duxbury, by Rev. John H. Philbrick.

August 15. In Duxbury, Alton L. Cotti of Plymouth and Mary A. Doherty of Salem, by Rev. John M. Manion.

August 17. In Plymouth, Clarence W. Walker of Duxbury and Marie E. Mahler of Kingston, by Rev. Martin J. Hasz.

August 28. In Kingston, Robert C. Lacoss and Lillian L. Randall both of Duxbury, by Rev. N. E. Kern.

September 1. In Duxbury, Arthur W. Bramhall and Rachel H. Walsh both of Quincy, by Rev. John H. Philbrick.

September 1. In Duxbury, George O. Fontaine of Plymouth and Justine A. Delano of Duxbury, by Rev. John M. Manion.

September 23. In Duxbury, Arnold Sanders of Evansville, Indiana and Ann Flannery of Duxbury, by Rev. John M. Manion.

September 26. In Duxbury, Lawrence D. Raymond and Vera C. Randall both of Duxbury, by Rev. John F. Johnson.

September 29. In Duxbury, Arthur W. Robare, Jr. of Kingston, and Marjorie E. Churchill of Duxbury, by Rev. John M. Manion.

September 29. In Duxbury, Edmund E. Peterson of Duxbury and Janet E. Briggs of Marshfield, by Rev. John M. Manion.

September 29. In Marshfield, Peter Barros and Florence M. Prince both of Duxbury, by Rev. George D. Hallowell.

October 12. In Duxbury, Pearson H. Stewart of Hyde Park and Jean S. Baker of Marshfield, by Rev. F. Taylor Weil.

October 24. In Marshfield, Edward F. Peterson of Marshfield and Rena C. Green of Duxbury, by Rev. George D. Hallowell.

November 17. In Marshfield, Alfred Fontes of Kingston, and Genevieve Mendes of Duxbury, by Rev. George D. Hallowell.

December 24. In Duxbury, Ernest A. Spear of Somerville and Eleanor H. DeGrasse of No. Scituate, by Rev. Melville M. Nyman.

Respectfully submitted,

JOSEPH T. C. JONES,

Town Clerk.

## Report of Town Meeting

---

### ANNUAL TOWN MEETING, MARCH 2, 1946

The registered voters were checked from the voting list and occupied the floor, others being seated in the balcony. The voting list showed 363 names checked (198 male—165 female).

The tellers, Charles C. McNaught, Harry A. McNaught, Frank H. Williams, Edward P. Hobart, John E. Lucey, Rodney W. Leach and Frances R. Covell, were previously sworn in by the Town Clerk.

The meeting convened at 1:00 o'clock, P.M. and the Clerk read the warrant to Article 24, when it was voted that the reading of the remaining articles be omitted and that we proceed with the business of the meeting.

Under Article 1, Voted, unanimously, that the Town Clerk deposit one ballot for Harry B. Bradley for Moderator, which was done, and Harry B. Bradley was declared elected Moderator.

It was voted that a rule for this meeting would be that; No motion to lay on the table or otherwise cut off debate will be in order until the proponents of an article have had an opportunity to be heard.

Under Article 2, Voted, that the appointment of necessary officers not chosen by ballot be left in the hands of the Selectmen.

Under Article 3, in connection with the next to last paragraph of the Selectmen's report, it was voted to instruct the Moderator to appoint a committee to study the possibility of erecting a permanent and useful World War II Memorial, and that they be instructed to present the results of their study not later than the next Annual Meeting; and Voted, to accept the reports of the other various Town Officers and Committees as printed in the Town Report.

Under Article 4, Voted, that the compensation of the elected Town Officers be as follows:

Selectmen:

Chairman	\$1,250.00
Second Member	512.50
Third Member	512.50

Assessors:

Chairman	1,000.00
Second Member	450.00
Third Member	450.00
Town Clerk	1,000.00
Town Treasurer	1,400.00
Tax Collector	1,800.00
Tree Warden — per day	6.80

Under Article 5, Voted, to raise and appropriate the following amounts:

Duxbury High School Loan, 1926	\$5,000.00
Interest	200.00
Plymouth County Hospital, Maintenance	
1945	3,258.90
Gypsy and Brown Tail Moth	4,000.00
*Mosquito Control	1,200.00
Cemeteries	8,500.00

Support of Schools	77,340.00
Vocational Schools	500.00
Forest Warden Department	2,200.00
Fire Department	7,500.00
Tree Warden	1,500.00
Snow and Ice Removal	7,000.00
Health Department	2,200.00
Public Health Nurse	500.00
Vital Statistics	15.00
Animal Inspection	100.00
Inspection of Slaughtered Animals	50.00
Department of Public Welfare	8,500.00
Old Age Assistance	25,000.00
Aid for Dependent Children	5,500.00
Soldiers' Benefits	5,000.00
Moderator	30.00
Selectmen's Department	3,050.00
Election and Registration Department	800.00
Treasurer's Department	1,850.00
Tax Collector's Department	3,090.00
Assessors' Department	3,185.00
Town Clerk's Department	1,300.00
Law Department	800.00
Town Historian	100.00
Town Hall, Offices and Buildings	3,000.00
Town Accountant	1,200.00
Police Department	14,000.00
Sealer of Weights and Measures	300.00
Bounties on Crows and Seals	50.00
Town Dump	800.00
Printing and Delivering Town Reports	1,100.00
Liability Insurance	1,000.00
Unclassified	300.00
Highways and Sidewalks	20,000.00
Bridges	3,000.00
Street Lighting	2,900.00

Town Landings	1,800.00
Hydrant Rental at Duxbury Beach	400.00
Harbor Master	100.00
Playgrounds	400.00
Shellfish Department	2,000.00
Planning Board	100.00
Duxbury Free Library	1,500.00
Public Use of High School Auditorium	200.00
Appeal Board	100.00

\*This appropriation was voted under protest and the State Reclamation Board so notified.

Under Article 6, Voted, unanimously, to raise and appropriate the sum of \$300.00 to be expended under the direction of Myles Standish Camp, No. 115, S. U. V. C. W., for the observance of Memorial Day.

Under Article 7, Voted, unanimously, that the Town Treasurer, with the approval of the Selectmen, be and hereby is authorized to borrow money from time to time in anticipation of the revenue of the financial year beginning January 1, 1946, and to issue a note or notes therefor, payable within one year, and to renew any note or notes as may be given for a period of less than one year, in accordance with Section 17, General Laws. (Yes 241 — No 0).

Under Article 8, Voted, unanimously, to raise and appropriate for the use of Plymouth County Trustees for the County Aid to Agriculture, the sum of \$100.00 and chose Roger C. Griswold Town Director.

Under Article 9, Voted, unanimously, to apply the dividend from the Plymouth County Dog Fund amounting to \$651.06, to the support of schools.

Under Article 10, Voted, to raise and appropriate the sum of \$40.00 for the care and decoration of Boomer Square, work to be done under the supervision of the Cemetery Department.

Under Article 11, Voted, to appropriate to the Cemetery Department the sum of \$140.00 now in the hands of the Town Treasurer.

Under Article 12, Voted, unanimously, to appropriate from the Excess and Deficiency Account a sum not to exceed \$30,000.00 to be used to reduce the tax rate.

Under Article 13, Voted, unanimously, to appropriate \$3,000.00 to the Reserve Fund from the Overlay Reserve Fund.

Under Article 14, Voted, to authorize the Selectmen to sell after first giving notice of the time and place of sale by posting such notice of sale in some convenient and public place in the Town fourteen days at least before the sale, property taken by the Town under tax title procedure, provided that the Selectmen or whomsoever they may authorize to hold such public auction, may reject any bid which they deem inadequate.

Under Article 15, Voted to raise and appropriate the sum of \$400.00 for the use of the Town Treasurer for foreclosing the rights of redemption on tax titles.

Under Article 16, Voted to raise and appropriate the sum of \$100.00 to be used for the erection of channel markers.

Under Article 17, Voted to raise and appropriate the sum of \$52.57 to pay unpaid bills of previous years.

Article 18 was taken care of under Article 5.

Under Article 19 which reads, "Will the Town vote to accept Chapter 723, Sections 1, 5, 6 and 7 of the Acts of 1945, which authorizes the establishment and maintenance of municipal departments for furnishing information, advice and assistance to veterans of World War II and other veterans".

It was voted not to accept this article.

Under Article 20, Voted, unanimously, to appropriate from available funds the sum of \$9,500.00 for the purpose of creating a Stabilization Fund under the provisions of Section 5-B of Chapter 40 of the General Laws, as enacted by Chapter 124 of the Acts of 1945.

Under Article 21, Voted, unanimously, to raise and appropriate the sum of \$1,500.00 to meet the Town's share of the cost of Chapter 90 Highway Maintenance, and that in addition, the sum of \$3,000.00 be transferred from unappropriated available funds in the treasury to meet the State's and County's shares of the cost of the work, the reimbursements from the State and County to be restored, upon their receipt, to unappropriated available funds in the treasury.

Under Article 22, Voted, unanimously, to raise and appropriate the sum of \$2,000.00 to meet the Town's share of the cost of Chapter 90 Highway Construction, and that in addition, the sum of \$6,000.00 be transferred from unappropriated available funds in the treasury to meet the State's and County's shares of the

cost of the work, the reimbursements from the State and County to be restored, upon their receipt, to unappropriated available funds in the treasury.

Under Article 23, Voted to install two street lights, one to be located on Parks Street at or near the entrance to Miramar school building, and the other to be located at the intersection of Bay Road and Loring Street, the expense to be taken from the regular Street Lighting appropriation.

Under Article 24, Voted to raise and appropriate the sum of \$600.00 to resurface the black roads in Mayflower Cemetery, the work to be done by the Highway Department.

Under Article 25, Voted to raise and appropriate the sum of \$850.00 for exchange of truck for the Cemetery Department.

Under Article 26, Voted to raise and appropriate the sum of \$154.50 to pay contributions to Contributory Retirement systems on account of members thereof in the Military or Naval Service, as provided in Chapter 708 of the Acts of 1941 as amended.

Under Article 27, which reads, "Will the Town vote to rescind the following votes: (1) The vote taken at the Annual Town Meeting, March 3, 1945, at which time the Town voted to accept the gift of a deed of property owned by Loren C. Nass, and to raise and appropriate the sum of \$2,800.00 to construct a bulkhead for the protection of said property; and (2) the vote taken at the Special Town Meeting, November 9, 1945, at which time the Town voted to accept the deed, and to appropriate from available funds the sum of

\$2,737.50 to be added to the \$2,800.00 previously appropriated”.

A motion was made that these votes be rescinded. A protest was made by Mr. Paul C. Peterson that this motion was out of order and that any action taken under this article was illegal for the reason that some money had already been expended under these votes. The Moderator ruled and his decision was sustained that the motion was in order and that Mr. Peterson's protests would be recorded in the minutes of the meeting. Mr. Peterson also requested that legal opinion be obtained and that Mr. Nass be notified of the time so that he could be present.

It was voted that any action on this question be taken by a written vote. Yes 184—No 49.

After a prolonged discussion the vote was taken with the following result: Yes 181—No 139.

The following written statements were introduced as part of the proceedings:

Statement by Philip W. Delano, Chairman Board of Selectmen:

In our annual report to the citizens of the Town of Duxbury, we stated that, “The construction of the bulkhead at Blue Fish River has not been undertaken as we have been advised that public funds can be appropriated only for public use and never for private purposes and we do not believe that the construction of the bulkhead serves any public purpose. The bulkhead would afford no protection to the bridge or highway, and no protection to the bridge or highway is

required; it would serve only to protect the property of an individual. The voice of the voters at town meeting is very powerful, but if an appropriation is made for a private purpose, the selectmen should not enter into a contract which would result in the expenditure of public funds for such purpose”.

This project was discussed at the annual town meeting of 1945, and again at a special town meeting in November of 1945, and at each of those meetings a sum of money was voted for the construction of a bulkhead at Blue Fish River.

On December 28th the Selectmen wrote a letter to Mr. Loren C. Nass, which read in part as follows: “As the building of the bulkhead would not, in our opinion, afford any protection to the highway or bridge or to any town property, and, as we believe, no damage has been done to your property by reason of any town improvements or by any other acts of the Town, we do not feel justified in entering into a contract to have the bulkhead built”.

Much criticism has arisen because nearly ten months elapsed between the date of the original vote to build the bulkhead and the date when the Selectmen declined to enter into a contract for the construction of the bulkhead. May I beg your indulgence while I give you a brief resume of the problems which confronted the Selectmen.

The original article which appeared in the 1945 town warrant was placed therein by petition. The Selectmen acting as a finance committee, did not approve this appropriation. Nevertheless, the Town voted to build the bulkhead.

We proceeded to secure engineering data and plans and specifications for the building of the bulkhead. Mr. Nass had prepared and submitted to the Town a plan and tentative deed. These were not satisfactory, and a revised plan and deed were prepared and submitted by Mr. Nass on August 10th. A further revision was required and was made.

The Selectmen had prepared and filed with the Department of Public Works a petition for permission to build. The order of notice was published on August 9th and a license issued on October 2nd.

The Selectmen mailed plans and specifications to various contractors, and on October 11th one bid had been received.. Upon request, the time for filing bids was extended to November 15th.

As a result of the one bid filed on October 11th, it became apparent that the March appropriation was insufficient to build a proper bulkhead, and a petition was filed by Mr. Nass and others, asking for an additional appropriation. The additional sum was voted at a Special Town Meeting held on November 9th.

The extended time for filing bids closed on November 15th, with one more bid being received.

There was one step left to take, the preparation and the awarding of a contract. At this point the Town Accountant raised a question as to the legality of the entire appropriation, and requested advice from the Division of Accounts.

We visited the office of the Director of Accounts, and tried to present the picture in a fair and unbiased

manner. We believe we were entirely impartial in presenting the facts to him. As a result of our visit and other information presented to him, the Director of Accounts mailed the following letter to the Selectmen:

**Letter from Mr. Theodore N. Waddell**

"In accordance with our conversation at a meeting in my office in which we discussed the appropriations voted by the Town for re-building a breakwater, I must confess that, while I thought I had an understanding of the problem, with a more careful study of the blue print, and also information that has been supplied me both in writing and by visit from other citizens of the town at the office, I am very much confused as to the exact position which the Town is in so far as these appropriations are concerned.

In the first place, towns can borrow for the building of walls or dykes for the protection of highways or property, and so far as I know the towns have confined their borrowing and expenditure to the protection of highways or town property only unless a large section of the town is involved, as is the case where sea walls are constructed, and that actually protect, not only the highways, but likewise protect private property in which the town has a substantial interest in view of the amount of taxes that could be collected on account of it. In my memoranda I had a statement to the effect that no highway or town property is protected, only the natural erosion of the property is stopped by this sea wall.

The blue print indicates that probably 15 to 17 feet of Washington Street lies between the 3 or 4 feet of Washington Street where the sea wall begins, and I

assume that actually it will be attached to and become a part of the abutments of the bridge, but only a very small part of the private property remaining will be located on the highway, and it does not seem to me that you should spend town money for protecting property on which an individual is the entire benefactor, unless it can be shown that the conditions causing erosion are the result of some town improvement. Naturally, I believe that if the erosion can be attributed to, or is the result of, highway or bridge construction which affected the channel of Blue Fish River, the Town would be authorized to offset the result of the damage by protective measures.

If this wall protects a single piece of property assessed at some \$3,200.00, and the cost of the wall will be \$5,500.00, there certainly is no justification for the expenditure of public money for that purpose, but if private property is being damaged as a result of something the Town has done, and the erosion is not natural, but rather the result of some town improvement, they unquestionably could do one of two things: they could either expend the necessary amount of money to overcome what they had done, or, settle the damages by a cash payment.

My attention has been called to the elimination of an unsightly condition, and from my point of view that is no justification for the expenditure of public money, unless the condition is on town property.

My notes regarding the conference state: "No highway or town property is protected and only natural erosion of the property is stopped", and in that case it would seem clear that the wall was for the benefit of an individual rather than for the public; but if the

other elements above described enter into the problem, it may cause a different answer, and I regret that both the oral and written statements are somewhat in conflict, which makes it difficult for me to make a positive statement as to the legality of this appropriation”.

Very truly yours,

(signed) THEODORE N. WADDELL,

Director of Accounts.

---

We felt, and it was the opinion of Town Counsel that Mr. Waddell's letter, while it was advisory, rather than directory, was sufficient to make us hesitate before contracting for the construction of the bulkhead.

We felt also, that it would be advisable to obtain some engineering data concerning the alleged unnatural erosion. The engineering data for the plans and specifications were prepared by Ray O. Delano, and therefore we questioned him concerning the effect which existing structures would have on the stream or channel, as well as concerning the protection afforded to the bridge abutments by the proposed bulkhead.

He supplied us with the following opinions:

“(1) Defining the abutments in this case as the supporting structure for the arch,—there can be no protection or support provided for said abutments by the construction of the bulkhead as now

planned, the reason being that the new bulkhead would be too far away from the northerly abutment to provide any support to the fill directly in back of the arch and said abutment. However, that portion of the stone facing on the easterly side of Washington Street which would be covered by the bulkhead and fill would of course be held in place.

(2) I do not believe the timber bulkhead adjacent to the Fire Station has any effect on the course of the river because of the considerable distance of the nearest part of the bulkhead from the center line of the stream. I am of the opinion that the only elements which could change the course of the river would be the nature of the bottom and the velocity of the water passing over it; for instance, if the bottom of the river on the north side were originally sandy, and the south side were made up of rocks or stiff clay, I would expect the north side to be scoured out, thereby deflecting the course of the river in that direction.

(3) I do not believe the flooring under the archway has any effect on the course of the stream only to keep it going in a straight line at a high velocity. The floor and the narrow waterway form a restriction which increases the velocity of the water passing through it. The only other consideration is the considerable drop-off at the lower end of the floor or apron. This may have started a scouring action which ultimately changed the course of the stream”.

He also advised us to get the opinion of the County Engineer, which we did.

The following is an opinion submitted jointly by Edward A. Graustein of the J. R. Worcester & Co., and Louis W. Perkins, County Engineer:

Dear Mr. Delano:

Following an examination of the area adjacent to the Town highway bridge over the Bluefish River under low tide conditions on the afternoon of February 27th in company with Mr. L. W. Perkins, we submit the following opinions and facts:

### **History of Structures Adjacent to River Bridge:**

The Bluefish River Channel at this point has apparently been unchanged for many years. In about 1776 a grist mill was built on the site of the pier on the southeast side of the bridge indicating at this early date that the stream was confined at or near the present highway bridge.

Your Board has informed us that the highway bridge was first built around 1800. The date of the present bridge is 1882 and there is no evidence that its location was changed from the earlier bridge location.

There is no evidence of any change in the location or reconstruction of the southeast pier sufficient to change the conditions, nor is there any evidence that the timber apron under the present bridge has been altered in height or extent, materially enough to change the conditions of stream flow.

There is evidence that a wooden bulkhead or pier entirely on the Nass property northeast of the bridge once lined the channel and we understand it was used for private commercial purposes. It is apparent that

the line of this bulkhead is within the stream limits and that at the time of its construction the natural bank lay to the northward. It is our opinion that the bulkhead has been in place for at least 60 years and, as constructed originally or later backfilling was placed up to the present ground surface level between the natural bank to the north and the protecting face of the bulkhead to the south.

The maintenance of the facing of the bulkhead has been neglected and most of the longitudinal timbering above water and all of facing has long since disappeared due to natural rot and decay, leaving the filling once placed behind the bulkhead with little or no lateral support. Some of the cross timbering is still in place and helps to support this filling which now stands at a slope greater than the natural slope of the material.

### **Town Property Adequately Protected:**

It is our opinion that the highway Bridge, including the causeway approaches and retaining slope wall adjacent to the Nass property is of proper construction to take care of the tidal flow in Blue Fish River without causing erosion effect to abutting private property and that these structures are themselves in good condition and require no remedial work. The same statement holds true for the pier southeast of the bridge.

### **Nass Property:**

It is our opinion that the condition of the steeply sloped fill and remains of the old bulkhead on the Nass property is better because of the Bluefish River

than it would be if the same condition were removed wholly to dry ground.

The facts are that this filling lies on a slope greater than the natural repose of the material. It is now restrained to some extent from sliding by the longitudinal cribwork which will remain indefinitely below low tide level and by the remains of the cross timbering which will rot out eventually, but more slowly under water than above it.

If this steep fill were wholly above water all the timbering would in all probability have long since rotted out and the wholly unsupported fill would have resumed its natural slope.

No protecting wall can be constructed which will eliminate water entering the cellars of the Nass property or that of any other property similarly situated.

It is our opinion therefore that the condition of the river bank of the Nass property is not due to stream erosion but is due to the neglect of the owner and prior owners in failing to properly protect an artificial structure built out from the original bank of the river.

Very truly yours,

J. R. WORCESTER & CO.,

By Edward A. Graustein.

I have examined the site with Mr. Graustein and believe the above letter summarizes the essential facts and agree with the conclusions drawn.

Very truly yours,

LEWIS W. PERKINS,  
County Engineer.

We then obtained the following written opinion of

A. Perry Richards, Esq., Town Counsel:

Gentlemen:

This will confirm my oral opinion to you of some several months ago.

You have advised me that the Town has, on two occasions, made appropriations totalling approximately \$5,500.00 for the building of a bulkhead at Blue Fish River; you have advised me that the construction of the bulkhead would serve no public purpose; that it would afford no protection to the bridge or highway and, further, that no protection to the bridge or highway is required; that the bulkhead would serve only to protect the property of an adjoining owner whose property is assessed for approximately \$3,200.00. You have advised me, too, that nothing that the Town has done in connection with the construction or repair of the bridge or highway has resulted in any damage to the adjoining owner.

In my oral opinion I advised you, and I am now of the same opinion, that if the construction of the bulkhead would serve no public purpose; if it would serve only to protect the property of an adjoining owner, the

Town had no authority to appropriate public funds therefor and the Selectmen should not enter into a contract which would result in the expenditure of public funds for such purpose.

The Town can vote money only for public uses; it has no right to devote it to private purposes. However meritorious a project may appear to be, whether in its practical, theoretical or sentimental aspects, if in its essence it is a gift to an individual rather than a furthering of the public interest, money raised by taxation cannot be appropriated for it.

Municipalities have no authority to appropriate money as gratuities to any persons no matter how strongly public sympathy may move in their favor. *Whittaker v. Salem*, 216 Mass. 483, and cases cited.

Very truly yours,

A. PERRY RICHARDS.

Under Article 28 which reads "Will the Town vote to accept from Arthur W. Bennett and Ruth M. Bennett a gift of land at the corner of Tremont and Parks Streets, for the purpose of improving the intersection of said streets."

Voted no action be taken.

Under Article 29, Voted that the Town accept from Ida F. Bailey and Helen Bailey Cushing, Trustees for the benefit of Barbara E. Bailey, a gift of land at the corner of Tremont Street and Chestnut Street for the purpose of improving the intersection of said streets.

Under Article 30, Voted to raise and appropriate the sum of \$635.00 for the exchange of a truck for the Highway Department.

Under Article 31, Voted to raise and appropriate the sum of \$12,000.00, said amount to be used in conjunction with funds provided by local interests, and the State and Federal Governments, for the purpose of enlarging the basin at Mattakeesett Court, and improving the channel.

Under Article 32, Voted to instruct the Selectmen to appoint a Committee for the purpose of investigating the advisability of promoting a project for an aviation and landing field, and the possibilities of securing State and Federal financial aid, with or without the cooperations of other Towns; said committee to be known as the "Airport Committee", to report to the Town with its findings and recommendations from time to time, and raise and appropriate the sum of \$100.00 for the expenses of the Committee.

Under Article 33, Voted to rescind the vote taken under Article 17 at the annual town meeting in 1893, which read as follows: "Voted, that the warrants be held open until fourteen days before the day of Town Meeting".

Under Article 34, Voted, that the Selectmen be instructed that the Warrants be held open until twenty-one days before the day of the annual Town Meeting.

Under Article 35, Voted to return to the treasury the following unexpended appropriation balances: Fire Siren, \$141.50; Hydrant Rental, \$150.00.

Under Article 36, Voted to raise and appropriate the sum of \$350.00 to be expended under the direction of American Legion Post 223, July 4th, Duxbury Days Committee, in connection with this year's parade and celebration.

Under Article 37, Voted to raise and appropriate the sum of \$850.00 for the exchange of a car for the Police Department.

Under Article 38, Voted, unanimously, to raise and appropriate the sum of \$10,350.00 for the purpose of purchasing a pumper and necessary equipment for the Fire Department.

Under Article 39, Voted to raise and appropriate the sum of \$1,200.00 for the purpose of bringing the Assessors' Map up to date.

Under Article 40, Voted to raise and appropriate the sum of \$8,000.00 to be used by the Elementary School Building Committee for the preparation of complete working drawings and specifications, for a new elementary school building, the cost of which shall not exceed \$300,000.00.

Under Article 41, Voted to authorize the Selectmen to appoint a Committee to compile or formulate by-laws for the Town of Duxbury.

Under Article 42, Voted to authorize the Selectmen to sell to Joseph L. Johnson, for the sum of \$50.00 a small triangular parcel of land on the westerly side of Depot Street, containing approximately .08 of an acre, and being Lot 21 on Block S of the Assessors' Map.

Under Article 43, Voted to authorize the Selectmen to sell the property on the Westerly side of Depot Street, formerly used as a Town Infirmary, at public sale, upon such terms as the Selectmen may deem advisable.

Under Article 44, Voted to install 10 street lights on Powder Point Avenue and King Caesar Road, to be located at points to be designated by the Selectmen, and raise and appropriate the sum of \$200.00 for this purpose.

Under Article 45, Voted to raise and appropriate the sum of \$1,600.00 to be used for the engineering survey as recommended in the report of the Special Water and Fire Protection Committee, and that a committee of seven be appointed by the Moderator.

Under Article 46, Voted to raise and appropriate the sum of \$365.00 for the purchase of a Graphotype machine to be used in the Tax Collector's Department.

Under Article 47, Voted to accept from William H. Proctor, a gift of land at the corner of Franklin and Temple Streets for the purpose of improving the intersection of said streets.

A vote of thanks was extended to the Moderator for his gracious, courteous and efficient conduct of the meeting.

At 7:55 o'clock P. M. voted to adjourn.

JOSEPH T. C. JONES,

Town Clerk.

Under Article 3, the following Committee on World War II Memorial was appointed by the Moderator:

Philip W. Delano

Stanley H. Merry

Francis W. Perry

Paul N. Swanson

Rev. Walter R. Hunt

Mrs. Sally Freeman Dawes Chase

Fisher Ames

---

Under Article 32, the following Committee to be known as the "Airport Committee" was appointed by the Selectmen:

Morrison M. Bump

Oliver B. Barker

Edward S. Soule

Alfred J. Fecke, Jr.

Robert Blackler

Under Article 41, the following Committee on By-Laws was appointed by the Selectmen:

Harry L. Tinker

Donald D. Walker

Clement A. Briggs

Edwin M. Noyes

James T. O'Neil

---

Under Article 45, the following Committee on Water and Fire Protection Engineering Survey was appointed by the Moderator:

Walter G. Prince

Eben N. Briggs

Howard M. Clark

Earle A. Ricker

Herbert R. Nelson

Stephen A. Reed

LeRoy M. Peterson

## Special Town Meeting, October 25, 1946

---

At 8 o'clock P.M. the meeting was called to order by the Town Clerk and the warrant was read.

Under Article 1, it was voted that the Town Clerk cast one ballot for Mr. Harry B. Bradley for Moderator which was done and Mr. Bradley took the chair.

Ellis G. Harrison and Eugene Redlon were appointed Tellers and were sworn in by the Moderator.

It was voted that a rule for this meeting would be that: No motion to lay on the table or otherwise cut off debate will be in order until the proponents of an article have had an opportunity to be heard.

Under Article 2, it was voted to appropriate from available funds, the sum of \$8,000.00 for the purpose of completing the financial arrangements for the proposed sea wall at Duxbury Beach. (Yes 43—No 0).

At 8:18 P. M., Voted to adjourn.

JOSEPH T. C. JONES,

Town Clerk.

## Election of Officers, March 9, 1946

---

The polls were opened at 7 o'clock, A. M.

The following Tellers were sworn in by the Town Clerk: Charles C. McNaught, Harry A. McNaught, Frank H. Williams, Edward P. Hobart, John E. Lucey, Rodney W. Leach and Frances R. Covell. Helen F. Dawes was sworn in by the Moderator.

The polls may have closed at 6 o'clock P. M. but at that time, it was voted to extend the closing time to 8 o'clock, P. M. The ballot-box, after the absent ballots were deposited, indicated 1011, 67 being absentee ballots, and 1011 were taken from the ballot-box.

Following is the result of the balloting for Town Officers:

### For Selectman for Three Years:

Charles R. Carlson	227 Votes
Ralph T. Haller	184 Votes
Walter G. Prince	567 Votes
Blanks	33

And Walter G. Prince was declared elected by the Moderator.

### For Assessor for Three Years:

Charles R. Crocker	887 Votes
Blanks	114

And Charles R. Crocker was declared elected by the Moderator.

For Member of the Board of Public Welfare for Three Years:

Carl J. Santheson, Jr.	856 Votes
Blanks	155

And Carl J. Santheson, Jr. was declared elected by the Moderator.

For Member of Board of Public Welfare for Two Years: (Unexpired Term).

Barbara S. Mullooney	751 Votes
Blanks	257

And Barbara S. Mullooney was declared elected by the Moderator.

For Tree Warden for One Year:

Roy E. Parks	298 Votes
--------------	-----------

And Roy E. Parks was declared elected by the Moderator.

For Constables for One Year:

Earl W. Chandler	854 Votes
Lawrence C. Doyle	875 Votes
James T. O'Neil	880 Votes
Frank White	1 Vote

And Earl W. Chandler, Lawrence C. Doyle and James T. O'Neil were declared elected by the Moderator.

For Cemetery Trustee for Five Years:

Connie H. King	859 Votes
Blanks	152

And Connie H. King was declared elected by the Moderator

For Member of Planning Board for Five Years:

Arthur H. Murphy	701 Votes
Blanks	309

And Arthur H. Murphy was declared elected by the Moderator.

For School Committee for Three Years:

Loring R. C. Mugford	536 Votes
Dorothy Wentworth	459 Votes
Blanks	16

And Loring R. C. Mugford was declared elected by the Moderator.

Voted to adjourn.

JOSEPH T. C. JONES,

Town Clerk.

---

The following Town Officers took the Oath of Office in 1946, being sworn by the Town Clerk:

Walter G. Prince, Selectman for 3 years.

Charles R. Crocker, Assessor for 3 years.

Isabelle V. Freeman, Town Accountant for 3 years.

Loring R. C. Mugford, Member of School Committee for 3 years.

Barbara S. Mullooney, Member of Board of Public Welfare for 2 years.

Carl J. Santheson, Jr., Member of Board of Public Welfare for 3 years.

Eben N. Briggs, Forest Warden, Sup't of Parks and Fence Viewer for 1 year.

Charles C. McNaught, Sealer of Weights and Measures for 1 year.

Rev. Walter R. Hunt, Town Historian for 1 year.

Henry M. Griswold, Fence Viewer for 1 year.

Russell W. Soule, Weigher of Coal, Coke and Hay for 1 year.

Floyd R. Kenney, Harbor Master for 1 year.

Lewis B. Randall, Sup't. of Streets and Field Driver for 1 year.

Arthur H. Murphy, Member of Planning Board for 5 years.

Earl W. Chandler and James T. O'Neil, Constables for 1 year.

Lawrence C. Doyle, Constable and Dog Officer for 1 year.

William B. Coffin, Member Board of Appeals for 1 year.

Clara M. Redmond, Registrar of Voters for 3 years.

Frances R. Covell, Registrar of Voters to March, 1947.

A. Elliot Holmes, Shellfish Constable and Ass't. Harbor Master for 1 year.

Paul S. McAuliffe, Weigher of Coal, Coke and Hay for 1 year.

Guild A. Rosengren and James S. O'Neil, Special Police Officers for 1 year.

Ray M. Parks, Surveyor of Wood and Lumber and Fence Viewer for 1 year.

Ernest W. Chandler, Inspector of Animals, Field Driver and Inspector of Slaughtered Animals for 1 year.

Robert I. Tower, Special Police Officer for 1 year.

Bradley V. Osgood, Surveyor of Wood and Lumber for 1 year.

Eben N. Briggs, Kenneth O. Macomber, Carl J. Santheson, Jr., LeRoy M. Peterson, Francis W. Perry, Henry M. Griswold and George S. Butler, Fire Engineers for 1 year.

### SCHOOL CALENDAR

1946-1947

September	4	School Opens
October	18	Teachers' Convention
November	11	Armistice Day
November	21-22	Thanksgiving Recess
December	20	Christmas Recess
January	2	School Reopens
February	24	Winter Recess
March	3	School Reopens
April	21	Spring Vacation
April	28	School Reopens
May	30	Memorial Day
June	13	High School Graduation
June	20	Summer Recess

### ADMITTANCE

Any child who is five years and eight months of age on or before September 1, may be admitted to the first grade. Any child who is five years of age Septem-

ber 1, and whose mental age is six years or more as determined by means of standard tests, and whose physical condition and social maturity is satisfactory, may be admitted to the first grade. Any child five years and eight months or older may be excluded by the School Committee upon the recommendation of the Superintendent if investigation indicates that admittance would not be in the best interests of that child or of the other children in the school.

---

### NO SCHOOL SIGNAL

School is usually called off only when bus transportation is unsafe. It may occasionally be called off during an extremely severe storm. On such days an announcement is made over Stations WBZ and WEEL, between 7:15 and 7:45. Parents are not expected to send their children to school on days when, in their opinion, the weather is such as to endanger the health of the child. Such absences are excused on receipt of a written excuse.

## Report of School Committee

---

To the Citizens of Duxbury:

Approximately one year ago, your School Committee presented to you a "Three Year Plan of Educational Development" for Duxbury. In many respects we have been able to attain our objectives; in others, circumstances beyond our control have forced us to delay our schedule. This is your first opportunity for comparison and we present herewith our report for the calendar year 1946 together with a statement of future needs.

In the field of ADMINISTRATION, the School Committee has revised its Rules and Regulations. The simple system of accounts mentioned in the Annual Report for last year has been satisfactory and instrumental in enabling the School Department to stay within its budget during the very difficult year of 1946. Particular attention has been given this year to the subject of discipline. The method by which new teachers are selected has been improved and standardized. The Superintendent of Schools and two members of the School Committee have devoted considerable time in aiding the Elementary School Building Committee in the design of the proposed new elementary school building. The Superintendent and the Principal of the High School have held regular and frequent teachers' meetings to solve current problems and to develop a course of study.

In the field of INSTRUCTION, we have added the three new teachers scheduled in the "Three Year Plan." Following the resignation of Miss Jeannette

Woodward, the position of remedial reading instructor was left unfilled inasmuch as most of the problems in this field had been corrected by Miss Woodward. The High School library is now able to provide an expanded service with the librarian on a half-time basis. An additional combination grade in the basement of the High School relieves the teaching burden in the fifth and sixth grades—in an unsatisfactory manner, but the best apparent temporary solution.

The supervisory service in handwriting proved satisfactory and has been continued through the present school year.

We are glad to welcome back from the United States Navy—Mr. Leroy N. MacKenney who will again teach mathematics and science, again act in the capacity of Vice-Principal of the High School, and by assuming some of the duties of Principal Walter Scott will permit the latter to become Guidance Officer as well as Principal of the High School.

This past year to a greater extent even than in the previous year, the teachers have engaged in outside study. The School Committee is particularly appreciative of this cooperation on the part of the teaching staff in bringing to Duxbury the newest developments in public school education. The Iowa Tests, introduced last year, have shown effectively which areas of instruction need emphasis and this emphasis has been given. This year's Iowa Tests show definite improvement in the areas of:

1. Correctness in writing.
2. Reading, natural sciences and social studies.
3. Uses of sources of information.

Duxbury should have a kindergarten, but the absolute lack of space in our present buildings together with the great expense of converting any other available buildings for temporary use make it appear necessary to defer this project until a new elementary school building is available.

We cannot emphasize adequately the inadequacy of the SCHOOL PLANT. There are at present two elementary classes in basement rooms which are utterly inadequate. It is quite probable that any delay in the construction of a new elementary school building will force the schools to operate on a two-session basis in the elementary grades. In 1947-1948, a large class will enter the High School to cause crowding. The only economical long-range solution to the problem of housing is the construction of a consolidated elementary school building as soon as possible.

In FINANCES, the School Committee is pleased to report that it has been able to complete the calendar year without the necessity of requesting additional funds although 1946 was a year of rapidly rising costs. Our budget of \$109,484 for the support of the schools during 1947 is well above the 1946 budget (and actual expense) of \$77,991 and also above the figure in the "Three Year Plan" which estimated \$85,000 for 1947 (exclusive of Outlay, however.)

During the past year, the cost of materials and supplies has increased approximately 25%. By far the greater part of the increase in the budget, however, will be in the salaries for all School Department employees; (1) Replacement of three teachers who resigned was possible only at an added cost of \$2,000. (2) Two war-time teaching substitutes have been re-

placed by higher-salaried permanent teachers who have returned from military service. (3) The increased cost of living requires an upward adjustment in the salaries of non-professional staff. (4) The teachers have received a cost-of-living adjustment of approximately \$200 (provided in the Salary Schedule) plus a general increase of \$300 in each basic salary step of the Salary Schedule.

This School Committee, in agreement with a great many school committees in our state, has acted on the premise that the increase in the cost of living has completely outstripped the increase in the rate of remuneration for teachers. This fact, coupled with an acute shortage of teachers, make a drastic upward revision of salaries necessary at this time. It was not possible to foresee this condition a year ago nor it is possible to tell definitely at this time as to whether enough has been done to maintain or recruit a competent staff. Unless further radical changes become necessary, our budget for 1947 makes satisfactory provisions for salaries and expenses.

During the past year many changes have been made at your request. Please continue your interest and criticism in order that we may continue to adapt the schools to the needs of Duxbury.

Respectfully submitted,

KENNETH G. GARSIDE, Chairman  
 LORING R. C. MUGFORD, Secretary  
 GEORGE C. SCOTT,  
 J. NEWTON SHIRLEY,  
 HERBERT C. WIRT.

## Report of Superintendent

---

Duxbury School Committee

Duxbury, Massachusetts

Gentlemen:

I herewith present my second annual report as Superintendent of Schools. The year 1946 has been a difficult one in the management of schools as it has been in the management of any enterprise. The schools have been faced with the problem of maintaining quality of personnel, materials and standards of work at a time when a rapidly rising market was making it extremely difficult to do so on a fixed budget. Under such conditions, it became impossible to do all the things necessitating the spending of money to the extent that they were originally planned. During this period of inflation, it has been and will be our policy to employ the very best personnel that we can obtain within our means, to give priority to those educational materials which are the most promising in terms of furthering the learning process, and to make those repairs that are needed in order to save greater expenditures in the long run.

**THE SCHOOL PLANT.** During 1946, work on the high school roof was completed, the windows on the east were weatherstripped in order to reduce leakage of water and to save fuel, and the front trim was painted. Work on the interior was largely confined to making emergency repairs on the plumbing and to increasing the quality of treatment of the floors, and

general cleaning of the building. In the elementary schools only those repairs were made which were absolutely necessary or would make a definite contribution to the instructional program. It is felt that this is the wisest policy if we are looking toward the building of a new elementary school.

**THE INSTRUCTIONAL PROGRAM.** The work done in connection with improving the instructional program in the high school is treated at some length in the report of the Principal. It might be mentioned that during the year our high school was admitted to the New England Association of Colleges and Secondary Schools, an organization that requires set standards and to which all schools are not admitted. Since some of these standards concern the curriculum, this indicates that the work done in Duxbury is in accordance with the best practice.

The elementary school teachers have adopted one of the best basic reading systems for use in grades one to six. This assures a well developed program through all the years of elementary schooling and provides for the development of the many skills needed in reading as the child grows older. A single arithmetic program now extends from the first grade through the sixth and this too, is organized in such a way as to constitute a course of study although it is not written up as such. Modern English books were adopted for basal use in grades three and four and this system will gradually be extended to grades five and six. Besides the spelling that is taught in connection with the regular school work, a systematic program is used which not only develops ability to spell, but improves dictionary practices as well. Our major project started in 1946 and continuing into 1947, will be the formulation of

a course of study in social studies which includes history and geography for all elementary grades. The method used in developing it will assure us of having a program that is consistent with the best successfully developed courses in other school systems.

There are several problems that are always with us or with any school system. They might be briefly stated as follows:

1. How can a class of thirty pupils be conducted and at the same time provide for the groups that learn at varying rates of speed?

This is done in the tool studies by having pupils work in small groups, and in social studies work by having various types of assignments which are given to pupils according to their needs and interests. No school has completely solved the problem, but in Duxbury as in other systems, we are conscious of the problem and continually building up materials and studying methods that will make progress possible.

2. What policy will be followed in regard to promoting or retarding pupils in the grades?

The policy being followed at the present time is an individual one. There are no rules, but no child is held back unless the teachers or parents, or both, feel that it would be of advantage for a child to repeat the grade. Double promotions are seldom given and then only under exceptional circumstances. Since there are likely to be many levels of ability within any grade, this promotion policy serves to keep the child close to his own age group but at the

same time does not complicate the process of providing for the individual differences among children.

**FINANCING THE SCHOOLS.** The problem of financing the schools has been brought sharply into focus in the last few years because of the inflationary period and an acute shortage of teachers. The outlook for help to the towns from the Federal Government is not favorable. The possibility of help to the towns from the state government is favorable at the present time because in many of our municipalities tremendous pressure on the real estate owner is demanding that another way be found to finance schools.

There is a strong realization of the importance of education in the post-war world accompanied by public insistence that greater efforts be made to adapt education to all the children of all the people. It is this change in viewpoint as well as the inflationary tendencies of the time which have made such increases in school budgets necessary. We, in Duxbury, must choose between an increase in our budget or a severe curtailment of the standards and services we are seeking to provide. We have chosen to maintain our standards.

**SERVICES.** With a great deal of cooperation from the Health Department, the Nurse's Association, and the School Doctor, distinct improvements have been made in some services rendered this year. This is particularly true of:

1. The physical examinations. The Nurse's Report explains this in some detail, but I would like to emphasize here that such an examination

is far more helpful than a more superficial one. It is unfortunate that we do not have the facilities within our school system to do it in our school buildings.

2. The Nurse's Association, on an experimental basis, is helping the Lunch Room to the extent of paying an amount equal to the cost of the meat for one meal a week. This enables us to serve three meat meals per week at the present time—the complete dinner costing twenty-three cents. This does not change the nutritional standard of our meals, but does make them more appealing to children and thereby encourages more people to take advantage of the opportunity.
3. The return of the boys' physical education instructor from the services has made it possible to give our boys the advantages of a skilled instructor in that field. A great deal of credit is due to the men on the faculty who gave their time to carry on the boys' athletic program in addition to their regular work, when the school was without its director. However, a trained person for the boys and one for the girls are great assets to any school system and we are now fortunate enough to have both.

MAJOR PROBLEMS. As we look forward to the new year, the major problem in Duxbury will be organizing our program in such a way that we can make our work increasingly effective while outgrowing the physical plant. This will not be an easy task, but we should get by for one more year. If the new school is not forthcoming in 1948, we probably will

have no choice but to curtail the school program. In common with other schools, there are three problems which will have great emphasis for the next few years:

1. The problem of securing competent replacements when teachers leave. A visit to our classrooms will indicate that up to the present time we have been able to cope most successfully with that problem.
2. The study of the curriculum and making changes in it in order to prepare pupils for the life or training that will come beyond the high school.

A reading of the various reports in this book will indicate that this phase of the work is not neglected and that progress is being made. In some respects, it is possible to make rapid progress and in others, progress must be slow. We are conscious of the problem and feel that we are making real strides in solving it.

3. In all school systems, in varying degrees, there is likely to develop misunderstandings between parents on the one hand and teachers on the other. This develops into a very bad situation for the child unless parents and teachers can get together on it without delay. If parents feel that their children are not getting what they should in the school, the best policy is to take the time to arrange a conference with the teacher so that difficulties may be ironed out before they become too great.

In conclusion, I would like to thank the School Committee for its help and cooperation in improving the schools during this past year. I would also like to

thank all the members of the school staff for their co-operation and their willingness at all times to inconvenience themselves in order to do better work or to provide better services for our children.

Respectfully submitted,

JOHN A. WHITEHEAD,

Superintendent of Schools.

## Report of High School Principal

---

Mr. John A. Whitehead  
Superintendent of Schools  
Duxbury, Massachusetts

Dear Sir:

When the present high school principal assumed his duties in 1944, he accepted as his responsibility the improvement of the program of secondary education (Grades Seven through Twelve) in Duxbury. The assumption that changes, looking toward improvement, were desired by the School Committee and townspeople, as well as necessary in the light of educational science, was based chiefly on the report of a survey of the schools (1943) by the Harvard Graduate School of Education. Since this is the third year of work on this program of improvement, a report on the progress being made should be presented.

The survey committee made specific recommendations for improving the program of the High School.

1. Duxbury needs an adequate supervisory program.

Since 1944 regular weekly faculty meetings have been held in which the problems peculiar to this school and its students have been discussed. Research and study have been carried on and procedures and regulations have been adopted by faculty agreement which have completely solved some problems and made much progress

in the gradual solution of others of a long term nature. Many will take longer than three years. Consequently, the staff expects progress, not a complete solution, in a period of two and a third years.

2. In Grade Nine, a full-year course should be required in English, general science and community civics.

In Grade Nine English, general science, community civics, and mathematics are required of all students.

3. A course in junior business training should be offered in either Grade Nine or Grade Ten.

Junior business training is now offered for students in Grade Ten.

4. There should be a home mechanics course in Grade Nine open to boys and girls.

At present a home mechanics course including some elementary layout drawing is required of all boys in Grades Seven and Eight. General shop practice including mechanical drawing and elementary blueprints, electricity, wood work, sheet metal work and use of power tools is elective by boys or girls in Grade Nine. A course in mechanical drawing is elective by boys and girls in Grades Ten, Eleven and Twelve. Advanced shop work is open to boys and girls of Grades Ten, Eleven and Twelve upon election. The time schedule for all industrial courses above Grades Seven and Eight is flexible and may vary from the minimum with the interest or objective of the student.

5. Restrictions which hedge the mechanical drawing course should be removed.

Mechanical Drawing is now open to boys or girls in Grades Ten, Eleven and Twelve.

6. In Grade Eleven, only one English course need be offered.

One English course is now offered in Grade Eleven.

7. The present senior course in Problems of American Democracy should give direct and specific preparation for the civic responsibilities to be assumed by students in the high school.

At present a course in Modern Problems is required in the Twelfth Grade. It is carried on under modern dynamic teaching procedures and deals with political, social and economic problems facing the people of the United States and the world at this very moment.

8. Reschedule the program of studies to a seven-period day or even a six-period day of approximately the same length as the present schedule.

The high school program is operating on a six-period day, each period fifty-five minutes long, thirty minutes for lunch.

9. Revise the content of the present courses so as to emphasize development not only of the mechanical skills in the subjects taught but also the understandings, interpretations and applications of these skills. This is a project for all teachers in the school as well as for the principal.

Partly through the supervisory program of staff improvement and partly through careful discrimination in the employment of new teachers when vacancies occur in order to maintain our standards in these difficult times, progress is being made in providing for this need.

This is one of the problems mentioned above which requires time and study to complete and even more time before any results will become apparent.

10. Expand the guidance program so that its services are related more closely to the classroom activities. This includes guidance not only in academic matters, but also in personal problems. Provide for all boys and girls in the vocational courses near the end of the high school careers some work experience related to their occupational interest.

Up to 1945, the guidance carried on was chiefly that in educational planning. In 1945-46 the responsibilities of carrying an expanded guidance program was given to one of the regular members of the high school faculty. Guidance in educational, social and vocational matters was included in this program. New and more complete ways of recording, filing and testing were instituted. Group guidance classes for Grades Eight and Nine were started. A work experience program for all twelfth graders not planning to enter college was begun through cooperation of Duxbury and Plymouth businesses and stores.

Part time work experience opportunities are arranged by the school office to the mutual benefit of students and townspeople. Our own cafe-

teria is used to provide experiences for several students in both business and foods work. Home room teachers were made responsible for general guidance of their students. The guidance director is now on call whenever particular problems arise. Each student is interviewed by his home room teacher in planning his complete educational program in our school. Each student is also interviewed at least once or twice a year by the guidance director. A series of twenty vocational guidance motion pictures are shown during the school year to Eighth and Ninth Grade students and others who are interested.

The high school has subscribed to the services of Science Research Associates which provides us with a wide variety of up to date vocational information. This is kept on file for student use in the school library along with considerable other occupational information. Information about almost every institution of higher learning in New England, as well as many more in eastern United States, is available for student guidance also.

11. Teach occupational civics which would consist of a broad basic guidance course for all, with proper emphasis on the social, civic and personal implications of the world's work.

A guidance course of this type is taught to all Ninth Grade students for one half year once a week, and a highway safety course the other half.

12. Teach commercial and economic geography with emphasis on industrial, economic, business, agricultural and regional developments.

Economic geography is offered as an elective for Grade Eleven.

13. Teach principles of bookkeeping with emphasis on the arithmetic, English, vocabulary, and principles used in ordinary accounting work, not neglecting the opportunity to teach business ethics.

A one year course in bookkeeping is now offered following in general the above recommendations.

14. Teach first year typewriting with emphasis on proper typing technique for both personal and vocational uses.

First year typewriting is open to all students through election. Provision is made in scheduling so that students may take it for vocational or personal use.

15. Teach business organization with guidance and business information values in mind rather than the intricacies of various forms of organizations.

No course of this name is offered, but a course called "retail selling" has been offered which includes a considerable amount of the material suggested above. Other aspects of business organization have purposely been included in junior business training.

16. Teach business law with emphasis on legal principles and practices as they affect the individual, having in mind the consumer and social implications of this study.

A course called "commercial law" following the suggestions above is offered to students in Grade Twelve.

17. Teach economics with special emphasis on those things that high school graduates who go to work at once need to be concerned about: wages, saving, giving, spending, investing, home buying, installment benefits and evils.

No separate course is offered but the material mentioned is covered in the two courses in junior business training and consumer education.

18. Teach first year shorthand—one year of it, and that only when on the basis of careful guidance a qualified group of proper size is available for it—something that will happen infrequently.

First year shorthand is offered in Grade Eleven and transcription and secretarial practice in Grade Twelve. In this particular instance the recommendation of the survey has deliberately not been followed because up to this year, there has been a demand for training in this field which would enable the student to accept employment directly on graduation (or before.) The survey plan would require attendance at a business school beyond high school.

19. If and when general clerical practice is offered, it should be based upon the kinds of clerical work done by some 75 % of office workers.

A one half year course called "office practice" follows the recommendation.

20. Consumer economics and consumer goods courses should be included so as to add greatly to the personal economic efficiency of the boy or girl.

A one half year course called "consumer education" is offered to students in Grade Twelve and follows the survey recommendations above.

21. The high school program must be differentiated and flexible; it must also be socially centered, stressing the basic needs common to all the youth of Duxbury. This is general education, the foundation of liberal education, the common denominator of intelligent and educated citizenship.

The high school program of studies has been completely reorganized on the above premise that there is certain general education needed by all citizens in this country, as well as the need for specialized education in particular fields. The program now requires all students to take certain general education courses such as English, social studies, health and physical education, general mathematics and general science, but leaves the rest of the high school courses open to students by election under guidance. Duxbury is one of a very few schools in the State that have given their students the opportunities of such a flexible modern educational program.

22. There is a lack of visual or other teaching aids, and library or reading materials.

At present the high school has a good teaching aids program, making use of 200 motion picture films a year, radio transcriptions, radio programs, speech and musical recordings, film strips, maps, charts, school trips, museum exhibits and collections of still pictures. It will expand into a better program as teachers find ways to make more use of it and when physical facilities such as adequate rooms, closets, files, etc., are provided. The library in the high school is becoming a vital factor to the subject matter of almost every course taught and is providing the supplementary read-

ing mentioned above, as well as many other things.

23. The teaching load of teachers in Duxbury High School was heavier than it needed to be.

The teaching load of all teachers has been revised to conform with accepted standards in modern education and the average for the State of Massachusetts.

24. Besides rescheduling the school day into six periods, an activity period and rotating schedule have been instituted. The activity period allows time for an expanded program of extra class activities, such as school sponsored organizations, clubs, and committees, as well as an opportunity to provide for music, art and laboratory periods. In a school like ours, where most of the children must ride on buses, it is necessary to carry on most of our activities which are important character and citizenship training programs, during the school day instead of allocating them to an after school period.

Because the changes mentioned above brought our school into compliance with the Standards for Public Secondary Schools set up by the New England Association of Colleges and Secondary Schools, we were, upon application, recently elected to membership in the Association. The standards for admittance to this organization are much higher than the standards used for Class A High School classification in the State of Massachusetts. This definitely places our school among the better schools of New England.

In conclusion, I wish to thank you and the School Committee for your consideration and help during the

past year. I am also appreciative of the efforts of our school staff whose loyal cooperation accounts in great measure for whatever success we are achieving.

Respectfully submitted,

WALTER E. SCOTT,

Principal.

## Report of Music Supervisor.

---

Mr. John A. Whitehead  
Superintendent of Schools  
Duxbury, Massachusetts

Dear Sir:

Music has always been a source of inspiration and pleasure to many people. It is a medium of expression that people of all countries understand. Of course, to be of the most use, the language of music must be understood to clearly evaluate what is being played or sung. So when we have a common understanding, music can be very important.

Many people are content to be classed as part of the "listening public," while others prefer to participate actively in musical organizations. However, the listener should have at least a generalized knowledge of the rudiments of music so as to enjoy to a larger extent such performances as he hears.

The general aims of the music course are to enable the student to become a better listener and to encourage others who show special aptitudes and interest to take up the study of an instrument. This may be all summed up by saying that an appreciation is the ultimate objective of school music.

The general objectives for each grade are:

1. Rote singing, drills for so-called monotones. Much attention is given to rhythm and development of good tonal quality.

2. Continued rote singing, special work for monotones and emphasis on good tones. First elements of music reading of songs by sight are given.
3. Music reading broadened with more difficult intervals and time problems. Rote work is continued but on a smaller scale.
4. Other intervals are added to which is added the study of chromatics. Some two-part singing is introduced.
5. Two-part singing is expanded and introduction of 6/8 time in reading songs.
6. Further study of two-part with introduction of three-part singing.
- 7 and 8. Ensemble singing with small choral work in two and three parts.

Through the medium of class songs or phonograph records, some of the finer works of music are presented for a listening or a singing acquaintance. Much can be done with an adequate number of records to supplement the class books, for with records the world's finest music is always available. I would like to suggest that regular record library be built up so that a program of supplementary music be available from the first grade through high school.

Music performed correctly becomes a part of the individual performer. He should concentrate all of his interest at the moment toward making the best possible rendition. However, unfavorable physical conditions can distract the attention of the individual thereby decreasing the effectiveness of the instruction. The space allotted for music in the high school is unsatis-

factory. The lack of space which has an unhappy effect on many phases of the school program necessitates the holding of the music classes in a corner of the cafeteria. Since this room often becomes a thoroughfare for other persons, instruction is handicapped.

The world of tomorrow has many innovations which, if used wisely, will do much to benefit mankind. The appreciation of music will occupy an important place in this world of tomorrow. There is much pleasure derived from participating in the performance of a musical selection; there is much satisfaction in listening to a selection well done. To this end our music program points.

Respectfully submitted,

KENDALL W. REYNOLDS,

Music Supervisor.

## Report of Supervisor of Art

---

Mr. John A. Whitehead  
Superintendent of Schools  
Duxbury, Massachusetts

Dear Sir:

Art in the Duxbury Schools is progressing along modern trends in the teaching of art. The children show great enthusiasm and are becoming observant of the beautiful about them. They are learning to appreciate the beauty of the arts in foreign lands and compare the good points and resemblances to our own decorations and paintings. Great stress is laid on their creative ability and doing the thinking themselves.

As time goes on, less emphasis is placed on ability to copy the drawings of others and on the techniques of drawing and painting as separate lessons. Students are urged to draw from life or from memory and principles of form, perspective and color are taught through careful discussion of the drawings before the children start and suggestions while they are working.

The crying need in Duxbury is for an art room where work such as casting and modeling can be done without disturbing a classroom and where unfinished paintings can be left to dry. Using a regular classroom for art purposes also makes storage difficult resulting in an unwarranted waste of time. Our present facilities for displaying finished work is also inadequate. Such

a situation is a great handicap to the best interests of the children.

Much emphasis during the past has been on extending the use of different mediums. Much more painting in water color, poster paints, and finger paints is being done. Clay modeling and casting is being stressed. Pen and ink work is being taught in the eighth grade. It is planned in the next year to introduce more practical art such as decorating clothing, glasses and household articles.

Respectfully submitted,

ELLA B. HEBBERD,

Art Supervisor.

## Report of School Nurse

---

Mr. John A. Whitehead

Superintendent of Schools

Duxbury, Massachusetts

Dear Sir:

In reporting some of the health activities in the Duxbury Schools, prominent place should be given to two improvements which occurred during the early part of the fall term.

One is the new dental health program. The Duxbury Nurse Association, after considerable study of and consultation on this problem, voted a sum of money to be used to expand the program already existing under appropriated funds for the care of the school children's teeth.

It is now possible for any pupil from Grades One through Twelve, with written permission from home, to have dental care by the school dentist upon the payment of twenty-five cents per visit. This money is turned over to Dr. Dyer each day the children go, and helps to meet a fraction of the expenses.

Work has been progressing two mornings a week, and with a group of more than eighty who have obtained permission, a system of rotation has been worked out to try to insure everyone an equal chance. Much appreciation is due to the Nurse Association for their interest and generosity, and to the Red Cross Motor

Corps for their faithful provision of transportation to Dr. Dyer in Plymouth.

The second improvement is the carrying out of the physical examinations in Dr. King's offices, at his suggestion. This plan has worked out even better than anticipated, for the following reasons:

1. Heat—the temperature was continuously such that the children could undress for examination without feeling cold. This has not been true of previous facilities.
2. Privacy—each child was examined alone, without the necessity of having other children in the room undressing in order not to keep the doctor waiting.
3. Space—this is closely connected with the above. Because there was plenty of space for undressing in the waiting room, each one could be examined privately.
4. Quiet—this is one of the most important features for a good examination, so that the doctor's listening with the stethoscope may not be interfered with. Because of the above mentioned space and privacy, and because of the sound-proof walls of the office, the quiet compared to all former years was amazing.
5. Clothes—due to the above first three particularly, it was possible to have the children strip down to their underclothing, a very important feature in doing a thorough examination.

Some day it is to be hoped that we can have parents present at the time of their child's examination, so

that matters needing their help can be brought to their attention at the time.

The arrangement for doing examinations at Dr. King's office is, of course, only temporary, but the above points are ones we are considering in planning the health unit in the proposed new school building.

Routine activities have been carried out as usual including first aid, inspections, vision testing, assisting with physical and psychological examinations of children entering school, tuberculin testing in Grades Nine through Twelve, and the overseeing of hearing tests and weighing and measuring. Home visits to school children for the year total 128, and there were 152 office visits.

In addition, the nurse attended the following meetings:

School Health Education Institute — Simmons College.

Consultant Committee to the Massachusetts School Health Council—State House.

Biennial Convention of National Nursing Organizations—Atlantic City, New Jersey.

Respectfully submitted,

SUSAN E. CARTER, R.N.,

Duxbury School Nurse.

## Report of School Physician

---

Mr. John A. Whitehead

Superintendent of Schools

Duxbury, Massachusetts

Dear Sir:

Due to lack of facilities for making proper examination of the school children, the examinations were conducted in my office this year. All children received a complete physical examination, special tests for vision, hearing, Tuberculosis, psychiatric examinations, etc., were made where indicated. The general health of the children was good. As a result of the dental program and dental education, the children's teeth continue to show a marked improvement from year to year.

Respectfully submitted,

CONNIE H. KING, M. D.,

School Physician.

## Report of School Dentist

---

Mr. John A Whitehead  
 Superintendent of Schools  
 Dubxury, Massachusetts

Dear Sir:

A dental health program is effective only when it is a cooperative project involving the joint efforts of teacher, dentist, parents, and children. We feel the personal instruction given the child in the clinic is very important to safeguard the mouth against future destruction.

Dr. Connie King is examining children's mouths at the time of his regular physical examinations.

The dental work at clinics is now being done on Wednesday and Thursday mornings, and work completed so far is as follows:

Treatment	Number of Cases
Cleanings	38
Amalgams	27
Cements	22
Extractions	31
X-Rays	6
Treatments	12
Novocaine Injections	34

Respectfully submitted,

WILLIAM O. DYER, D. M. D.,  
 School Dentist.

## Report of Physical Education Supervisor

---

Mr. John A. Whitehead  
Superintendent of Schools  
Duxbury, Massachusetts

Dear Sir:

I submit herewith my report as Physical Education teacher of the boys and girls in the first six grades and of the girls in the Junior and Senior High School for the year 1946.

Every pupil enrolled in the public schools enjoys a directed physical education program. It varies according to the facilities available at the various schools.

The objectives of the department are:

1. To provide each pupil with material that is satisfying now and has significance in terms of leisure time activities.
2. To help each pupil to develop desirable social traits evident in individual and group sports.
3. To develop in each pupil desirable character traits such as fair play, courtesy, honesty, self control, loyalty, truthfulness, and good sportsmanship.
4. To afford each pupil the benefits of outdoor exercise.

A partial list of grade school activities includes posture training and posture exercises, group games, team games, the skills of team games, athletic contests, stunts, self-testing activities, rhythms and folk dancing. In the first four grades this work is carried on in the classrooms and on the outdoor spaces provided for play. With the fifth and sixth grades a gymnasium is a part of the school plant. Here both boys and girls enjoy standard gymnasium work in addition to their playground activities.

The Junior and Senior High School girls enjoy the usual sports program with inter-school games in the seasonal sports of basketball, softball and field hockey. In addition, each sport carries an intra-mural team schedule which gives every girl the opportunity of being a member of a team. Variation is presented to the sports program by the work given in the regular physical education class periods. These include, among other things, Danish gymnastics, elementary tumbling, tap dancing, basic social dancing and folk dancing.

Physical education is a form of health training. Through physical education and physical exercise, good health habits should be established. However, a certain amount of direct health teaching is essential. It is for this reason that there has been introduced a health education class for the boys and girls of the seventh grade. This will be followed in time by an additional class in the already established comprehensive course in the eleventh grade.

Respectfully submitted,

CAROLA ERB KAPFF,

Physical Education Supervisor.

## REPORT OF SCHOOL CENSUS

---

The following report is the one that will be made to the State on our Annual Report as the result of the census taken on October 1, 1946.

------------------------	-----------------

Presentation of Diplomas	Kenneth G. Garside
--------------------------	--------------------

Class Song	Senior Class
------------	--------------

Benediction	Rev. Melville M. Nyman
-------------	------------------------

Recessional (Audience standing)

The Narration was written by the following members of the Senior Class under the direction of Mrs. Elizabeth M. Bassett: Jean Barclay, Anne Peterson, Elizabeth Schaffer, Donald Washburn, Philip Delano, Jr.

The Narrator	Elizabeth Schaffer
1st Solo part	Nancy Baker
2nd Solo part	Marcia Eckersley
3rd Solo part	Donald Washburn

# MEMBERS OF THE GRADUATING CLASS

Natalie Ann Baker	Josephine Chandler Peterson
Jean Marie Barclay	Lillian Lorraine Randall
Cora Irene Damon	Elizabeth Greta Schaffer
Philip Wesley Delano, Jr.	Theresa Margaret Sheehan
Marcia Elizabeth Eckersley	George Lewis Taylor
Virginia Glass	Frances Edna Walker
Elizabeth Jane Mosher	Donald Warren
Ann Glover Peterson	Washburn

---

## CLASS OFFICERS

President	Cora Irene Damon
Vice President	Philip Wesley Delano, Jr.
Secretary	Marcia Elizabeth Eckersley
Treasurer	Jean Marie Barclay

---

## CLASS MOTTO

"Finished, Yet Beginning"

## CLASS COLORS

Red and White

## CLASS FLOWER

Red Carnation

## Report of Parent Teacher Association

---

A brief summary of the Duxbury Parent-Teacher Association's immediate plan and ultimate objective is herewith set forth:

In conformity with one of the basic objectives of the National Congress of Parents and Teachers, and as a real and accepted prerequisite for the intelligent training of our school children, more stress than ever will be laid upon instilling a greater interest in school problems among parents and teachers. This will result in a closer and more active cooperation for a continued realization of this educational need.

In order that this desire for a closer cooperation between parents and teachers can be better achieved, plans for our P. T. A. meetings have been scheduled for the school year as follows:

A special meeting for the parents and teachers of pupils in Grades One and Two will be held at Tarkiln School; Grades Three and Four at the Village School; Grades Five and Six at the High School, and Grades Seven to Twelve inclusive also at the High School. Special meetings of this sort, being held for specific groups and in their particular school buildings, it is believed, will make for attendance proportionately greater within that group.

However, three general meetings for all parents and teachers will be held at the High School and able and accredited speakers for these occasions will, if possible, be procured to present talks on subjects that should prove of real interest to parents and teachers alike.

The above outlined plan, it is hoped, will, when tried, succeed in accomplishing a greater and more genuine community interest in our schools.

Respectfully submitted,

CHARLES R. CARLSON,

President.

## REPORT OF SELECTMEN

---

To the Citizens of Duxbury:

We are pleased to submit the Ninety-Fifth Annual Report of the Town of Duxbury.

First, we wish to express our appreciation of the gift made to the town this year by Mr. Eben Ellison for the improvement of Ellison Beach. Improved conditions at this beach will make it a more desirable recreation spot for townspeople, and will be more and more appreciated as time goes on and beaches are more crowded each year.

The Sea Wall at Duxbury Beach, after so many delays, was completed last summer and will afford protection to considerable property in that area and enhance its value.

Our supply of copies of the Protective By-Law being exhausted, new pamphlets were printed which included the amendment voted in March. We intend to have the Town By-Laws published in pamphlet form also.

Unforeseen requirements in the Welfare Department, and Forest Fire expenditures due to the severe and extended drought, depleted the Reserve Fund and left an unusual number of unpaid bills, principally in the Veterans' Benefits, Snow and Ice Removal, and Welfare Departments.

We would like to bring to your attention several subjects which we believe will require special attention in 1948:

The facilities at our several town landings should be improved, especially at Mattakeesett Court.

We recommend that a full time Harbor Master be on duty during the months of June, July, August, and September. This would tend to regulate the use of the basin and floats and would cost about \$500.00 a year.

The residents in the vicinity of Old Cove Beach have requested a float.

Our Highways will need more attention in 1948. The new highway dump truck purchased this year has been a valuable asset and should continue to save money and increase the usefulness of this department. We hope to continue participation in the Chapter 90 Highway program.

The cost of operating every department in the town has increased during 1947. In 1948 there will be a further increase. We will raise the wage rate from .85 to .90 per hour for ordinary labor and to \$1.00 per hour for foremen and for special assignments. This will help to offset the increased cost of living to some extent.

Work in the Town Treasurer's office has increased to a great extent due to the adoption of the Retirement System.

The adoption of the Retirement System required a great deal of the town accountant's time. The participation of the State in Veterans' Benefits, while re-

ducing the town's financial burden, also placed additional demands on the accountant. New requirements in the field of taxation and a heavy increase in the number of departmental vouchers required even more clerical time.

Having considered the increased work in 1947, and feeling that we are not in a position to hire a full time assistant, we have voted to accept the classified report filed by the accountant. It is our opinion that this recapitulation of the totals in the classification book gives the taxpayer a far clearer picture of the purposes for which money is expended, and we know from experience that this form of report will be of great assistance to the incoming Finance Committee.

We wish to thank the various officers and committees for their cooperation and assistance during the past year.

Respectfully submitted,

PHILIP W. DELANO, Chairman,  
CHARLES R. CROCKER,  
WALTER G. PRINCE,

Selectmen of Duxbury

**REPORT OF STATE AUDITOR**

---

April 25, 1947

To the Board of Selectmen

Mr. Philip W. Delano, Chairman

Duxbury, Massachusetts

Gentlemen:

I submit herewith my report of an audit of the books and accounts of the Town of Duxbury for the fiscal year ending December 31, 1946, made in accordance with the provisions of Chapter 44, General Laws. This is in the form of a report made to me by Mr. Herman B. Dine, Assistant Director of Accounts.

Very truly yours,

FRANCIS X. LANG

Director of Accounts

FXL:CFB

---

Mr. Francis X. Lang

Director of Accounts

Department of Corporations and Taxation

State House, Boston

Sir:

In accordance with your instructions, I have made an audit of the books and accounts of the town of Dux-

bury for the fiscal year ending December 31, 1946, and report thereon as follows:

The recorded financial transactions of the several departments receiving or disbursing money for the town or committing bills for collection were examined, checked, and verified by comparison with the books of the town accountant and the town treasurer.

The books and accounts in the office of the town accountant were examined and checked. The receipts, as recorded on the ledger, were checked with the records of the several departments making payments to the treasurer and with the treasurer's books, while the recorded payments were checked with the treasury warrants issued by the selectmen and with the treasurer's cash book. The appropriations, as recorded on the ledger, were checked with the town clerk's records of town meetings and the transfers from the reserve fund were verified.

The town accountant's ledger was analyzed, and a balance sheet, which is appended to this report, was prepared showing the financial condition of the town on December 31, 1946. This balance sheet indicates that the town is in excellent financial condition. The books and accounts of the town treasurer were examined and checked in detail. The recorded receipts were analyzed and compared with the records in the departments collecting money for the town and with other sources from which money was paid into the town treasury, while the payments were checked with the selectmen's warrants authorizing the disbursement of town funds. The cash balance on March 3, 1947 was proved by reconciliation of the bank balances with statements furnished by the banks of deposit and by actual count of the cash in the office.

The recorded payments on account of maturing debt and interest were verified by comparison with the amounts falling due and were checked with the cancelled securities on file.

The savings bank books and securities representing the investment of the trust and investment funds in the custody of the town treasurer and of the Plymouth Five Cents Savings Bank were examined and listed. The income was proved and the withdrawals were checked with the receipts as entered in the treasurer's cash book.

The tax title deeds on hand were examined and listed. The amounts transferred from the tax levies to the tax title account were reconciled with the collector's accounts, the tax titles redeemed were compared with the treasurer's recorded receipts, the abatements were verified, and the tax title deeds, as listed, were reconciled with the accountant's ledger.

The books and accounts of the tax collector were examined and checked. The poll, property, and motor vehicle excise taxes outstanding according to the previous examination and all subsequent commitments were audited and checked to the warrants issued for their collection. The payments to the treasurer were checked to the treasurer's cash book, the recorded abatements were compared with the assessors' records of abatements granted, and the outstanding accounts were listed and reconciled with the respective ledger accounts.

The records of departmental accounts committed for collection were examined and checked. The charges

were proved, the recorded receipts were checked with the payments to the treasurer, and the outstanding accounts were listed and reconciled with the respective ledger accounts.

Verification of the correctness of the outstanding tax and departmental accounts was made by mailing notices to a number of persons whose names appeared on the books as owing money to the town, and from the replies received it would appear that the accounts, as listed, are correct.

The town clerk's records of dog, sporting, and miscellaneous town licenses, as well as of permits and fees collected, were examined. The payments to the State were verified by comparison with the receipts on file, and the payments to the town treasurer were compared with the treasurer's cash book.

The surety bonds furnished by the several town officials required to file such surety were examined and found to be in proper form.

The records of receipts from selectmen's licenses and permits, from the sealer of weights and measures, and from the police and health departments, as well as from all other departments in which money was collected for the town, were examined and reconciled with the treasurer's and the accountant's books.

In addition to the balance sheet previously mentioned, there are appended to this report tables showing a reconciliation of the treasurer's and the collector's

cash, summaries of the tax, tax title, and departmental accounts, as well as tables showing the transactions and condition of the trust and investment funds.

While engaged in making the audit, cooperation was received from the officials of the town, for which, on behalf of my assistants and for myself, I wish to express appreciation.

Respectfully submitted,

HERMAN B. DINE,

Assistant Director of Accounts.

Summons served for outside police	21
Deaths investigated	3
Gunshot wounds reported	2
Lost children located	4
Committed to State Hospital	2

Respectfully submitted,

JAMES T. O'NEIL

Chief of Police

## REPORT OF FIRE DEPARTMENT

---

January 9, 1948

To the Honorable Board of Selectmen:

Duxbury, Massachusetts

Gentlemen:

The Board of Fire Engineers submit the following report of the Department activities for the year 1947.

The total number of calls was 55:

15 chimney	7 emergency
14 buildings	1 bridge
8 automobiles	2 stand-by
6 oil burners	2 false alarms

We are pleased to report that these figures are substantially lower than last year. We know that a great deal of the credit for this goes to our citizens. We are constantly talking fire prevention and feel that the public is becoming fire conscious.

Although we have overdrawn our appropriation we feel that the money was well spent. We have made many repairs and improvements on buildings and equipment. With the current high prices of materials and labor it was a very hard year to estimate expenses.

In April our new fire truck was delivered and on May 8th we held open house at the Central Station. Through the day demonstrations were held in different

parts of the town and a great deal of interest was shown by the townspeople.

Several times we have been called out of town and have been commended for the efficiency of the mutual aid agreements among the towns of this fire district.

Again let us thank all who cooperate to keep fires, destruction of property and loss of human life at a minimum.

In case of fire this department stands ready to give all aid possible. Call Duxbury 333 and give the nature and exact location of the fire.

Respectfully submitted,

EBEN N. BRIGGS, Chief

KENNETH O. MACOMBER, Ass't.

GEORGE S. BUTLER

CARL J. SANTHESON, JR.

FRANCIS W. PERRY

LeROY M. PETERSON

HENRY M. GRISWOLD

## REPORT OF FOREST WARDEN

---

January 8, 1948

To the Honorable Board of Selectmen:

Duxbury, Massachusetts

Gentlemen:

I herewith submit my report as Forest Fire Warden for the year 1947

The total number of calls was 77:

14	brush
11	dump
26	grass
16	forest
10	outside aid

Our most serious trouble came during the month of October when a long drought caused many disastrous fires throughout New England. Duxbury was extremely fortunate and had a minimum of calls. We did, however, have one 7-acre fire at this time which under normal conditions could have been extinguished for one-quarter its cost.

With the \$3000 appropriation of last year an International army truck was purchased. With a few minor changes, it now carries 500 gallons of water which makes it very efficient for both the Forest Fire Department and the Fire Department.

I feel that the cooperation shown by the citizens of Duxbury in obtaining permits for open air fires saves the department the expense of unnecessary trips to investigate reports from the forest fire towers and our good fire conscious citizens.

I wish to thank all citizens and departments and the telephone operators for their cooperation in forest fire work.

Respectfully submitted,

EBEN N. BRIGGS,

Forest Warden

## REPORT OF HIGHWAY DEPARTMENT

---

To the Honorable Board of Selectmen:  
Gentlemen:

I herewith submit the report of the Highway Department for the year ending December 31, 1947.

General repairs were made on all roads throughout the town. About ten miles of the black roads were given a surface treatment.

The usual work was done on all town landings, and a new float was built for the landing at Mattakeesett Court. The usual amount of work was done on Powder Point Bridge.

Roadsides were mowed and raked and fences were repaired and painted.

Under Chapter 90—Maintenance—Valley Street was given a seal coat; .6 of a mile on Route 14 was given a seal coat, and another .6 was resurfaced with mix and place.

Under Chapter 90 — New Construction — work has been started on Congress Street, but due to weather conditions only brushing out has been accomplished to date. The cost of all Chapter 90 work is shared by the Town, County, and State.

We have erected a large shed at Highway Headquarters to house the truck and other equipment.

The new dump truck purchased last May has proved to be a helpful addition to this department and a money saver.

Respectfully submitted,

LEWIS B. RANDALL,  
Superintendent of Streets.

## REPORT OF MOTH DEPARTMENT

---

To the Honorable Board of Selectmen:

Duxbury, Massachusetts

Gentlemen:

Following is the report of the Moth Department for the year ending December 31, 1947.

The past year has again shown a decrease in the Gypsy Moth population; due partly to the general use of new and more effective insecticides and in the treatment of larger areas by aeroplane.

The agricultural use of the aeroplane in insect control has contributed tremendously to the control of the gypsy moth.

In May 1947, this department had a block of approximately one hundred acres of badly infested woodland sprayed by aeroplane for the control of this insect. On July 3rd, the time the caterpillars have attained full growth, this plot was checked and not one caterpillar could be found. Again in October after the egg-laying period was over this plot was again checked and not a new egg cluster could be found.

During May and June the trees on both sides of all streets in town were sprayed by the Town sprayer.

The gypsy moth egg clusters around all residences have been creosoted except where it would be more

economical to spray them and they will be taken care of during the coming spray season.

The creosoting of egg clusters on trees along the streets has been discontinued under suggestions from the State Conservation Department which advises to creosote less and spray more.

The Brown Tail Moth situation at the south end of our Duxbury beach shows a decrease of about 50 % in the past year. However, this infestation is apt to continue for some time because of the shifting sands which cover and uncover the nests during the fall and spring.

Respectfully submitted,

ROY E. PARKS,

Moth Superintendent.

## REPORT OF TREE WARDEN

---

To the Honorable Board of Selectmen:  
Duxbury, Massachusetts  
Gentlemen:

Following is the report of the Tree Department for the year ending December 31, 1947.

During the past year our elm trees have received a great deal of needed attention. All street trees were carefully checked for structural weaknesses and the presence of dead and diseased wood. The largest and most important trees in need of urgent attention were taken care of first. It was necessary to remove several large elm trees that were in a weakened and dying condition. Many other dead trees along the highway were also removed. Pruning of low, overhanging branches along the streets continued during the fall.

The street spraying that was done by aeroplane was exceptionally satisfactory. This consisted of seven miles of our most important streets.

The tent caterpillar control was not as much of a problem this year as in the past few years. Spraying for the Fall Webworm again this year was very satisfactory by using newer insecticides.

We have at the present time one case of Dutch Elm Disease in the Town of Duxbury and I sincerely ask the help of every property owner with the following Control Measures as given out by the University of Massachusetts.

**Symptoms** of the disease include wilting, curling, yellowing, and early falling of leaves, and brown streaking of fungus infected wood. Diseased trees may become a staggering burden to a community. All things considered, prompt removal of diseased trees is the most economical program for any community. Diseased trees deteriorate rapidly, and immediate removal is important for reasons of safety.

**Control Measures:** 1. Remove and burn promptly all elm trees killed by the Dutch Elm disease. 2. Remove and burn promptly **all cut elm wood**. (Under certain conditions oil sprays may be used on cut elm wood for control of bark beetles from April to September, but particular directions should be obtained and followed carefully.) 3. Before May 1, prune and burn all dead material from elms. 4. Do not pile elm wood in the open. 5. Do not permit dumping of elm wood with bark attached in city dumps. (Woodpiles and elm wood in dumps are common sources of disease outbreaks.) 6. Don't transport elm wood with bark attached. 7. Spray elms to control leaf-eating insects. 8. Enlist support of all municipal departments as well as civic groups and public utilities in the detection and removal of diseased and dead elms. 9. Keep elms as healthy as possible.

Respectfully submitted,

ROY E. PARKS,

Tree Warden.

## REPORT OF BOARD OF HEALTH

---

Board of Health  
Duxbury, Massachusetts

Gentlemen:

I herewith submit my annual report as Agent for the Board of Health. Contagious diseases reported during the year were as follows:

Whooping Cough	3 cases
Mumps	5 cases
Chicken Pox	36 cases
Measles	17 cases
German Measles	1 case
Dog-Bite	3 cases
Tularemia	1 case
Diphtheria	1 case

The Board of Health maintained the Town Dump, answered all complaints regarding overflowing cess-pools, dead fish on the Beach and other nuisances to the public health. The Board of Health conducted a pre-school clinic in my office in June and those who had not been vaccinated were done. The Board continued its support of a dental program in the public schools with \$500.00, of which the Duxbury Nursing Association added a sum to this, used exclusively for treatment in dental defects of school children. On January 1st, Dr. Henry E. Messier was appointed our new school dentist. The various tourist camps and cabins were inspected before licenses were issued and water supply and sanitation was inspected by the State Board of Health.

Respectfully submitted,

C. H. KING, M. D.,

Agent.

## REPORT OF THE BOARD OF PUBLIC WELFARE AND BUREAU OF OLD AGE ASSISTANCE

---

To the Citizens of Duxbury:

Mrs. Sarah Stannard was elected to the three year term on the Board of Public Welfare at the 1947 March election.

Both Mrs. Sarah Stannard and Mrs. Barbara Mallowney, being new residents of the Town of Duxbury, and desiring to do their best in carrying out the intent of the Massachusetts Relief laws, are making an effort to know the people who receive assistance, so they will be better able to cope with the many problems that arise in the Public Assistance Program.

The appropriation for 1947 was insufficient to meet the expense for the year, and it was necessary to obtain a transfer of \$916.24 from the Reserve Fund. However, we found that this was still insufficient and there remains nearly \$200.00 in unpaid bills for 1947.

Since February 1947, the Board of Public Welfare has been required to submit a monthly report of the number of interviews made during the month. In order to compile the statistics for this report, a daily record of purposeful contacts is kept. At the end of each month, the contacts are reported, under their proper heading on the forms supplied by the State Department of Public Welfare. Not only is a report made monthly, but each contact, pertaining to any recipient, is recorded in chronological order and filed in the proper case folder. For the eleven months, that this

system has been in effect, there has been 915 interviews made in the 3 categories of relief in addition to the other required clerical details.

### AID TO DEPENDENT CHILDREN

The cost of Aid to Dependent Children is growing, as is the number of cases being handled. A total of 11 cases, representing 51 persons, received aid under this type of relief during 1947 at a cost of \$10,727.10, making the average monthly expense \$893.92. There is, as of December 31, 1947, an active case load of 9, representing 43 persons, with a monthly cost of \$1,338.10.

We appreciate inquiries from the towns-people, and would gladly answer their requests or explain any phase of the Aid to Dependent Children law that may not be clear, if their letters are in proper order. No attention can be paid to anonymous communications

that are received.

Each case receiving Aid to Dependent Children assistance is investigated before any payment is granted, and home visits are made at least every three months as long as the aid continues.

### OLD AGE ASSISTANCE

The cost of Old Age Assistance for the past year reached a new high of \$44,108.85 for assistance to the 855 cases handled. This means that an average of 71 cases were handled monthly with a monthly cost of \$3,700.90, or an average cost per case per month of \$52.13. The increased cost can be attributed to several factors, the general increase in the cost of living, increased medical needs requiring hospitalization, and the increase for nursing home care.

In reviewing the cost of Old Age Assistance for previous years, it is surprising to note a steady increase in the average cost per case since 1939, and a decline in the number of cases handled between 1941 and 1945, and since then an increase showing.

Effective September 1, 1947, were new rules and regulations making it necessary to pro-rate the carrying charges of property with adult members of a family group. This change caused some dissatisfaction among the recipients, but we feel confident that they now understand the reasons for the various changes that were necessary.

We have become accustomed to receiving complaints, so that when we receive compliments we become elated knowing that some appreciate the difficult task we have before us. This past year we have received several complimentary letters.

Respectfully submitted,

CARL J. SANTHESON, Jr., Chairman  
BARBARA S. MULLOWNEY,  
S. A. STANNARD,

Board of Public Welfare  
Bureau of Old Age Assistance

## REPORT OF THE SUPERINTENDENT OF CEMETERIES

---

To the Cemetery Trustees:

I submit my report for the year 1947.

At Mayflower, Ashdod, Dingley and Myles Standish Cemeteries, the general work has been done and the leaves raked. The egg clusters were creosoted and the trees sprayed by the Moth Department.

At Mayflower Cemetery, new lots have been built along Pine Avenue from Oak Avenue to Hemlock Avenue. There was a large amount of work done in trimming the dead wood out of the trees and more of this work will have to be done in the coming year. This is enlarging every year and will add to the amount of work to be done.

Higher wages and increase in the cost of materials and equipment will increase estimated expenditures.

The Fence at Ashdod Cemetery has been painted this year.

All Perpetual and Annual Care lots were cared for. There were forty two interments during the year.

Respectfully submitted,

LAUREL B. FREEMAN,  
Superintendent of Cemeteries.

## REPORT OF CEMETERY TRUSTEES

---

To the Honorable Board of Selectmen  
and the Citizens of Duxbury:

We submit the following report for the Year 1947.

The report of the Superintendent of Cemeteries has been received and is made a part of this report.

The routine work of caring for the Cemeteries has been performed. The reduced appropriation has limited our work but the dry season and decreased number of interments has enabled us to take care of all necessary work in spite of the increased labor cost.

A return to a normal season with increased mowing and interments will make it necessary to ask for an appropriation of \$10,890. We ask that the voters appropriate this amount to carry on the work for the year 1948.

We wish to express our appreciation of those who have enabled us to care for their lots and graves and thus maintained the high standard of appearance of the Cemeteries as a whole.

Respectfully submitted,

HARRY A. TAMMETT, Chairman  
J. NEWTON SHIRLEY, Secretary  
ERNEST H. BAILEY  
CONNIE H. KING, M. D.,  
EDWARD P. HOBART  
Cemetery Trustees.

## REPORT OF PARKS AND PLAYGROUND COMMITTEE

---

To the Honorable Board of Selectmen:  
Duxbury, Massachusetts

Gentlemen:

We submit herewith a report of the Parks and Playgrounds Committee for the year ending December 31, 1947.

The activity on the playground has increased to such a point that more time and material is necessary for the upkeep of same. We have added a considerable amount of new loam this year to the ball diamond and with the use of calcium chloride it is expected to wear longer. The bleachers and swings were repaired as usual in the spring but are badly in need of it again.

We have started work on the Park at Island Creek, located on the old schoolhouse lot, by grading it and expect to do a little more on it each year.

Respectfully submitted,

ROY E. PARKS, Chairman

## REPORT OF PUBLIC HEALTH NURSE

---

To the Honorable Board of Selectmen:

Gentlemen:

I submit the report of the Public Health Nurse for the year 1947. It should be pointed out that these services are covered by an appropriation that pays the salary of the nurse for this purpose. The money does not represent fees paid by the town for each visit.

It will be noted that in all but two of the categories below there is an increase in the amount of work done.

	?	Cases	Visits
Old Age Assistance		5	97
General Relief		2	2
Acute Contagious Disease		11	12
Crippled Children		10	87
Tuberculosis (cases and contacts)		8	19
Syphilis		1	1
		<hr/>	<hr/>
Totals		37	218

Well-Child Conference—meetings 6—attendance 78  
(P.T.A. sponsored)

## Transportation

Plymouth County Hospital	5 trips
North Reading State Sanatorium	1 trip
Brockton Orthopedic Clinic	3 trips
Children's Hospital	1 trip
Mass. General Hospital	1 trip

Respectfully submitted,

SUSAN E. CARTER, R. N.,

Duxbury Public Health Nurse.

**REPORT OF LIBRARIAN  
DUXBURY FREE LIBRARY, INC.**

1947

---

To the Honorable Board of Selectmen:

As usual, June, July, August and September were the Library's busiest months. August led with the following figures: Attendance for the month, 1620; fiction put out, 2024; non-fiction, 325. July was a close second: Attendance, 1112; fiction, 1955; non-fiction, 359. March, as a rule a light month, showed an unexpected total of 1009 fiction and 145 non-fiction.

Attendance throughout the year has been very good. Since March, 105 new Borrower's cards have been issued. Inflation hasn't spared the book market, prices rising from 20% to 50%. Light fiction isn't really worth the price asked for it today as its value is quite ephemeral, but as the demand for it is always strong it has to be bought. Over the year, from January to January, 969 volumes were added through purchase and generous gifts from many patrons. A gratifying total considering the financial handicaps.

To meet the normal book growth a large double stack has been added to the central basement room, and three more large stacks, 8 to 9 feet high, were built in the west basement room. These, which will not be filled immediately, are practically the last series of shelving that can be added under existing physical conditions.

The new assistant, Mrs. Winifred A. Henderson, has fitted into the Library routine most satisfactorily, and

has been constructively helpful in matters outside of the regular desk work. I know our patrons hope she will be a permanent member of the staff. A long step toward quicker book service was taken with the alphabetical arrangement of all fiction in the main room. Keeping them in proper order is, it might be added, a never-ending daily job.

To the great regret of everyone connected with the Library, Mr. William H. Young has submitted his resignation as Treasurer. We know he is sorry to do this, but he has held the office a long time and now, growing no younger himself, feels he must retire in favor of a younger incumbent. For many years the Library has benefitted from his faithful and expert services that have preserved its financial stability.

Beyond his official work as Treasurer Mr. Young has been the Library's friend and benefactor in many ways. His unceasing and practical interest in all its problems has been of great help to the Librarian. He has given the Library a large number of volumes, many very valuable. Completing our costly genealogical department is only one instance. On several occasions when the Book Budget could not afford certain desirable additions Mr. Young has paid for them out of his own pocket.

All this has been done so modestly that not even his colleagues on the Board have been aware of the full extent of his generosity.

Respectfully submitted,

FISHER AMES.

Librarian.

# REPORT OF THE TREASURER OF THE DUXBURY FREE LIBRARY, INC.

Treasurer.

## REPORT OF THE TOWN HISTORIAN

---

The pre-natal history of Duxbury in four chapters as told by one who was largely instrumental in its making.

Selected from the record of PLYMOUTH PLANTATION by William Bradford, Governor of the settlement for sundry years together.

### Chapter One—Why They Came

So many therefore of these professors as saw the evil of these things in these parts, and whose hearts the Lord had touched with heavenly zeal for his truth, they shook off this yoke of antichristian bondage and as the Lord's free people joined themselves in a church estate in the fellowship of the gospel to walk in all his ways made known or to be made known unto them, according to their best endeavours, whatsoever it should cost them. And that it cost them something this ensewing history will declare.

### Chapter Two—Overcoming Fears and Doubts

Others again out of their fears objected against it (the plan) and sought to divert from it alleging many things and those neither unreasonable nor unprobable; as that it was a great design and subject to many unconceivable perils and dangers. It was answered that all great and honorable actions are accompanied with great difficulties and must be both enterprised and overcome with answerable courages.

### **Chapter Three—The Compact**

I shall begin by a combination made by them before they came ashore being the first foundation of their government in this place: occasioned partly by the discontented and mutinous speeches that some of the strangers amongst them had let fall from them in the ship—that when they came ashore they would use their own liberty: for none had power to command them, the patent they had being for Virginia, and not for New England.

In the name of God Amen. We whose names are underwritten — do by these presents solemnly and mutually in the presence of God and of one another covenant and combine ourselves together into a civil body politic for our better ordering and preservation and furtherance of the ends aforesaid and by virtue hereof to enact constitute and frame such just and equal laws, ordinance, acts, constitutions and offices from time to time as shall be thought most meet and convenient for the general good of the Colonists unto which we promise all due submission and obedience.

### **Chapter Four—Duxbury Is Born**

The people of the plantation began to grow in their outward estate. For now as their stocks increased and the increase vendible there was no longer any holding them together, but now they must go in great lots.—And if this had been all it had been less though too much. But the church must also be divided and those who lived so long together in Christian and comfortable fellowship must now part and suffer many divisions.

First those that lived on their lots on the other side of the bay (called Duxbury) they could not

bring their wives and children to the public worship and church meetings here, but with such burthen as growing to some competent number, they sued to be dismissed and became a body of themselves; and so they were dismissed (about this time) 1632, though very unwillingly.

---

1947 gave us a Merry Christmas and a happy New Year.

The Christmas was White.

The great storm picked New York instead of Duxbury.

WALTER REED HUNT,

Town Historian

## REPORT OF SHELLFISH CONSTABLE

---

To the Honorable Board of Selectmen:

Duxbury Massachusetts

I respectfully submit my report as shellfish constable for the year 1947.

Between seven and ten men dug razorfish during the months of January thru April. Eighteen to twenty men dug quahaugs, razorfish, mussels, seaworms, and a few clams during the summer and fall months.

There is a sizeable amount of both razorfish and quahaugs in the bay. The outlook for clams still is not too promising. Two hundred and ninety (290) bushels of seed clams, purchased in Quincy, were planted in various areas in the bay in hopes of catching a setting of seed. This work was done in cooperation with the State Dept. of Marine Fisheries at a cost of \$560.00 for clams and \$161.50 for labor of planting clams and picking cockles. Two hundred of the amount was paid for by the State.

Forty-one notices were sent to grant holders, making a check on the amount of work done on grants. A new form, in accordance with State laws pertaining to grant holders, was sent out notifying grant holders of their obligation to pay an annual fee of one dollar per acre to the Town.

Thirty-one commercial permits @ \$2.50 total \$77.50; One thousand seventy-one family permits, twenty-eight which were free to people over seventy years of age, the remainder at 25c each, total \$260.75; Five

clam grants @ \$5.00 each for five years, total \$25.00; were issued during the year.

Following is the record of shellfish and seaworms taken commercially during the year:

427 bushels of razorfish @ \$3.33 $\frac{1}{3}$	\$1,423.33
499 bushels of razorfish @ \$7.00	3,493.00
68 bushels of mussels @ \$1.25	85.00
190 bushels of clams @ \$6.00	1,140.00
1621 bushels of quahaugs @ \$2.25	3,647.25
75 bushels of quahaugs @ \$4.00	300.00
12507 seaworms @ .05 apiece	625.35
	<hr/>
	\$10,713.93

There were 1,320 bushels quahaugs and 48 bushels of clams planted on grants during the year. There was thirty-five (35) dollars collected in annual fees from grant holders this year.

Respectfully submitted,

HENRY P. McNEIL,

Shellfish Constable.

## REPORT OF ELEMENTARY SCHOOL BUILDING COMMITTEE

---

January 19, 1948

Citizens of Duxbury:

Your Elementary School Building Committee has worked diligently with its architect, Mr. Douglas Orr, and its consultant, Mr. John Nichols, in the preparation of working drawings authorized by the Town Meeting of July 25. The completed plans and specifications are now in the hands of the Committee.

We are advertising for bids for the construction of the building and expect that we will be able to state the contract price for constructing the building at the next regular Town meeting on March 6, 1948.

In presenting the plans to the Town Meeting, the Committee wishes to emphasize its belief that the plans not only provide an extremely satisfactory building from the view-point of function, but also represent the most economical type of construction consistent with satisfactory operation as an elementary school building.

If you are interested in examining these plans, they are at the office of the superintendent of schools and may be seen any day Monday through Friday between the hours of eight-thirty and four-thirty.

In the coming Town Meeting we will arrange to have an article in the warrant asking the town to vote the money necessary to build this building.

Respectfully submitted,

•  
PHILIP W. DELANO, Chairman  
KENNETH G. GARSIDE, Secretary  
ELBERT A. HARVEY  
CONNIE H. KING  
LeROY M. PETERSON  
STEPHEN A. REED  
J. NEWTON SHIRLEY.

**REPORT OF PLANNING BOARD**December 31, 1947

---

To the Honorable Board of Selectmen and Citizens of  
Duxbury:

In accordance with the vote of the Town on March 1, 1947, the Planning Board took steps to make Lots numbered 103, 111, 112A and 112B as shown on Block Q of the Assessors Map into a business area. With the help and advice of Mr. Philip Nichols, an attorney versed in zoning matters, the approval of the Attorney-General to the amendment of March 1, 1947 was obtained and a plan filed in the Plymouth County Registry of Deeds and at the Town Office showing the above named lots. Said plan was gratuitously furnished by Mr. Oliver L. Barker. The Selectmen have agreed to preserve in the Town Office the Town Assessors Map used as the basis for the action of the Town when the original Protective By-Law was accepted on March 4, 1944 and to have this map bound in book form and suitably inscribed. The Selectmen have also since the last annual town meeting reprinted the Protective By-Law in its amended form.

In making this report, the Board wish to call attention to the parking problem caused by the assembling of large numbers of people for recreation, business and other purposes. A major operation would be required in some cases. Parking off the travelled ways is called for. Your Board are planning to make a study of the Halls Corner situation as regards parking and report their suggestions in the next annual report.

In general the Board feel that the By-Law is working satisfactorily. Its success lies with the Selectmen by whom it is administered.

We repeat that "spot zoning" is generally to be avoided.

The citizens have a right to feel that they will have the protection of the established law and that the town authorities will sustain them.

OLIVER L. BARKER

MISS MARY N. GIFFORD, Clerk

ARTHUR H. MURPHY

MRS. MARGARET W. ROGERSON

PERCY L. WALKER, Chairman.

## REPORT OF WORLD WAR MEMORIAL COMMITTEE

---

At the last Annual Meeting it was voted to continue your War Memorial Committee and you authorized it to negotiate with the Duxbury Beach Association for the acquisition of a portion of Duxbury Beach for a memorial park, and to ascertain the cost of erecting a suitable monument thereon.

Since that time many conferences have been held with the representatives of Duxbury Beach Association relative to the acquisition of the Beach. Both parties have been interested to see that the transfer of the property be made in such a manner that the best interests of all our people be served. We have also concerned ourselves with a proper management set up to insure a "living" recreation area for the Town.

Delays have been encountered which were unforeseen at the last Annual Meeting but, of late, your committee has made much satisfactory progress. We have hopes, but no positive assurance, that a concrete plan for the transfer of the property can be ready at the forthcoming meeting of the town.

We have not busied ourselves with the cost for the monument. This merely involves a suitable marker; and is not of prime importance to a "useful" memorial.

Respectfully submitted,

PHILIP W. DELANO, Chairman  
FISHER AMES, Secretary  
SALLY DAWES CHASE  
FRANCIS W. PERRY  
STANLEY H. MERRY  
PAUL N. SWENSON  
WALTER R. HUNT

War Memorial Committee

## REPORT OF PLYMOUTH COUNTY EXTENSION SERVICE

1947

---

County Aid to Agriculture is an official department under the supervision of the County Commissioners. It is commonly known as the Plymouth County Extension Service, and is made up of three departments—Agriculture, Homemaking, and 4-H Club Work. Its function is adult education and service to county people, particularly in reference to the problems of rural people.

The contribution of each town is a token of appreciation which relieves the county budget of additional appropriation to support this organization. The Extension Service office is located at the Court House, Brockton. The United States Department of Agriculture, the University of Massachusetts, the County of Plymouth and individual towns cooperate in maintaining this service for farmers, homemakers, and rural youth. In 1947 all Plymouth County towns have been given equal opportunity for service and each town has received benefits in proportion to the need and requests.

The **Agricultural Department** has been handicapped by lack of a full staff of workers for part of the year. Despite this loss, a comprehensive educational program for dairymen, poultrymen, market gardeners, fruit growers and cranberry growers, has been promoted. Other programs and service for home gardeners, general livestock producers, woodlot owners, and for others of a wide variety of interests have also been carried on. This Department is guided by an Agricultural Council and individual commodity com-

mittees which meet frequently to consider the important phases requiring educational attention.

The **Homemaking Department**, represented by Home Demonstration Agents, has also had a limited staff. The teaching of women's groups in clothing, home furnishings, food production and preservation, home management, nutrition, and child development, have been featured. This Department is guided by the Women's Advisory Council and by Town Committees who render valuable assistance in this teaching program.

The **4-H Club Department** is recovering from the war period during which numbers of young people of 4-H club age were engaged in war work which was not conducive to interest in club work. All towns have the opportunity of having 4-H clubs for boys and girls. The boys' work includes organized clubs for dairy, poultry, sheep and gardening. The girls' department offers organized clubs teaching canning, clothing, food preparation, home furnishing and child care. The individual club members may take up other interests and be given assistance by the club agents. The most important thing in club work is the responsibility for leadership. Without town leadership, 4-H club agents are unable to carry on a constructive club program.

The entire Extension Service program is under the direction of a Board of Trustees, whose chairman is Russell Makepeace, Marion.

Direct responsibility for the Extension Service is the assignment of J. T. Brown, Director.

R. C. GRISWOLD,  
Town Director.

## REPORT OF MEMORIAL DAY COMMITTEE

---

To the Honorable Board of Selectmen and  
Citizens of Duxbury, Mass.

Greetings:

Many inquiries regarding the origin of Memorial Day have come to our attention and as Chairman of the Committee I will endeavor to give that information to the citizens of Duxbury in a very brief form.

In 1866 shortly after the Great Rebellion or Civil War 1861 to 1865, an organization was formed, composed of Soldiers, Sailors and Marines who were loyal to our nation.

It was known as The Grand Army of the Republic, a name given to his army by Abraham Lincoln in his last review of them.

In 1868 the G. A. R. had grown to be a nation wide body with several hundreds of thousands of members and headquarters in Washington, D. C.

General John A. Logan was chosen their Commander in Chief. Early in the year of 1868 he issued Gen. Order No. 11 setting aside May 30th as Memorial Day to be a day each year that members should strew the graves of their comrades with flowers that grew in the soil that they preserved to freedom and raise the dear old flag above them, that they so gallantly saved from dishonor.

This ceremony was to be held annually as long as a comrade remained. This year the last survivor in Massachusetts, 82 years after the war, passed on to join his comrades in the Great Beyond.

In 1881 (67 years ago) The Sons of Veterans formed an organization to help perpetuate their father's memories and deeds and assist the G. A. R. in carrying on their work in decorating the comrades graves.

In their 62nd Annual National Encampment in 1928 it was voted: Whereas, the Sons of Union Veterans have for many years endeavored to cooperate with and assist the G. A. R. in carrying on its work particularly in the matter of decorating the graves of its members:

Resolved, that in all cities and towns where there is a Camp of Sons of Union Veterans that they be given charge of the Services.

Therefore, we the Sons of Union Veterans of Duxbury have labored arduously to preserve our heritage and have also decorated the graves of all known veterans of all wars buried in Duxbury.

The American Legion Post has cooperated splendidly and assisted us in every way as well as did the Boy Scouts, Girl Scouts, Cub Scouts and many other patriotic citizens.

Owing to the Unitarian Church being closed for repairs we held our program in the Congregational Church. We hope that next year we will be back in the historic old Unitarian Church and that everyone that gets one of these Town Reports will endeavor to be present at the services there. We are grateful to all who assisted.

As space will not permit we will simply report that there was one more grave decorated, than last year, total 291.

Respectfully submitted,

PARKER B. CHANDLER, P.D.C.  
 Chairman  
 CHARLES C. McNAUGHT, P.C.  
 OSCAR B. RYDER, P.C.

 G. FRANKLIN WHITE  
 J. FRANCIS REYNOLDS, P.C.  
 MELVILLE F. SINNOTT.

## REPORT OF COMMITTEE ON AIR PORTS

---

To the Honorable Board of Selectmen:

This committee was appointed "for the purpose of investigating the advisability of promoting a project for an aviation and landing field, and the possibilities of securing State and Federal financial aid, with or without the cooperation of other towns".

Due to circumstances the committee was first in a position to consider the possibilities of promoting an airport in cooperation with other towns.

The Marshfield commission has an airport site selected on Route 139 about one-quarter mile east of Pembroke-Marshfield Town Line. This site has been surveyed and preliminary designs have been drawn for estimating purposes. The Massachusetts Aeronautics Commission and the Civil Aeronautics Administration have both approved the site for a class 1 or a class 2 airport and a request for Federal financial aid has been approved by both of the above agencies.

The Duxbury committee has studied the engineers' report of the proposed Marshfield airport, and it has met with the Marshfield commission and the Pembroke committee in an effort to determine the advisability of creating an Airport District of which Duxbury might be a part for the development and operation of the Marshfield site as an airport.

Before arriving at any recommendation on this proposal, the committee is investigating the possibilities of

an airport located within the town. The investigation is now in progress but has not yet reached the stage where any report or recommendation can be made.

Respectfully submitted

ROBERT STANTON FOX  
BARCLAY J. WOODWARD,  
OLIVER L. BARKER  
RICHARD C. PRINCE  
IRVING H. LOCKE

## REPORT OF TOWN MEETING

---

### ANNUAL TOWN MEETING, MARCH 1, 1947.

The registered voters were checked from the voting list and occupied the floor, others being seated in the balcony. The voting list showed 463 names checked.

The tellers, Charles C. McNaught, Harry McNaught, Robert I. Tower, John E. Lucey, Gilbert F. Redlon, Rodney Leach, Frank H. Williams and Helen F. Dawes were previously sworn in by the Town Clerk.

The meeting convened at 1:00 o'clock P.M., and the Clerk read the warrant to Article 14, when it was voted that the reading of the remaining articles be dispensed with and that we proceed with the business of the meeting.

Under Article 1, Voted, unanimously, that the Town Clerk deposit one ballot for Harry B. Bradley for Moderator, which was done, and Harry B. Bradley was declared elected Moderator.

Rev. John H. Philbrick invoked divine blessing and Philip E. Covell, Theodore W. Glover, Arthur C. Greene, and Charles S. Clarks name were mentioned In Memoriam.

The rule for this meeting is that: No motion to lay on the table or otherwise cut off debate will be in order until the proponents of an article have had an opportunity to be heard.

Under Article 2, Voted, that the appointment of necessary officers not chosen by ballot be left in the hands of the Selectmen.

Under Article 3, Voted, that action on this Article be postponed until after Article 16.

Under Article 4, Voted, that the compensation of the elected Town Officers be as follows:

Selectmen:

Chairman	\$1,000.00
Second Member	512.50
Third Member	512.50

Assessors:

Chairman	1,000.00
Second Member	450.00
Third Member	450.00

Town Clerk	1,200.00
Town Treasurer	1,400.00
Tax Collector	2,400.00
(Retroactive to January 1, 1947)	
Tree Warden — per day	8.00

Under Article 6, Voted, unanimously, to raise and appropriate the sum of \$350.00 to be expended under the direction of Myles Standish Camp, No. 115, S.U.V.C.W., for the observance of Memorial Day.

Under Article 7, Voted, unanimously, that the Town Treasurer, with the approval of the Selectmen, be and hereby is authorized to borrow money from time to time in anticipation of the revenue of the financial year beginning January 1, 1947, and to issue a note or notes therefore, payable within one year, and to renew any note or notes as may be given for a period of less than one year, in accordance with Section 17, General Laws. (Yes 239 — No 0).

Under Article 8, Voted, unanimously, to raise and appropriate for the use of Plymouth County Trustees for the County Aid to Agriculture, the sum of \$100.00 and choose Roger C. Griswold Town Director.

Under Article 9, Voted, unanimously, to apply the dividend from the Plymouth County Dog Fund amounting to \$617.16, to the support of schools.

Under Article 10, Voted, to appropriate to the Cemetery Department the sum of \$630.00 now in the hands of the Town Treasurer.

Under Article 11, Voted, to continue the War Memorial Committee, and authorize it to negotiate with the Duxbury Beach Association for the acquisition of a portion of Duxbury Beach for a memorial park; and to authorize the committee to ascertain the cost of erecting a suitable monument thereon.

Under Article 12, Voted, to raise and appropriate the sum of \$80.00 to install four electric lights on Harrison Street.

Under Article 13, Voted, unanimously, to appropriate \$3,000.00 to the Reserve Fund from the Overlay Reserve Fund.

Under Article 14, Voted, to authorize the Selectmen to sell after first giving notice of the time and place of sale by posting such notice of sale in some convenient and public place in the Town fourteen days at least before the sale, property taken by the Town under tax title procedure, provided that the Selectmen or whomever they may authorize to hold such public auction, may reject any bid which they deem inadequate.

Under Article 15, Voted, to raise and appropriate the sum of \$100.00 for the use of the Town Treasurer for foreclosing the rights of redemption on tax titles.

Voted a recess from 4:30 to 5:00 P. M.

Article 16 was acted on in conjunction with article 3 as follows:

Under Article 3, Voted, to accept the reports of the various Town Officers and Committees as printed in the Town Report, except that, in connection with the report of the Elementary School Building Committee,

the following action be taken: The present committee be continued, and that it be instructed to present to the Town not later than the next annual town meeting.

(1) A modification of the plans submitted by this committee in a published report dated February 1, 1947, this modification to include a colonial design of the facade and main building which will blend with the architecture of the present High School, and

(2) To submit also an alternate plan of an elementary school building; with provision made for replacement of any committee members who retire for various reasons, by appointment of successors by this individual moderator (Mr. Harry B. Bradley).

The appropriation for the Cemetery Department was reconsidered and an amendment was offered to make the amount \$9,600.00. The amendment was lost and the original appropriation of \$8,500.00 was voted.

Under Article 17, Voted, that no action be taken.

Under Article 18, Voted, to raise and appropriate the sum of \$415.99 to pay unpaid bills of 1946.

Under Article 19, Voted, to appropriate from available funds the sum of \$9,500.00 for the purpose of increasing the Stabilization Fund created in 1946.

Under Article 20, Voted, to raise and appropriate the sum of \$1,000.00 to meet the Town's share of the cost of Chapter 90 Highway Maintenance, and that, in addition, the sum of \$2,000.00 be transferred from unappropriated available funds in the treasury to meet the State's and County's shares of the cost of the work, the reimbursements from the State and County to be

restored, upon their receipt, to unappropriated available funds in the treasury.

Under Article 21, Voted, to raise and appropriate the sum of \$3,000.00 to meet the Town's share of the cost of Chapter 90 Highway Construction, and that, in addition, the sum of \$9,000.00 be transferred from unappropriated available funds in the treasury to meet the State's and County's shares of the cost of the work, the reimbursements from the State and County to be restored, upon their receipt, to unappropriated available funds in the treasury.

Under Article 22, Voted, to appropriate from the Excess and Deficiency Account a sum not to exceed \$20,000.00 to be used to reduce the tax rate.

Under Article 23, Voted, to raise and appropriate the sum of \$537.00 to pay contributions to Contributory Retirement systems on account of members thereof in the Military or Naval Service, as provided in Chapter 708 of the Acts of 1941 as amended.

Under Article 24, Voted, to raise and appropriate the sum of \$2,000.00 to purchase a Dump Truck for the Highway Department.

Under Article 25, Voted, that no action be taken on the by-laws at this time, but that it be brought up at the next Town Meeting for consideration.

Under Article 26, Voted to raise and appropriate the sum of \$500.00 to be expended under the direction of American Legion Post 223, July 4th, Duxbury Days Committee, in connection with this year's parade and celebration.

Under Article 27, Voted, to raise and appropriate the sum of \$500.00 for the exchange of a car for the Police Department.

Under Article 28, Voted, to raise and appropriate the sum of \$300.00 for the purpose of bringing the Assessors' Map up to January 1, 1947.

Under Article 29, Voted, to authorize the Selectmen to provide street lights at the following locations: Surplus Street, 3 lights; Depot Street, 3 lights; Josselyn Ave., 2 lights; Bay Road, 4 lights; Tremont Street, 2 lights; and raise and appropriate the sum of \$250.00.

Under Article 30, Voted, to raise and appropriate the sum of \$500.00 for the administration of Department of Veterans' Services.

Under Article 31, Voted, to raise and appropriate the sum of \$1,000.00 to be expended under the direction of the Highway Department for the improvement of Birch Street.

Under Article 32, Voted, to raise and appropriate the sum of \$1,025.00 for the Retirement System for 1947.

Under Article 33, Voted, to raise and appropriate the sum of \$417.50 to pay awards for the taking of land on Valley and Franklin Streets.

Under Article 34, Voted to raise and appropriate the sum of \$100.00 to purchase Lot 92, Block N, for the Cemetery Department.

Under Article 35, Voted, to change and amend the Protective By-Law of the Town of Duxbury as enacted

by the Town on March 4, 1944 so that the Business district at Station Street (otherwise known as Railroad Avenue) Alden Street and St. George Street shall be enlarged to include Lots numbered 103, 111, 112A and 112B as shown on Block Q of the current Assessors' Map of Duxbury, and instruct the Planning Board to file in the Plymouth Registry of Deeds or elsewhere such plans as they think necessary to carry out the purposes of this motion. Yes 123—No 5.

Under Article 36, Voted, to raise and appropriate the sum of \$3,500.00 for the purpose of purchasing a truck and necessary equipment for the Forest Fire Department.

Under Article 37, Voted, to instruct the Selectmen to lay out a continuation of Bay Ridge Lane from that point where it now ends through to Chestnut Street, provided the abutting land owners will convey the fee in the roadway to the town without cost to the town.

Under Article 38, Voted, to raise and appropriate the sum of \$15,000.00 for the purpose of putting a Tarvia surface on Pilgrim By-Way from Chestnut Street to Depot Street.

Under Article 39, Voted, to raise and appropriate the sum of \$200.00 for the repair and maintenance of the tide gates at Blue Fish River Bridge.

Under Article 40, Voted to instruct the Selectmen to print additional copies of the Protective By-Law and appropriate the sum of \$100.00 therefor.

Under Article 41, Voted, to accept from Laura M. Day a gift of land at the corner of Duck Hill Road and

Tremont Street for the purpose of improving the intersection of said ways.

At 6:55 P. M. voted to adjourn.

A vote of thanks was extended to the Moderator for his gracious, courteous and efficient conduct of the meeting.

JOSEPH T. C. JONES

Town Clerk

**SPECIAL TOWN MEETING, JULY 25, 1947**

---

At 8 o'clock P. M. the meeting was called to order by the Town Clerk and the warrant was read.

Under Article 1, it was voted, unanimously, that the Town Clerk cast one ballot for Mr. Harry B. Bradley for Moderator which was done and Mr. Bradley took the chair.

Harry McNaught, Edward P. Hobart, Helen Dawes, Gilbert Redlon, Frank Williams, Rodney Leach, Charles C. McNaught and Eugene Redlon were appointed Tellers and were sworn in by the Moderator.

The courtesy of the floor was given to Mr. Douglas Orr, Architect.

Under Article 2, it was voted to accept the following by-laws as amended. Yes 279—No 20.

---

January 27, 1947

Mr. Joseph T. C. Jones

Town Clerk

Duxbury, Massachusetts

Dear Mr. Jones:

As it seems to us to be in the public interest that the terms of office of the Selectmen and Assessors should

run concurrently, we submit herewith our resignation as Assessors to become effective March 8, 1947.

It is our intention to be candidates for the terms which will expire simultaneously with our terms as Selectmen.

Respectfully yours,

PHILIP W. DELANO  
CHARLES R. CROCKER  
WALTER G. PRINCE  
Assessors of Duxbury

---

### VOTE

---

At a Special Meeting of the Town of Duxbury held July 25, 1947, under Article 2 of the Warrant, it was voted (Yes 279 — No 20) to accept the following By-Laws, as amended.

Attest:

JOSEPH T. C. JONES,  
Town Clerk of Duxbury

## TOWN OF DUXBURY

## BY-LAWS

---

ARTICLE 1**General Provisions**

Section 1. The following provisions shall constitute the by-laws of the Town of Duxbury, and the acceptance and approval of these by-laws shall specifically repeal any and all by-laws in force prior to said acceptance and approval.

**Effect of Repeal**

Section 2. The repeal of a by-law shall not thereby have the effect of reviving a by-law previously repealed.

**Manner of Amendment and Repeal**

Section 3. By a two-thirds vote any or all of these by-laws may be repealed or amended or other by-laws may be adopted at any Annual Town Meeting, an article or articles for that purpose having been inserted in the warrant for that meeting.

**Penalty**

Section 4. Whoever violates any of the provisions of these by-laws, whereby any act or thing is enjoined or prohibited shall, unless other provision is expressly made, forfeit and pay a fine not exceeding twenty (20) dollars for each offence.

## ARTICLE 2

### **Town Meetings**

Section 1. The Annual Town Meeting shall be held on the first Saturday of March of each year, at the hour designated by the Selectmen.

### **Election of Officers**

Section 2 The election of officers designated on the official ballot shall take place on the second Saturday of March in each year, also voting on such questions or matters as may hereafter properly be submitted to vote in the official ballots, the hour of opening the polls to be designated by the Selectmen.

### **Special Town Meetings**

Section 3. A Special Town Meeting may be called by the Selectmen when occasion warrants, the date and hour of the meeting to be designated by them, and in addition to posting copies of the warrant for said special town meeting as provided in Section 4 of this article, a copy of the warrant shall be published in two or more Plymouth County newspapers at least seven days before the time of holding said special town meeting and a post card notice shall be sent to each registered voter at least seven days before the time of holding said special town meeting.

### **Warrants**

Section 4. All warrants for Town Meetings shall be served by posting an attested copy thereof in not less

than five public places in the Town, seven days, at least, before the time of holding the Annual Meeting, and seven days, at least, before the time of holding any special Town Meeting. The warrant for the Annual Town Meeting shall be closed on the thirty-first day previous to the day of the Meeting.

### **Procedure**

Section 5. Quorum: The number of voters necessary to constitute a quorum at the Annual Town Meeting shall be one hundred (100) and at any Special Town Meeting held for the purpose of appropriating money the number shall be one hundred (100).

Section 6. The Moderator for all town meetings shall be a qualified voter of the Town who holds no other Town Office, and shall be elected at the Annual Town Meeting for a term of one year.

Section 7. All articles in the warrant shall be acted on in the order of their arrangement, unless the Meeting, by vote, determines otherwise.

Section 8. When a question is under debate, no motion shall be entertained, except to adjourn the meeting, to lay on the table, to postpone to a certain time, to commit, or refer to recommit, to amend, or to postpone indefinitely, which several motions shall have the precedence in the order in which they are herein mentioned.

Section 9. All motions shall be reduced to writing when requested by the Moderator.

Section 10. Upon taking the question, if the decision of the Moderator is questioned, the Moderator shall request all persons to be seated and those voting in the affirmative or negative respectively, shall rise and stand until they shall have been counted by the tellers.

Section 11. The Moderator's decision shall not be questioned on matters of decorum or disorder in the meeting. On other matters it can only be over-ruled by a two-thirds vote of the persons voting, on a direct appeal to the meeting.

Section 12. All members of a committee chosen by the Meeting, shall be informed of their appointment by the Town Clerk in writing, stating the duties which such committee was appointed to perform. If appointed by the Moderator, after the adjournment of the Meeting, he shall inform each member in writing of his appointment, and after the list of members who have accepted the service is complete, he shall send the names of the same to the Town Clerk for record. When the Meeting names the committee it shall make provision for filling vacancies on such committee.

Section 13. The first named on the committee shall be its temporary chairman, who shall see that its members meet and organize by the choice of a permanent chairman and secretary. A record of the meetings shall be kept by the secretary, and the record shall be subject to inspection.

Section 14. A committee shall be considered discharged when its work is completed; and a Town Meeting may discharge any of its committees for causes satisfactory to the Meeting.

Section 15. The duties of the Moderator, not prescribed by the Statutes or by the foregoing by-laws, shall be determined by the general rules of parliamentary law as set forth in Robert's Rules of Order.

### ARTICLE 3.

#### **Selectmen**

Section 1. The Selectmen shall exercise a general supervision over all matters affecting the interests or welfare of the Town.

Section 2. The Selectmen shall hold regular meetings at the Town Offices at least once each week.

Section 3. Beginning with the year 1948, and every five years thereafter, the Selectmen shall cause to be printed in the Annual Report for that year, a complete list of both real and personal property, other than motor vehicles, taxed during the year covered by said annual town report, together with its valuation as determined by the Assessors, and also a list of those persons subject to a poll tax.

Section 4. The Selectmen may institute, prosecute, defend, compromise and settle claims, actions, suits, or other proceedings brought by, in behalf of, or against the Town, provided, however, that they shall act on advice of counsel when the amount to be paid exceeds one hundred (100) dollars, and they may employ counsel in suits by or against the Town, and also whenever they deem it advisable.

Section 5. The Selectmen may appear (either personally or by counsel) before any committee of the

Legislature, or board, or commission, to protect the interests of the Town, but are not authorized by this by-law to commit the Town to any course of action.

Section 6. All officers and committees of the Town shall file their annual reports with the Selectmen on or before January 15th of the following year.

Section 7. For the purpose of making an accurate estimate of the Summer population, the Selectmen shall cause to be made, beginning in the year 1950, and every five years thereafter, a numerical census of the population of the Town, said census to be made after July 10th, and not later than July 25th.

Section 8. Whenever any land held by the Town is to be sold, the department making the sale, shall send by registered mail a notice of the time and place of such sale to each abutter as shown by the Assessors' records, seven days at least before such sale.

#### ARTICLE 4.

##### **Town Clerk**

Section 1. The Town Clerk shall furnish all boards, committees, and officers, with a copy of all votes affecting them.

Section 2. The Town Clerk shall see that every conveyance to the Town, or by the Town, of any interest in land is properly recorded in the Registry of Deeds, and shall keep a true copy in a book to be kept for that purpose alone, of all deeds and conveyances executed by the Selectmen, and shall keep on file all deeds delivered to the Town.

## ARTICLE 5.

**Financial**

Section 1. The Selectmen may, without further authorization from the Town, sell at public auction property taken by the Town under tax title procedure, other than property taken under the provisions of Section 79, Chapter 60, of the General Laws, after first giving notice of the time and place of such sale by posting notice thereof in some convenient and public place in the Town fourteen days at least before such sale, and provided further that the Selectmen, or whomsoever they may authorize to hold such public auction, may reject any bid which they may deem inadequate.

Section 2. That a bounty of fifteen (.15) cents be paid by the Treasurer of the Town for each crow killed in the Town.

Section 3. That all collectors and junk dealers shall pay the sum of fifteen (\$15.) dollars for annual licenses; licenses to run from May 1st of each year.

## ARTICLE 6.

**Finance Committee**

Section 1. A finance committee of nine qualified voters of the Town, who shall hold no other town office, shall be appointed by the Moderator, three members for three years, three members for two years, and three members for one year, and thereafter three members for a term of three years. The committee to consider all municipal questions of finance, for the purpose of making reports and recommendations to the Town in accordance with Article 16, Chapter 39 of the General Laws.

Section 2. The appointments under the preceding section shall be made during April of each year to be effective upon the first day of May following.

Section 3. Whenever a vacancy shall occur in said committee, by resignation, or otherwise, said vacancy shall be filled by the Moderator. A successor shall fill out the unexpired term of the member whose office has been vacated.

Section 4. The Selectmen, before publishing a warrant for a Town Meeting, shall transmit a copy thereof to the chairman of the finance committee, and such committee shall hear all citizens known to it to be interested in any article of the warrant, and shall confer or consult with such departments, officers, committees or employees as may have information concerning the subject matter of the articles in the warrant, following which, the Committee shall return the warrant to the Selectmen together with their recommendations thereto which shall be included with a copy of the warrant when published for distribution.

## ARTICLE 7.

### **Town Counsel**

Section 1. No town department or official shall request the services of Town Counsel, as such, without first obtaining the consent and approval of the Board of Selectmen.

## ARTICLE 8.

### **Town Landings**

Section 1. No portion of any town landing shall be leased to any private party and no building shall be

erected or maintained on any town landing except it be by the Town and for public use.

## ARTICLE 9.

### **Traffic Rules and Orders**

Section 1. Regulations of September 9, 1935, and approved by W. F. Callahan, Commissioner, Department of Public Works, are made a part of these by-laws.

## ARTICLE 10.

### **Protective By-Law of the town of Duxbury**

Section 1. By-Law as published under separate cover in 1944 and approved April 26, 1944 by Robert T. Bushnell, Attorney General, is made a part of these by-laws.

I hereby certify that the foregoing is a true copy of the vote taken under Article 2 of the warrant, at a Special Meeting of the town of Duxbury, held July 25, 1947.

Attest:

JOSEPH T. C. JONES

Town Clerk of Duxbury

---

Boston, Mass.

September 30, 1947

The foregoing by-laws are hereby approved.

CLARENCE BARNES,

Attorney General

Under Article 3, it was voted that the meeting resolve itself into a committee of the Whole, and chose Mr. Harry B. Bradley, Chairman and Miss Isabelle Freeman, Secretary. After a lengthy discussion of the subject, with explanations of the plans by Mr. Douglas Orr, Architect, it was voted that the Town accept Plan I as the plan to be used for the new elementary school building and that the sum of fifty seven hundred (\$5700.00) dollars be appropriated from availble funds to be used to procure complete working plans and specifications and that the elementary school building committee be authorized to obtain bids from various contractors so that a definite figure may be presented to the voters in March 1948, and that the Moderator be authorized to fill any vacancies that may occur on the building committee. (Yes 194—No 66)

A vote of thanks was extended to the Moderator for his gracious, courteous and efficient conduct of the meeting.

At 10:45 o'clock P. M. voted to adjourn.

The voting lists showed that 327 Registered Voters were present—(Male 156—Female 171).

JOSEPH T. C. JONES

Town Clerk

## REPORT OF TOWN ACCOUNTANT

---

I am pleased to submit the following statement of all receipts and expenditures of the Town of Duxbury for the financial year ending December 31, 1947, in accordance with Chapter 41, Section 61, General Laws.

An increase in the number of bills paid by the town, the requirements of the newly established retirement system, and State participation in Veterans' Benefits, have placed an unusually heavy burden on this office. Therefore, I am taking the liberty of submitting an abbreviated form of report, and hope that it will meet with general approval.

This abbreviated form is arranged in accordance with the classifications prescribed by the Director of Accounts and is actually a recapitulation of the totals in the classification book which is subject to State audit, and which is, of course, open to inspection by the public at all reasonable hours.

It is my hope that the tax payers will consider this substantially shorter form of report a desirable economy.

ISABELLE V. FREEMAN,

Town Accountant.

June		High School Graduation
June		Summer Recess

## ADMITTANCE

Any child who is five years and eight months of age on or before September 1, may be admitted to the first grade. Any child who is five years of age September 1, and whose mental age is six years or more as determined by means of standard tests, and whose physical condition and social maturity is satisfactory, may be admitted to the first grade. Any child five years and eight months or older may be excluded by the School Committee upon the recommendation of the

Superintendent if investigation indicates that admittance would not be in the best interests of that child or of the other children in the school.

---

### NO SCHOOL SIGNAL

School is usually called off only when bus transportation is unsafe. It may occasionally be called off during an extremely severe storm. On such days an announcement is made over Stations WBZ, WEEI, and WBET in Brockton, between 6:45 and 7:45. Parents are not expected to send their children to school on days when, in their opinion, the weather is such as to endanger the health of the child. Such absences are excused on receipt of a written excuse.

## REPORT OF THE SCHOOL COMMITTEE

---

To the Citizens of Duxbury:

Your Committee submits the following report of its activities for the last year together with the reports of its superintendent, principal, doctors and nurse.

We have continued to follow the plan laid down in the "Three Year Plan of Educational Development" for Duxbury. We have had some changes in the teachers and consider the additions to our teaching personnel as fitting in well with the high standard of our teaching staff.

We are fast reaching a position where it will be very hard to find room for our increased enrollment. We have an enrollment ten per cent above that of last year and the school census would indicate a further increase of thirteen per cent when school opens next fall. The present facilities are inadequate. Without additional space, we may be forced to adopt morning and afternoon sessions in some of the lower grades. For this reason, we strongly urge the adoption of the plans for the new elementary school and an appropriation necessary to build it at the earliest possible time.

The Building Committee has informed us that the plans will be ready to submit to contractors for bids. We hope these will meet the approval of the voters.

The Salary Schedule adopted a little over a year ago has been restudied at the request of the teachers and we are confident that the result will enable us to keep it in force for some time.

Increased costs of materials continues to be a problem. Added to this, the enlarged classes constantly call for added teaching equipment. We were able to carry through the year 1947 without requesting added financing. We have carefully studied and prepared a budget for the year 1948 and request an appropriation of \$120,000 to continue our school department program. This budget has been based on the building of the new elementary school building.

During the last year the question of a regional High School for Duxbury and neighboring towns has come up for discussion. We believe this is a proper procedure for Duxbury to consider when the time comes. While there is some thought that this may come this year, we believe it will take several years before this can be realized. Until then we must carry on the schools of Duxbury. Should this Regional High School be a four year high school, the new elementary school building with the present high school building will be needed for the eight grades and kindergarten which will be left in Duxbury.

We appreciate the cooperation of the citizens and the various organizations in Duxbury which have contributed to the school program.

Respectfully submitted,

J. NEWTON SHIRLEY, Chairman

ARLINE M. BUNTEN, Secretary

LORING R. C. MUGFORD

GEORGE C. SCOTT

HERBERT C. WIRT

## REPORT OF SCHOOL SUPERINTENDENT

---

Duxbury School Committee

Duxbury, Massachusetts

Gentlemen:

I herewith submit my third report as Superintendent of Schools. Two years ago, we submitted to the people of Duxbury a "Three Year Plan for Educational Development." In this report I will attempt to use that as a guide in describing the progress that has been made under it.

### **"A Good School System Requires Good Teachers"**

The problem of evaluating the work of the teachers is not one that can be solved scientifically and a definite answer given. My observation leads me to believe that this requirement of the system is being carried out very well. This is a time when securing any teachers is a problem. In spite of this, we have not lowered our standards in teacher selection. Our teachers at present, have more experience than they had at the time the plan was written, are better trained, are better paid, and have more up to date materials with which to teach.

Our attendance records are holding up very well, averaging better than 93% throughout the system. Our children respect the school property. Deliberate destruction or defacement is rare in Duxbury. As one visits from class to class, one is struck by the high quality of class discipline and seemingly good rela-

tionships between teachers and pupils. On the whole, pupils are busy at these times and seem interested in their work.

The last standard tests were given throughout in the middle of last year. At that time, all except two grades were well above standard. The other grades were retested in June and tested up to standard at that time. The first grade was not tested with a standard test with scores based on averages of thousands of pupils because such tests are unsatisfactory at this age. Last year this was probably our problem grade, but nearly all the children were given an opportunity to try the second grade. We are experimenting there with a new device to improve the teaching of reading in the hopes that by speeding up learning those children who were having a difficult time in the first grade will get caught up with their work and go on without being retarded. Mrs. Peckham tells me that this plan is working well and most of our second graders are now up to the standard expected. In the high school we gave a very thorough test in October. This is the third year that the test has been given and steady improvement is being shown. This year one class was average in achievement, one did better than 62% of the corresponding grades throughout the country, one did better than 75%, and one did better than 82%. We consider this evidence of good teaching.

The only area where we do not seem to be improving is arithmetic. According to standard test scores, the problem shows up more in the high school than it does in the elementary school. In order to remedy this situation, we are (1) following carefully one of the best arithmetic systems that have been developed in grades one to eight; (2) supplementing this material with additional drill where necessary; (3) making

mathematics required in grade nine; (4) in hiring new teachers, we examined very carefully their qualifications for teaching mathematics. Mr. Hjelm is a specialist in mathematics and will help us considerably with this problem.

Of the twenty full time teachers, eight have taken courses within the past year. Our new salary schedule which is a considerable improvement over the one we had two years ago, makes it mandatory for teachers to take courses or do other activities which enable them to keep up with new practices, in order to get increments after they reach a certain salary level. At the present time, Duxbury pays teachers more than most of the small towns, as much as medium sized towns and cities, but less than the better paying towns and cities in the state. We have made progress although it must be admitted that the general salary level for teachers is still not commensurate with the salaries college trained people get in other fields of work. In general, teachers still get less than our national Bureau of Labor and Statistics claims is necessary for a minimum standard of living.

### **"A Good School System Requires an Adequate School Plant"**

We have cooperated in every way with the building Committee in getting the plans and costs ready for presentation at town meeting. Throughout the country, the birth rate has increased more than fifty per cent over pre-war figures. In Duxbury, the increase is greater than that. As in every town, more children will be going to school. Our need for new facilities to accommodate these children is desperate.

It was impossible to wait for the new building before engaging in some new construction at the high school. The shop facilities have been enlarged so that we now have adequate space to care for the program up to this point. There still should be a solution to the gymnasium audience situation and our locker and shower rooms are not large enough to handle the problem of showers in physical education classes. As the enrollment increases, use must be made of the cafeteria for classroom or study hall purposes.

### **"A Good School System Requires a Modern Educational Program"**

REVISION OF MATERIAL. All teachers are constantly working to (1) relate their material more closely to the interests and experiences of the children; (2) apply it to the lives of the children or to events that are happening in the world today; (3) to find more efficient and economical ways of teaching it. Since we have a small system and usually have only one person doing a given job, we do not have the committee work of larger systems. All teachers know what material is to be covered in their courses either through a basic textbook in skill subjects such as reading, arithmetic, bookkeeping, or through agreement or a series of units in subjects such as social studies. Materials used are up to date. One of our English teachers, Mrs. Bassett, has developed a literature program that was so good that one of the largest textbook publishers in the country has engaged her to put it in book form. This will be used throughout the country.

CLASS SIZE. Our plan was to keep our number of pupils in a class below thirty. We have not succeeded in grades two, three, and four this year. The extent

to which we will succeed in the future depends upon the space made available.

TEACHING METHODS. After two years on our plan, there are several evidences of improvement:

1. More deliberate attempts to bring outside experiences into the classroom.
2. Use of radio programs which are broadcast for school use.
3. A noticeable increase in pupil committee work and group work.
4. Greater use of reference books and library books.
5. Increased interest in professional magazines and books.
6. More evidence of interest in and use of films, records and other teaching aids.
7. Continued demands for newer materials.
8. More art work and handwork in the classrooms.
9. Greater pupil freedom being carried out with responsibility.

When the Harvard Survey was made, teaching practices were rated on the basis of twenty-five questions or standards. If the same rating were to be made today, it is my opinion that distinct improvement would be shown on seventeen of these and eight of them would be judged as good as they were the last time.

HANDWORK. More handwork materials are being used in the classrooms than before. The number of boys taking shop work in grades nine through twelve has tripled. We are continuing to add to our home economic equipment. The number of girls taking advantage of this program has more than doubled.

**AIMS.** The aims listed in the Three Year Plan are continuing to prevail. Probably our most difficult problem there is an inadequate fine arts program as it is in any small school system. We now have five teacher days devoted to this program instead of four. We are planning an extension of our music appreciation work in the elementary school very shortly, and instrumental work is being done in the schools.

**KINDERGARTEN.** No progress is being made on the kindergarten and cannot be made until facilities are available.

**COMMERCIAL EDUCATION.** We have a good program which prepares students for business work. The business department also gives a course in personal typing which has proved very popular.

**PREPARING FOR COLLEGE.** We now teach all the courses necessary to enter college. We do not give a third year of foreign language. Occasionally a college will be found which makes this demand. Although we see no way to give it under our present organization, we have not yet had a pupil who was unable to enter college because of this lack.

### **“A Good School System Requires Efficient Administration and Supervision”**

We are continuing the policy of having a high school principal. The position is being filled very capably by Mr. Walter K. Hjelm. At the present time his program requires that he teach more than half as much as the other teachers. As our pupil load becomes heavier, the necessity for cutting down on his teaching will become greater, but very difficult to accomplish without overloading the rest of the staff.

We now have an excellent system of record keeping for the histories of the individual pupils. This will help us to advise them and their parents more intelligently.

A new accounting system has been installed which enables us to analyze our costs effectively and get the things we need. It also enables us to tell the people of Duxbury just how the money is being spent and for what purpose.

### **"A Good School System Requires Supplementary Educational Services"**

**ENTERING EXAMINATIONS.** As our first grades get larger, it is more difficult to have them all tested by Dr. Steinecke. Last year she was helped by two qualified testers within the system. It is hoped that we may continue to supplement her work in this way so that the best tests will be given entering pupils.

**HOT LUNCHES.** Prices have been raised to twenty-five cents because of the high cost of food. Even so, we would be in serious difficulty if the Nurse Association had not made substantial contributions on two different occasions. If living costs continue to rise, the situation will become more critical. We have taken every step possible to cut expenses.

**GUIDANCE PROGRAM.** The guidance program is under the direction of Mr. Ralph N. Blakeman and real progress is being made in developing it. The work experience program is still in need of development. Because of the transportation situation, it presents some particularly difficult problems which we expect to work out in the not too distant future.

**PHYSICAL EXAMINATIONS.** The school physician's office is used for some of the physical examin-

ations in order that a more thorough job may be done. Dr. King also examines the teeth so that all the money made available for the school dentist may be spent on actual work. Real progress has been made on this health program.

### **"A Good School System Requires Adequate Financial Support"**

Education is now well supported in Duxbury compared to the level of support generally. Our budget is continuing to increase just as all budgets increase where standards are being maintained. Perhaps the reasons for budget increase could be stated as follows:

1. Increasing costs all along the line.
2. Keeping our teacher-pupil ratio at a reasonable level.
3. Furnishing adequate materials (but this is a very small percentage of the budget.)
4. The increasing need for maintenance expenditures at the high school.

### **CONCLUSION**

After two years of work on this program, we feel that definite progress can be shown in accomplishing the work we set out to do. Perhaps our outstanding problems at this time could be stated as follows:

1. **Space.** Apparently we are facing a period of at least twenty years when the school population is going to be large. This is an expensive fact to face, but it cannot be ignored.
2. **Teacher Shortage.** Teacher shortage still exists although conditions are definitely better. We must maintain and improve upon the excellent quality of service we now have.

3. **Cost.** No administrator likes to see the budget going up continually any more than the people who have to pay the taxes like to see this. However, there is a job to be done and we must make a decision as to whether we are going to maintain our standards. The situation is complicated by the increase in enrollment. It is interesting to note that although our proposed budget is an increase of thirteen per cent over the 1947 budget, on a per-pupil basis the increase is less than three per cent.

In conclusion, I would like to compliment the School Committee on its willingness to face squarely the many problems that are arising in this period of rapid change.

Our teachers are conscientious, alert, and they work hard. They deserve the thanks of all of us. Our pupils cooperate well and show a wholesome respect for the school buildings and their teachers. It is always fashionable to gaze with horror at the younger generation. In my opinion, the young people of today are no worse than we were at that age and in many ways are a whole lot better. The people of Duxbury should be complimented as a group for the support given us in our work. Whenever their cooperation has been asked, we have received it. This is a great help to us in giving our young people better educational opportunities.

Respectfully submitted,

JOHN A. WHITEHEAD,

Superintendent of Schools

## REPORT OF THE HIGH SCHOOL PRINCIPAL

---

Mr. John A. Whitehead

Superintendent of Schools

Duxbury, Massachusetts

Dear Sir:

I present to you a report containing certain high lights of our program which I feel are steps towards the achievement of our goal; the finest high school possible.

First, for purposes of clarity, I should like to say that the basic philosophy of our faculty is that we are teaching to the whole individual which indicates that we try to determine and satisfy as far as possible his various needs; mental, moral, physical, social, etc.

Academically I would say we have three main divisions which have common courses in the Junior High and branch out into the variable plan in the high school giving us college, pre-vocational and general courses.

The college course is preparation for further study and the other two courses are terminal in nature, yet foundations for further study, should the opportunity arise for students who wish to acquire a high degree of skill in any one field. We are quite encouraged to note that a larger percentage of our students are staying in school longer. Our graduating classes will be larger.

## **Changes in Program**

We now teach a course in seventh grade science and plan for an eighth grade course next year, thus giving us a course of study comparable to those found in the larger city and regional schools.

## **Guidance**

Because of Mr. Blakeman's extensive knowledge of the community, we placed him in charge of guidance. He is building up an active and capable guidance service. He is engaged in prognostic and diagnostic testing, frequent consultation with the individual pupil and parent in a serious effort to determine the right course of study for the individual and the analysis of the student's problems to prevent maladjustments.

## **Student Council**

Through the untiring efforts of Mr. Bassett we have set up a very effective student council providing for democratic participation by pupils in the school life. I am proud of the job the students are doing. They provide for a marshall system to check corridor traffic and an athletic association which has set up an athletic budget of \$900.00, money which they expect to earn through student activity.

## **Extra-curricular Program**

Provision for the extra-curricular activities has been made within the frame work of the school day. At the present time we have Junior and Senior Dramatic Clubs, Photography Club, Press Club, Audio-Visual Aids Club, Boys' Cooking Club, Girls' Furniture-Art Club, Dancing Club, Library Club, and Gym Club.

### **Music-Art Program**

Every Thursday is set aside for an art and music program. Every student participates in the music program. At present we are presenting a music appreciation program through interpretation of the finer works and group singing. We hope to expand this program to glee club, choral work and instrumental organization.

### **Audio-Visual Aids Program**

The program of audio-visual aids, under the direction of Mr. Wood, is exceptional. We have a very comprehensive program providing Educational films, guided radio listening and follow-up and oral work. He has trained a group of students to act as operators of equipment and technicians capable of servicing the equipment.

### **Problems**

In 1944 the total enrollment in the Duxbury Junior and Senior High School was 145. It has increased so that it now stands at 192. We are gaining 38 seventh graders and losing 18 seniors, which will bring our enrollment up to approximately 210. Incoming classes are so large that we must have two divisions for each grade. Since 1945 we have added only one teacher and broadened our curriculum, especially in the Science field. In order to carry on our program next year, we must have at least one additional teacher.

We are also confronted with lack of space. At the present time we are utilizing one basement room and contemplate the necessity for using the lunchroom for class room instruction. If we could use the three rooms now being used by the 5th and 6th grades, the majority of our space problems would be solved.

We find the present gymnasium facilities to be inadequate for a desirable physical education program for the Junior and Senior high school groups.

### **Work Experience**

We are developing a plan wherein we hope to provide a one half year's work experience program for the seniors. We will attempt to schedule the seniors so that they will be free to obtain more work experience every afternoon than is now offered.

In closing I would like to say that we are particularly fortunate this year in having a high caliber type of teacher who is cooperating splendidly and has a high professional spirit. We have been able to departmentalize our work so that every teacher is engaged in teaching one field or two closely allied fields, such as science and mathematics.

I wish to thank the School Committee and you for your friendly and helpful counsel and guidance.

Respectfully submitted,

WALTER K. HJELM,

Principal

## REPORT OF SCHOOL NURSE

---

Mr. John A. Whitehead

Superintendent of Schools

Duxbury, Massachusetts

Dear Sir:

The new dental health program, reported last year in its infancy, can now be given space as a full-grown and continuing success. Following are figures showing work done by Dr. Dyer during the school year 1946-47. These appear in this report because part of the nurse's work was to keep the records of which these are summaries.

Total permissions from parents	94
--------------------------------	----

Total number of visits to the dentist	284
---------------------------------------	-----

17 children made 1 visit	
--------------------------	--

28 children made 2 visits	
---------------------------	--

15 children made 3 visits	
---------------------------	--

12 children made 4 visits	
---------------------------	--

14 children made 5 visits	
---------------------------	--

8 children made 6 visits	
--------------------------	--

Awarded 100 % dental certificates	34
-----------------------------------	----

Total money collected (25c per child per visit) \$55.00	
---	--

This money with funds appropriated, and a contribution of the Duxbury Nurse Association, Inc., paid for the work done.

Sincere thanks is due all those who assisted with the transportation to Plymouth, both those in the Motor Corps and others.

Appointment of Dr. Henry Messier to carry on as school dentist was made late in the year, but it is hoped that the improvements in the program due to having a dentist in the town will make up for a late start in the work.

All routine activities were carried out as usual. These included monthly inspections in the elementary grades, assisting with physical examinations, follow-up work and other home visits of which there were 98, and the annual preschool roundup at which 25 children were examined by Dr. King, and vaccinated as necessary. Two matters of routine need further mention.

In vision testing we have used for the past two years a system of double-checking due to the very sensitive nature of the Keystone tests. Children who fail the vision tests are retested another day, and if they continue to fail, the reports are submitted to the superintendent for approval, following which notices are sent home that the child's eyes need further attention. Of a total of 390 tested in the schools during the year, there were only 14 notices sent home, 2 of these having glasses which apparently needed a checkup, and 4 having had defects reported home previously, but no action taken. This left 8 new defects found, or 2% of the total.

Two talks on the school health program were given to the American Citizenship class, and a dental health talk to the sixth grade, all at the request of the teachers concerned. There have also been conferences with Mr.

Hjelm and Mrs. Kapff on the proposed enlargement of the course in health education for the high school girls.

Respectfully submitted,

SUSAN E. CARTER, R. N.,  
Duxbury School Nurse

## REPORT OF THE SCHOOL PHYSICIAN

---

Mr. John A. Whitehead

Superintendent of Schools

Duxbury, Massachusetts

Dear Sir:

The usual school examinations were held in my office this year. All children received a complete physical examination, special tests for vision, hearing, Tuberculosis, psychiatric examinations, etc., were made where indicated. The general health of the children was good. As a result of the dental program and dental education, the children's teeth continue to show a marked improvement from year to year.

Respectfully submitted,

CONNIE H. KING, M. D.,

School Physician

## REPORT ON SCHOOL CENSUS

---

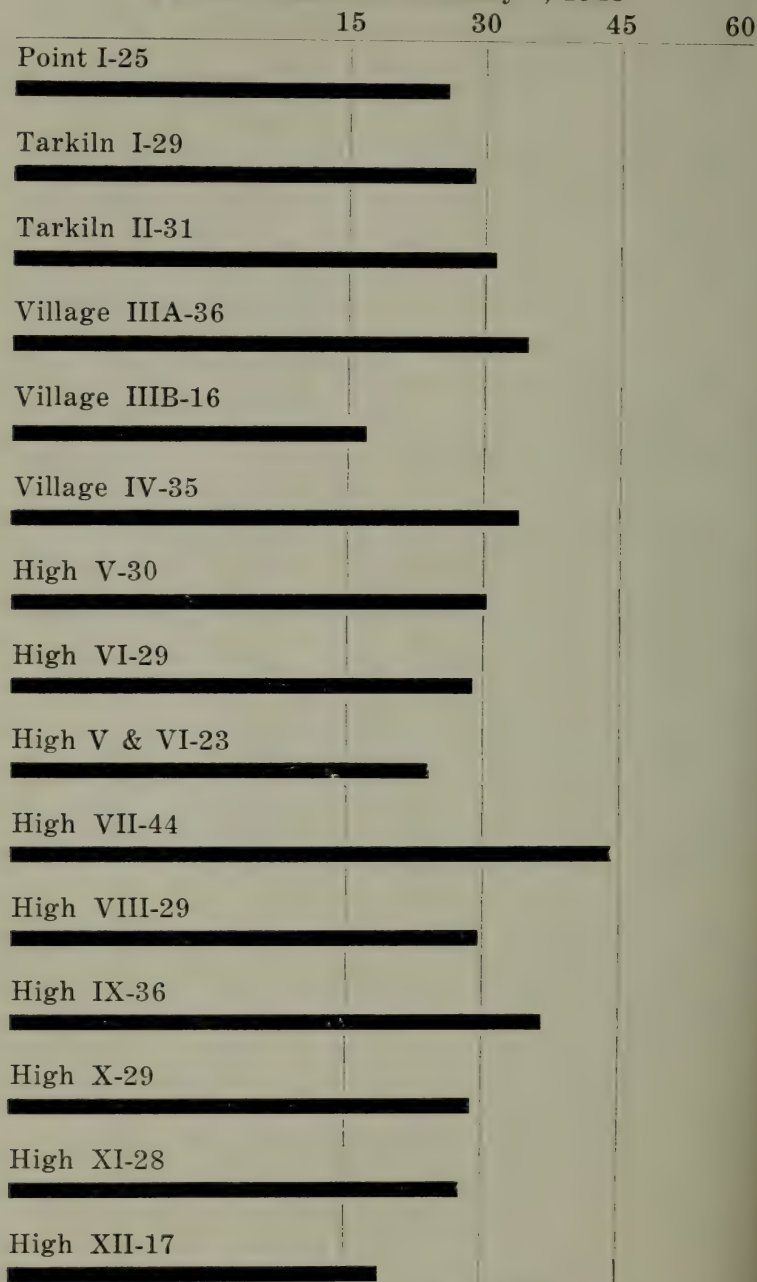

The following report of children in town and enrollment is based upon the school census taken on October 1, 1947.

	5 years and under 7 years	7 years and under 16 years

### DR. CONNIE HOLT KING

Born in Headland, Alabama, July 16, 1907

Died in Duxbury, Mass., January 22, 1948

---

After graduating from University of Tennessee, College of Medicine, Dr. Connie Holt King interned in the U. S. Navy, and then served on the staff of the Norfolk County Sanatorium in Braintree.

Dr. King moved to Duxbury in 1932. Besides his extensive local practice he was a member of the Executive Staff at the Jordan Hospital and Chief of Anesthesia there.

Dr. King was Agent for the Board of Health from 1934 to 1948. He was also an Associate Medical Examiner of Plymouth County for several years. In 1945 Dr. King was appointed a member of the Board of Cemetery Trustees.

Dr. King was very much interested in civic affairs and devoted much time to the Elementary School Building Committee.

## REPORT OF SELECTMEN

---

Fellow Citizens :

We herewith submit the Ninety-Sixth Annual Report of the officers and committees of the Town of Duxbury.

The routine business of the Town has been carried on without incident during this past year.

We have made a study of the insurance problem with the assistance of the various local agents. The four agents doing business in town appointed Mr. John T. Burns to act for them in formulating a schedule. He has been most helpful. If such a schedule is adopted it will be possible to include all insurance in a single item in the town warrant which will make it clear just what the town is paying for insurance, and also will have the additional advantage of stabilizing the yearly payments.

We have investigated the liability insurance for policemen and firemen and find that the statutes do not permit towns to carry that type of insurance on the police and fire forces, but we feel that some method can be worked out agreeable to all concerned so that these individuals will be adequately protected by some form of insurance.

Congress Street from Union Street to the Pembroke Line has been completed under the Chapter 90 program, and affords a much more direct and less hazardous route to Route 3, and we hope that the road will be used to a much greater extent in the future.

We intend to continue the Chapter 90 program in 1949, but the amount of money to be spent will be less than in 1948. The roads selected to be improved are Tremont Street between Cox's Corner and the Marshfield Line, and Church Street between Cox's Corner and Route 14. We wanted to include Autumn Avenue and Vine Street in our Chapter 90 program, but the State engineers would not consider it as these roads are not of sufficient importance to justify the expenditure of state and county funds. We intend, therefore, to place articles in the Warrant asking the town to vote on the matter of improving Autumn Avenue, and Vine and Cross Streets.

We have worked along with the Airport Commission in developing a plan for the small local airport. The State and Federal Governments are very much interested and if the town votes to proceed they will contribute 75% of the costs of construction, 50% of the cost of any land taken, and 66% of the interest if any money has to be borrowed by the town to pay its share of the costs. We recommend that the town give this serious consideration. Further details are contained in the report submitted by the Duxbury Airport Commission.

After some experimentation we believe we have arranged a desirable program for the utilization of our present facilities at Mattakeesett Court. It may be necessary to increase the Harbor Master's appropriation in order that more time may be devoted to this project.

We have also been in contact with the authorities in Washington and at the State House in regard to the improvement of the basin and channel. We hope that during 1949 funds will be made available by the state and federal governments so that the desired improvements may be completed. The town has available the sum of \$12,000.00 which was appropriated several years ago to

be used for this purpose in conjunction with the above mentioned governmental contributions.

We have received numerous favorable comments on the improved appearance of the Town Office Building since its recent coat of white paint. This year we plan to paint the Abbot House, since it seems that we will have to continue to use this building for several more years.

In pursuance of the new By-Laws the Moderator appointed the Finance Committee, and these nine men deserve our sincere thanks for the time and effort they have spent in studying the budgets and requirements of the various departments. Their recommendations to the taxpayers will be based on extensive study of town problems.

During August we requested that a survey be made of the ways and means to eradicate the Green Head Fly nuisance along the shore. The survey was made and estimates given as to the cost of this project. The survey showed that this work would also help to control the mosquito nuisance, although two additional applications of D. D. T. would be required in order to obtain the maximum control of mosquitos, as D. D. T. is devitalized in about thirty days.

The Selectmen signed the bonds issued in connection with the New Elementary School Building appropriation, and note with satisfaction that the mild autumn weather has made it possible for construction to proceed without interruption.

The Building Committee has completed the renovations at the Town Hall and the Recreation Committee will continue a recreational program. The modernization of the building has made it possible for the Boy Scouts, Cub Scouts and other groups to use the Hall to advantage.

Pursuant to the vote of the town at the Special Town Meeting in July, we have appointed two additional members to the Board of Public Welfare.

Respectfully submitted,

PHILIP W. DELANO, Chairman  
CHARLES R. CROCKER  
WALTER G. PRINCE

Selectmen of Duxbury.

REPORT OF STATE AUDITOR

---

May 6, 1948

To the Board of Selectmen  
Mr. Philip W. Delano, Chairman  
Duxbury, Massachusetts

Gentlemen :

I submit herewith my report of an audit of the books and accounts of the town of Duxbury for the year ending December 31, 1947, made in accordance with the provisions of Chapter 44, General Laws. This is in the form of a report made to me by Mr. Herman B. Dine, Assistant Director of Accounts.

Very truly yours,

FRANCIS X. LANG,

Director of Accounts.

FXL:EV

---

Mr. Francis X. Lang  
Director of Accounts  
Department of Corporations and Taxation  
State House, Boston

Sir :

As directed by you, I have made an audit of the books and accounts of the town of Duxbury for the year ending

December 31, 1947, and submit the following report thereon:

The financial transactions, as recorded on the books of the several departments receiving or disbursing money for the town or committing bills for collection, were examined and reconciled with the reports and records in the office of the town accountant.

The town accountant's ledger was analyzed, the receipts being checked with the treasurer's books and the payments being compared with the warrants authorizing them and with the treasurer's records of payments. The appropriation accounts were checked with the town clerk's records of town meeting proceedings and the recorded transfers from the reserve fund were verified. A trial balance was taken off, proving the accounts to be in balance, and a balance sheet which is appended to this report was prepared showing the financial condition of the town on December 31, 1947. An examination of the appended balance sheet shows that the town is in excellent financial condition.

The books and accounts of the town treasurer were examined and checked in detail. The receipts, as recorded, were analyzed and checked with the records of the several departments collecting money for the town and with other sources from which money was paid into the town treasury. The payments were compared with the selectmen's warrants authorizing the treasurer to disburse town funds.

The cash book additions were verified, and the cash balance on February 21, 1948 was proved by actual count of the cash in the office and by reconciliation of the bank balances with statements furnished by the banks of deposit.

The savings bank books and securities representing the investment of the trust and investment funds in the custody of the town treasurer and the Plymouth Five Cents Savings Bank were examined and listed, the income being proved and the transfers to the town being verified.

The records of tax titles held by the town were examined and the taxes transferred to the tax title account were compared with the collector's records. The payments to the treasurer were verified and the outstanding accounts were listed and proved.

The books and accounts of the tax collector were examined and checked. The taxes and motor vehicle and trailer excise outstanding at the time of the previous examination, as well as all subsequent commitments, were audited and compared with the assessors' warrants issued for their collection. The payments to the treasurer were verified, the recorded abatements were checked with the assessors' records, and the outstanding accounts were listed and proved.

The records of departmental accounts receivable were examined and checked. The commitments were proved, the payments to the treasurer were verified, and the outstanding accounts were listed.

The outstanding tax, motor vehicle and trailer excise, and departmental accounts were verified by mailing notices to a number of persons whose names appeared on the books as owing money to the town, and from the replies received it appears that the accounts, as listed, are correct.

The surety bonds of the town officials required to file them for the faithful performance of their duties were examined and found to be in proper form.

The records of licenses and permits issued by the selectmen, the town clerk, and by the police and health departments as well as those of all other departments collecting money or committing bills for collection were examined and checked, the reported payments to the treasurer being verified.

Appended to this report, in addition to the balance sheet, are tables showing a reconciliation of the treasurer's and the collector's cash, summaries of the tax, motor vehicle and trailer excise, tax title, and departmental accounts, together with tables showing the condition and transactions of the trust and investment funds.

For the cooperation extended by the town officials during the progress of the audit, I wish, on behalf of my assistants and for myself, to express appreciation.

Respectfully submitted,

HERMAN B. DINE,

Assistant Director of Accounts

HBD:EV

Animals destroyed for owners	85
Animals returned to owners	20
Lost children returned to parents	7
Committed to State hospitals	3
Summons served	32
Beach stickers issued	2,200
Clam permits issued	656
Pistol permits issued	29

Respectfully submitted,

JAMES T. O'NEIL,  
Chief of Police.

**REPORT OF FIRE DEPARTMENT**

---

January 8, 1949

To the Honorable Board of Selectmen :

Duxbury, Massachusetts

Gentlemen :

The Board of Fire Engineers submit the following report of the Department activities for the year 1948.

Our total number of runs this year was 57 :

- 9 Chimney
- 12 Buildings
- 5 Automobiles
- 9 Oil Burners
- 14 Emergencies
- 2 False Alarms
- 4 Stand-by
- 2 Outside aid

Of the 12 building fires only two were considered a total loss. Both were of incendiary origin and were beyond control when we received the call. Among the fourteen emergencies there were two successful trips with the rescue boat and four calls for the resuscitator and oxygen. This service has proved to be a great help in saving human life when we are called soon enough.

No doubt the nation has this year suffered its greatest loss of property and human life due to fire in its history.

With the continued cooperation of the citizens of Duxbury and their growing consciousness of fire prevention we hope to keep our fire losses at a minimum.

Last March we purchased a new 12 KVA Generator and had it installed at the Central Fire Station. This is one of our biggest steps forward in fire prevention and suppression. Always when we lose our electric power and telephones it is in a wind or snow storm. With this generator we are able to run our heat, lights, and, which is very important, our station radio. In this way we have communication all over town by radio and it keeps our station siren in operation. This helps all town departments.

Under the new regulations for Liquified Petroleum Gas this year, all persons using bottled gas must have a permit for same. If they will make application at the Central Fire Station, I will see that a permit is issued. These must be obtained by June 1, 1949.

Thanks again for the cooperation of the citizens of Duxbury. Remember we stand ready to answer all fire calls and any emergency. Just call the Duxbury Fire Department 333.

Respectfully submitted,

EBEN N. BRIGGS, Chief  
GEORGE S. BUTLER, Assistant  
LeROY M. PETERSON, Secretary  
KENNETH O. MACOMBER, Chairman  
HENRY M. GRISWOLD  
CARL J. SANTHESON

## REPORT OF FOREST WARDEN

---

January 8, 1949

To the Honorable Board of Selectmen:

Duxbury, Massachusetts

Gentlemen:

I herewith submit my report as Forest Fire Warden for 1948.

The total number of calls was 45:

4	Forest
11	Brush
18	Grass
10	Dump
2	Outside Aid

I am glad to report that this has been a very unusual year in the forest fire department. We have not had the usual droughts of former years. Conditions and weather have been with us.

Of our forest fires this year, we had only one of incendiary nature and that, fortunately, did not cause much damage.

This is the first year in my service as Forest Warden that I have had the good fortune to have a balance in my appropriation at the end of the year. I felt the most usable and beneficial thing I could purchase was an additional mobile radio unit. This gives us a total of three mobile units.

I feel the new wetting agent known as Drench which we have been using since June, 1947, has proved itself one of the best discoveries in the suppression of forest fires.

Again we thank the Board of Selectmen and citizens of Duxbury for their cooperation with the Forest Fire Department.

Respectfully submitted,

EBEN N. BRIGGS,  
Forest Warden.

## REPORT OF HIGHWAY DEPARTMENT

---

To the Honorable Board of Selectmen :

Gentlemen :

I herewith submit the report of the Highway Department for the year ending December 31, 1948.

One third of a mile of Alden Street was widened and resurfaced with mix and place. Hall's Corner was resurfaced with Type I. Seal coating was done, and general repairs were made on all streets throughout the town.

The usual work was done on all town landings. The parking area at Mattakeesett Court was filled in with gravel, given a penetration coat of tar and a finish coat of asphalt. Two new floats were purchased, one for Mattakeesett Court and one for Old Cove.

Several new sections were put into the Powder Point Bridge. Fences were repaired and painted, roadsides mowed and raked.

It was necessary to put in several new catch basins in various parts of the town.

We were fortunate in having Chapter 90 Maintenance money with which to rebuild the old stone bridge on Congress Street (Route 14), which collapsed last June. The remainder of the Maintenance money was used to mix and place and seal coat portions of Route 14.

Under Chapter 90—New Construction—Congress St. was rebuilt from Route 14 to the Pembroke line. The State, County and Town share the cost of all Chapter 90 work.

Respectfully submitted,

LEWIS B. RANDALL,  
Superintendent of Streets.

## REPORT OF MOTH DEPARTMENT

---

To the Honorable Board of Selectmen:

Duxbury, Massachusetts

Gentlemen:

I herewith submit the report of the Moth Department for the year 1948.

Spraying of our trees along the main streets through town this year by airplane again proved very satisfactory.

One application of the present day insecticides does the work of two or three applications used a few years ago. Exceptionally few egg clusters of the gypsy moth can be found where spray material has been applied.

The creosoting of Gypsy Moth egg clusters around all residences was completed in the fall and showed a very marked decrease in number.

The forest areas along the Kingston, Pembroke and Marshfield lines have been scouted for Gypsy Moth colonies and three were found that would cause defoliation. The scouting is still in progress with a larger central portion of town to be completed.

The Brown Tail moth situation at the southeastern end of town yielded only one nest of young moths at the time of inspection but this may have been due to a previous heavy sand storm in that area.

Respectfully submitted,

ROY E. PARKS,  
Moth Superintendent,

## REPORT OF TREE WARDEN

---

To the Honorable Board of Selectmen:

Duxbury, Massachusetts

Gentlemen:

I herewith submit the report of the Tree Department for the year 1948.

During the past year we have concentrated our work on the elm trees along the streets in all sections of town. These trees have received two and three sprays of D.D.T. and we are in hopes that this, with the elimination of dead wood will ward off the European Bark Beetle, which is the carrier of the dreaded Dutch Elm Disease. The elms appeared to be in such good condition during the summer that no test samples were sent in to the State University for culture. If we can maintain our present help, we should have all our elm trees along the streets cleaned up this coming season.

Several large elms were taken down during the year but for other reasons than Dutch Elm Disease.

Where necessary, the trees along the streets were sprayed for Tent Caterpillar and Fall Web worms.

We have started a Town tree nursery and have to date 20 maple trees, 5 oaks and a donation of 16 Flowering Dogwood trees by two public spirited citizens.

Respectfully submitted,

ROY E. PARKS,  
Tree Warden.

## REPORT OF BOARD OF HEALTH

---

Board of Health

Duxbury, Massachusetts

Gentlemen:

I herewith submit my annual report as Agent for the Board of Health.

With the exception of a mild epidemic of measles in June and July, the general health of the town was good throughout the past year. Contagious disease statistics were as follows:

Measles	84
German Measles	1
Mumps	8
Scarlet Fever	2
Chicken Pox	1
Syphilis	1
Dog Bite	5

The School Dental Program which was so successful last year was increased in scope this year by using both local dentists. Also at the beginning of the program this year each child was given as complete an examination as possible with our facilities so that work could be done first on those children who needed it most.

The Board of Health attended to all menaces to the public health. We fortunately missed the job of disposing of the Kingston 'whale' by a matter of a few hundred yards.

Tourist camps and eating establishments were inspected before being licensed. We are grateful to the State Board of Public Health for their fine cooperation and their inspection of sanitary and water supply problems as requested.

Respectfully submitted,

GEORGE ROSS STARR, Jr., M.D.

Agent.

## REPORT OF THE BOARD OF PUBLIC WELFARE AND BUREAU OF OLD AGE ASSISTANCE

---

To the Honorable Board of Selectmen  
and Citizens of Duxbury:

Greetings:

November 24, 1948 the Selectmen appointed Messrs. Stanley H. Merry and Robert Seymour to the Board of Public Welfare, to serve until the March 1949 Election of Officers. This was in accordance with the vote of the July 1948 Town Meeting to increase the Board from three to five members.

Public Welfare is not something new, it can in fact be traced back to the English Poor Relief Act of 1601. When the Plymouth and Massachusetts Bay Colonies were joined to form the Province of Massachusetts Bay in 1692, the General Court in that year enacted a poor law which was, of course, borrowed directly from the English Poor Law.

The Act of 1692 provided that every town within the state should support all poor and indigent persons. This act further provided "that the kindred of any such poor person, if any he shall have, in the line of degree of father or grandfather, mother or grandmother, children or grandchildren, by consanguinity, living within the state of sufficient ability, shall be holden to support such pauper, in proportion to such ability." Thus, for a period of 256 years, or since 1692, there has been no change in the relations named as responsible for the support of their indigent kin.

Since the enactment of the Massachusetts Old Age Assistance Law, July 1, 1931, there have been many

amendments passed by the Legislature bearing on the amount of assistance, the responsibility of children to support their parents, residence requirements, property and insurance matters as well as the type and number of personnel in the welfare offices.

These many changes not only make the work of the respective Boards of Public Welfare in the various towns constantly more difficult but has also greatly increased the cost. It would seem appropriate to point out that your Board has very definite responsibilities in administering the welfare program to make sure that the investigating process should include an investigation of the ability of any member of the recipients family to contribute in whole or in part to his (her) support, the responsibility of receiving aid from other relatives, the possibility of compelling contributions from any person under obligation to do so.

Your Board accepts those responsibilities and has diligently pursued its investigation to see that all recipients are worthy cases entitled to relief under the laws of the Commonwealth. Your Board would like to point out, that its authority is limited in scope as to amounts paid under certain relief categories and that in this respect it must follow the regulations laid down by the Department of Public Welfare of the Commonwealth of Massachusetts. A recent example of this is an increase of 8.3% in family budgets as required by the laws of the Commonwealth.

There was voted at the March 1948 Town Meeting \$27,000.00 for Old Age Assistance; \$9,200.00 for Aid to Dependent Children and \$11,000.00 for General Relief. The amounts approved for Old Age Assistance and Aid to Dependent Children were insufficient to meet the needs and your Board was forced to ask the July 1948 Town

Meeting to approve additional amounts of \$10,388.75 for Old Age Assistance and \$4,763.31 for Aid to Dependent Children. These amounts were approved by the Town Meeting.

## OLD AGE ASSISTANCE

Old Age Assistance is a type of aid that is granted to citizens, 65 years of age or over, in need of public assistance. It is not a pension although erroneously referred to as such by many.

The funds available and expenses of Old Age Assistance for 1948 are as follows:

### AVAILABLE FUNDS

Town Appropriation	\$37,388.75
1947 Balance Federal Grants	
Aid	241.51
Adm.	78.14
1948 Federal Grants, Aid	20,685.32
1948 Federal Grants, Adm.	610.79
Cancelled checks	710.28
	<hr/>
	\$59,714.79

### EXPENSES

Administration	\$1,632.17
Cash Aid	51,834.75
Payments, Other Towns	2,470.40
Balances:	
Town Appropriation **	627.13
Federal Grants	3,150.34
	<hr/>
	\$59,714.79

\*\*Note. These funds are not available to the Board of Public Welfare for 1949 but are credited to the Town's general funds.

Active cases January 1, 1948	73
Cases closed during the year	19
Cases opened during the year	16
Active cases December 31, 1948	70
Average monthly number of persons	72
Average monthly cost	\$4,259.54
Average monthly cost per person	59.16

### AID TO DEPENDENT CHILDREN

Aid to Dependent Children is a type of public assistance granted for the care of a dependent child under the age of sixteen, or under the age of eighteen if found to be regularly attending school, who has been deprived of parental support or care by reason of death, continued absence from home or physical or mental incapacity of parent, and who is living with his father, mother, grandfather, grandmother, brother, sister, stepfather, stepmother, stepbrother, stepsister, uncle or aunt in a place of residence maintained by one or more of such relatives as his or their own home whether or not they or any of them have a settlement within the Commonwealth. Each case aided must be visited in the home at least once every three months, and the individuals resources and needs are reviewed and adjusted by the Board as necessary.

The funds available and expenses of Aid to Dependent Children for 1948 are as follows:

### AVAILABLE FUNDS

Town Appropriation	\$13,963.31
1947 Balance Federal Grants	
Aid	757.53
Adm.	17.21

1948 Federal Grants, Aid	3,239.70
1948 Federal Grants, Adm.	277.30
	<hr/>
	\$18,255.05

## EXPENSES

Administration	\$781.08
Cash Aid	13,493.65
Balances:	
Town Appropriation **	3,421.99
Federal Grants	558.33
	<hr/>
	\$18,255.05

\*\*Note. These funds are not available to the Board of Public Welfare for 1949 but are credited to the Town's general funds.

Active cases January 1, 1948	9
Cases closed during the year	3
Cases opened during the year	1
Active cases December 31, 1948	7
Average monthly number of families	8
Average monthly number of individuals	36
Average monthly cost	\$1,124.47
Average monthly cost per family	139.11
Average monthly cost per individual	30.95

## GENERAL RELIEF

General Relief is a type of public assistance that would not fall under either Old Age Assistance or Aid to Dependent Children, it is almost always of a temporary nature. There is no reimbursement from the federal government in this category, however, the Commonwealth does reimburse the Town 100% on all cases having no

settlement within the Commonwealth (a "settlement" refers to legal residence as defined by Chapter 116 of the General Laws.)

The sum of \$11,000.00 voted at the March 1948 Town Meeting to carry on the work in this category was not sufficient so your Board had to request the Finance Committee to transfer \$321.07 from the Reserve Fund to meet the emergency needs for the balance of December. This amount was still insufficient to cover all outstanding expenses and \$147.07 is still needed to fulfill our 1948 obligations.

The funds available and expenses of General Relief for 1948 are as follows:

#### AVAILABLE FUNDS

Town Appropriation	\$11,000.00
December transfer from Reserve	321.07
Unpaid 1948 expenses	147.07
Cancelled check	16.75
	<hr/>
	\$11,484.89

#### EXPENSES

Administration	\$1,888.24
Family maintenance	1,631.21
Medical	1,353.91
Cash allowance	5,556.25
Burial	50.00
Other Towns	551.05
Institutions	290.21
Unpaid bills	147.07
Unexpended	16.95
	<hr/>
	\$11,484.89

Total number of cases handled	162
Average number of cases per month	13.5
Average monthly cost	\$712.55
Average monthly cost per case	52.77

Last year there were many requests from the citizens for the actual net cost to the Town. Your Board has prepared the following table showing the net cost for the year 1948 in all three categories.

**Total Expense**

O.A.A.	\$55,937.32	
A.D.C.	14,274.73	
G.R.	11,467.94	
		\$81,679.99

**F.G. Aid**

**Reimbursements**

O.A.A.	\$21,394.06	
A.D.C.	3,250.40	
G.R.		
		\$24,644.46

**F.G. Administration**

**Reimbursements**

O.A.A.	\$1,163.98	
A.D.C.	403.65	
G.R.		
		\$1,567.63

**State**

**Reimbursements**

O.A.A.	\$21,764.47	
A.D.C.	4,497.54	
G.R.	1,961.21	
		\$28,223.22

**Other**

**Reimbursements**

O.A.A.	\$923.26	
A.D.C.		
G.R.	2,206.12	
		\$3,129.38

**Cost to Duxbury**

O.A.A.	\$10,691.55	
A.D.C.	6,123.14	
G.R.	7,300.61	
		\$24,115.30

From the above figures it is pointed out that the net cost to the Town is only 29.5% of the total expenditure.

## FORECAST FOR 1949

After a very diligent study of conditions, your Board cannot find any reasonable indices to anticipate that the number of relief cases to be handled in 1949 will be less than in 1948. Due to the aforementioned increase of 8.3% in family relief budgets, your Board anticipates that the amounts to be expended on relief in 1949 will be somewhat higher than in 1948. However, due to an increase in the amount of Federal Grants, the Board is asking the Town Meeting to vote an appropriation of \$58,500.00 which is \$3,852.06 less than was voted and approved for 1948.

Your Board desires to point out that there are a great many Bills pending at both the Federal and State levels pertaining to Public Assistance. If passed they will increase the cost of public welfare by unestimated thousands of dollars in so far as Duxbury alone is concerned. Your Board is in no position to forecast the final action of the United States Congress or the State Legislature and has made no provisions in its estimate of 1949 costs for the passage of any of these Bills.

The 1949 budgets are made up as follows :

	Old Age Assistance	Aid to Dependent Children	General Relief
Administrative Expense	\$2,772.97	\$961.64	\$1,353.39
Cash Aid	55,356.48	14,614.02	8,163.20
Other Towns	2,000.00		1,150.00
Food			1,249.25
Clothing			86.25
Medical			1,599.53

Burial			115.00
Institutions			805.00
Total	\$60,129.45	\$15,575.66	\$14,521.62
Less Federal Grants	27,306.49	4,493.32	
Balance	\$32,822.96	\$11,082.34	\$14,521.62
Appropriation Needed	\$32,850.00	\$11,100.00	\$14,550.00

The Commonwealth of Massachusetts reimburses the Town on standard formulas in all three categories, but as the monies are credited to the Town's general funds and are not available to the Board of Public Welfare, they are not deducted from the budgets shown in this report. However, assuming that there will not be any material changes in the classifications, it is probable that the net cost to the Town will not be over approximately \$26,616.88 equal to 29.5% of the estimated total expenditures in all three categories.

The undersigned wish to again express their appreciation to the citizens of Duxbury for their continued cooperation. If you have any questions, your Board will gladly furnish you with any information, provided it is not pertinent to any individual being aided.

Respectfully submitted,

BARBARA S. MULLOWNEY, Chairman  
 STANLEY H. MERRY  
 SARAH A. STANNARD  
 CARL J. SANTHESON, Jr.  
 ROBERT SEYMOUR

Board of Public Welfare  
 Bureau of Old Age Assistance

## REPORT OF THE SUPERINTENDENT OF CEMETERIES

---

To the Cemetery Trustees:

I submit my report for the year 1948. Again the general work was done. The dead wood was pruned from the trees and several dead trees were removed.

The leaves were raked, the Avenues and walks edged and cleaned.

Ashdod and Dingley Cemeteries were cared for and the fence at Dingley repaired and painted, so were the guns and fence at Standish Cemetery.

At all the Cemeteries the signs were repaired, painted and relettered.

Perpetual and Annual care lots were cared for. There were forty-eight interments this year.

Respectfully submitted,

LAUREL B. FREEMAN,  
Superintendent of Cemeteries.

## REPORT OF CEMETERY TRUSTEES

---

To the Honorable Board of Selectmen  
and the Citizens of Duxbury:

We submit the following report for the year 1948.

The report of the Superintendent of Cemeteries has been received and is made a part of this report.

A careful study of the various parts of the cemetery work has been made and some increase in charges appear necessary. These have been made and the Annual Care charge has been increased to \$5.00.

We continue to urge that all lots be placed in Perpetual Care. Where this is not possible at once, a clause in each one's Will should provide for this. It is hoped in this way to have all lots possible cared for and maintain a good appearing cemetery at a nominal cost to the Tax-payers.

We ask that \$9,699.00 be appropriated for the use of the Cemetery Department.

Respectfully submitted,

HARRY A. TAMMETT, Chairman  
J. NEWTON SHIRLEY, Secretary  
ERNEST H. BAILEY  
EDWARD P. HOBART  
STANLEY W. JOHNSON

## REPORT OF PARKS AND PLAYGROUND COMMITTEE

---

To the Honorable Board of Selectmen :

Duxbury, Massachusetts

Gentlemen :

We submit herewith a report of the Parks and Playground Committee for the year 1948.

During the season we have maintained the playground at Train Field and built up the ball diamond by adding considerable loam.

The two tennis courts were repaired and resurfaced with clay. These courts are now used by the school children and residents of the town.

Respectfully submitted,

ROY E. PARKS, Chairman  
ANNIE E. DUNHAM  
CHARLES R. CROCKER

## REPORT OF PUBLIC HEALTH NURSE

---

To the Honorable Board of Selectmen :

Gentlemen :

I submit herewith the report of the Public Health Nurse for the year 1948, for services rendered under the town appropriation which pays the salary of the nurse for this purpose.

Classification	Cases	Visits
Bedside visits		
Old Age Assistance	7	196
Aid to the Blind	1	1
General Relief	1	1
Instructive visits		
Contagious Disease	5	9

**REPORT OF LIBRARIAN**  
**DUXBURY FREE LIBRARY, INC.**

---

To the Honorable Board of Selectmen :

Duxbury, Massachusetts

Attendance at the Duxbury Free Library for the year 1948 reached the figure of 9,153. The system of checking at the desk, though quite accurate, unavoidably fails to record every visitor, so that the total is always somewhat greater than our official list.

Books acquired through purchase and gift came to 775. This is less than usual, due to the inflation of the book market which shows no signs of dropping its prices. The Library's book budget was exhausted before the end of the year and no books were bought during Nov. and Dec. Until prices do return to a more reasonable level acquisitions will not approach the figures of previous years.

The Library building is greatly in need of certain repairs, especially in relation to its roofing, and walls damaged by leaks. The lighting system was improved by the addition of new fixtures in the basement, the Biography room and the rear of the Rotunda. The old and too heavy sign, broken by several falls, was replaced by a new one stating the hours of service. It hangs at the entrance to the grounds.

For the information of new patrons all fiction is shelved on the first floor. The basement, open to the public like the rest of the Library, has several thousand volumes of non-fiction; music, art, history, travel, philosophy, religion, psychology, genealogy, political economy, etc., etc.

New patrons to the number of 144 were given users' cards during the year, an important fact and a record I believe.

At the regular Annual Meeting Mr. Bartlett B. Bradley was unanimously elected Treasurer of the Library Corporation to fill the vacancy caused by the resignation of Mr. William H. Young, who has so efficiently served the Board for many years.

Respectfully submitted,

FISHER AMES,  
Secretary and Librarian.

# REPORT OF THE TREASURER OF THE DUXBURY FREE LIBRARY, INC.

Uninvested Principal January 1, 1949	\$379.91

Respectfully submitted,

BARTLETT B. BRADLEY,  
Treasurer.

## REPORT OF THE TOWN HISTORIAN

1948

---

Interest in the early history of Duxbury often leads us to forget its recent interesting places, persons and events. An informal talk to the pupils of our public schools showed that our children are very much alive, not only to our Pilgrim history, but to the events and persons of Duxbury in the making.

In a paper which bears the title "The Memories of An Octogenarian", Mr. Herbert Walker has preserved for us some of the names and places which fill the gap between our ancient and modern days. He has kindly given me permission to quote from his paper which deals with the Millbrook Neighborhood.

"With the passing of time names once in common use have been given up. I think it probable that if I should use the names Hound's Ditch, Arnold's Brook, Peg Road, Gallows Gate Hill, The Boarding House, Windmill Hill, The Constant Southworth House, The Herring Wier, I should be asked where these places were."

"The church service at the time of my earliest recollection was very simple. The music was almost wholly of hymns and there was no responsive reading. In fact the congregation had little to do but join in the hymns and listen."

"Harrison Street was named for President Harrison, the hero of Tippecanoe."

"On the corner of Tremont and Alden Streets is the house of Major Judah Alden. The older generation always spoke of Alden Street as 'The Major's Pasture'."

"At the Simmons House on West Street (Route 14 to automobilists) is a road leading to North Duxbury or Crooked Lane. This road crosses Peg Road, now Church Street, and farther on the Herring Weir."

"Near the Duxbury pumping station is Crab Island with the Constant Southworth House. Governor Bradford married for his second wife the widow of Constant Southworth."

"FORD'S STORE. The peculiar appearance of the structure was caused by adding buildings to it. A blacksmith's shop which stood opposite the site of Legion Hall was the last to be added. The last sign of the Ford's bore the legend Nathaniel Ford and Sons, Eng. and W. I. Goods, which I have been told was painted by Jacob Burgess. When I was a boy I never thought of the full meaning of W. I. Goods. Recently I read that the foundation for many a snug fortune was laid in the trade of W. I. Goods."

"Among noted people whom I remember to have seen in Ford's Store was Miss Adelaide Phillips the contralto singer whose home was in Marshfield."

---

#### THE CHRISTMAS WAS WHITE.

WALTER R. HUNT,  
Town Historian.

## REPORT OF SHELLFISH CONSTABLE

---

To the Honorable Board of Selectmen:

Duxbury, Massachusetts

I respectfully submit my report as Shellfish Constable for the year 1948.

Because of the snow and ice there was no digging of shellfish in the bay until February 3rd. On that date the razorfish digging commenced and three to five men dug razorfish throughout the year.

Twenty to twenty-two men dug quahaugs, mussels, sea-worms, and a few clams during the summer and fall months.

There is a fair amount of small razorfish and quahaugs in the bay, and there are small sets of seed clams in different closed areas. One hundred forty and a half bushels of seed clams were planted in the closed areas in the bay. This work was done in cooperation with Mr. Charles L. Wheeler of the State Department of Marine Fisheries, at a cost of \$327.81 for the clams and \$45.00 for labor of planting clams.

Mr. Wheeler, a graduate Biologist of Harvard University, has worked for the National Museum in Washington, has had six years experience as a shellfish biologist for the Woods Hole Oceanographic Institute, and was recently appointed Biologist for the State Department of Marine Fisheries. Mr. Wheeler has shown his willingness to cooperate with the towns and to assist the shellfish industry in its uphill struggle for existence.

Twenty-nine Commercial permits at \$2.50 were issued total \$72.50. Nine Hundred Thirty-eight family permits, thirty of which were free to people seventy years of age and over, and the remainder at 25 cents each, were issued during the year — total \$227.00.

Following is the record of shellfish and seaworms taken commercially during the year:

1400 bushels of quahaugs @ \$2.25	\$3,150.00
49 bushels of quahaugs @ \$4.00	196.00
550 bushels of quahaugs @ \$2.00	1,100.00
75 bushels of quahaugs @ \$3.00	225.00
39 bushels of clams @ \$6.00	234.00
30 bushels of clams @ \$7.00	210.00
51 bushels of clams @ \$5.00	255.00
15 bushels of mussels @ \$2.00	30.00
29 bushels of seaclams @ \$4.00	116.00
484 bushels of razorfish @ \$4.00	1,936.00
318 bushels of razorfish @ \$7.00	2,226.00
9164 seaworms @ .05 apiece	458.20
	<hr/>
	\$10,136.20

Forty-three notices were sent grant holders requesting a report of the amount of work done on grants. There were 1,096 bushels of quahaugs and 59 bushels of clams planted on grants this year. Forty-three Annual Fee forms were sent out, and \$64.50 collected in Annual Fees from grant holders. During the year six clam grants were cancelled.

Three clam grants were issued at \$5.00 during the year, making a total of \$30.00.

Numerous signs were made and put up along the shore and two dories were found and returned.

Respectfully submitted,

HENRY P. McNEIL,  
Shellfish Constable.

## REPORT OF PLANNING BOARD

---

December 31, 1948

To the Honorable Board of Selectmen

and Citizens of Duxbury:

In accordance with the vote of the Town at its annual meeting held March 6, 1948 and adjourned to March 20, 1948, the Planning Board took steps to get the approval of the Attorney-General to the amendment to the Protective By-Law so that paragraph (a) of Section 8 shall henceforth read as follows: "Section 8. ADMINISTRATION. (a) Enforcement. This By-Law shall be enforced by the Board of Selectmen, either directly or by an inspector appointed by them; and upon any well founded information as to a violation, the Board shall take immediate steps to enforce this By-Law in any manner provided by law. No person shall erect or externally alter a building or other structure in this town without a permit from the Selectmen granted upon application made to them upon a form prescribed by them. If the Selectmen find that the construction, location and proposed use of the building or structure to which the application relates in the place specified in the application are authorized by this By-Law, they shall grant such permit; otherwise, they shall refuse it." The Board consulted with Mr. Philip Nichols, Attorney, who obtained the approval of the Attorney-General's office to the amendment substantially as drawn up for the Planning Board by Mr. Nichols.

**PARKING.** Your Board feels that "parallel parking" on the easterly side of Standish Street at Hall's Corner has helped. We believe that if it is made more obvious to strangers that a Rotary exists at Hall's Corner, perhaps by large letters on the roadbed, the situation would be im-

proved still further. We have recommended that. The Board will continue to have the matter in mind and try to recommend other methods of relief.

**MASTER PLAN AND BUILDING CODE.** A master plan for Duxbury with the idea of preserving what we have, rather than creating the new, is considered by many people to be of value. The same may be said of a building code. While we concur in this opinion, we feel that a considerable amount of town planning is possible within the existing town departments at little expense. Master plans and building codes cost money and we do not at present see a benefit to Duxbury commensurate with the cost. If the Town indicates by vote that they want these, we will, of course, develop them.

**PEST CONTROL.** We are in sympathy with this movement. One of our members has made a study and turned over to the Selectmen data bearing on the subject. We recommend that the Selectmen be empowered to take appropriate action. -The elimination or substantial reduction of mosquitos, gnats, ticks, etc. will make our town a much better place to live. Other towns are doing it.

Zoning in the ordinary sense of the word is, perhaps, the main consideration of your Board. The good cooperation of the Selectmen is greatly appreciated.

Miss Mary N. Gifford decided to retire from the Planning Board and her successor was elected last March. Miss Gifford's keen interest in the welfare of Duxbury and her accurate appraisal of situations calling for good judgment have been of great help to the Planning Board and benefit to the Town.

Respectfully submitted,

OLIVER H. BARKER  
KENNETH G. GARSIDE  
ARTHUR H. MURPHY  
MARGARET W. ROGERSON  
PERCY L. WALKER

## REPORT OF WORLD WAR MEMORIAL COMMITTEE

1948

---

Your War Memorial Committee came into being as a result of a vote by the Town at the Annual Meeting in 1946, directing the appointment by the Moderator of such a committee charged with proposing to the Town an idea for a "permanent and useful" War Memorial. The Committee was organized and commenced its work in May of that year.

At the Town Meeting of 1947 the Committee was prepared to report on the various proposed memorials which it had considered, and was prepared to submit in detail the plan of a Memorial Recreation Area at the beach end of the Gurnet Bridge as being in its opinion the most useful, practical, and suitable for the Town of Duxbury. A report was given in the Town Report issued at that time and committee members elaborated upon the plan on the Town Meeting floor. The suggestion of the Committee was favorably acted upon by the Town and the Committee was continued and directed to consult with the Trustees of the Duxbury Beach Association to the end that the Town might be able to acquire sufficient land at the beach for such a recreation area.

The Duxbury Beach Association, although frankly satisfied to leave their management of the beach undisturbed, consented to work out an agreement which might fulfill the wish of the Town. Your Committee, knowing the often demonstrated public spirit of the Trustees, felt much encouraged and willingly gave serious consideration to the proposal of the Trustees that a charitable trust might be

formed to control and develop the area similar to the type of trust controlling the Public Library. The Trustees of the Beach Association took the position that outright conveyance to the Town by gift or sale without a previously established vehicle for control did not sufficiently protect the obligations imposed upon them by the trust agreement of 1919 under which that Association operates.

Referring the matter to the Town Counsel for research revealed that charitable trust arrangements similar to the Public Library trusteeship were authorized by statute for Library purposes solely and exclusively. Therefore the Town could not accept or appropriate money for the development of property conveyed to such a quasi - public vehicle as had been contemplated. The Beach Trustees suggested special legislation to overcome these obstacles and permit such an operation for Duxbury. However, when this proposal was referred to Mr. Tilden, our Representative in the General Court, for his advice, he replied, after consultation with the Assistant (Acting) House Counsel, that the time was not opportune for consideration of such legislation, because it might "stir up" those groups anxious for State control.

This point had been reached at the time of the last Annual Town Meeting. Your Committee still felt that a compromise solution suitable to the Town and Trustees was possible and imminent, for we were assured that the matter would be referred to the Counsel for the Beach Association for him to determine just how far the Trustees might bend and still feel they were fulfilling their charge under their trust agreement. At that Annual Meeting the Committee was charged to continue talks with the Trustees.

Your Committee took the position that the advice of Mr. Tilden should be accepted and no move for Special Legislation made until after Town ownership was an es-

tablished fact. It suggested that the Recreation Area could be best entrusted to the care of a Town Department known as Trustees of Soldiers Memorials (provided for in Section 105, Ch. 41, G. L.). These Trustees would be elected in the same manner as our present Cemetery Trustees and could control and develop the beach as a War Memorial. Your Committee asked the Trustees of the Beach Association if they would convey by gift or sale the desired portion of the beach, if the Committee were to recommend such a set up for its operation and development. The Trustees of the Beach Association were adamant in their position, and it is their right as the property owners so to be. They will not—they feel they cannot—assent to transfer of the property to the Town without outright guarantee by Legislative Act that the Town will have unquestionable authority to restrict use of the parking area to resident vehicles. There plainly is no such hard and fast guarantee by statute, although your Committee has felt strongly that the Town can (by scheduled use and /or charging of fees) accomplish this for all practical purposes. Possibly this protracted negotiation seems like legalistic quibbling but your Committee, mindful of its position as representative of the Town and unwilling to prejudice any interest of the Town in acquiring property to be dedicated to so high a purpose, and the Trustees feeling irrevocably bound by a trust agreement and unwilling to risk a chance that the letter or spirit of that agreement be broken by any prospective owner, have reached a position where it becomes impossible for Duxbury to acquire the necessary stretch of beach by gift or unrestricted transfer for any consideration.

It is the regret of your Committee to have to inform the Town that it can acquire the beach, to carry out the idea your Meeting has twice approved, only if it wishes to obtain the property under right of eminent domain (G. L. Ch. 79). This would not be an action desired by the Duxbury Beach Association Trustees. The assessed value of

the desired tract of beach is low, the commercial possibilities are limited and therefore so taken (eminent domain) any price the Town might be found required to pay should be small.

The decision rests with the Town. If Duxbury still desires to dedicate a section of her beach to sacred memory and to develop that area for the greater enjoyment of the many who owe such a debt to the few, it can obtain the Beach and carry out this Memorial project. If on the other hand Duxbury does not desire to take action strongly disapproved by the Trustees of the Beach Association, or after careful consideration, in the light of what other towns have accomplished in the Memorial field, now believes another type of Memorial more suited to its desires, the Beach project should now be closed.

Respectfully submitted,

PHILIP W. DELANO, Chairman  
FISHER AMES, Secretary  
MRS. ARTHUR T. CHASE  
STANLEY H. MERRY  
PAUL N. SWANSON  
WALTER R. HUNT  
FRANCIS W. PERRY

War Memorial Committee.

## REPORT OF PLYMOUTH COUNTY EXTENSION SERVICE

1948

---

The Plymouth County Extension Service is an educational organization jointly promoted by the County of Plymouth, University of Massachusetts, and the United States Department of Agriculture. Agriculture, Home-making and 4-H Club Work, make up the three departments within the Extension Service. In addition to general educational programs through meetings, circular letters, and publicity by newspaper and radio, individual visits are made to promote rural welfare, particularly as it is affected by agriculture.

The contribution of each town goes directly to the county treasury, where it is applied to the County Aid to Agriculture budget. The manner in which the Extension Service projects are conducted does not make it possible to segregate these funds for town use exclusively. However, sums much in excess of those appropriated in each town are expended through direct and indirect approach to many town problems.

Furthermore, the Extension Service, realizing its obligation to the tax-paying public, takes particular care in making plans so that every town has equal opportunity to participate in its programs.

Guidance of the Extension Service is by a Board of nine Trustees who report to the Board of County Commissioners. Each Department has an Advisory Council represented by the Agriculture Council, the Women's Advisory Council, and the 4-H Advisory Committee.

## Statistical Summary of Achievements

## REPORT OF COMMITTEE ON AIR PORTS

---

To the Honorable Board of Selectmen:

The committee investigation into "the advisability of promoting a project for an aviation and landing field, and the possibilities of securing State and Federal Aid with or without the cooperation of other towns" has resulted in two separate investigations; i.e., the proposed Marshfield airport as one, and the possibilities of an Airport within the town as the other.

It is the opinion of the committee that a class one airport (this is the smallest class) within each town is more useful to its citizens than a class two or three, serving several towns. Therefore, the committee recommends that the town should not consider the proposed Marshfield airport as a possibility.

As a result of the second part of the committee's investigation, it recommends an airport to be located on the western side of Route 3 between Birch Street and Autumn Avenue.

The Massachusetts Aeronautics Commission and the Commission of Aeronautics Administration have approved this area for an airport and approved the site for a class one airport.

The proposed airport includes a single runway 2600 feet long by 300 feet wide with a paved surface 150 feet wide. The direction of the runway is approximately southwest to northwest. A parking area for automobiles and a parking apron for planes will be constructed. Buildings and facilities will be constructed and installed by the airport operator. The single runway airport was recommended by the Massachusetts Aeronautics Commission. This type

of airport has proven to be adequate in other towns such as Provincetown. It is much less costly to construct than the two runway airport.

The Massachusetts Aeronautics Commission recommended that the title, Airport Committee be changed to the Duxbury Municipal Airport Commission in order to prepare the town in its eventual dealings with the State and Federal governments. This change will in no way obligate the town or alter the functions of the committee until the town funds are actually appropriated for Airport purposes. On 23 August 1948, the Selectmen created the Duxbury Municipal Airport Commission to take the place of the Duxbury Airport Committee.

The construction cost for the proposed airport is \$85,000.00. On 3 September 1948, the commission filed an application for State and Federal funds. The cost distribution would be approximately as follows:

\$42,500.00 — Federal Government — 50% of the total cost.

\$21,250.00 — State Government — 25% of the total cost.

\$21,250.00 — Town of Duxbury — 25% of the total cost.

The Massachusetts Aeronautics Commission notified the Town on January 5, 1949 that funds were available for the proposed Duxbury Airport provided the Town would be willing to act upon it at the 1949 Town Meeting.

The commission will arrange to have an article in the warrant asking the town to vote the money necessary to construct this airport.

Respectfully submitted,

BARCLAY J. WOODWARD, III  
IRVING H. LOCKE  
OLIVER L. BARKER  
ROBERT STANTON FOX  
RICHARD C. PRINCE

## REPORT OF THE FINANCE COMMITTEE

---

This completes the first year of your Finance Committee as a separate Department. The duties of the office were strange to the entire Committee at the outset. However, we feel we have made good progress in developing practices and procedures which will enable this Committee, in its advisory capacity, to be of genuine service to the Town.

Organization was accomplished in early May and monthly meetings were generally held thereafter. Pressure of personal business made it necessary for Mr. Reed of the original Committee slate to resign and Mr. Nelson was appointed by the Moderator to fill the vacancy.

Prior to the Special Town Meeting of last July your Committee held a public hearing on all articles appearing in the Warrant for the meeting. As a result of information gained we were able to report our recommendations to the Town Meeting. The fact that our advice was seemingly well considered by the Town was a source of gratification. Our budget recommendations will accompany the published copy of the Warrant for the 1949 Annual Town Meeting.

Statute invests the authority for disbursement, through transfer, of the Reserve Fund with the Finance committee. This is the Fund appropriated to provide for "extraordinary or unforeseen" expenditures which can cause any Department to exceed its particular appropriation. During the past year the following transfers were made:

Election and Registration	\$ 64.30
Department of Public Welfare	321.07
Police Protection Department	839.87

Fire Protection Department	300.00
Snow and Ice Department	300.00

In 1948 the sum of \$3,000.00 was appropriated for this Fund.

The Committee expresses its thanks to the other Departments for whole hearted cooperation in assisting us to obtain the necessary information upon which we can base our recommendations to the Town. Special thanks are due the Board of Selectmen for their assistance in getting information to us in advance of the legal requirements, and other helpful consideration.

Respectfully submitted,

FRANCIS W. PERRY, Chairman  
 CLARENCE W. WALKER, Secretary  
 HOWARD M. CLARK  
 CHARLES L. ECKERSLEY  
 WILLIAM W. McCARTHY  
 HERBERT R. NELSON  
 PAUL C. PETERSON  
 CARLTON H. SCHÄFFER  
 HARRY F. SWIFT

## REPORT OF BOARD OF APPEALS

---

To the Honorable Board of Selectmen:

Gentlemen:

The Board of Appeals held eighteen public hearings on petitions for variances of the Protective By-Law. One of these was withdrawn before the close of the hearing, and of the other seventeen, thirteen were granted and four refused. In making its decisions the Board endeavored to act in accordance with the intent and purpose of the By-Law. Of the thirteen petitions granted only two encountered any opposition at the well attended public hearings and the opposition was of minor importance in the opinion of the Board.

Respectfully submitted,

WILLIAM B. COFFIN, Chairman  
H. RUSSEL CHANDLER  
KENNETH O. MACOMBER

## REPORT OF HARBOR MASTER

---

To the Honorable Board of Selectmen :

Gentlemen :

During the year 1948 we have had 42 moorings in the basin. Most of the yachts were large ones. There were :

Two yachts 83 feet long

Two schooners 35 feet long

4 Cabin cruisers 40 feet

6 Cabin cruisers 20 feet

10 Cabin cruisers 26 feet

4 Cruisers 20 feet

and a large number of 10 and 12 foot boats moored on the edge of the basin.

This summer we had to anchor visiting yachts in the channel as the basin was not large enough or deep enough to accommodate them. In 1939 the basin was dredged and was 900 feet wide and 1,200 feet long, with a depth of 6 to 8 feet at low water. In 1948 it has filled in one-third and the water is only three feet deep at low tide.

Respectfully submitted,

SARGENT C. BLACK,  
Harbor Master.

**REPORT OF VETERANS AGENT**1948

---

To the Honorable Board of Selectmen :

Duxbury, Massachusetts

I respectfully submit my report as Agent for the Department of Veterans Benefits, for the year 1948:

During the year we have had a total of ten cases, representing thirty-eight persons, who received ordinary benefits.

All cases were investigated frequently to make certain of their need.

We have filed federal pension claims for two, so as to cut down our expense.

One case suspended from receiving ordinary benefits as the recipient was found ineligible.

I attended lectures and Veterans Administration classes so I would be able to assist the Veterans and their dependants, and I gave out numerous forms and instructed the Veterans how to fill them out.

Between August 31 and September 18 the Department of Veterans Benefits registered one hundred thirty-three men, eighteen years to twenty-five years of age, under the Selective Service Act of 1948.

Our appropriation was \$6,300. We expended \$4,365.33 and have a balance of \$1,934.67 to be turned back to the town. Approximately half of the money expended will be reimbursed to the town by the State.

Respectfully submitted,

**HENRY P. McNEIL**, Agent  
Department of Veterans Benefits.

## REPORT OF THE DUXBURY TRANSPORTATION COMMITTEE

---

To the Selectmen and the People of Duxbury:

The Transportation Committee organized shortly after its appointment in March 1948. After discussion to determine what best we could do, we decided to observe closely the development of the situation in the Old Colony Railroad system. Members of the Committee attended numerous hearings at the State House and various meetings held in our area. Before the Special Legislative Committee we put the Town on record for continuance of railroad service.

Last summer, when new management took control of the New Haven System, they promised to try to continue service and to improve it. Already some new equipment has been added and the outlook appears favorable.

It is important that as many people as possible use the train and also the bus to Kingston. Some are thoughtlessly using other means of transportation to Kingston. If the bus service is dropped for lack of patronage the use of the trains will diminish. Your committee urges all citizens to use both the bus and train whenever they can do so.

It is recommended that the Town continue to have a Committee on this problem which is so important to the best interests of all of us.

If we want these services, we must support them.

Respectfully submitted,

WILLIAM W. McCARTHY

CHESTER W. NICHOLS

FRANCIS W. PERRY

ROSWELL F. PHELPS, Secretary

WALTER G. PRINCE, Chairman

## REPORT OF MEMORIAL DAY COMMITTEE

---

To the Honorable Board of Selectmen and

Citizens of Duxbury :

The Memorial Day Committee respectfully submit the following report :

Myles Standish Camp No. 115 S.U.V.C.W., Duxbury Post No. 223 American Legion, Duxbury Girl Scouts Troop No. 1, Duxbury Boy Scouts Troop No. 1, and the School Children displayed a true co-operative spirit in decorating all known soldiers graves and monuments with flags, potted plants and flowers.

Exercises were held at the Unitarian Church, Blue Fish River, The Honor Roll, and the following cemeteries—Myles Standish, Mayflower, Dingley, Ashdod, and North Duxbury.

Graves were decorated for Soldiers of the Revolution, War of 1812, Civil War, World War I, World War II, and Army Nurses of the Civil War.

Appropriation	\$350.00

 JOSEPH T. C. JONES, Treas.

## REPORT OF ELEMENTARY SCHOOL BUILDING COMMITTEE

---

To the Citizens of Duxbury :

On November 17, 1948 a contract for a new grade school was executed by Rich Brothers Construction Company of Boston and the Elementary School Building Committee, for \$355,980.00. The contract stated that the building was to be completed in 240 days. Due to favorable weather the building is progressing according to schedule.

The Committee has ordered the following :

1. From J. L. Hammett Company 300 desks and chairs and 10 tables at \$6,702.50.
2. From Henry S. Wolkins Company equipment including teachers' desks and chairs, Kindergarten and clinic furniture, and tables and chairs for the cafeteria, at \$3,053.50.

Up to January 5, 1949 the Committee has spent :

Architect's fees :

August 9, 1948	\$3,960.00
November 18, 1948	12,059.10
December 16, 1948	353.62

Contract requisitions:      (90 % of amount due for total  
work completed)

December 8. 1948	\$21,217.32
January 5, 1949	52,327.08

Respectfully submitted,

HECTOR M. HOLMES, Chairman  
JOHN MARSHALL  
ARLINE M. BUNTEN

## REPORT OF TOWN MEETING

---

TOWN MEETING, MARCH 6, 1948

The registered voters were checked from the voting list and showed 362 males and 358 females, a total of 720 checked.

The Tellers, Gilbert F. Redlon, Harry A. McNaught, John E. Lucey, Clarence Snider, Frank H. Williams, Helen F. Dawes, Gerald P. Hazlehurst, John A. Borgeson and Philip G. Chandler were sworn in by the Town Clerk.

The meeting convened at 1:00 o'clock P.M. and the Clerk read the warrant.

Under Article 1, Voted, unanimously, that the Town Clerk deposit one ballot for Harry B. Bradley for Moderator, which was done, and Harry B. Bradley was declared elected Moderator.

Rev. Carl F. Hall invoked divine blessing.

There being no objection, the Moderator declared that petitioners on any article in the warrant should be given opportunity to speak on the question being voted upon before the article is tabled, as in previous years.

Under Article 2, Voted, that the appointment of necessary officers not chosen by ballot be appointed by Selectmen.

Under Article 3, Voted, that action on this article be postponed until later in the meeting on account of delay in receiving Town Reports.

Under Article 4, Voted, first, to fix the compensation of the elected Town Officials the same as last year, but later in the meeting this was reconsidered and the following salaries were voted :

Selectmen :

Chairman	\$1,200.00
Second Member	512.50
Third Member	512.50

Assessors :

Chairman	1,000.00
Second Member	450.00
Third Member	450.00

Town Clerk	1,200.00
Town Treasurer	1,400.00
Tax Collector	2,400.00
Tree Warden	1,500.00

Under Article 5, Voted, to raise and appropriate the following amounts :

General Government :

Moderator	\$40.00
Selectmen's Department	4,000.00
Accounting Department	2,050.00
Treasurer's Department	1,900.00
Tax Collector's Department	3,750.00
Assessor's Department	3,500.00

Printing and Delivering Town Reports	1,300.00

## Cemeteries

Cemeteries	10,000.00
Boomer Square	50.00

After Article 5, Voted, that we proceed to Article 17.  
Voted that the vote on this Article be taken by written ballot.

At this time the courtesy of the floor was extended to delegates from Mr. Orr's office and also to Miss Katherine Deans, agent of the Welfare Department.

Under Article 17.

Motion: by Mr. Delano

That the Town vote to construct a new elementary school building on land of the Town in the area south and east of the bandstand, and to furnish and equip said building; and to appropriate funds for this purpose in the following manner:

From the Stabilization fund	\$19,195.00
From the Post War Rehabilitation Fund	51,095.00
From Excess and Deficiency	122,510.00

and by the issuance of a loan as provided in Chapter 44, G.L. in the amount of \$270,000.00 and that the Elementary School Building Committee be authorized to expend said appropriation, to determine the final plans and location of the School, to make all contracts in the name of the Town pertaining thereto, and to do all other things necessary or proper to construct, equip and furnish said building and fit the same and the grounds appurtenant thereto for use and occupancy.

Motion lost 303 yes, 376 no.

Voted that the Committee be discharged and a vote of thanks be given to them for their efforts in attempting to please the people in the matter of the Elementary School Building.

Voted, that the Moderator appoint a committee of three to promptly prepare plans for a new Elementary School Building and present the same with their recommendations at a special town meeting to be called as soon as possible after the said plans are completed.

Voted, that Mr. Hector Holmes be a member of this committee.

Voted, that the sum of \$3,518.24 be raised and appropriated to pay the balance due the Architect for his services and that the Town Accountant shall authorize the Town Treasurer to make payment only if advised by Town Counsel that the payment is a legal one.

Under Article 6, Voted, unanimously, to raise and appropriate the sum of \$350.00 to be expended under the direction of Myles Standish Camp No. 115, S.U.V.C.W., for the observance of Memorial Day.

Under Article 7, Voted, unanimously, that the Town Treasurer, with the approval of the Selectmen, be and hereby is authorized to borrow money from time to time in anticipation of the revenue of the financial year beginning January 1, 1948, and to issue a note or notes therefor, payable within one year, and to renew any note or notes as may be given for a period of less than one year, in accordance with Section 17, G.L.

(Yes—265—No—0)

Under Article 8, Voted, unanimously to raise and appropriate for the use of Plymouth County Trustees for the County Aid to Agriculture, the sum of \$100.00 and chose Roger C. Griswold Town Director, as provided in Sections 41 and 45 of Revised Chapter 128 of the General Laws.

Under Article 9, Voted, unanimously, to apply the dividend from the Plymouth County Dog Fund amounting to \$654.54 to the support of schools.

Under Article 10, Voted, to appropriate to the Cemetery Department the sum of \$150.00 now in the hands of the Town Treasurer.

Under Article 11, Voted, to continue the War Memorial Committee, and authorize it to negotiate with the Duxbury Beach Association for the acquisition of a portion of Duxbury Beach for a Memorial Park; and to authorize the committee to ascertain the cost of erecting a suitable

monument thereon. An amendment to this was accepted that the present committee be commended for their work on this project.

Under Article 12, Voted, to change the term of the Tree Warden from a one year term to a three year term.

Under Article 13, Voted, unanimously, to appropriate \$3,000.00 to the Reserve Fund from the Overlay Reserve Fund.

Under Article 14, Voted, to raise and appropriate the sum of \$150.00 for the extermination of Poison Ivy along the streets in town to be expended under the direction of the Tree Warden.

Under Article 15, Voted, to raise and appropriate the sum of \$300.00 to be used to clean, repair, and adjust the Town Clock.

Under Article 16, Voted, to return to the treasury the following unexpended appropriation balances:

1946 Police Auto	\$9.04
1947 Police Auto	87.24
1947 Forest Fire Truck	12.24
Water and Fire Engineering Survey	122.91
1946 Ch. 90 Maintenance	1.49
1947 Ch. 90 Maintenance	13.68
Printing Protective By-Laws	3.00
Post-War Rehabilitation Committee	86.80
1945 School Housing Committee	168.92
Water Extension Committee	200.00
1946 Cemetery Truck	22.17
Old Cove Road	1,078.09

Under Article 18, Voted, to raise and appropriate the sum of \$1,873.06 to pay unpaid bills of 1947.

Under Article 19, Voted, to appropriate from available funds the sum of \$9,500.00 for the purpose of increasing the Stabilization Fund created in 1946.

Under Article 20, Voted, that the sum of \$1,000.00 be raised and appropriated to meet the town's share of the cost of Chapter 90 Highway Maintenance, and that, in addition, the sum of \$2,000.00 be transferred from unappropriated available funds in the treasury to meet the State's and County's shares of the cost of the work, the reimbursements from the State and County to be restored, upon their receipt, to unappropriated available funds in the treasury.

Under Article 21, Voted, that the sum of \$3,000.00 be raised and appropriated to meet the town's share of the cost of Chapter 90 Highway Construction, and that, in addition, the sum of \$9,000.00 be transferred from unappropriated available funds in the treasury to meet the State's and County's shares of the cost of the work, the reimbursements from the State and County to be restored, upon their receipt, to unappropriated available funds in the treasury.

Under Article 22, Voted, to appropriate from the Excess and Deficiency Account a sum not to exceed \$30,000.00 to be used to reduce the tax rate.

Under Article 23, the following Resolution was unanimously adopted:

### RESOLUTION

WHEREAS, Modern science has now produced means by which mankind can destroy itself; and,

WHEREAS, the United Nations was created as an instrument to preserve peace and its charter is capable of amendment so as to make it effective for the maintenance of world order; and,

WHEREAS, disarmament and world peace can only be achieved by world order, world law and some measure of world government; and,

WHEREAS, the people of Duxbury have since 1637 been happy to delegate certain functions of government to their town government, other functions to their state government and still other functions to their national government and are now willing to delegate further limited functions of government to a world government for the purpose of maintaining peace;

NOW THEREFORE BE IT RESOLVED, by the people of Duxbury, Massachusetts, in Town Meeting Assembled, that they call upon their representatives in the Congress, in the executive department of the United States, and in the United Nations to take note of these truths and forthwith to take such steps as may be necessary to have our delegates to the United Nations present or support amendment of the charter for the purpose of making the United Nations into a world government capable of enacting, interpreting and enforcing world law to prevent war; and,

BE IT FURTHER RESOLVED, that a copy of this Resolution be transmitted to both Senators from Massachusetts, the Congressman from the 9th Congressional District, the President of the United States, the Secretary of State, and the United States Representatives in the United Nations.

The following Resolution was unanimously adopted:

RESOLVED; That the Selectmen appoint a Committee of five citizens to represent the town in the matter of providing transportation to and from Boston and intermediate points, in the event that the Old Colony Railroad shall cease operations.

Meeting adjourned at 8:20 o'clock P.M. to March 20 at 1:30 P.M.

---

ADJOURNED MEETING,

MARCH 20, 1948, 1:30 O'CLOCK P.M.

The registered voters were checked from the voting list showing 206 males and 185 females, a total of 391 voters.

The meeting was called to order by the Moderator.

Under Article 24, Voted, to install street lights at the following locations: one at Parks Street near Island Creek Hall, and one at the intersection of Tobey Garden and Elm Streets, one at Winter Street, and raise and appropriate the sum of \$70.00 for this purpose.

Under Article 25, Voted, to accept as a gift from Mr. Eben H. Ellison, two bonds of the Wisconsin Central Railroad, 4's of 1949, worth on the market today approximately \$700.00, or a total of \$1,400.00, and that the proceeds from the sale of these bonds be expended on the improvement and maintenance of Ellison Beach.

Under Article 26, Voted, to raise and appropriate the sum of \$800.00 to be expended under the direction of American Legion Post 223, July 4th, Duxbury Days

Committee, in connection with this year's parade and celebration.

Under Article 27, Voted, unanimously, to raise and appropriate the sum of \$500.00 for the exchange of a car for the Police Department.

Under Article 28, which reads; "Will the Town vote to raise and appropriate the sum of \$5,025.00 to be paid to the Duxbury Fire and Water District for hydrant rental for the year 1948, or take any other action thereon".

This article was defeated.

Under Article 29, which reads; "Will the Town vote to raise and appropriate a sum of money to be used to extend the sea wall at Duxbury Beach Southerly 1,500 feet from the Northerly side of the Hummock where the present sea wall now terminates, and to petition the County and the State Department of Public Works to contribute  $\frac{1}{4}$  and  $\frac{1}{2}$  respectively toward the expense of said Sea Wall, or take any other action thereon."

This article was defeated.

Under Article 30, Voted, to accept the road known as Bayridge Lane, as laid out by the Selectmen, and raise and appropriate the sum of \$4,000.00 for grading and surfacing said road.

Under Article 31, Voted, to raise and appropriate the sum of \$2,700.00 to be used to purchase a new heavy duty dump truck for the Highway Department.

Under Article 32, Voted, to authorize the Moderator to appoint a committee of three to study the establishment of a regional high school in cooperation with the

towns of Kingston, Pembroke, Marshfield, and Hanover, and that the committee report on or before the next Annual Town Meeting.

Article 3 was taken up at this time.

Under Article 3, Voted, to accept the report of the various Town Officers and Committees.

The motion was made and carried that a committee of three be appointed by the Moderator to investigate the welfare situation in all its phases and report its recommendations to our next town meeting either special or regular. This committee shall have the full authority of the town to examine all records.

Under Article 33, Voted, as amended to amend the Protective By-Law of the Town of Duxbury by adding at the end of paragraph (a) in Section 8 the following words, namely: "No person shall erect or externally alter a building or other structure in this town without a permit from the selectmen granted upon application made to them upon a form prescribed by them. If the selectmen find that the construction, location and proposed use of the building or structure to which the application relates in the place specified in the application are authorized by this by-law, they shall grant such permit; otherwise they shall refuse it"; so that said paragraph (a) will read as follows:

Section 8. ADMINISTRATION. (a) Enforcement.

"This By-Law shall be enforced by the Board of Selectmen, either directly or by an inspector appointed by them; and upon any well founded information as to a violation, the said Board shall take immediate steps to enforce this

By-Law in any manner provided by law." No person shall erect or externally alter a building or other structure in this town without a permit from the selectmen granted upon application made to them upon a form prescribed by them. If the selectmen find that the construction, location and proposed use of the building or structure to which the application relates in the place specified in the application are authorized by this by-law, they shall grant such permit; otherwise they shall refuse it.

Under Article 34, Voted, that no action be taken at this time for the purpose of putting a tarvia surface on Vine and Cross Streets, but that the Selectmen be instructed to include Vine Street in the Chapter 90 program for 1949.

Under Article 35, Voted, to instruct the Selectmen to lay out that portion of Priscilla Avenue, so called, between White and Brewster Street.

Under Article 36, Voted, that no action be taken at this time to build the road known as Autumn Avenue from Summer Street through to Winter Street, but that the Selectmen be instructed to include Autumn Avenue in the Chapter 90 program for 1949.

Under Article 37, Voted, to raise and appropriate the sum of \$104.00 to pay contributions to Contributory Retirements Systems on account of members thereof in the Military or Naval service, as provided in Chapter 708 of the Acts of 1941, as amended.

Under Article 38, Voted, to raise and appropriate the sum of \$400.00 for the purpose of providing signs and markers to regulate traffic on town ways.

Under Article 39, Which reads; "To see if the Town will raise and appropriate a sum of money for the construction of a sidewalk on Tremont Street in the Island Creek Section, or take any other action thereon. . . ."

This Article was defeated.

Under Article 40, which reads; "Will the Town vote to accept the street known as Wadsworth Road running between Tremont Street and Bay Road through the property known as Wadsworth Longfellow Terrace, as laid out by the Selectmen and raise and appropriate a sum of money for its improvement, or take any other action relative thereto."

Voted, that this Article be deferred until the next Town Meeting.

A vote of thanks was extended to the Moderator for his gracious, courteous and efficient conduct of the meeting.

At 3:00 o'clock P.M. voted to adjourn.

JOSEPH T. C. JONES,

Town Clerk.

## ANNUAL TOWN ELECTION, MARCH 13, 1948

---

The polls were opened at 8 o'clock A.M. and closed at 7:30 P.M.

The ballot-box, after the absent ballots were deposited, indicated 231, 3 being absentee ballots, and 231 ballots were taken from the ballot-box.

Following is the result of the balloting for Town Officers:

SELECTMAN—for Three years:	Votes
Philip W. Delano	202
Kenneth Garside	8
Howard Clark	1
Pierce Murphy	1
Ralph Haller	1
Blanks	18

And Philip W. Delano was declared elected by the Moderator.

ASSESSOR—for Three years:	Votes
Philip W. Delano	202
Howard Clark	4
Kenneth Garside	4
Ralph Haller	1
Blanks	20

And Philip W. Delano was declared elected by the Moderator.

MODERATOR—for One year :	Votes
Harry B. Bradley	210
Harold Humphrey	1
Blanks	20

And Harry B. Bradley was declared elected.

#### MEMBER of the BOARD OF PUBLIC WELFARE

for Three years :	Votes
Barbara S. Mullooney	188
Kenneth Garside	1
Howard Clark	1
Blanks	41

And Barbara S. Mullooney was declared elected by the Moderator.

CONSTABLES—for One year :	Votes
Earl W. Chandler	201
Lawrence C. Doyle	214
James T. O'Neil	210
Blanks	68

And Earl W. Chandler, Lawrence C. Doyle and James T. O'Neil were declared elected by the Moderator.

SCHOOL COMMITTEE—for Three years	Votes
George C. Scott	183
J. Newton Shirley	174
Oliver Barker	1

John Burns	1
Virginia Craig	1
Hector Holmes	1
Blanks	101

And George C. Scott and J. Newton Shirley were declared elected by the Moderator.

CEMETERY TRUSTEE—for Five years:	Votes
Ernest H. Bailey	204
Blanks	27

And Ernest H. Bailey was declared elected by the Moderator.

CEMETERY TRUSTEE—for Three years: (Un- expired Term)	Votes
Stanley V. Johnson	204
Blanks	27

And Stanley V. Johnson was declared elected by the Moderator.

TREE WARDEN—for One year:	Votes
Roy E. Parks	217
Blanks	14

And Roy E. Parks was declared elected by the Moderator.

MEMBER OF PLANNING BOARD—for Five years:	Votes
Kenneth G. Garside	189
Benjamin O. Dawes	1
Blanks	41

And Kenneth G. Garside was declared elected by the Moderator.

Voted to adjourn.

JOSEPH T. C. JONES,  
Town Clerk.

---

Under Article 3, the following committee was appointed by the Moderator:

Harold P. Carver, William H. Couch and Roy F. Moody.  
Committee on Investigating Welfare Board.

Under Article 17, the following committee was appointed by the Moderator:

Hector Holmes, Mrs. Kenneth Bunten and John Marshall.

Elementary School Committee.

Under Article 32, the following committee was appointed by the Moderator:

Ralph T. Haller, Mrs. Arthur T. Chase and Benjamin F. Goodrich, Jr.

Regional High School Committee.

In compliance with Article 6, Section 1 of the Town By-Laws, the Moderator, Mr. Harry B. Bradley has appointed the following persons to act as a Finance Committee of the Town of Duxbury.

Francis W. Perry, William W. McCarthy and Clarence W. Walker. for 3 years.

Harry F. Swift, Paul C. Peterson and Howard M. Clark. for 2 years.

Carlton H. Schaffer, Stephen A. Reed and Charles L. Eckersley. for 1 year.

**SPECIAL TOWN MEETING, JULY 9, 1948**

---

At 8 o'clock P.M. the meeting was called to order by the Moderator Harry B. Bradley. The Warrant was read by the Town Clerk. The Tellers, Gilbert F. Redlon, John A. Borgeson, Clarence Snider, Helen Dawes, Philip G. Chandler, John E. Lucey, Harry McNaught and Frank H. Williams were previously sworn in by the Town Clerk.

It was voted that a rule for this meeting would be that: No Motion to lay on the table or otherwise cut off debate will be in order until the proponents of an article have had an opportunity to be heard.

Under Article 1, Voted, to appropriate from available funds the sum of Fifty (\$50.00) Dollars for the use of the Finance Committee.

Under Article 2, Voted, to appropriate from available funds the sum of \$8.75 to pay unpaid bills of 1947.

(227 yes—0 no)

Under Article 3, Voted, that the report of the Committee be accepted, that the committee be retained in office and that the Town accepts the responsibility and liability of all case and other records being made available to the committee in order to carry out their recommendations, and that the Welfare Board be increased from three to five members at the earliest possible moment.

REPORT OF THE COMMITTEE APPOINTED  
AT THE ANNUAL MEETING OF THE TOWN OF  
DUXBURY TO INVESTIGATE THE  
WELFARE DEPARTMENT

The committee reports its findings as follows:

1. The present method for advancing funds from the State and Federal authorities is, we believe, cumbersome. These funds are paid to the Town after expenditure reports are signed by the Welfare Department. These funds are paid to the Town's surplus and deficiency funds and cannot be returned to the Welfare Department, thus becoming part of the Town's general collections. On the other hand, the Town must estimate each year its welfare requirements and raise in its general tax levy this estimated amount of money for the Welfare Department. This results in two inequities:

(a) That the estimate is usually high, so that a heavier tax burden than is necessary is levied upon the Town.

(b) The Town in reality advances funds which are later reimbursed, but there is a real difficulty in that the welfare budget is so swollen by this type of accounting that it is difficult to explain the matter to the townspeople and, as a matter of fact, to estimate accurately—or even budget carefully.

We would, therefore, recommend that this accounting matter be studied carefully in company with the proper State Officials, with the idea that some proper adjustment could be made where the budgeting could be more accurate and the total funds to be raised at the Town's expense be reduced.

2. A study of the State and Federal standard of living budget indicates that it is possible for families to obtain as high as \$3,200.00 a year through the aid to dependent children clauses. However, the Welfare Department has no means of protecting themselves against such budgets, since they are standard and must be met. In our opinion, we would recommend a protest to the proper authorities with regard to these figures, in the hopes that a more realistic cost of living budget might be developed.

3. A careful review of the current situation with the State authorities and our own Welfare Department indicated that a number of matters could be handled more expeditiously under the so-called "Policy Clause." To this end, it was suggested we develop a medical policy which, when placed on file with the State Department, would permit our obtaining, we believe, a more satisfactory medical result, both as to efficiency and cost. There is no implication in this comment that the present situation is unsatisfactory; we simply believe that money could be saved by following certain definite policies instead of relying entirely on the statutes—which is the method used by the Welfare Department at the present time.

4. We have had little or no opportunity to study individual cases, for the Town Counsel informs us that we have not been vested with the proper authority to obtain the welfare records. From what little we have heard of individual welfare cases, we are of the opinion that such records are necessary if we are to complete our work. We cannot proceed, however, any further without either more complete instructions from the Town or a revision of the opinion of the Town Counsel, since the Welfare Department would be in jeopardy if they delivered to us the records in view of the Town Counsel's opinion.

5. We would also recommend that the Welfare De-

partment at this time be increased to five, with two of the members representing what might be called "the business approach", in order to ease the problem of the ladies in weighing certain specific problems.

In all our work, we have found the utmost co-operation from the Welfare Department and the State authorities and from Miss Deans. We have found nothing in our search that would indicate that the Welfare Department has been handled other than in good faith or with other than strict interpretation of the statutes under which the Welfare Department must operate.

We are appreciative of the courtesy extended, and while our work has not been completed to our own satisfaction due to our failure to obtain the individual welfare reports held by the Welfare Committee, we trust that our findings will be of some benefit. In view of this inability, and since we have, we believe, covered the ground as thoroughly as possible with the amount of information available, we respectfully request our discharge from this appointment.

HAROLD P. CARVER,  
WILLIAM H. COUCH,  
ROY F. MOODY,

---

Under Article 4, Voted to accept the road known as Wadsworth Longfellow Terrace as laid out by the Selectmen from Bay Road extending westerly 1,000 feet and that the sum of \$2,000.00 be appropriated from available funds, to make necessary improvements.

Under Article 5, Voted to appropriate from available funds the sum of One Hundred Fifty (\$150.00) dollars to defray legal expenses incurred by an employee of the Town in the defense of a claim against him for bodily in-

juries arising out of the operation of a motor vehicle owned by the Town while said employee was acting in the scope of his official duties or employment, as provided by Sec. 100-A of Ch. 41, of the General Laws, which the Town accepted under Article 28 of the Town Meeting held March 5, 1944.

Under Article 6, a substitute motion that no action be taken on this Article was voted down and it was Voted to appropriate from available funds the following amounts for the following purposes:

AID TO DEPENDENT CHILDREN	\$4,763.31
OLD AGE ASSISTANCE	10,388.75
SELECTMEN'S DEPARTMENT	300.00

Voted, that Article 12, 13, and 14 be taken up before Article 7.

Under Article 12, Voted that the report given by Mr. Haller be accepted and the "Door kept open" for further consideration.

---

## REPORT OF THE REGIONAL HIGH SCHOOL COMMITTEE, DUXBURY, MASSACHUSETTS

To All Voters:

July 7, 1948

At the last annual Town Meeting, as directed by the voters of Duxbury, a committee to explore the possibilities of a regional high school was appointed by the Moderator.

This committee has held a series of meetings, many of

them with similar committees from the other towns in the Old Colony Regional High School District. This has resulted in our belief that regional planning has decided merits. Now that the General Court has passed legislation which removes regional planning from the wishful stage to the immediate present, we feel that Duxbury should and must continue to explore and investigate fully the potentials of the regional high school question.

---

## EDUCATIONAL ADVANTAGES OF A REGIONAL HIGH SCHOOL

1. *Broader program of studies more economically provided.*

This is especially true in the field of the sciences, the manual arts, and extra-curricular activities. Larger and better equipped laboratories will be available. More shop space and facilities will be developed so that there may be offerings in fields other than wood-working; and for girls a broader program in home-making and home management. The program in music, art and physical education will be greatly enriched.

For the student preparing for college or study in a higher institution, the course in itself probably would not be so different in content since the colleges more or less dictate the courses to be followed, but it would be broadened by the increase in the number and variety of minds engaging in it.

2. *Greater and keener competition among pupils whereby good students may be stimulated to greater effort.*

3. *Development of broader community interests and morale* through a study of inter-community problems. This experience becomes a form of world-living in miniature.
4. *Creation of a broader social environment* which is especially desirable for students not going to college.
5. *Better teaching.* Better salaries could be paid to more experienced and better trained teachers. Although some of the classes might be larger, the number of subjects assigned to a teacher would be fewer, thus permitting concentration in special fields without assignments in scattered subject matter areas.

The disadvantages urged against a regional high school are:

1. *The loss of local identity.* All small towns that have local high schools are proud that they can offer such education to their young people. If, on the other hand, education is designed to provide the greatest good for the largest number, how can this be better accomplished for the small towns than through a regional high school?
2. *A lessening of teacher-pupil contacts and interests.* This is not necessarily true, for both contacts and interests are largely the result of personality.

## STATE ACTION

In the opinion of your committee, the recent enactment by the state legislature of two bills is perhaps the most important event that has taken place to date in the course of regional high school planning in this district. This state action has served three purposes:

1. *It outlines a definite procedure* whereby the towns interested may pursue a careful and complete study of the regional high school question.
2. *It sets up a time schedule* for this work so that all towns participating may receive the results of the study with reasonable dispatch.
3. *It provides very generous state aid*, both financial and technical to encourage and facilitate regional high school planning and, in the event the towns ultimately decide to build, financial aid in meeting the costs of construction. These two legislative acts are Chapter 280 and Chapter 645 of the Acts of 1948.

## CHAPTER 280

Chapter 280 provides for the creation of the Old Colony High School District Planning Committee to consist of one member appointed by the finance committee, one by the school committee and one by the board of selectmen of each town which votes to accept the provisions of the act. This committee is instructed to study:

1. The advisability of forming a regional high school district.
2. All phases of the organization, operation and control of such a district.
3. Estimated costs of constructing a regional high school.
4. Estimated costs of operating such a school.
5. Methods of apportioning these costs among the several towns.

6. All other matters pertaining to the organization and operation of a regional high school district as the committee deems necessary.

As regards the element of time, a schedule is set up whereby the first report by the joint committee will be made to the selectmen of each town on or before January 1, 1949. All proposed legislation dealing with the operation of the district must be filed with the General Court not later than December 1, 1949. Finally, this time schedule is further carried out by Chapter 645 which ceases to be operative on June 13, 1951, thereby making it necessary that construction be started on a regional high school by that date if it is to become eligible for financial aid from the State.

Chapter 280 further provides that a special town meeting shall be called in the current year for the purpose of voting upon the acceptance of this act in each of the towns of Duxbury, Halifax, Hanson, Hanover, Kingston, Marshfield, Norwell, Pembroke and Plympton. The act becomes effective if thus accepted by four or more of the said towns.

Chapter 645 is an act to encourage the establishment of regional and consolidated public schools. Duxbury's proposed elementary building or elementary addition would be classified as a "consolidated" school and under the provisions of the act would be eligible if approved by the state for a construction grant. The regional high school building being considered in this area would obviously be classified as a "regional" high school and under the formula set up by the act would be eligible if approved by the state for a construction grant amounting to approximately 33% of its approved cost. This percentage could vary somewhat, depending upon which final combination of towns was involved. In the judge-

ment of your committee, the figure given above would in all probability be very nearly correct. However, at the Special Town Meeting on July 9, an analysis of the possible combinations of the participating towns will be presented.

The provisions of Chapter 645, however, which are of more immediate interest to us at this time, are those which provide financial aid for making surveys, studies, preliminary plans and estimates of costs. Section 4 of the act states: "The powers and duties of the commission shall be, generally, to encourage and foster the establishment and building of consolidated and regional or union public schools in and among the cities and towns of the Commonwealth, to conduct surveys and studies relative thereto, and to administer the provisions of this act relative to grants to cities and towns for the planning and construction of school buildings. The commission is hereby specifically authorized to make contracts for surveys or other technical services within the scope of its duties, to provide legal, architectural or other technical advice and assistance to cities and towns or to joint committees thereof in the planning and establishment of regional or consolidated schools.

Section 6 of the act further states: "Any city, town, or regional school building committee, may apply to the commission for reimbursement, in whole or in part, of any expenses incurred on or after January first, nineteen hundred and forty-six, in the preparation of preliminary studies, plans, drawings, and estimates for a consolidated or regional school. Such application shall be accompanied by copies of such plans, drawings, and estimates, together with such additional information as the commission may require. The said commission may, if it is satisfied that the plans so submitted are satisfactory with respect to site, type, and adequacy of the proposed construction for

an approved school project and in the best interests of the respective towns, and that the expenses so incurred are reasonable, certify to the comptroller for payment to such city, town, or regional committee such amount, not exceeding such expenses, as it may deem proper, and the treasurer shall forthwith make the payment so certified from any funds appropriated therefor."

It is the opinion of your committee that what Chapter 645 does in effect, is to underwrite the expenses of Chapter 280. We base our opinion upon the passages underlined in the Sections quoted above. We feel further that it is our duty to point out to the town that Chapter 280 by itself provides only that the joint committee may incur expense not exceeding, in the aggregate, fifty thousand dollars, that it shall avail itself of state and federal funds and that it shall determine by vote the amount necessary to be raised by the towns accepting the act. Thus, if our interpretation of Chapter 645 is incorrect, or if funds are not made available, it is then left to the discretion of the joint committee formed under Chapter 280 to set the amount (within the limit of fifty thousand dollars) which shall be spent in aggregate by the four or more towns accepting the act.

It is the considered opinion of your committee that both of these acts of legislation were written and passed with the intent of implementing regional high school planning and construction and that they reflect the desire of the Department of Education to encourage the same. We feel that the town will be taking no risk whatever if it accepts the provisions of Chapter 280, and that by so doing it will at last make available to the town complete and accurate data and figures on all phases of this important matter.

We strongly recommend that under Article 14 the town vote to accept the provisions of Chapter 280 of the Acts of 1948.

Respectfully submitted,

RALPH T. HALLER, Chairman  
MRS. ARTHUR T. CHASE  
BENJAMIN F. GOODRICH, Jr.  
Regional High School Committee.

---

Under Article 13, Voted to accept Chapter 280 of the Acts of 1948, which provides as follows: 222 yes—67 no.

“An Act Providing for the Creation of an Old Colony High School District Planning Committee.

“Section 1. A special unpaid committee, to be known as the Old Colony High School District Planning Committee, hereinafter called the committee, is hereby created, to consist of one member appointed by the finance or advisory committee, one by the school committee, and one by the board of selectmen of each town which votes to accept the provisions of this act as provided by section nine. Any vacancy in the committee shall be filled by the authority which appointed the member whose service has been terminated.

“Section 2. The committee shall study the advisability of forming a union high school district, to be known as the Old Colony High School District, its organization, operation and control, and the construction of a high school building to serve the needs of the district, with the estimated construction and operation cost and the financial arrangements therefor, and all other matters pertaining to the organization and operation of a union high school

district as the committee considers necessary and proper and shall make a report of its findings and recommendations to the selectmen of the several towns which accept this act not later than January first, nineteen hundred and forty-nine.

“Section 3. The committee shall prepare and submit to the general court, and to the selectmen of the several towns, not later than December first, nineteen hundred and forty-nine, such drafts of legislation as it may deem necessary to carry out its recommendations.

“Section 4. The committee is authorized to employ such experts, architects, consultants and clerical assistants, and to incur such other expense not exceeding in the aggregate, fifty thousand dollars, as it may deem necessary. To meet such expenses the committee may accept and use for the purposes of this act sums of money received as gifts or contributions from any source and funds from the commonwealth or federal government which may be available, and shall by vote determine an amount necessary for the purposes of this act to be raised by the four or more towns which accept this act in accordance with the provisions of section nine.

“Section 5. The committee shall apportion the amount which it determines to be necessary as provided in the preceding section among the several towns which accept this act on the basis of the taxable valuation of said municipalities as last established by the general court as a basis of apportionment of state and county taxes; and shall promptly thereafter notify in writing the treasurer of each of said towns of the amount of such apportionment. Upon the receipt of such notice, for the purpose of providing the necessary funds to meet the amount of the apportionment, unless the amount due is provided by a special town meeting called for the purpose held within

thirty days of the receipt of the said notice, the treasurer of each town notified shall, with the approval of the selectmen, borrow on notes of the town not exceeding the apportionment of such town. Such loans shall be in excess of the statutory limit and shall be due and payable in not more than two years from the dates thereof and except as provided therein shall be subject to the applicable provisions of chapter forty-four of the General Laws exclusive of the limitation contained in the first paragraph of section seven thereof. Upon receipt of the proceeds of a loan issued under authority of this act, the town treasurer shall pay said proceeds over to the secretary-treasurer of the committee.

“The director of accounts in the department of corporations and taxation shall cause an audit to be made of the accounts of the committee annually or at any time upon the request of the selectmen of a town participating in the appointment of the committee and for this purpose he, and his duly accredited agents, shall have access to all necessary papers, books and records. Upon the completion of each audit, a report thereon shall be made to the chairman of the committee with a copy thereof to the chairman of the selectmen of each town served by the committee.

“The director shall apportion the cost among the several municipalities participating in the appointment of the committee on the basis of the taxable valuation of said municipalities as last established by the general court for state and county taxes, and submit the amounts of each apportionment to the State treasurer, who shall issue his warrant requiring the assessors of the towns which so participate to assess a tax to the amount of such expense, and such amounts shall be collected and paid to the state treasurer as provided by section twenty of chapter fifty-nine.

"Section 6. The committee shall organize forthwith upon its appointment by the election of a chairman and a secretary-treasurer. The secretary-treasurer shall keep all records and shall receive and take charge of all money paid to the committee and shall pay over and account for the same according to the order of the committee. He shall give bond for the faithful performance of his duties in such sum as the committee shall require with a surety company authorized to transact business in the commonwealth as surety. The premium of such bond shall be paid from funds provided for the committee.

"Section 7. This act shall cease to be operative except as to section five on the effective date of establishment of the said proposed Old Colony High School District, and shall become null and void in its entirety on and after December thirty-first, nineteen hundred and fifty.

"Section 8. Any unexpended balance of funds held by the committee on the date this act ceases to be operative as provided in the preceding section shall be paid over to the several towns in the same proportion in which the original assessment was made and the amount so received by any town may be appropriated for school purposes."

"Section 9. The question of the acceptance of this act shall be considered and acted upon at a special town meeting called for the purpose to be held in the current year in each of the towns of Duxbury, Halifax, Hanson, Hanover, Kingston, Marshfield, Norwell, Pembroke and Plympton. If four or more of the said towns vote in favor of acceptance, this act shall become fully effective forthwith in the towns which have voted in favor of acceptance; if less than four of the said towns vote in favor of acceptance, this act shall become void." Or take any other action relative thereto.

Under Article 14, which reads will the Town vote to raise and appropriate, or appropriate from available funds, sufficient funds to carry out the provisions of said Chapter 280 of the Acts of 1948, or take any other action thereon, no action was taken.

Under Article 7, Moved that the Town construct a new elementary school building on land of the Town in the area south and east of the High School, substantially in accordance with the plans of Harold Field Kellogg, and to furnish and equip said building, and to appropriate funds for the purpose in the following manner—From the Post-War Rehabilitation Fund \$50,000.00; From Excess and Deficiency \$75,000.00; and by issuance of a loan as provided in Chapter 44 of the General Laws, in the amount of \$274,000.00; and that the Treasurer be and hereby is authorized to borrow said amount of \$274,000.00 and to issue bonds or notes of the Town therefor, such bonds or notes to be payable in accordance with the provisions of Chapter 44 of the General Laws, so that the whole loan shall be paid in not more than twenty years from the date of issue of the first bond or note, or at such earlier date as the Town may determine.

On the motion 140 voted in favor and 169 in opposition and the motion was lost.

Motion was made that the vote be taken by ballot. 142 yes—163 no. The motion was lost.

Under Article 8, Moved, that the Town vote to construct an addition to the High School, substantially in accordance with the plans of Harold Field Kellogg, and to furnish and equip said addition, and to appropriate funds for the purpose in the following manner—From the Post-War Rehabilitation Fund \$50,000.00; from Excess and Deficiency \$75,000.00; and by issuance of a

loan as provided in Chapter 44 of the General Laws, in the amount of \$255,000.00 and that the Treasurer be and hereby is authorized to borrow said amount of \$255,000.00 and to issue bonds or notes of the Town therefor, such bonds or notes to be payable in accordance with the provisions of Chapter 44 of the General Laws, so that the whole loan shall be paid in not more than twenty years from the date of issue of the first bond or note, or at such earlier date as the Town may determine.

On this motion 208 voted in favor and 105 in opposition and as it was not a two thirds vote, the motion was lost.

It was voted to reconsider Article 7.

Under Article 7, Voted, that the Town construct a new elementary school building on land of the Town in the area south and east of the High School, substantially in accordance with the plans of Harold Field Kellogg, and to furnish and equip said building, and to appropriate funds for the purpose in the following manner—From the Post-War Rehabilitation Fund \$50,000.00; From Excess and Deficiency \$75,000.00; and by issuance of a loan as provided in Chapter 44 of the General Laws, in the amount of \$274,000.00; and that the Treasurer be and hereby is authorized to borrow said amount of \$274,000. and to issue bonds or notes of the Town therefor, such bonds or notes to be payable in accordance with the provisions of Chapter 44 of the General Laws, so that the whole loan shall be paid in not more than twenty years from the date of issue of the first bond or note, or at such earlier date as the Town may determine.

(237 yes—50 no)

Further Voted, that the present School Building Committee be authorized to expend said appropriation, to determine the final plans and location of the school, to

make all contracts in the name of the Town pertaining thereto, and to do all other things necessary and proper to construct, equip and furnish said building and fit the same for use and occupancy.

Under Article 9, which reads will the Town vote to raise and appropriate the sum of \$3,900.00 to be paid to Harold Field Kellogg and Thomas Worcester Inc., for their services in preparing preliminary plans and specifications, and engineering and other services in connection therewith, for the proposed separate grade school building and for the proposed addition to the High School, no action was taken.

Under Article 10, which reads will the Town vote to raise and appropriate a sum of money for the purpose of converting the Island Creek Hall into a temporary school house, or take any other action relative thereto, no action was taken.

Under Article 11, Voted to raise and appropriate the sum of \$2,977.92 for the purpose of financing a two session day in certain elementary grades.

Voted to adjourn at 11:10 P.M.

JOSEPH T. C. JONES,  
Town Clerk.

---

The following Town Officials were duly sworn in 1948:

Philip W. Delano, Selectman and Assessor for 3 years.

Barbara S. Mallowney, Member of Board of Public Welfare for 3 years.

April	25	School Reopens
May	30	Memorial Day
June	17	High School Graduation
June	22	School Closes

## ADMITTANCE

Any child who is five years and eight months of age on or before September 1, may be admitted to the first grade. Any child five years and eight months or older may be excluded by the School Committee upon the recommendation of the Superintendent if investigation indicates that admittance would not be in the best interests of that child or of the other children in the school.

---

NO SCHOOL SIGNAL

School is usually called off only when bus transportation is unsafe. It may occasionally be called off during an extremely severe storm. On such days an announcement is made over Stations WBZ, WEEI, WHDH, and WBET in Brockton, between 6:45 and 7:45. Parents are not expected to send their children to school on days when, in their opinion the weather is such as to endanger the health of the child. Such absences are excused on receipt of a written excuse.

## REPORT OF THE SCHOOL COMMITTEE

---

To the Citizens of Duxbury :

Your School Committee submits the following report of its activities for the year 1948, together with the reports of Superintendent, Principal, Doctor, Nurse, and Dentist.

This year we have lost, through retirement, the services of a very loyal teacher, Miss Ellen W. Downey. We express our appreciation of the fifty one years of loyal service she has rendered and hope she may enjoy many years of happy reflection on what she has done for the children of Duxbury and the Duxbury Schools.

The "Three Year Plan of Educational Development" for Duxbury has continued to be the policy of the Committee. The projected plans have not been completed but we hope we may be able to complete them during the next year, when we will have the new elementary school building in operation. The new building will enable us to return to high school use, the space which has been taken away to house elementary school children.

The proposed changes in the auditorium of the High School to enable spectators to watch games more safely, have not been asked for this year because of the expense involved. These changes call for relocation and enlargement of the toilets, showers and locker rooms to provide adequate equipment and space for the increased numbers of students using them. The gallery seats will be lowered to permit spectators to watch the games without leaning over the railing, a habit we feel is filled with danger.

The kindergarten, originally planned for September 1947, will be started when the new school opens in September. The necessary items needed to take care of this, have been included in the budget.

The Courses of Study offered have been carefully checked with the Superintendent and Principal and do not require any definite changes.

The teaching staff has been fitting well into the trends of the educational program. We appreciate the efforts they have made and hope we may have their services for another year.

The Regional High School does not appear to be developing as only two other towns have accepted the enabling act. The idea should continue to be fostered as we believe such is still possible under the other laws passed in 1948.

The budget submitted to the Town has been very carefully prepared and we hope it will be sufficient to complete the school year. The increase in budget figure is necessitated by the increased enrollment, increased teaching staff, a helping teacher, increased prices, and the starting of the kindergarten. We ask the voters to grant the budget requested, \$128,854.00.

We wish to thank those who have so willingly given of their time and efforts to contribute to the school program.

Respectfully submitted,

J. NEWTON SHIRLEY, Chairman  
ARLINE M. BUNTEN, Secretary  
LORING R. C. MUGFORD  
GEORGE C. SCOTT  
HERBERT C. WIRT

## REPORT OF SCHOOL SUPERINTENDENT

---

Duxbury School Committee

Duxbury, Massachusetts

Gentlemen :

I herewith submit my annual report as Superintendent of Schools.

### ADMINISTRATIVE PROBLEMS.

Considerable time and study has been spent on administrative problems during the last year. Perhaps this is common practice in these times when many perplexing problems are being brought about by lack of facilities, increasing enrollments and increasing costs of running the program. Perhaps the most difficult decision of the past year arose when it became obvious that we were not to have our new school in September.

Plans for double sessions and temporary buildings were investigated, but upon the decision of the Town in July to go ahead with the construction of an elementary building, all the pupils were crowded into the facilities which we now have. This was a difficult decision to make because it was obvious that the proper functioning of many classes would be difficult. After four months of experience with the plan, I think we can say that as a temporary measure it has been successful but this type of solution should never be used except in very unusual circumstances.

Transportation costs are getting higher and the problem of keeping them within reasonable bounds and still furnish the transportation that has been customary has been a real problem. Considering the service we receive,

the mileage cost in Duxbury is one of the lowest in the South Shore area while our present contract is one of the lowest of any of those written in 1948. One of the problems for next year will be a restudy of the whole transportation system in relation to our new school organization in an attempt to find out whether we can reduce costs through a more efficient arrangement of bus routes.

Progress has been made in keeping our high school plant in repair after the difficulties in getting work done that were prevalent during the war years. All windows have been weather-stripped to prevent leakage during driving storms and to make savings in fuel. Our flag pole was in dangerous condition in the fall; this has now been reset and we expect that it will cause us no difficulty for many years to come.

A thorough painting job has been done on the outside of the high school. These projects complete the exterior work which we set out to do two years ago. Our main repair problems now will consist of repainting and new ceilings inside the building.

## TEACHERS.

We have continued to have considerable success in attracting fine teachers to Duxbury. Our salary schedule which was adopted a year and a half ago has proved adequate for this purpose. In addition to our base salary, an extra amount is given as an adjustment to changing prices. It has been this feature that has enabled us to adapt our salaries to changing conditions without drafting a whole new policy. At the present time, the average pay of teachers is at the rate of \$2,880 a year, of which \$482 is this cost of living adjustment. This will change as prices change. The policy of adjusting salaries was recommended by two different salary study committees with the thought that some day when conditions became stabilized,

the cost of living would become a fixed part of the regular salary schedule and the flexibility provisions done away with. It does not seem that things have stabilized enough at this point to warrant that action although such a situation could well arise within the next year or two.

Duxbury teachers have been selected as usual, on a strictly competitive basis. For the first time, this year several elementary school candidates were available for every elementary school position. In filling these positions, we feel the heavy responsibility to find the very best person that can be secured for the price we are able to pay. We expect to continue selecting all personnel by this method.

#### ELEMENTARY INSTRUCTION.

The entrance examinations which were held for under-age children who wished to enter school were abolished this year. This was due partly to the fact that the clinical service which we used was no longer available, and partly because the threat of crowded conditions made it seem unwise to load up the classes. Experience indicates that five years and eight months is soon enough for a child to enter grade one and many authorities recommend not admitting children unless they have reached their sixth birthday in September. A policy of admitting children to grade one at five years eight months and to kindergarten at four years eight months, would seem to be a reasonable solution to this problem.

We have now completed the initial buying of textbooks in order to modernize all that are in use in the elementary school. Every subject that requires a textbook is now based on a recent edition of a well known and accepted system. It is planned from now on to restudy one subject each year so that every five years textbooks may be replaced if they are worn out or if the materials or methods

are not in keeping with the best practice. All subjects customarily taught in the elementary schools with the exception of cooking and sewing (which are sometimes included) are now available to the Duxbury pupils.

Our physical education program in the elementary schools continues to progress in organization. At the present time every class has three half hours per week of organized play, one with the physical education supervisor and two with the classroom teacher.

The purchase of another set of encyclopedias and the purchase of more than a hundred other library books has afforded our elementary pupils one of the finest classroom libraries in the state.

Considerable attention is still being placed on ways and means of providing for all the children in the classroom whether they are average children, slow learners, or extremely bright in academic work. A helping teacher has been engaged who will give special help to more than forty pupils during the school year. These are pupils who need extra attention in reading. For this year the work is confined to reading because reading is basic to more subjects than any other field of work.

Initial results after the first four months of work show that the children working with the helping teacher had an average gain of a little more than six months in achievement which is about twice as much of a gain as would normally be expected. We are pleased with the result and feel that is the justification for our embarking on the program.

Our elementary teachers use a wide variety of books and methods and give different assignments to the children in accordance with their interests, abilities and

needs. One of the great challenges to education today is to provide for everybody in contrast to the education of years ago which felt that schooling was primarily for those of high academic ability.

## HIGH SCHOOL INSTRUCTION.

There has been considerable change in the curriculum of the High School over the last four years. Although this subject is dealt with under the High School Principal's report, I might add that in two instances high school teachers have attended elementary school teachers' meetings in language and arithmetic. By having the high school faculty represented, both groups of teachers were able to come to an agreement as to just how much should be done in the elementary school and just where the high school teachers should be expected to start in order to have the entire program in proper continuity.

For the last two years, the number of pupils taking shorthand and secretarial work has been disappointing. Larger classes are now coming into the high school and it may be that the increased numbers will solve this problem. Other courses including science, college preparation, home economics, and shop are handling a large percentage of the students and the extra money that is put into them seems to be well spent.

## EQUIPMENT.

We have added three major pieces of equipment this year:

A recorder which enables us to record the voices of the children and to play them back in order that the children may analyze their own speech and study it for improvement. This machine also enables us to record radio programs and save them for class use at a convenient time.

A light weight movie projector was bought to replace an older model. This has made it possible for the elementary classes to have the benefit of instructional films. Elementary teachers are using these films more than ever before this year and it is expected that the program will grow as it has grown in the high school.

A basket system was installed which enables proper storage of gym clothes for the high school boys. It is planned to install the same type of system for the girls who are badly in need of proper storage space.

### TEST RESULTS.

Throughout the school years, standard tests are given in addition to the tests that are made up by the teachers for the particular classes. In the elementary school, these tests test language, arithmetic, reading, and certain study skills. In the high school they test practically the same subjects but are organized differently and are based on adult life use rather than on school programs. Our tests year after year, place us somewhat above average. Science and mathematics scores have been weak in the high school, but both showed a considerable improvement this fall. Our elementary school tests have shown classes to be above average although last year in two or three cases, arithmetic scores were down slightly below average at the middle of the year. Considerable attention has been given to arithmetic in both elementary and high school with several meetings being devoted to the subject and outside speakers being called in. We are continuing to work on this and our observations as well as test results leave us to believe the problem is being solved. Other tests are given on the high school level for various purposes and intelligence tests are given in the elementary schools. Parents who would like more specific information about their children's work can get information based on these test results by consulting with the teachers.

## ASSOCIATIONS.

The School Department cooperates very closely with the Parent-Teachers Association and with the Duxbury Teachers' Association. The P.T.A. has engaged a band director to come here one day a week and to organize a high school band. Excellent progress has been made and more than thirty students are participating. This organization also gives teachers and parents a chance to get together for conferences before meetings. The P.T.A. is to be congratulated on its fine work; it is making a real contribution to rounding out the education of the boys and girls.

The Duxbury Teachers' Association is an association of the Duxbury teachers whose purposes are social, professional, and to serve as a means of school authorities and teachers reconciling their differences when and if this becomes necessary. The projects of the P.T.A. have been actively supported by the Teachers' Association as part of the professional work of the organization. This type of cooperation is an indication of healthy relationship between parents and teachers.

## HEALTH SERVICES.

The program of health development aside from the regular school instruction, is making progress. Dr. Connie King, our school physician for many years, passed away during the school year. His fine work and influence on all of us has been greatly missed. Dr. Walter E. Deacon has replaced him as school physician and is carrying on the program splendidly.

Dr. Henry Messier served as the school dentist from January until June and did a tremendous amount of work on children's teeth which has helped considerably to improve the condition of children's mouths. Dr. Messier and Dr. Gillis Turner are working jointly as school dentists

this year. Through the generosity of the Duxbury Nurse Association and the appropriation of the Duxbury Board of Health, more money is available this year than formerly so that dental care for school children will be more adequately provided for than ever before.

The work of the doctors is made far more efficient by the capability of our school nurse, Miss Susan Carter. Her knowledge of the work, our problems, and ability to administer the program so that it functions smoothly, enable us to utilize every dollar of the money appropriated for these specialized services.

## PROBLEMS.

As we look ahead, we find there are still pressing problems that must be solved. I would list them briefly as follows:

1. The organization of the new elementary school. Of course this building will represent a change to all of us who are used to working with our widely scattered units. It will give us the opportunity of working together as a team and should enable us to show better results for the efforts and money expended.
2. High School construction. Some redesigning inside the high school to make our gym work more efficient and to improve the poor locker-shower facilities is necessary. Our shop is too crowded for efficient operation. I would like to add my word to the High School Principal's word to urge action as soon as possible.
3. The last three years have been spent in trying to modernize our practices and adapt them to the best practices prevalent today. In many respects our

progress has been rapid, but in others changes have come slowly. This has been intentional. School progress is a slow process which requires careful study every step of the way. Changes in method particularly, must be built from grade one up through. Children become confused by rapid changes of any kind. We on the staff feel we are making progress and hope that another two or three years will show beyond any doubt that this is so.

4. The problem of space is still with us. Next year the high school enrollment will be at or very close to the capacity for which that building was designed. The elementary enrollment will be very close to the capacity for which the new elementary school was designed. The birth rate in Duxbury has been breaking all records in the last four or five years. Since we are near capacity before this record breaking birth rate even enters school, one can see that we still have a problem to meet. Although there is no intention here to "cry wolf" it is evident that some thinking and planning must be done now in order to meet the very acute problem that will be faced in the ten years between 1950 and 1960.

In closing, may I thank the School Committee, teachers, and people of Duxbury for their fine cooperation in building better schools together throughout the last year.

Respectfully submitted,

JOHN A. WHITEHEAD,  
Superintendent of Schools.

## REPORT OF THE HIGH SCHOOL PRINCIPAL

---

Mr. John A. Whitehead

Superintendent of Schools

Duxbury, Massachusetts

Dear Sir:

This is my annual report to you on the situation as it now exists in Duxbury High School with comments on plans for the future.

### PROGRAM OF STUDIES

We now offer science in every grade from seven through twelve which rounds off our course of study, making it comparable to courses of study in other accredited high schools. The social science and English courses are so planned that each contributes to the work of the other. Our 1948 graduation exercises were planned and written by the students as a result of their study of the United Nations. Those who saw these exercises were favorably impressed with the outcomes of such a plan. The faculty has been extremely alert to the possibilities and use of visual and auditory aids and have used field trips where these had real educational value. People of Duxbury have frequently been called in where their special knowledge has been of great assistance to us in enlarging our teaching program. This work, under the direction of Mrs. Bassett and Mr. Wood, has been one of our most forward looking and successful programs.

### TESTING PROGRAM

We have carried on an intensive standard testing program to determine mental ability, scholarship, vocational

preference, and an emotional inventory. These tests were valuable in that they gave us information which leads to a better understanding of the individual's needs and problems.

## GUIDANCE PROGRAM

Our guidance program is now in full operation. Mr. Blakeman checks courses of study, rechecks poor grades, and consults with students in order to determine causes for not doing better and gives as much help as possible to those interested in further education in preparing and locating themselves. We notice an increased interest in higher education and fewer changes from one course to another.

We are continuing our policy of marking the students in the seventh and eighth grades and our non-college students in required subjects in the upper grades on the basis of their ability in the light of our tests and observations. Under such conditions we expect from each child the best that he is able to offer and this becomes our standard. In certain fields of work, standards are set by the outside world and in these cases children are marked rather strictly according to those standards. For instance, in college preparation A's and B's are given only to those students who do work of a grade that will be expected for college entrance.

## STUDENT COUNCIL

The Student Council continues to be active and capable. Although the principal has the power to veto acts, decisions and projects of this Council, he has not had to use it. Their decisions and judgments have been fine. The marshall system supervises the corridor traffic and lunch hours in the gymnasium. The Athletic Association has done an excellent job administering its budget while raising about \$1500.00 to cover all athletic programs.

## MUSIC PROGRAM

The music program is gaining for we are all working on it. We have had several music assemblies, more student participation and a new effort to start a band, through the securing of Mr. Donald Leach's time one day a week, by the Parent-Teachers Association. We still need more music teacher time to do the job adequately.

## AUDIO-VISUAL AID PROGRAM

The audio-visual aid program is run by Mr. Wood and his Special Services Club. This organization has done a remarkable piece of work running a very active school program. The sound recorder is busy every day in speech work. The Class of 1948 gave the school a film viewer so that teachers can preview films to get better teaching use.

## PHYSICAL EDUCATION PROGRAM

We are hard pressed to do a sound educational piece of work here. The shower and locker situation makes it impossible to avoid unsanitary conditions, lost or mislaid clothing and personal gym equipment. It is my sincere hope that something can be done to correct this situation. When the cafeteria moves over to the new building, the basement possibilities should be investigated.

Our policy with regard to sports is to keep it on a sane educational basis, being careful of over emphasis and keeping desirable objectives constantly before us.

## ATTENDANCE

We are pleased to report that absence from school was decreased by fifty per cent and serious tardiness problems virtually eliminated. We do not want a child to feel compelled to come to school when sick. We are in-

terested only in eliminating avoidable absence. Good attendance is necessary for successful study.

## ATTITUDE

At this writing, we have noticed much fewer discipline problems and less maladjustment. We have contacted personally many parents and they all have evidenced a desire to assist us in our problems with individuals. We are convinced that the only way to be successful with the individual is through the united efforts of school and home. We encourage parents to visit the school and become acquainted with the teachers.

## PROBLEMS

This past few months has seen us severely crowded, curtailing some activities and putting other activities in noisy environment and cramped quarters. This situation will be greatly relieved when the fourth, fifth and sixth grades are able to move into the new building. We have a plan of action when the high school building becomes available to us which will allow us to get maximum use of the building, especially by establishing headquarters for the various subject fields.

Although our most vexing problems are due to physical plant limitations which will disappear next year, I feel that too much confusion and disruption is caused by the necessity of moving several hundred chairs on and off the auditorium stage each week. Every time we have an assembly program the whole school is disrupted to some degree. Perhaps a solution can be found in building bleacher seats and removing our balconies, or lowering our balconies and providing chair storage underneath, or in removing the balconies and building permanent ones at the rear of the hall. The final solution will require very careful study by competent per-

sons, but we are convinced that a far more efficient solution may be found than the one we now have.

We do not anticipate any radical change in our curriculum. Rather, we would like to consolidate and improve on what we are doing. We have superior personnel who will be able to do better teaching when space facilities will be improved.

In closing, I wish to thank you and the School Committee for your constant support. It has been a pleasure to work with you.

Respectfully submitted,

WALTER K. HJELM,  
Principal

REPORT OF SCHOOL NURSE

---

Mr. John A. Whitehead

Superintendent of Schools

Duxbury, Massachusetts

Dear Sir:

I submit herewith the annual report of the school nurse for the year 1948.

All routine activities were carried out as usual and no unusual conditions were found as to serious deviations from the normal health of the children.

In cooperation with the Home Economics teacher, a class in Home Nursing was conducted for the 10th grade girls. This lasted for four weeks with the chief emphasis on baby and child care, but also including some of the essentials and simpler procedures for caring for the sick at home.

Several health talks were given during the year, at the request of various High School teachers. Subjects of these talks included the health resources of the town, the duties of the School Nurse, the school's provisions for first aid, and a panel discussion of the importance of animal experimentation to medical science.

As a result of a case of diphtheria in a school child, Schick testing was done by the Board of Health on all children whose parents were willing. Of 327 tested, 75 were positive, showing need for protective injections against diphtheria. These were taken care of in the Board

of Health clinic, or in the case of those failing to appear, the nurse checked with the family to be sure the situation was being attended to privately.

Eye tests throughout the schools again turned up only about 2% of new defects in vision. In two cases where glasses were needed, financial assistance was given as necessary by the Duxbury Nurse Association.

Four children needing to have their tonsils out and needing financial assistance were helped also by the Nurse Association.

Home visits during the year were as follows:

Colds	19
Infested heads	14
Upset stomachs	9
Tonsillectomies	6
No doctor's certificate	4
Eye follow-up	4
Dental follow-up	3
Suspicious rash	3
Camp prospects	3
Earache	2
Toothache	2
Injured lip	1
Swollen glands	3
Diarrhea	1
Child guidance	1
Severe cuts of hand and arm	2

---

Total	<u>\$62.60</u>	\$55.00
-------	----------------	---------

Break-down of visits: 66 Children made 1 visit  
79 Children made 2 visits  
21 Children made 3 visits  
1 Child made 4 visits (emergency)

Respectfully submitted,

SUSAN E. CARTER, R.N.,  
School Nurse.

## REPORT OF SCHOOL PHYSICIAN

---

Mr. John A. Whitehead

Superintendent of Schools

Duxbury, Massachusetts

Dear Sir:

A complete physical examination of each school child was carried out this fall. Most of the examinations were carried out in the schools because of the transportation difficulties to my office.

The examination included special examination of the eyes, ears, nose and throat. Neck examinations were carried out in cases in which infections were found in the nose and throat. The heart and lungs were examined by stethoscopic means and a few new cardiac cases uncovered. Flat feet and posture were appraised critically; it is felt by this department that the posture problem in the town of Duxbury is the chief criticism that can be directed towards the school children. An outline of exercises to correct poor posture was handed in to the Physical Education department and recommendations to the parents where it seemed necessary.

Parents were informed of physical defects by letter; the general health of the children was felt to be good.

It is felt that if money can be appropriated from the town funds that urinalysis should be carried out and also blood counts to determine early kidney trouble and diabetes and to ferret out those cases of anemia. It is felt

that this would improve the general health of the school children even more so than at the present time.

The dental program and dental education were carried out by Dr. H. E. Messier during the winter and spring and the children's teeth do show a marked improvement over last year.

Respectfully submitted,

WALTER E. DEACON, M.D.,  
School Physician.

## REPORT OF THE SCHOOL DENTIST

---

Mr. John A. Whitehead

Superintendent of Schools

Duxbury, Massachusetts

Dear Sir:

The Dental Clinic for the year 1948 started January 15 and ended June 10. The results accomplished were as follows:

308 Amalgam (silver) fillings

16 Extractions

65 Cleanings

23 Cements (fillings)

---

412 Operations

An attempt was made to do the obvious, or most important operations at the time of the pupil's appointment. Since the U.S. Department of Public Health and the American Dental Association are recommending Fluorine treatment for all school children, a future effort should be made in this direction to lessen tooth decay. I regret to state that for reasons beyond my control there was not a dental program this fall. However, I am sure the future program will make up for lost time.

Respectfully submitted,

H. E. MESSIER, D.M.D.,  
School Dentist.

## REPORT OF SCHOOL CENSUS

---

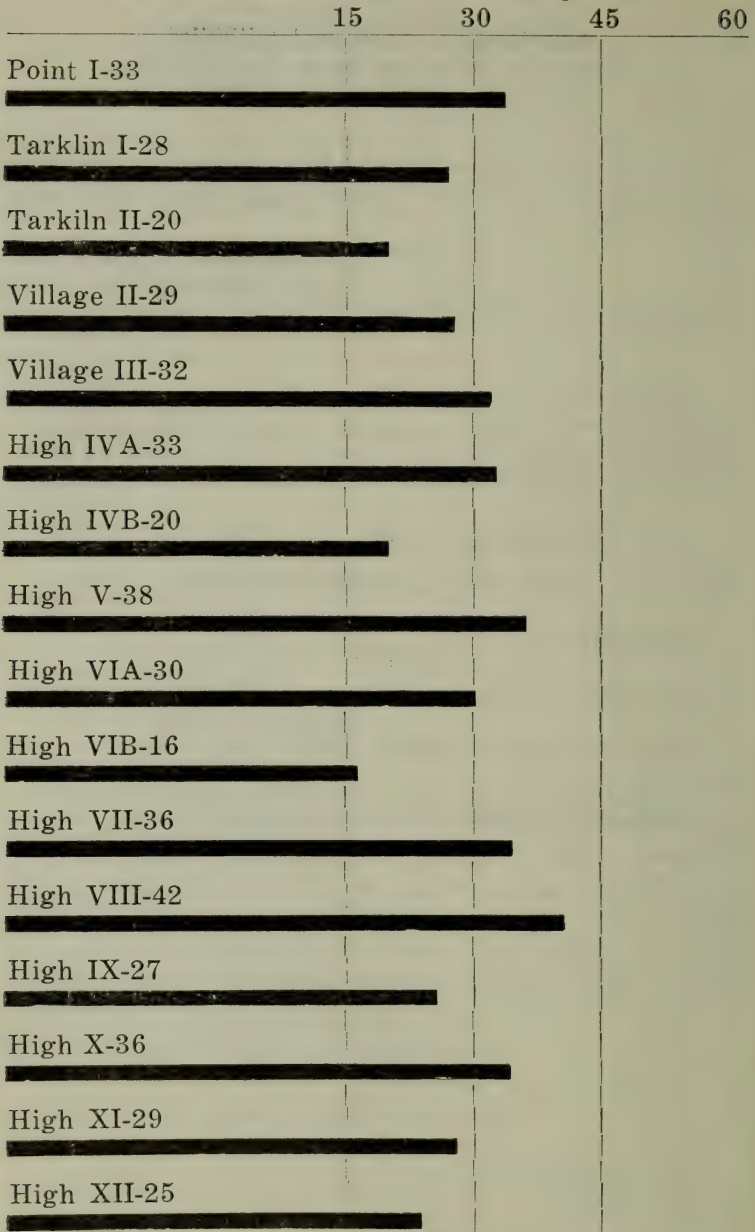

The following report of children in town and enrollment is based upon the school census taken October 1, 1948.

	5 years and under 7 years	7 years and under 16 years

## REPORT OF THE SELECTMEN

---

Fellow Citizens:

We herewith submit the Ninety-Seventh Annual Report of the officers and committees of the Town of Duxbury.

Mr. Harry B. Bradley, who has served as moderator for many years, resigned early in 1949 and this resignation was accepted with regret and with sincere thanks for his kindness and efficiency.

Detailed information concerning the progress and future requirements of the town is contained in the reports of the various Department Heads.

The Chapter 90 program is being continued and following the recommendations of the Department of Public Works the straightening and widening of Church Street was started in 1949 and will be completed in 1950. Our project for 1951 should be the reconstruction of Tobey Garden Street.

Shortly after the close of the summer season the Plymouth and Brockton Street Railway informed us that they were about to curtail bus service to and from the Kingston Railroad Station. We immediately named a committee to study the problem and as a result of their findings the bus service has been continued. This was accomplished by donations from individuals who were interested in maintaining this service, and in some

instances the donors were not commuters. We cannot expect continued subsidies by citizens who have no direct interest in the continuance of this service and we must warn the public that unless the bus is patronized to the fullest extent it will have to be discontinued, or sharply curtailed.

On behalf of the town we have attended hearings of the Outdoor Advertising Authority and objected to the placing of bill-boards in Duxbury.

Every effort has been made during the year to obtain action by federal authorities regarding funds for the dredging project in the Duxbury basin and channel. The Army Engineers reported favorably to the Bureau of the Budget, but our Congressman informs us that the President did not see fit to include funds for any new work in this area. Therefore, we will have to put up with conditions as they are until such time as federal funds are allocated to this district.

The issuance of certain liquor licenses was disapproved by the selectmen and their decision was supported by the Alcoholic Beverage Control Commission. Our action in this matter was the result of careful study of public opinion as well as our judgment as to the manner in which the best interests of the town might be served.

The new elementary school was dedicated on September 10, 1949, with appropriate exercises.

We recommend the appointment of a committee to study the need for a building to house various town offices and possibly a "public" auditorium as the present facilities are most inadequate and maintenance costs are excessive.

Additional land is available in the Wright's Dyke area and the selectmen recommend that this be purchased for municipal purposes, as the acquisition of these lots would improve the contour of our present holdings.

Respectfully submitted,

PHILIP W. DELANO, Chairman  
CHARLES R. CROCKER,  
WALTER G. PRINCE,  
Selectmen of Duxbury.

## REPORT OF STATE AUDITOR

---

May 10, 1949

To the Board of Selectmen  
Mr. Philip W. Delano, Chairman  
Duxbury, Massachusetts

Gentlemen:

I submit herewith my report of an audit of the books and accounts of the town of Duxbury for the fiscal year ending December 31, 1948, made in accordance with the provisions of Chapter 44, General Laws. This is in the form of a report made to me by Mr. Herman B. Dine, Assistant Director of Accounts.

Very truly yours,

FRANCIS X. LANG,  
Director of Accounts.

FXL:GBS

---

Mr. Francis X. Lang  
Director of Accounts  
Department of Corporations and Taxation  
State House, Boston

Sir:

In accordance with your instructions, I have made an audit of the books and accounts of the town of Duxbury for the fiscal year ending December 31, 1948, and report thereon as follows:

The recorded financial transactions of the several departments receiving or disbursing money for the town or committing bills for collection were examined, checked, and verified by comparison with the books of the town accountant and the town treasurer.

The books and accounts in the office of the town accountant were examined and checked. The receipts, as recorded on the ledger, were checked with the records of the several departments making payments to the treasurer and with the treasurer's books, while the recorded payments were checked with the treasury warrants issued by the selectmen and with the treasurer's cash book. The appropriations and loan authorizations, as recorded on the ledger, were checked with the town clerk's records of town meetings and the transfers from the reserve fund were verified.

The town accountant's ledger was analyzed, and a balance sheet, which is appended to this report, was prepared showing the financial condition of the town on December 31, 1948. This balance sheet indicates that the town is in excellent financial condition.

The books and accounts of the town treasurer were examined and checked in detail. The recorded receipts were analyzed and compared with the records in the departments collecting money for the town and with the other sources from which money was paid into the town treasury, while the payments were checked with the selectmen's warrants authorizing the disbursement of town funds. The cash balance on March 8, 1949 was proved by reconciliation of the bank balances with statements furnished by the banks of deposit and by actual count of the cash in the office.

The savings bank books and securities representing the investment of the trust and investment funds in

the custody of the town treasurer and of the Plymouth Five Cent Savings Bank were examined and listed. The income was proved and the withdrawals were checked with the receipts as entered in the treasurer's cash book.

The tax title deeds on hand were examined and listed. The amounts transferred from the tax levy of 1948 to the tax title account were reconciled with the collector's accounts, the tax titles redeemed were compared with the treasurer's recorded receipts, and the tax title deeds, as listed, were reconciled with the accountant's ledger and checked with the records in the Registry of Deeds.

The books and accounts of the tax collector were examined and checked. The poll and property taxes and motor vehicle and trailer excise outstanding according to the previous examination and all subsequent commitments were audited and checked to the warrants issued for their collection. The payments to the treasurer were checked to the treasurer's cash book, the recorded abatements were compared with the assessors' records of abatements granted, and the outstanding accounts were listed and reconciled with the respective ledger accounts.

The records of departmental accounts committed for collection were examined and checked. The charges were proved, the recorded receipts were checked with the payments to the treasurer, and the outstanding accounts were listed and reconciled with the respective ledger accounts.

Verification of the correctness of the outstanding tax, motor vehicle and trailer excise, and departmental accounts was made by mailing notices to a number of persons whose names appeared on the books as owing

money to the town, and from the replies received it would appear that the accounts, as listed, are correct.

The town clerk's records of dog, sporting, and miscellaneous town licenses, as well as of permits and fees collected, were examined. The payments to the State were verified by comparison with the receipts on file, and the payments to the town treasurer were compared with the treasurer's cash book.

The surety bonds furnished by the several town officials required to file such surety for the faithful performance of their duties were examined and found to be in proper form.

The records of receipts from selectmen's licenses and permits, from the sealer of weights and measures, and from the police and health departments, as well as from all other departments in which money was collected for the town, were examined and reconciled with the treasurer's and the accountant's books.

In addition to the balance sheet previously mentioned, there are appended to this report tables showing a reconciliation of the treasurer's and the collector's cash, summaries of the tax motor vehicle and trailer excise, tax title, and departmental accounts, as well as tables showing the transactions and condition of the trust and investment funds.

While engaged in making the audit, cooperation was received from the officials of the town, for which, on behalf of my assistants and for myself, I wish to express appreciation.

Respectfully submitted,

HERMAN B. DINE,  
Assistant Director of Accounts.

## REPORT OF THE FIRE DEPARTMENT

---

To the Honorable Board of Selectmen:  
Duxbury, Massachusetts

Gentlemen:

The Board of Fire Engineers submit the following report of department activities for the year of 1949:

This year we had a total number of 75 calls:

- 7 Automobile
- 5 Bridge
- 12 Building
- 19 Chimney
- 18 Emergency
- 2 False Alarm
- 8 Oil Burner
- 2 Outside Aid
- 2 Stand-by

Although this has been one of our most active years, we are fortunate to have been able to keep our building losses down to approximately \$7,000, with only one building a total loss.

The department issued 2,200 fire permits during 1949, which illustrates the co-operation of our townspeople in complying with regulations and recognizing the necessity for fire prevention measures. So often people unthinkingly light their incinerators when hazardous fire conditions prevail and then find that their "harmless" little fires lead to others that may destroy their homes and other buildings. Therefore, we be-

lieve that much credit should be given to the citizens of Duxbury whose fire-consciousness and subsequent support of the department have been a main factor in keeping our fire losses small.

Because practically everything in fire service has increased in price and the many new homes being constructed in Duxbury mean much more protection is required from our department, we, as a board, feel that our budget appropriation this year has to be increased in order to meet these demands.

In 1932 the two fire companies started a Duxbury Firemen's Relief Association with the thought that someday they might build a fund large enough so that the interest money would enable them to take out an insurance policy on their members. This year they have reached that goal and an insurance policy protecting all men on the fire department roster has been taken out by the Association.

The engineers would like to thank the officers, firemen, organizations, departments, and citizens of the town for their support this year in fire protection and prevention.

We stand ready to answer all fire calls and emergencies—just ask for the Duxbury Fire Department, Duxbury 333.

Respectfully submitted,

EBEN N. BRIGGS, Chief  
GEORGE S. BUTLER, Assistant  
LeROY M. PETERSON, Secretary  
KENNETH O. MACOMBER, Chairman  
HENRY M. GRISWOLD  
CARL J. SANTHESON, Jr.

## REPORT OF FOREST WARDEN

---

To the Honorable Board of Selectmen:

Duxbury, Massachusetts

Gentlemen:

I herewith submit my report as Forest Fire Warden for the year 1949.

The calls were as follows:

Brush	11
Dump	51
False Alarm	4
Forest	10
Grass	41
Outside Aid	7
Stand-by	3

---

127

This year was the driest and most hazardous year in the history of our forest fire department. I feel very fortunate that out of our fifty grass and forest fires, the largest area burned over in any one fire was six acres. This can well be credited to the quick response of our firemen, guided by our local radio network, which, in my mind, is one of the most valuable pieces of equipment in our forest fire service because

it enables us to be in constant contact with our central fire station and to respond to other fires without delay.

Although I realize the heavy expenditures which the town has to make annually, I feel that two trucks in the department should be replaced if the same conditions exist next year which prevailed during the past year. If a drought occurs in the coming year, I doubt that one of the trucks will last through the forest fire season. Therefore, I recommend that one of them be replaced this spring.

As Forest Warden of the town of Duxbury I want to thank all my deputy wardens, firemen, citizens, telephone operators, and other departments for their whole-hearted co-operation in the forest fire service through one of the most serious years in history.

Respectfully submitted,

EBEN N. BRIGGS,

Forest Warden.

## REPORT OF HIGHWAY SUPERINTENDENT

---

To the Honorable Board of Selectmen:

Gentlemen:

I herewith submit the report of the Highway Department for the year ending December 31, 1949.

In addition to general repairs to all streets throughout the town, several miles were given a surface treatment. Taylor Street and four-tenths of a mile of Temple Street were widened, rebuilt and surfaced with mix and place. All dirt roads were scraped. King Philip's Path, Vine Street, and a portion of Mayflower Street were widened and straightened.

This year, by owning our own tractor with mowing attachments, we were able to mow and rake roadsides in the entire town. Fences were repaired and painted.

Three hundred feet of new sidewalk was built and surfaced with black top. All sidewalks on Washington Street with curbing were resurfaced.

Besides the general repairs to Powder Point Bridge, nine complete sections were replaced.

The regular repairs were made on all Town Landings. One new float was purchased for Mattakeesett Court. A new float was also purchased for the Eben Ellison Beach out of the fund established by Mr. Ellison for that purpose.

Under Chapter 90 New Construction, Church Street and Peg Road are to be rebuilt. Brushing out has been completed. Excavation was started but because of cold weather had to be discontinued and will be resumed in the spring. The State, County, and Town share the cost of all Chapter 90 work.

That portion of Priscilla Avenue which was accepted by the town, was excavated, covered with gravel, and given a seal coat of asphalt and tar.

Respectfully submitted,

LEWIS B. RANDALL,  
Superintendent of Streets.

## REPORT OF THE SUPERINTENDENT OF CEMETERIES

---

To the Cemetery Trustees:

I submit my report for the year 1949.

At Mayflower, Ashdod, Dingley and Myles Standish Cemeteries, the general work was done and the leaves were raked. There was a large amount of work done in trimming the dead wood out of the trees.

At Mayflower the iron fence around the cemetery had a coat of paint, along with some fences around the lots. A number of stones were leveled and repaired. The evergreen shrubs were watered several times during the hot spell.

The Ladies Union Fair Association had the fences painted around some of the old lots. One dead tree was removed by the Tree Department.

At Ashdod the fence was painted and several lots built. A number of stones were leveled.

Dingley Cemetery the old slate stones were straightened, repaired and cement put around the base of them.

The dry season enabled us to do this much needed extra work.

Perpetual and Annual care lots were cared for. There were forty-five interments this year.

Respectfully submitted,

LAUREL B. FREEMAN,  
Superintendent of Cemeteries.

## REPORT OF THE CEMETERY TRUSTEES

---

To the Honorable Board of Selectmen  
and the Citizens of Duxbury:

We submit our report for the year 1949.

The report of the Superintendent contains the details of the work done in the Cemeteries and is made a part of this report.

The increase in the Perpetual Care Funds continues and insures provisions for the care of those additional lots.

We are asking for a special appropriation for the purchase of an electric generator and spade hammer to assist in digging graves during the time when there is frost in the ground. An additional charge will be made for this as is done now for the added labor required. It can also be used for other work about the cemetery and save time on some jobs.

We ask for an appropriation of \$10,105.00 to carry on the regular work of the Cemetery Department in the year 1950.

Respectfully submitted,  
HARRY A. TAMMETT, Chairman  
J. NEWTON SHIRLEY, Secretary  
ERNEST H. BAILEY,  
EDWARD P. HOBART,  
STANLEY V. JOHNSON.

## REPORT OF PUBLIC HEALTH NURSE

---

To the Honorable Board of Selectmen:

Gentlemen:

I submit herewith the report of the Public Health Nurse for the year 1949, for services rendered under the town appropriation which pays the salary of the nurse for this purpose.

Classification	Cases	Visits
Bedside visits		
Old Age Assistance	8	182
General Relief	2	35
Aid to Dependent Children	2	16
Instructive visits		
Contagious Disease	17	22
Crippled Children	3	8
Tuberculosis (cases and contacts)	8	12
	<hr/>	<hr/>
Totals	40	275

This is an increase in general over the work done last year, though the distribution is different.

### Other Activities

Well-Child Conference—6 meetings, 78 attended  
(P.T.A. sponsored)

This is twice the figure for last year.

### Transportation

Brockton Orthopedic Clinic                      3 trips

Plymouth County Hospital                      3 trips

Respectfully submitted,

SUSAN E. CARTER, R. N.,  
Duxbury Public Health Nurse.

## REPORT OF THE TOWN HISTORIAN

1949

---

To the Honorable Board of Selectmen:

During the past summer an interesting Pageant brought vividly to mind an important event in Duxbury history. Three hundred years ago three Pilgrims from the Duxbury Plantation, Myles Standish, Constant Southworth, and William Nash, met by appointment Ousamequin, chief of the Wampanoag tribe of Indians, and his counsellors to arrange for the purchase and sale of a large tract of land lying to the West of the town.

The meeting took place on what is now known as Sachem's Rock in East Bridgewater. The Bridgewater Historical Society, which staged the pageant, used the original site for its presentation and the participants were descendants of those taking part in the original transaction.

Rev. Leroy C. Perry, a lineal descendant of Massasoit, standing on the Rock made an oral proclamation giving to the Town of Duxbury all the land extending, "7 miles north, 7 miles south, 7 miles east, 7 miles west."

In return payment Duxbury gave knives, hatchets and other implements useful to the Indians. The land purchased included what is now the Bridgewaters, Abington, Rockland, a part of Hanson, and Brockton.

The original deed, signed for Duxbury by Myles Standish, Samuel Nash and Constant Southworth, and

for the Indians by a Hand, Massasoit, is the valued possession of the Bridgewater Historical Society.

The Pageant brought vividly to mind the simplicity of the times, how our New England towns grew, and how much the friendly open dealings with the Indians meant in our history.

The important part which our New England Academies, our own Partridge Academy among them, have played in the education of youth, was emphasized this summer by appropriate exercises commemorating the 150th anniversary of the Old Bridgewater Academy. Its founder was Rev. Zedekiah Sanger, at one time the Minister of the First Parish in Duxbury, and whose wife was a Duxbury woman.

The Tide Water marks on the wall in front of the "King Caesar House" have been re-cut. They show the height reached by the waters in the storms of 1851 and 1898.

Many inquiries addressed to The Chamber of Commerce are received each year. They request information not only in regard to the history of the Town, but its present interests. All these requests are answered personally. Our friends realize that we have not only a past, but a present and a future.

WALTER R. HUNT,  
Historian.

## REPORT OF THE WAR MEMORIAL COMMITTEE

1949

---

To the Honorable Board of Selectmen:

On April 21, 1949 the Moderator, as authorized by vote of the town on March 5, 1949, appointed a War Memorial Committee of seven citizens to suggest plans for a suitable Memorial.

This committee met and organized with Abbot Peterson as chairman and Harry C. Grafton, Jr. as secretary.

At its monthly meetings, letters containing suggestions for possible sites and types of memorials were discussed, as well as the various projects which the previous Memorial Committee had considered. It was the unanimous opinion of the Committee that proposals such as rebuilding Partridge Academy or erecting a concrete stadium at Train Field, even if desirable, involved prohibitive expense to the town, and it was finally agreed to recommend to the town meeting a type of Memorial which should be commemorative, not utilitarian. Accordingly, two sites and two somewhat different memorials are suggested for consideration at the Annual Town Meeting. The expense involved would be approximately the same in each case.

Plan No. 1. To erect a granite shaft inscribed with the names of the Duxbury men who gave their lives in the nation's defense, on the American Legion Lot

at the Tremont Street entrance of Mayflower Cemetery. To place on the same lot a flagpole where the National Flag might be flown throughout the year. **Note.** On Nov. 14, 1949, the Legion voted to relinquish to the town it's rights in the above mentioned lot, in the event the town should decide on the location for its War Memorial.

Plan No. 2. To fill in the lot between the old Lucas Property and the Cable Office on Washington Street and place thereon a granite boulder with a bronze tablet, suitably inscribed, with appropriate landscaping as a memorial to the men of Duxbury who gave their lives in defense of the nation. **Note** On November 19, 1949, the Duxbury Rural and Historical Society, unanimously voted to convey to the town the title to the above mentioned lot, in the event that the Annual Town Meeting decided upon that location as the site of its War Memorial.

Your Committee is of the opinion that the adoption by the town of either of these two plans would result in a War Memorial of dignity and beauty.

Respectfully submitted,

ABBOT PETERSON, Chairman

## REPORT OF PLYMOUTH COUNTY EXTENSION SERVICE

1949

---

The towns of Plymouth County have the opportunity of contributing directly to the budget of the Plymouth County Extension Service by town appropriation, which is sent directly to the County Treasurer for the use of this Department. Town Directors are chosen to represent the town in the administration of the Extension Service wherever possible.

The Extension Service is an educational organization sponsored jointly by the County of Plymouth, University of Massachusetts, and the United States Department of Agriculture. There are three Departments within the Extension Service:—Agriculture, Homemaking and 4-H Club Work. The major objectives of the Extension Service are directed to farm and rural people, but since funds from tax sources are used, there is an obligation to all citizens of the County.

The direction for the Extension Service is by board of nine trustees who are appointed by, and report to, the Board of County Commissioners. In addition, each Department has an advisory council and commodity committees which give counsel in the formation of educational programs for their respective groups.

General educational programs are conducted through meetings, circular letters, newspaper and radio publicity. In addition, farm and home visits are made to promote rural welfare among the men, women and youth interested in better farm and rural living.

## Statistical Summary of Achievements

	Agri. Dept.	Home Demon. Dept.	4-H Club Dept.	Total
Farm or Home Visits	859	216	588	1,663

## REPORT OF THE BOARD OF APPEALS

---

To the Honorable Board of Selectmen:

Gentlemen:

The Board of Appeals held seventeen public hearings during 1949, fifteen of which were on petitions for variances in residence districts and two for exceptions where the Protective By-Law gave authority subject to the approval of the Board of Appeals.

Of the petitions for a variance, nine were granted, four were denied, one was dismissed because nobody appeared at the hearing and one is still pending the board's decision. The two petitions for exceptions, one in a residence district and the other in a business district, were granted.

Two of the hearings on variances which were denied and the one for an exception in a business district created general interest and were largely attended.

Respectfully submitted,

WILLIAM B. COFFIN, Chairman

H. RUSSELL CHANDLER

KENNETH O. MACOMBER

## REPORT OF HARBOR MASTER

---

To the Honorable Board of Selectmen:  
Gentlemen:

I herewith submit my annual report as Harbormaster for the year 1949.

In the waters of Duxbury Bay last summer there were 55 registered boats under 40 feet, 15 over 40 feet, plus a large number of sail boats and outboard motors. Out of this number 50 were moored in the basin.

Several of the boat owners, both boat yards, and myself have written to the Director Bureau of the Budget in regard to the dredging of the basin. We received a favorable reply that something would be done as soon as possible. In the meantime we will have to contend with the congested situation of the basin.

This Spring we plan to mark the Standish Shore channel up as far as Howland's Lane, hoping that this will encourage more boats to anchor there. This will help to relieve some of the congestion in the Duxbury Boat Basin.

We now have four floats two of which will be used for boat docking, of the other two, one is very old and should be replaced, if this is done with the proper cooperation, this should be adequate. There is plenty of space on the Town wharf for more lockers, this will insure safety of boat equipment.

I have made up a set of rules and regulations, and posted the same, hoping that this would insure comfort and safety of boat owners using the basin.

Respectfully submitted,

VICTOR D. NICKERSON,  
Harbormaster.

## REPORT OF THE TRUSTEES OF JONATHAN AND RUTH FORD FUND

---

To the Citizens of Duxbury:

The following is a statement of the operations of the principal and income accounts of the Jonathan and Ruth Ford Fund for the year 1949:

CHARLES R. CROCKER

WALTER G. PRINCE

JOSEPH T. C. JONES, Treas.

## REPORT OF NEW GRADE SCHOOL BUILDING COMMITTEE

---

At the Annual Town Meeting in March 1948, it was voted that the Moderator appoint a committee of three to formulate plans for a new Grade School for presentation to the Town for action at an early date.

Your Committee received notice of its appointment on March 26, 1948 and at once set to work.

We first sought to learn by postcard canvass the sentiment of the citizens as to whether the new school should comprise an addition to the present High School or a separate building. We also asked for opinions as to how much should be spent, and solicited letters and communications.

The response was gratifying, both in amount and in the interest shown. But there was no predominant opinion on any question presented.

The replies were almost equally divided between those who favored a new wing to the present High School and those who favored a separate building. A few were for no school, a few for a new High School, and some were for either proposal so long as a school was built. Many volunteered a desire for a Colonial design.

The response and our own inquiries disclosed substantial interest in the prospect of a regional High School and a desire that the plans should take into consideration that possibility.

As to the amount to be spent, a substantial number were on the side of economy. Some wanted to spend

very little, some to spend a great deal, and there were all sorts of views in between.

We met with the School Committee, representatives of the Taxpayers' Association, the Finance Committee, the Selectmen, and as many others as possible. The teachers were consulted as to their needs and requirements and we had the benefit of the studies that had been made in connection with the previous proposal for the so-called Orr School.

We felt very strongly the urgent need for new grade school accommodations, and that such accommodations should be completed no later than the opening of school in 1949.

We conceived that our duty was not to decide what our Committee most desired or what any particular group most desired, but rather to present plans which would take care of present needs with credit to the Town, and of a character, both as to design, type of construction and cost, that would meet with such general approval as to carry the necessary two-thirds vote at a Town Meeting.

With these considerations in mind, we engaged a well known and experienced architect, Harold Field Kellogg of Boston, together with Thomas Worcester, Inc., as associate engineers, to make preliminary plans, both for an addition to the High School and for a separate building, answering our present requirements and within a cost range which we believed would be approved.

We had been voted no funds, but our architects and engineers agreed to prepare such preliminary plans provided we would agree that they would be engaged as architects and engineers, at the usual rate, to complete the final plans and specifications if either pro-

posal was accepted by the Town, and provided further that we would ask by warrant in the call of a special Town Meeting that they be paid an agreed amount for the preliminary plans, if, on their presentation, the Town voted to proceed no further. It was further agreed that if the Town did vote to proceed no further and failed to vote payment for the preliminary plans, no bill would be rendered.

The preliminary plans as they progressed were submitted to the various groups to which we have referred. We received many valuable suggestions and tried to satisfy as many of these suggestions as to modifications and additions as possible within what we felt would be a total cost which the Town would approve.

When completed, the plans with perspective views were given as wide a distribution and showing as our resources afforded, and a public meeting, which was well attended, was held in the Auditorium on June 25, 1948, for a showing and discussion. Prior to the meeting we issued and sent to the voters a full report, recounting in some detail what the Committee had done up to that time.

On the basis of the preliminary plans and preliminary specifications, we obtained cost estimates from three carefully selected and competent builders and made a survey of the requirements for cafeteria equipment and school equipment and the probable cost. From these estimates, and on the advice and study of our architects and engineers, we felt sufficiently satisfied as to the probable total cost of each plan to feel warranted, at some risk, in proposing to the Town that if they chose to accept one or the other of these plans, the Building Committee be voted a fixed sum of money and be authorized to spend the same in pre-

paring final plans and specifications, receiving bids, and building and equipping, substantially in accordance with the plan which had been accepted.

The alternative would have been to have a Town Meeting at which the voters would be asked to appropriate a substantial amount for the completion of final plans and specifications and obtaining bids, requiring a majority vote, and thereafter at a subsequent Town Meeting to present the bids and ask for an appropriation of the money necessary to go ahead. This would have meant considerable delay and two Town Meetings, with the possible risk that while there had been a majority vote to proceed with the preparation of final plans and specifications, the necessary two-thirds vote would not be forthcoming for the final appropriation for building.

Accordingly, at a Special Town Meeting held on June 25, 1948, the two alternative building plans were presented, together with our estimate as to the sum of money which we deemed necessary for completing and equipping the building selected, substantially in accordance with the preliminary plans.

By a vote of 237 to 50, the following vote was passed:

Voted, That the Town vote to construct a new elementary school building on land of the Town in the area south and east of the High School, substantially in accordance with the plans of Harold Field Kellogg, and to furnish and equip said building, and to appropriate funds for the purpose in the following manner—From the Post-War Rehabilitation Fund \$50,000; from Excess and Deficiency \$75,000; and by issuance of a loan as provided in Chapter 44 of the General Laws, in the amount of \$274,000; and that the Treasurer be and hereby is

authorized to borrow said amount of \$274,000, and to issue bonds or notes of the Town therefor, such bonds or notes to be payable in accordance with the provisions of Chapter 44 of the General Laws, so that the whole loan shall be paid in not more than twenty years from the date of issue of the first bond or note, or at such earlier date as the Treasurer or Selectmen may determine.

Further Voted, That the present School Building Committee be authorized to expend said appropriation, to determine the final plans and location of the school, to make all contracts in the name of the Town pertaining thereto, and to do all other things necessary and proper to construct, equip and furnish said building and fit the same for use and occupancy.

The substantial work of completing final plans and specifications went forward rapidly during the summer, and on October 4, 1948, they were advertised and submitted for bids. Bids of ten contractors were received on October 20, 1948. The low bidder was Rich Bros. Construction Co. of Boston. On inquiry we received the highest recommendations for this firm as competent and reliable builders. Our subsequent experience showed that we were fortunate in our builder.

Similiar inquiries satisfied us as to the sub-contractors, with one exception, and in that instance we selected the second lowest bidder for what we and Rich Bros. felt to be good reason.

On October 27, 1948, we executed a letter of intent and order to proceed, and on November 17, 1948, we executed the final contract at a figure of \$355,980.00.

Careful consideration was given to the placing of the School, in conjunction with the Planning Board and others.

Construction started on October 29, 1948.

As building proceeded certain extras were found essential or desirable, and we found we could afford to provide some things which we had not originally planned on. The change orders for these extras or changes have amounted to \$4,450.21 (subject to some small adjustment for one or two items still to be settled). The most substantial item was an enlargement of the sewage disposal field. Although the original plans provided a disposal field which our engineers advised was ample and which was considerably larger than that provided in the plans of the Orr School, the State officials thought it should be larger, and we accordingly enlarged it at a cost of approximately \$2,700.00.

The final building cost was \$360,431.21 (subject to some small adjustment for one or two items still to be settled). The architects and engineers' fees were \$21,567.00.

The final building cost of \$360,430.21 represents a construction cost of .83 per cu. ft.

The total cost, including fees and equipment, comes to .94 per cu. ft., which compares most favorably with other schools of a comparable character which are currently building.

In addition to building cost and fees, the following expenditures were made for equipment, grading, etc.:

- |   |            |
|---|------------|
| 1. J. L. Hammett Co.—School Furniture<br>and Trucking     | \$6,821.09 |
| 2. Henry S. Wolkins Co.—School Furni-<br>ture & Equipment | 3,250.75   |

3.	Golden-Berch Co.—Furnishings for Teachers' Room	300.00
4.	Bay State Nurseries—Landscaping	535.00
5.	Thompson - Winchester Co.—Cafeteria Equipment	1,916.05
6.	Hobart Mann Co.—Wiring for dish washer motor	24.80
7.	B. F. Goodrich—Plywood and lumber for classroom work benches Cement for base of flagpole	364.96 4.60

28.	Walter G. Prince—Trucking	51.35

---

### Recapitulation as to Cost

Building Cost	\$360,430.21
Architects and Engineers	21,567.00
Equipment and Miscellaneous	16,335.06
	<hr/>
	\$398,332.27

The building was completed (except for a few minor items) and ready for occupancy at the opening of school on September 12, 1949.

On September 10, 1949, the new school was dedicated and turned over to the Town, by appropriate exercises which were well attended. Following the dedication the new building was viewed by a surprisingly large number of Duxbury residents.

We cannot conclude this report without expressing our deepest gratitude to the many people who helped us so generously. The response of the townspeople to any suggestion of assistance was astonishing. When toward the end, time was running short and it was learned that there remained a very substantial job of uncrating and placing the school furniture and equipment, work parties sprang up, it seemed, over night, and worked several evenings at the school until the furniture was all uncrated and placed. This was a very big job and the assistance of the very large number of people who participated was invaluable.

We cannot enumerate all of those to whom thanks is due, but we would refer with special thanks to the following:

Howard Sampson, for acting as Clerk of the Works when Mr. Marshall went south for his health for two or three weeks during the winter. Mr. Sampson studied the plans and devoted much time to the necessary supervision. He would accept no remuneration.

Howard Clark and the Taxpayers Association, for organizing work parties and for organizing and arranging the details of the dedication. And Mr. Clark's truck was always available.

Charles Crocker, with cooperation of the other Selectmen, for obtaining the flagpole.

Lewis Randall and the Road Department for transporting and setting the flagpole.

The American Legion for the flag.

Those who participated in the dedication—William W. McCarthy, Walter Prince, Charles Crocker, Father Manion, Reverend Carl F. Hall, Bernard Mullaney, the American Legion, Mr. Raymond Chandler and Dr. Shirley.

Mrs. MacFarlane and the Parent Teachers Association for assistance at the dedication.

Our janitors, Mr. Schwab, Mr. Harrison and Mr. Putnam for untold help at every turn.

Mr. and Mrs. Henry Craig, always available in ways too numerous to mention.

Mr. and Mrs. Albert P. Richards, Jr. for making building blocks for the kindergarten.

Mrs. Russell Eddy, Mrs. T. S. Williams, and Mrs. Clarence Snider, for making dolls' clothes for the kindergarten. .

The Boy Scouts, Kenrick Denyer and Herbert Wirt, for moving playground equipment for the new school and setting it up,—a big job well done.

To those merchants and others who gave material

and services at cost for work benches, etc., and who desire to remain anonymous.

And many more.

We desire to pay our respects to Rich Bros., who did a superior job, and who were always most cooperative.

We commend with equal warmth our architects and engineers. They were able, resourceful and faithful.

The State Building Assistance Commission informs us that preparation of the necessary information and application forms is now going forward and within a reasonable time the Commission should be in a position to start payment to the Town of the State's share of the building cost of our School.

Respectfully submitted,

HECTOR M. HOLMES,  
JOHN MARSHALL,  
ARLINE M. BUNTEN,  
New Grade School Building Committee

## ADDENDUM

---

It is without the knowledge of Mr. Marshall and Mrs. Bunten that I have given this Addendum to the Town Clerk to accompany the Report. I could not permit the Report to appear without paying tribute to Mr. Marshall and Mrs. Bunten for their devoted and effective labors on behalf of this school.

Mr. Marshall was on the job day by day, and when he was not at the school he was on the telephone, seeing to it that the building was properly and well built and, in cooperation with the contractors, architects, and engineers, solving the infinite number of problems which inevitably arise during the construction of a building of this size and character. And he saw to it that these problems were solved to the advantage of the building and at a minimum of cost. I was filled with amazement at his unfailing resourcefulness and wisdom in every emergency. Without Mr. Marshall it would have been necessary to employ the usual professional Clerk of the Works at a considerable cost and with results which, at best, could not possibly compare with those which Mr. Marshall's devotion and skill made possible.

The same is to be said for Mrs. Bunten. She was unsparing of her time and energy. She visited many schools and consulted educators and teachers in her study of modern methods, practices and equipment in relation to our problem, and saw to it that we had the best that our resources could command. She cooperated in the development of the building with equal care, and contributed greatly to the final structure,

particularly in details of design, arrangement, color, etc., which in the aggregate amounted to a great deal, both practically and esthetically.

Never have I witnessed such whole hearted and unselfish devotion. To each of these doughty workers the Town owes a great debt of gratitude.

HECTOR M. HOLMES

## REPORT OF CHIEF OF POLICE

---

To the Honorable Board of Selectmen:

Gentlemen:

Following is the report of the Police Department for the year ending December 31, 1949.

### LIST OF OFFENCES

Assault and Battery	1
Disturbing the peace	2
Driving a motor vehicle to endanger life	4
Driving a motor vehicle while intoxicated	7
Driving a motor vehicle without a license	1
Drunkeness	10
Non Support	1
Using motor vehicle without authority	1
	<hr/>
	27

### DISPOSITIONS

Sentenced to House of Correction	4
Fined	11
Released	4
Case placed on file	7
Dismissed	1
	<hr/>
	27

### MISCELLANEOUS

Complaints investigated	914
Motor vehicle accidents investigated	38
Motor vehicles violations recorded	82

Motor vehicle licenses suspended	14

Beach permits issued	1537
Shellfish permits issued	580
Pistol permits issued	23
Motor vehicle transfers filed	408

Respectfully submitted,

JAMES T. O'NEIL,  
Chief of Police.

## REPORT OF MOTH DEPARTMENT

---

To the Honorable Board of Selectmen:

Duxbury, Massachusetts

Gentlemen:

I herewith submit report of the Moth Department for the year 1949.

At the last Annual Town Meeting it was voted to procure a new type of spray machine—a Mist blower. This type of machine was purchased and used the past summer with exceptionally good results.

The saving in spraying time with this Mist Blower enabled us to apply more sprays and cover a larger area than ever before.

There were two areas of one hundred acres each that were sprayed by airplane for the control of Gypsy Moths, thereby preventing defoliation. One area was between Autumn Avenue and Birch Street and the other area on Mayflower Street that included the Town Forest.

The previously infested Brown Tail Moth areas have been scouted and not a single insect was found.

The entire forest area of the town has been scouted for Gypsy Moth colonies and it is very gratifying to report that they are very small and few in number.

The Gypsy and Brown Tail Moth Department has had its title changed to Insect Pest Control.

Respectfully submitted,

ROY E. PARKS,  
Moth Superintendent.

## REPORT OF TREE WARDEN

---

To the Honorable Board of Selectmen:

Duxbury, Massachusetts

Gentlemen:

I herewith submit report of the Tree Department for the year 1949.

We have, this past season, completed the pruning of all elm trees along the streets in town in addition to pruning many other large trees.

Our elm trees received the three recommended sprays of DDT for the control of the European Bark Beetle.

All trees found to be in a weakened condition and apt to fall in the street were cabled together. Those trees in a dangerous condition and beyond repair were taken down.

Several large trees were fertilized and watered during the drouth.

We had two elm trees on Bay Road infected with Dutch Elm Disease and had to be taken down.

Control of Dutch Elm Disease now comes under the State Conservation Department and has to be handled separately from the Tree Department. This is the reason for a special article in the Town Warrant for Control of Dutch Elm Disease.

Our street planting this past season consisted of 15 new trees including 9 maples, 5 Pin Oaks and 1 Linden. We have also added 50 Norway Maples to our nursery stock.

Respectfully submitted,

ROY E. PARKS,  
Tree Warden.

## REPORT OF PARKS AND PLAYGROUNDS COMMITTEE

---

To the Honorable Board of Selectmen:

Duxbury, Massachusetts

Gentlemen:

We submit herewith a report of the Parks and Playgrounds Committee for the year 1949.

The two tennis courts were rolled and put into shape for playing earlier this past season than previously and am pleased to say that the courts were used more.

The work on the parks and playgrounds this past season consisted only of the repair and maintenance of same. The drouth and weather conditions prevented some improvement that was contemplated in the early fall.

Respectfully submitted,

ROY E. PARKS, Chairman

## REPORT OF SHELLFISH CONSTABLE

---

To the Honorable Board of Selectmen:

I respectfully submit my report as Shellfish Constable for the year 1949.

There were two to five men who dug razorfish intermittently throughout the year.

During the summer and fall months, while other work was slack, eighteen men dug Quahaugs, Mussels, Seaworms, and Clams.

During the month of April 90 bushels of seed clams were planted in the closed areas in the bay. The clams were supplied by the State Department of Marine Fisheries at a cost of \$315.00. \$18.00 was spent for labor planting the clams.

From June 11th through the month of October I had two men working three to four tides weekly destroying the natural enemies of shellfish. The men picked and destroyed 7,104 horse shoe crabs and 36 bushels of cockles. We paid \$573.30 for this work, which protected the clams in our closed area to a great extent.

In different sections of the bay where the eel grass has come back there is a fair sized quantity of scallops.

We received \$1,150.00 from the State towards the planting of shellfish and the extermination of its enemies. We have \$567.39 left of this amount to start work in the spring of 1950. \$52.00 was spent to plow a large area on Standish Shore.

Mr Ralph Thompson of Powder Point, has given the town permission to take seed clams from his clam

grant to be used to seed in barren areas for the towns people.

Twenty-three commercial permits at \$2.50 were issued—total \$57.50. 846 family permits, 15 of which were free to men seventy years of age or over, and the remainder at .25 each, were issued during the year—total \$207.75.

Following is the record of shellfish and seaworms taken commercially during the year:

551 bushels of quahaugs @ \$2.00	\$1,102.00
42 bushels of quahaugs @ \$3.50	147.00
15 bushels of quahaugs @ \$3.00	45.00
24 bushels of clams @ \$7.00	168.00
20½ bushels of clams @ \$6.00	123.00
4 bushels of clams @ \$5.00	20.00
1 bushel of sea clams @ \$4.00	4.00
25 bushels of mussels @ \$2.50	62.50
192 bushels of razorfish @ \$7.00	1,344.00
560 bushels of razorfish @ \$4.00	2,240.00
10,600 seaworms @ .05	530.00
	<hr/>
	\$5,785.50

Thirty-two notices were sent grant holders requesting a report of work done on grants.

There were 1289 bushels of quahaugs and 38½ bushels of clams planted on grants this year.

Thirty-two annual fee forms were sent out and \$50.00 was collected in annual fees from grant holders. The grant holders have six months from the date on the forms to pay this fee, and if payment is not made the grant is subject to cancellation.

One clam grant was transferred at a charge of \$5.00 during the year.

During the summer months quite a large number of shellfish signs were damaged and torn down, which gave this department added work and expense.

Respectfully submitted,

HENRY P. McNEIL,  
Shellfish Constable.

## REPORT OF VETERANS' AGENT

---

To the Honorable Board of Selectmen:

I respectfully submit my report as Agent for the Department of Veterans Services for the year 1949.

During the year we have had a total of 17 cases, representing 56 persons who received ordinary benefits.

We have filed federal pension claims for two, and another case was reopened after being turned down and the veteran received a substantial retroactive award.

The town discontinued registering men for draft board No. 28 in Brockton in September of 1948. Thereafter we requested permission to continue the registering of the local 18 year olds in order to save them the trip to Brockton.

I made five trips with veterans during the year as follows: two trips to Cushing General Hospital, Framingham; two trips to Veterans' Administration, 17 Court Street, Boston; and one trip to the Tuberculosis Hospital in Hanson.

Two cases were suspended from receiving further ordinary benefits.

I have attended the meetings of the Veterans Service Officers in order to keep informed of the new laws and benefits and was thus enabled to advise and assist numerous veterans and their dependents.

Our appropriation was \$6,000.00. We expended \$3,829.23 and are returning \$2,170.77 to the Treasury. Approximately half of the amount expended will be reimbursed to the town by the State.

Respectfully submitted,

HENRY P. McNEIL, Agent  
Department of Veterans Services.

## REPORT OF THE DUXBURY RECREATION COMMITTEE

---

December 31, 1949

To the Honorable Board of Selectmen:

Since the beginning of the year and the reorganization of the Duxbury Recreation Committee, many changes have taken place both in the program laid out for our young people in town, and in the physical aspects of the old Town Hall, our recreational centre.

Improvements to the Hall have been many: complete re-wiring and replacement of electrical fixtures extensive plastering of ceiling and walls, repainting of same, extensive carpentry work, renovated powder and cloak rooms, and kitchen installations. Much of this work has been done voluntarily by the artisans of the town, as well as by the young people; all of it has been done with thought to the best economy and use of town funds. All work done has been of a permanent nature, and we feel that one of the old landmarks has not only been saved from gradual disintegration, but has been put to practical use.

The year's program has been successful. In addition to other clubs and functions, the Hall has been used weekly by the Cub and Boy Scouts of America; the Myles Standish Club—a social group for all boys and girls of high school age; and the Bon-homme Club, a group for all boys and girls of junior high school age. These last two groups meet under the competent leadership of two paid professional directors who have carried out successfully our desire for adequate and supervised programs for these age groups. Their activities have included, in addition to regular business

meetings, dances, and games at the Hall, occasionally out-of-town trips for bowling, roller-skating, and swimming parties (in winter), for which there are no facilities in Duxbury. Attendance at these functions has been good.

The following is a report of the expenditure of the funds appropriated to us at the last town meeting:

Amount of appropriation \$1,500.00

Expenditures:

Painting	\$270.30
Plastering	246.70
Electrical work (unpaid balance)	3.62
Fuel	75.21
Telephone	42.73
Directors' fees	300.00
	<hr/>
	\$938.56

Balance on hand December 31, 1949 \$561.44

With this balance we expect to carry out our program to April 1, 1950, at which time we hope for further town support.

Respectfully submitted,

JOHN HUTCHEON, Chairman

GEORGE D. BUTLER, Ch. of Finance Comm.

E. VIRGINIA WALKER, Sec'y-Treas.

Duxbury Recreation Committee.

## REPORT OF SEALER OF WEIGHTS AND MEASURES

---

To the Honorable Board of Selectmen,  
and Citizens of Duxbury:

As Sealer of Weights and Measures of the Town of Duxbury I respectfully submit my report for the year ending December 31, 1949.

In my budget for 1950 I am asking for \$100.00 more to cover the expenses of an office to carry on my work, which has been done at my house in a back shed without heat or light and under a very poor arrangement.

The charges for testing and sealing have been raised about thirty-five per cent as of June 1, 1949. The following is a record of articles tested, sealed and adjusted and re-weighed from April 1 to December 31, 1949.

Gasoline Meter Pumps tested and sealed, 22 — Retested 7. 3 not sealed and condemned, but repaired and sealed at a later date. Adjusted — 7.

Vehicle Tank Meters sealed, 4 — Adjusted 2.

Scales — Platform, counter, spring, computing, person weighing, prescription; weighing from 2 lbs to 10,000. Sealed 63, Adjusted 15. Retested 14. Weights tested and sealed — 94.

Yard sticks, 6. Liquid measures 22.

Total tested, sealed and adjusted — 233.

I have also reweighed the following commodities in bags, packages, cartons and cans:

Flour, frozen foods, potatoes, bread, butter, etc.

Total of above commodities — 75.

Total of all testing, sealing, adjusting and reweighing, 308.

CHARLES C. McNAUGHT  
Sealer of Weights and Measures

## REPORT OF ASSESSORS

## REPORT OF BOARD OF HEALTH

---

Gentlemen:

I herewith submit my report as agent for the Board of Health.

Our range of communicable diseases in 1949 was wider than last year and was noteworthy in that it included two cases of poliomyelitis. Both these patients were over twenty-five years of age which goes along with the national prediction that seventy-five percent of polio cases this year would be in this older age group rather than in young children. Contagious diseases statistics were as follows:

German Measles	52
Scarlet Fever	5
Mumps	5
Measles	4
Chicken Pox	3
Poliomyelitis	2
Whooping Cough	1
Tetanus	1
Syphilis	1
Gonorrhea	1

There were sixteen dog bites reported — most of which were the result of children molesting animals during the hot months of the summer.

The School Dental Program was again successfully carried on.

The menaces to the public health were primarily concerned with objectionable odors as nuisances.

We are grateful to the State Board of Public Health for their assistance and co-operation in the inspecting and licensing of eating establishments, chicken farms, and the like.

Respectfully submitted,

GEORGE ROSS STARR, Jr., M.D.

## REPORT OF THE BOARD OF PUBLIC WELFARE AND BUREAU OF OLD AGE ASSISTANCE

---

To the Honorable Board of Selectmen  
and Citizens of Duxbury:

Greetings:

During the year 1949, it was necessary to have two new members appointed to the Board of Public Welfare to fill the vacancies caused by the resignation of Carl J. Santheson, Jr., and Mrs. Barbara S. Mullowney. Mrs. Alice H. Garside was appointed, by the Selectmen, in August 1949, and Mr. Herbert R. Nelson was appointed, by the Selectmen, on December 1, 1949.

There were two legislative enactments last year that will reflect in the general rise of Public Assistance. The hospital rate was increased from \$8.00 per day to \$10.00 per day on November 29, 1949. This increase will reflect in all three categories of relief, while the increase of \$4.00 a month for Leisure Time Activities effects only Old Age Assistance. The increase for Leisure Time Activities became effective December 1, 1949.

### GENERAL RELIEF

General Relief is a form of aid granted under the provisions of Chapter No. 117 of the General Laws of Massachusetts, which requires the Town to aid all needy persons, within the Town's limits, who do not qualify for the special type of aid, such as Veterans' Benefits, Aid to Dependent Children, Old Age Assis-

tance, Unemployment Insurance or Old Age and Survivors Insurance.

The amount expended for General Relief in the year 1949 was \$17,000.59 as compared to \$11,320.87 for 1948. The appropriation, in March 1949, amounted to \$14,550.00 which was insufficient to meet our expenses during the year. In November, the sum of \$1,000.65 was transferred from the Reserve Fund, and an additional sum of \$668.43 was transferred from the Fund in December. Cancelled payments in the amount of \$86.05, brought our total available funds to \$16,305.13. We are left with a deficit of \$695.46 for the year 1949 in unpaid bills.

	1948	1949
Administration	\$1,888.24	\$1,300.33
Cash	4,750.75	6,550.27
Board	805.50	221.90
Food	1,450.27	3,919.08
Fuel	119.26	266.66
Rent	24.62	550.00
Clothing	47.06	24.95
Doctors	773.00	1,927.00
Prescriptions	69.75	314.81
Hospital	372.81	858.00
Ambulance	60.90	33.75
Burials	50.00	
Miscellaneous	67.45	93.57
Institutions	290.21	407.50
Other Towns	551.05	537.77
	<hr/>	<hr/>
	\$11,320.87	\$17,000.59

There was approximately a 48% increase in the total number of cases handled during 1949 over the previous year.

	1948	1949
January	11	21
February	10	20
March	14	20
April	13	19
May	14	19
June	15	19
July	15	19
August	12	19
September	11	16
October	15	17
November	14	22
December	16	26
	<hr/>	<hr/>
	160	237

Monthly average	13.3	19.8
-----------------	------	------

The increase in General Relief, during 1949, was due to sickness and lack or loss of employment, as 7 cases were added due to sickness and 14 cases added because of employment conditions.

Active cases January 1, 1949		16	
Added during year:			
New	14		
Reopened	7		
Total Added		21	
Aided during year			37
Closed:			
Death	4		
Moved	2		
Transferred to ADC	1		
Employment	6		
Other	1		
Total Closed		14	
Active Cases December 31, 1949			23

The Town received, into its General Fund, the sum of \$4,351.28 during 1949 for aid rendered to unsettled cases, individuals, and for aid rendered for other towns.

## AID TO DEPENDENT CHILDREN

Aid to Dependent Children is the outgrowth of the Mother's Aid Law, that was inaugurated in 1913, and is now granted under the provisions of Chapter No. 118 of the General Laws of Massachusetts to care for children deprived of parental support because of sickness, death or desertion.

Month	Cases Aided	No. of Children	Amount Expended
January	7	21	\$937.95
February	7	21	933.30
March	7	21	1,182.80
April	7	21	941.55
May	8	23	1,052.65
June	8	23	1,488.20
July	10	25	1,343.00
August	10	27	1,553.05
September	10	27	1,521.05
October	10	27	1,312.51
November	10	24	1,374.05
December	9	25	971.20
	<hr/>	<hr/>	<hr/>
	103	285	\$14,611.31
Administration			744.74
			<hr/>
Total Expense for 1949			\$15,356.05

The Town appropriated for 1949 the sum of \$11,100.00, and during the year there was also \$4,052.99 available from Federal Grants for aid and \$605.34 as Federal Grants for administrative purposes, making a total of \$15,758.33 available for expenses under Aid

to Dependent Children. Our expenses were \$15,356.-05, leaving a surplus of \$402.28. The amount of \$4,770.77 was reimbursed by the State as their share of the expense, but this money was not available to the Department as reimbursement from the State goes into the Town's General Fund.

### OLD AGE ASSISTANCE

Old Age Assistance is granted under the provisions of Chapter No. 118-A of the General Laws of Massachusetts, to needy citizens, sixty-five years of age or over who have resided in the Commonwealth for three years out of the last nine years, including the year immediately preceeding the date of application.

Month	Cases Aided	Amount Expended
January	72	\$4,115.92
February	74	4,405.06
March	74	4,881.23
April	74	4,534.34
May	74	4,283.07
June	74	4,848.81
July	76	4,612.32
August	76	4,575.39
September	76	5,029.85
October	77	4,773.91
November	78	5,231.55
December	77	5,132.19
	<hr/> 902	<hr/> \$56,423.64
Administration		2,290.58
Other Towns		817.29
Total Expenditures		<hr/> \$59,531.51

The Town appropriated for 1949 the sum of \$32,850.00, and during the year there was also \$27,580.89 available from Federal Grants for aid and \$1,525.15 as Federal Grants for administrative purposes, making a total of \$61,956.04 available for Old Age Assistance. Our expenses were \$59,531.51, leaving a surplus of \$2,424.53. Other funds received totalled \$22,874.49, which represented reimbursement from the State amounting to \$21,810.84, from Other Towns, \$996.35 and from Individuals \$67.20. This money was not available to the Department and is included in the General Receipts for the Town.

Respectfully submitted,

SARAH A. STANNARD, Chairman  
PHILIP G. CHANDLER  
ROBERT SEYMOUR  
ALICE H. GARSIDE  
HERBERT R. NELSON

Board of Public Welfare  
Bureau of Old Age Assistance

**REPORT OF LIBRARIAN**  
**DUXBURY FREE LIBRARY, INC.**

---

A very good year at the Library so far as attendance and circulation went. The attendance exceeded that of last year by more than 500. Circulation was over 17,500, and more new names were added to the list of patrons.

On the other hand the lack of shelving space is a continued obstacle to the proper display of such attractions as should have emphasis from time to time. Also the building itself is in need of repairs. For some time the furnace gave poor service. That has been remedied this year by a thorough over-hauling, including some replacements, and an arrangement has been made for an inspection twice a year. Owing to the storage of thousands of volumes in the basement, heat must be kept on in summer to counteract the dampness. Some better provision to accomplish this purpose — such as a small oil heater — should be planned for. This ought not to heat the main floor as is the case with the present method.

Another important repair job was the work done by masons on the two chimneys, the stone coping of roof and porch, the stone steps etc. Much of this material was in a dangerous condition, ready to break away if more frost settled between the joints. Contact was made with a roofing firm and an estimate obtained and agreed to concerning repairs to the copper roof. For some reason the firm failed to undertake the work. A new effort must be made next summer as several bad leaks, that are injuring the ceiling of the rotunda, make the necessary repairs imperative.

In addition much of the woodwork inside and out needs re-painting. These, with other similar details, will more than use up any small "cash on hand" shown in the Treasurer's report for the year.

Through requests by several teachers, the Library has been glad to loan, on extended terms, a good many books for classroom use.

Respectfully submitted,

FISHER AMES, Librarian

## REPORT OF THE FINANCE COMMITTEE

---

Your Finance Committee had its first meeting May 5, 1949 for the purpose of organizing for the year. Mr. Perry was urged to accept the Chairmanship for another year but had to decline because he did not have sufficient time to devote to the position. Mr. Harry Swift and Mr. Walker were elected Chairman and Secretary respectively; however, Mr. Swift resigned from the Committee soon afterwards and subsequently Mr. Clark was elected.

While the Committee serves principally in an advisory capacity, its powers are more or less absolute regarding the Reserve Fund—the fund Town Departments resort to only when their appropriations become depleted due to an “unforseen” contingency. The following transfers were authorized by the Committee in 1949:

Elementary School Building Insurance Account	\$1080.00
(Of this \$1080.00 approximately \$650 was returned to the Town as a Return premium)	
Bridge Department	635.30
Forest Warden's Department	38.12
Forest Warden's Department	400.00
Department of Public Welfare	1,000.65
Forest Warden's Department	165.00
Planning Board	12.50
Department of Public Welfare	668.43

To speed and otherwise facilitate the work of your Committee, sub-committees on schools, Police and Fire, Welfare, and Highways were established. It is the func-

tion of these sub-committees to give particular attention to their respective departments and thereby be able to keep the entire Finance Committee better advised.

Since before the first of the year your Committee has been considering the budgets of the Town Departments, conferring with these departments and individuals interested in articles appearing in the Warrant calling for an appropriation.

The Committee extends its thanks to the Town Departments and all others who have cooperated with us in our efforts to compile sufficient data as a basis for our recommendations.

Respectfully submitted,

HOWARD M. CLARK, Chairman  
CLARENCE W. WALKER, Secretary  
MORRISON M. BUMP,  
JOHN T. BURNS,  
CHARLES R. CARLSON,  
ROBERT F. ESTABROOK,  
ARTHUR R. HUTCHINSON,  
FRANCIS W. PERRY,  
PAUL C. PETERSON.

## REPORT OF PLANNING BOARD

---

To the Honorable Board of Selectmen  
and Citizens of Duxbury:

Your Board will ask the town at the March meeting 1950 to establish a Planning Board under Section 81-A of Chapter 41 of the General Laws as amended by Chapter 340 of the Acts of 1947. This action is commonly referred to as an "Improved Method of Municipal Planning." The vote may provide that the members of the present Planning Board shall serve as members of the Planning Board under Section 81-A until the next annual town meeting. Your Board feel that a number of benefits are possible under this act.

We believe that the submission of sub-division plats as treated in the laws above referred to will be of great help to people who wish to make a development and will guide developers in their work in such a way as to save them time and expense. These plats would be made by the developers and would not involve expense to the town, as we understand it, other than recording the plats in the Plymouth Registry of Deeds.

Your Board held a special meeting on November 16 with Mr. B. Allen Benjamin of the State Planning Board and he gave us much friendly advice. He recommended that the town proceed with the sub-division idea as treated in the statutes above referred to. He advised against making an "official map" as treated under Section E. Mr. Benjamin thought studies by and with professional planners might be of benefit, depending whether the town wished to spend the neces-

sary funds. He did not recommend a study by a student group in connection with some college.

**Parking.** Mr. Benjamin said in one town which had a problem similar to ours at Halls Corner the planning consultants recommended that an entirely new business area be set off from undeveloped land.

We again recommend that it be made evident at Halls Corner that rotary traffic exists by painting signs including painting the word "Rotary" on the road beds near Halls Corner. Use of the school house lot near Halls Corner is recommended for parking.

Your Board has been represented at three public hearings at Boston bearing on questions of importance to the town and at several meetings of the Appeal Board involving matters of importance in zoning. The problem of pollution of the Yacht Club Basin has received some attention.

"Almost every stranger judges a town by its appearance; prospective residents, both suburban and summer, frequently choose their new community by reason of its neatness, unspoiled scenery and attractive roadsides." Don't cut a tree without giving serious consideration to its importance, the length of time required for its growth. If it seems necessary to cut it because of its location, plant another in a better location.

**Future Planning.** There is some conflict of opinion between those who would "suburbanize" Duxbury and those who prefer the country aspect. Your Board leans away from suburbanizing. We believe Duxbury is, in the main, doing things pretty well. However, we must recognize that Duxbury is growing and changing somewhat in character. It is probable that a certain amount of formal town planning will be necessary to preserve

those characteristics which are Duxbury's greatest assets. Such a program requires professional assistance and some expense. The town should be considering the desirability of such a program in anticipation of requests which may soon be made for its financial support.

We shall ask for an appropriation of \$500.00 for 1950. Legal fees and printing are the only expenses in sight.

If the town votes to hire a town planner and make a Master Plan, an additional appropriation will be required.

Respectfully submitted,

PERCY L. WALKER, Chairman  
MARGARET ROGERSON, Secretary  
OLIVER L. BAKER  
KENNETH G. GARSIDE  
ARTHUR H. MURPHY

Respectfully submitted,

JOSEPH T. C. JONES

Town Clerk

Duxbury, Massachusetts  
January 13, 1949

Mr. Joseph T. C. Jones  
Town Clerk  
Duxbury, Massachusetts

Dear Sir:

I herewith submit my resignation as Selectman and Assessor to become effective March 11, 1949. It is my intention to run for re-election for the unexpired terms.

My resignation is being filed in accordance with the requirements of the Contributory Retirement Act (Chapter 15 of the Acts of 1948), which permits me to continue to serve in the foregoing offices if I am re-elected.

Respectfully yours,

Charles R. Crocker

Duxbury, Massachusetts  
January 19, 1949

Mr. Joseph T. C. Jones  
Town Clerk  
Duxbury, Massachusetts

Dear Mr. Jones:

As I do not intend to be a candidate for re-election, it seems the proper thing to do is to resign in order not to embarrass my successor, therefore

Please accept my resignation as Moderator of the Town of Duxbury, to take effect February 1, 1949.

Very truly yours,

H. B. Bradley

Duxbury, Massachusetts  
March 1, 1949

Town Clerk  
Town of Duxbury  
Duxbury, Massachusetts

Dear Sir:

I hereby resign from the Finance Committee of the Town, effective March 3, 1949.

Also, I hereby resign as a member of the Transportation Committee, effective on the same date.

Sincerely yours,

William W. McCarthy

## REPORT OF TOWN MEETING

---

TOWN MEETING, MARCH 5, 1949

The registered voters were checked from the voting list and showed 257 males and 234 females, a total of 491 checked.

The Tellers, Helen F. Dawes, Frank H. Williams, Rodney W. Leach, Harry A. McNaught, Gilbert F. Redlon, Barclay J. Woodward, III, Gerald P. Hazlehurst and John E. Lucey were sworn in by the Town Clerk.

The meeting convened at 1:00 o'clock P. M. and the warrant was read by the Town Clerk

Voted: That the clerk deposit one ballot for Mr. William W. McCarthy as Moderator, which was done, and William W. McCarthy was declared elected Moderator.

Rev. Carl F. Hall invoked divine blessing.

There being no objection, the Moderator declared that petitioners on any article in the warrant should be given opportunity to speak on the question being voted upon before the article is tabled, as in previous years.

The following Resolution presented by Philip W. Delano was unanimously adopted:

### RESOLUTION.

WHEREAS Mr. Harry B. Bradley has served the Town of Duxbury unselfishly and faithfully for many years as Moderator; and

WHEREAS Mr. Harry B. Bradley has displayed the utmost fairness and consideration for all points of

view that have come before the Meetings, and in showing exceptional good humor in his conduct of our Meetings, has relieved the tension and tedium arising from the business at hand; and

WHEREAS Mr. Harry B. Bradley has shown outstanding judgment in his appointment of those officers and committees placed in his trust and has, thereby, contributed so much toward the advancement and improvement of our Town; and

WHEREAS Mr. Harry B. Bradley has felt it wise to retire from office and has tendered his resignation; NOW, THEREFORE,

Be it hereby resolved that:

The Meeting, assembled here this 5th day of March 1949, extends to Mr. Harry B. Bradley the thanks of the people of the Town for his great services; and

This Meeting hereby makes known the depths of its feeling by rising to voice its vote; and

This Meeting hereby directs the Town Clerk to transmit a record of these proceedings to Mr. Harry B. Bradley, in order that he may know the high esteem in which he is held by his fellow Townspeople.

A gavel suitably inscribed was presented to Mr. Bradley who responded with words of appreciation.

Tellers reported quorum present.

Under Article 1, Voted, that the appointment of necessary officers not chosen by ballot be appointed by Selectmen.

Under Article 2, Voted, that the reports of the Town Officers and Committees be accepted as printed in Town Report.

Under Article 3, a motion was made that the Town vote to fix the salary and compensation of all elective officers of the Town as provided for by Section 108 of Chapter 41, General Laws, as amended:

Selectmen:

Chairman	\$1,400.00
2nd Member	700.00
3rd Member	700.00

Assessors:

Chairman	1,200.00
2nd Member	600.00
3rd Member	600.00
Town Clerk	1,200.00
Town Treasurer	1,400.00
Tax Collector	2,400.00
Tree Warden	1,500.00
Moderator	40.00

and raise and appropriate the sum of \$11,740.00 therefor.

This motion was lost, and it was voted to fix the compensation of the elected Town Officers to be the same as last year, as follows:

Selectmen:

Chairman	\$1,200.00
2nd Member	512.50
3rd Member	512.50

Assessors:

Chairman	1,000.00
2nd Member	450.00
3rd Member	450.00

Town Clerk	1,200.00
Town Treasurer	1,400.00
Tax Collector	2,400.00
Tree Warden	1,500.00
Moderator	40.00

and voted to raise and appropriate the sum of \$10,-665.00 therefor.

Yes 225 — No 77.

Cemetery Department	9,600.00
Boomer Square	50.00

The following Proclamation was read by Dr. Abbot Peterson:

THE COMMONWEALTH OF MASSACHUSETTS

EXECUTIVE DEPARTMENT

STATE HOUSE, BOSTON

**A PROCLAMATION**

1949

All men are endowed by their Creator with a love of peace and a hatred of strife.

In our days, even before the advent of the atomic bomb, warfare as waged by the nations of the world had become so destructive, so horrible and so terrifying that it has cried out to Heaven for redress. There can be no peace without justice, no justice without law, no law without governmental institutions to make, interpret and enforce the law. In view of the fact that the Commonwealth of Massachusetts has always stood for the ideals which have been epitomized by the expression that Massachusetts eternally seeks peace even at the price of warfare,

Therefore, I Paul A. Dever, Governor of the Commonwealth, do hereby proclaim

WORLD GOVERNMENT WEEK

from

March 6, to March 12, 1949

and call upon the citizens of Massachusetts in their homes, churches, schools and other places of meeting to consider and discuss the strengthening of the United Nations into a World Federal Government which can establish peace through enforceable world law.

Given at the Executive Chamber in Boston, this third day of March, in the year of our Lord one thousand nine hundred and forty-nine, and of the Independence of the United States of America, the one hundred and seventy-third.

By His Excellency the Governor

(Signed) PAUL A. DEVER,

Secretary of the Commonwealth

Governor

GOD SAVE THE COMMONWEALTH  
OF MASSACHUSETTS

Under Article 5, Voted, to raise and appropriate the sum of \$350.00 to be expended under the direction of Myles Standish Camp, No. 115, S.U.V.C.W., for the observance of Memorial Day.

Under Article 6, Voted, unanimously, that the Town Treasurer, with the approval of the Selectmen, be and hereby is authorized to borrow money from time to time in anticipation of the revenue of the financial year beginning January 1, 1949, and to issue a note or notes therefor, payable within one year, and to renew any note or notes as may be given for a period of less than one year, in accordance with Section 17, Chapter 44, G. L.

(Yes—264 No—0)

Under Article 7, Voted, unanimously to raise and appropriate for the use of Plymouth County Trustees for the County Aid to Agriculture, the sum of \$100.00 and chose Roger C. Griswold Town Director, as provided in Sections 41 and 45 of Revised Chapter 128 of the General Laws.

Under Article 8, Voted, unanimously, to apply the dividend from the Plymouth County Dog Fund amounting to \$565.29 to the support of schools.

Under Article 9, Voted, to appropriate to the Cemetery Department the sum of \$95.00 now in the hands of the Town Treasurer.

Under Article 10, Voted, to appropriate \$4,000.00 to the Reserve Fund from the Overlay Reserve Fund.

Under Article 11, Voted, to raise and appropriate the sum of \$100.00 for the extermination of Poison Ivy along the streets in town to be expended under the direction of the Tree Warden.

Under Article 12, Voted, unanimously to raise and appropriate the sum of \$723.57 to pay unpaid bills of 1948.  
(Yes—336 No—0)

Under Article 13, Voted, that the Town raise and appropriate the sum of \$1,000.00 to meet the Town's share of the cost of Chapter 90 Highway Maintenance, and that, in addition, the sum of \$2,000.00 be transferred from unappropriated available funds in the treasury to meet the State's and County's share of the cost of the work, the reimbursements from the State and County to be restored, upon their receipt, to unappropriated available funds in the treasury.

Under Article 14, Voted, that the Town raise and appropriate the sum of \$2,000.00 to meet the Town's share of the cost of Chapter 90 Highway Construction,

and that, in addition, the sum of \$6,000.00 be transferred from unappropriated available funds in the treasury to meet the State's and County's shares of the cost of the work, the reimbursements from the State and County to be restored, upon their receipt, to unappropriated available funds in the treasury.

Under Article 15, Voted, to appropriate from the Excess and Deficiency Account a sum not to exceed \$20,000.00 to be used to reduce the tax rate.

Under Article 16, Voted, to raise and appropriate the sum of \$950.00 to be expended under the direction of American Legion Post, No. 223, July 4th, Duxbury Days Committee, in connection with this year's parade and celebration.

Under Article 17, Voted, to raise and appropriate the sum of \$500.00 for the exchange of a car for the Police Department.

Under Article 18, Voted, to grant to the Plymouth County Electric Company of Massachusetts an easement authorizing the said Company to install and maintain five poles together with the necessary wires and fixtures on and over land of the Town so that electric service may be supplied to the new Duxbury Elementary School Building off Alden Street.

Under Article 19, Voted, to raise and appropriate the sum of \$1,500.00 to be paid to the Duxbury Fire and Water District for installing a hydrant, with suitable connections, adjacent to the new Grade School.

Mr. Frederick Pratt was extended the courtesy of the floor at this time.

Under Article 20, which reads will the Town vote to raise and appropriate the sum of \$6,000.00 to be expended on the improvement of Autumn Avenue, or take any other action relative thereto, No action was taken.

Under Article 21, Voted, to install street lights at the following locations: Tremont Street from Island Creek southerly to the Kingston Line; Gurnet Road; and Bryant Avenue; and raise and appropriate the sum of \$110.00 for this purpose.

Under Article 22, which reads will the Town vote to raise and appropriate a sum of money to be used to extend the sea wall at Duxbury Beach Southerly 1,500 feet from the Northerly side of the Hummock where the present sea wall now terminates, and to petition the County and the State Department of Public Works to contribute  $\frac{1}{4}$  and  $\frac{1}{2}$  respectively toward the expense of said Sea Wall, or take any other action thereon, Voted no action.

Under Article 23, which reads will the Town vote to raise and appropriate \$2,000.00 for the purpose of improving Vine and Cross Streets, or take any other action thereon, Voted no action.

Under Article 24, Voted to raise and appropriate the sum of \$1,800.00 for the purpose of placing all fire insurance on town Buildings and their contents on a schedule submitted by the local insurance agents.

Under Article 25, Voted, to raise and appropriate the sum of \$141.00 to pay Awards for property damage for taking on part of Congress Street.

Under Article 26, Voted, to accept that portion of Priscilla Avenue, so called, between White Street and Brewster Street, as laid out by the Selectmen in accordance with the vote of the Town at its regular meeting held on March 8, 1948 and raise and appropriate the sum of \$1,000.00 for its improvement.

Under Article 27, Voted, to raise and appropriate the sum of \$1,300.00 for the purpose of conducting a Greenhead Fly control project as recommended by the

State Reclamation Board as a result of a survey made in September 1948.

Under Article 28, Voted, to raise and appropriate the sum of \$1,300.00 for the purpose of expanding the mosquito control program by spraying certain areas by airplane.

Under Article 29, Voted, to raise and appropriate the sum of \$12.83 to pay contributions to Contributory Retirement Systems on account of members thereof in the Military or Naval service, as provided in Chapter 708 of the Acts of 1941.

Under Article 30, which reads will the Town vote to raise and appropriate a sum of money not to exceed \$21,250.00 to be used for the purchase of land and construction of the Duxbury Municipal Airport, and determine whether the money shall be provided for by appropriation from available funds in the treasury, by appropriation from the Stabilization Fund, or by the issuance of a loan under Chapter 44 of the General Laws, or by any or all of these methods. The Selectmen of Duxbury are authorized to purchase or take by Eminent Domain sufficient land for said purpose, and the Duxbury Airport Commission is hereby authorized to expend said appropriation, to determine the size and location of said airport, and to do all other things necessary and proper to construct said landing field, or take any other action relative thereto, Voted no action.

Under Article 31, Voted, that the present War Memorial Committee be discharged and that a new committee of seven citizens be appointed by the Moderator prior to the first of May to investigate possible War Memorials and to present to the Town not later than the next Annual Town Meeting several suggestions or plans for a memorial for the Town of Duxbury.

Under Article 32, which reads will the Town vote to raise and appropriate the sum of \$500.00 to be expended by the Trustees of Soldiers' Memorials, or take any other action thereon, Voted no action.

Under Article 33, Voted, to raise and appropriate the sum of \$2,200.00 for the purchase of an "Aero-Mist" Sprayer for the Tree and Moth Department.

Under Article 34, Voted, to amend the Protective By-Law of the Town of Duxbury in the following manner:

By inserting in Section 1 immediately after the caption the following new paragraph: " "Authorized by" or "on approval of" (the Board of Appeals or Board of Selectmen.) When a special permit has been granted by the Board of Appeals or the Board of Selectmen for an exception to the terms of the by-law in harmony with its general purposes and intent and subject to appropriate conditions and safe-guards."

By inserting in Section 1 after the paragraph captioned "Front Yard" the following new paragraph: " "Guest House", a single family dwelling house in which rooms are rented by the person resident therein to persons occupying such rooms for the night or for longer periods."

By inserting at the end of Section 3, Paragraph (i) the following: "10. Guest House".

By inserting at the end of Section 4, the following: " "12. Guest House, on approval of the Board of Appeals".

By striking out the whole of Section 8 except the caption and inserting in place thereof the following paragraphs:

“(a) Enforcements. This By-Law shall be enforced by the Board of Selectmen, either directly or by an inspector appointed by them; and upon any well founded information as to a violation, the board shall take immediate steps to enforce this By-Law in any manner provided by law. No person shall erect or externally alter a building or other structure in this town without a permit from the Selectmen granted upon application made to them upon a form prescribed by them. If the Selectmen find that the construction, location and proposed use of the building or structure to which the application relates in the place specified in the application are authorized by this by-law, they shall grant such permit; otherwise they shall refuse it.

“(b) A Board of Appeals is hereby established which shall have all of the powers of a board of appeals under sections 25 to 30 B inclusive of Chapter 40 of the General Laws, and acts in amendment thereof and in addition thereto. The board of appeals shall consist of three members, appointed by the selectmen, for terms of three years and so arranged that the term of one member shall expire each year. No member shall act on any appeal in which he has a personal or financial interest, and in such case his place shall be taken by an associate member designated by the Selectmen.

“(c) An appeal may be taken to the Board of Appeals by any person aggrieved by any order of any administrative official of the town in violation of sections 25 to 30 B inclusive of chapter 40 of the General Laws or of the Protective By-Law of the town. An appeal under this paragraph, or under the provisions of statute, may be taken within fifteen days after the order or action complained of.

“(d) The Board of Appeals may, in appropriate cases and subject to appropriate conditions and safe-

guards, make special exceptions to the terms of the by-law in harmony with their general purpose and intent, and in accordance with the specific rules contained in this by-law.”

Voted Yes—292 No—0

Under Article 35, Voted, that the Town refer the matter of the improvement of Crescent Street to the Selectmen for inclusion in the Chapter 90 program.

Under Article 36, which reads will the Town vote to raise and appropriate the sum of \$12,500.00 for the purchase of a new heavy duty motor Grader, with suitable attachments, for the use of the Highway Department, Voted no action.

Under Article 37, Voted, to raise and appropriate the sum of \$2,900.00 for the purchase of a tractor with mower, sweeper and loader attachments.

Under Article 38, Voted, to return to the treasury the following unexpended appropriation balances:

1948 Police Auto	\$49.50
1948 Highway Heavy Duty Truck	250.00
Chapter 90 Highway Construction 1947	.06
Chapter 90 Highway Construction 1948	49.62
Chapter 90 Highway Maintenance 1948	.27
Memorial Day Appropriation	2.00
Unpaid Bills of 1947	1.33
Unpaid Bills of 1946	227.85

Under Article 39, Voted, to appropriate from available funds the sum of \$845.52 to pay the cost of architect's fees incurred in connection with the proposed conversion of Island Creek Hall for school purposes.

Under Article 40, Voted, to raise and appropriate the sum of \$10,750.68 to retire the Elementary School Building bonds due on September 1, 1949.

Under Article 41, Voted, to raise and appropriate the sum of \$6,165.00 to pay the interest due in 1949 on the Elementary School Building Loan.

Under Article 42, which reads will the Town vote to purchase or take by eminent domain or by any other method provided by law, a portion of Duxbury Beach adjacent to the Easterly end of Gurnet Bridge, so-called, including eight acres, more or less, and raise and appropriate a sum of money for this purpose, or take any other action thereon, Voted no action.

(Yes—4 No—210)

Under Article 43, Voted, to raise and appropriate the sum of \$975.00 for the purpose of installing and maintaining the fire alarm system in and between the new Elementary School Building, the present High School Building and the Central Fire Station.

Under Article 44, Voted, to raise and appropriate the sum of \$1,500.00 for instruction and supervision and for the support and maintenance of the Duxbury Town Hall, said sum to be expended by the Duxbury Recreation Committee under the direction of the Board of Selectmen.

Voted to adjourn at 5:40 o'clock P. M.

JOSEPH T. C. JONES,

Town Clerk

JOSEPH T. C. JONES,  
Town Clerk

April 20, 1949

Mr. Joseph T. C. Jones  
Town Clerk  
Duxbury, Massachusetts

Dear Mr. Jones:

In accordance with the vote at the Town Meeting, that the Moderator appoint a committee of seven citizens to constitute a War Memorial Committee, I hereby appoint the following:

Abbot Peterson, King Caesar Rd., Duxbury  
Alfred John Fecke, Jr., Washington St., Duxbury

Harry C. Grafton, Jr., Washington St., Duxbury  
Edward B. Hutton, Linden Lane, Duxbury  
Henry P. McNeil, Depot St., South Duxbury  
Richard C. Prince, Tremont St., Duxbury  
Allan G. Waite, Fort Hill Avenue, Duxbury

I have named Mr. Peterson first in order that he may act as temporary Chairman and call the first meeting of the Committee.

Sincerely yours,

WILLIAM W. McCARTHY,  
Moderator

April 26, 1949

Mr. Joseph T. C. Jones  
Town Clerk  
Duxbury, Massachusetts

Dear Mr. Jones:

In accordance with Article 6, Sections 1, 2 and 3, I hereby appoint Robert F. Estabrook, Bay Pond Road, Duxbury, to fill the two years of my unexpired term on the Finance Committee.

I also appoint the following to be members of the Finance Committee for the three years to replace those who were appointed originally for a one year term:

Morrison M. Bump, Surplus Street, Duxbury  
John T. Burns, Bay Road, South Duxbury  
Arthur R. Hutchinson, High Street, West Duxbury

I have notified Messrs, Schaffer, Nelson and Eckersly that I am adopting the policy of not re-appointing a member of the Finance Committee to succeed himself. My purpose is to enable as many of our citizens as possible to have the good experience of serving on the Finance Committee.

Unless the policy is put into effect now, it will be difficult to do so in later years.

Sincerely yours,

WILLIAM W. McCARTHY,

Moderator

June 1, 1949

To the Honorable Board of Selectmen  
Duxbury, Massachusetts

Gentlemen:

In compliance with the requirements of the Plymouth County Retirement Association, I hereby tender my resignation from the offices of Town Clerk and Treasurer of the Town of Duxbury, to take effect June 30, 1949.

I wish to express my appreciation to the Selectmen for their co-operation in calling a Special Town Election, thus enabling me to become a candidate for re-election.

Cordially yours,

JOSEPH T. C. JONES

East Pembroke, Massachusetts

June 6, 1949

Mr. Joseph T. C. Jones  
Town Clerk  
Duxbury, Massachusetts

Dear Sir:

I will be unable to serve as a member of the Finance Committee for the balance of the term for which I was appointed, so resign from said office.

Sincerely yours,

HARRY F. SWIFT

Duxbury, Massachusetts

June 22, 1949

Mr. Joseph T. C. Jones  
Town Clerk  
Duxbury, Massachusetts

Dear Mr. Jones:

I tender herewith my resignation as a member of the Board of Public Welfare to which I was elected for a term of one year at the annual meeting in March, this resignation to take effect immediately.

Very truly yours,

CARL J. SANTHESON, Jr.

Duxbury, Massachusetts  
July 20, 1949

Mr. Joseph T. C. Jones  
Town Clerk  
Duxbury, Massachusetts

Dear Mr. Jones

At 2:30 o'clock P. M., July 20, 1949, the remaining members of the Board of Public Welfare met with the Board of Selectmen for the purpose of electing a new member to fill the vacancy on the Board of Public Welfare.

Mrs. Alice H. Garside was elected a member of the Board of Public Welfare to serve until the annual election of March 1950.

Respectfully yours,

PHILIP W. DELANO, Chairman

Board of Selectmen

## SPECIAL TOWN ELECTION, JUNE 30, 1949

---

The polls were opened at 12 o'clock noon and closed at 4 P. M.

The Tellers were Harry A. McNaught, Helen F. Dawes, Barclay J. Woodward, 3rd, Frank H. Williams and Rodney W. Leach who were sworn in by the Town Clerk.

The ballot-box indicated 55, and 55 ballots were taken from the ballot-box.

The vote was as follows:

TOWN CLERK (Unexpired term)	Votes
Joseph T. C. Jones	54
Blanks	1
TOWN TREASURER (Unexpired term)	Votes
Joseph T. C. Jones	54
Blanks	1

Adjourned.

J. T. C. Jones,  
Town Clerk

Duxbury, Massachusetts  
August 16, 1949

Mr. Joseph T. C. Jones  
Town Clerk  
Duxbury, Massachusetts

Dear Mr. Jones

About a month ago you forwarded me the resignation of Harry F. Swift from the Finance Committee of the Town.

For his unexpired term through next year's Town Meeting, I have appointed Major Charles R. Carlson, St. George Street, Duxbury who has consented to serve.

Sincerely yours,

WILLIAM W. McCARTHY,

Moderator

Powder Point Avenue  
Duxbury, Massachusetts  
November 14, 1949

Board of Selectmen  
Duxbury, Massachusetts

Gentlemen:

It is with sincere regret that I find it necessary to submit my resignation, effective immediately, as Chairman and Member of the Board of Public Welfare.

Very truly yours,

BARBARA S. MULLOWNEY

Duxbury, Massachusetts  
December 1, 1949

Mr. Joseph T. C. Jones  
Town Clerk  
Duxbury, Massachusetts

Dear Mr. Jones

At 2:30 o'clock P. M., December 1, 1949, the remaining members of the Board of Public Welfare met with

the Board of Selectmen for the purpose of electing a new member to fill the vacancy on the Board of Public Welfare.

Mr. Herbert R. Nelson was elected a member to serve on the Board of Public Welfare until the annual election of March 1950.

Respectfully yours,

PHILIP W. DELANO, Chairman  
Board of Selectmen

---

The following Town Officials were duly sworn in 1949:

Charles R. Crocker, Selectman and Assessor for 1 year.

Walter G. Prince, Selectman and Assessor for 3 years.

Carl J. Santheson, Jr., Member of Board of Public Welfare for 1 year.

Robert Seymour, Member of Board of Public Welfare for 3 years.

Philip G. Chandler, Member of Board of Public Welfare for 3 years.

Alice H. Garside, Member of Board of Public Welfare to March 1950.

Virginia Goodrich Craig, Member of School Committee for 3 years.

Earl W. Chandler, Constable for 1 year.

James T. O'Neil, Constable for one year.

Henry P. McNeil, Shellfish Constable for 1 year.

Oliver L. Barker, Member of Planning Board for 5 years.

J. Newton Shirley, Cemetery Trustee for 5 years.

Joseph T. C. Jones, Town Clerk and Treasurer to 1950.

Willard R. Randall, Registrar of Voters to 1951.

Ernest W. Chandler, Field Driver, Inspector of Animals and Inspector of Slaughtered Animals for 1 year.

Lewis B. Randall, Highway Superintendent for 1 year.

Victor D. Nickerson, Harbor Master for 1 year.

Isabelle V. Freeman, Accountant for 3 years; Clerk of Assessors, Selectmen, Board of Health, Veterans' Benefits for 1 year.

Ray M. Parks, Surveyor of Wood and Lumber for 1 year; Fence Viewer for 1 year.

Michael J. Sheehan, Albert N. Sampson, Arthur A. Jokinen, Frank E. Phillips, Jr., Henry P. McNeil, Special Police Officers for 1 year.

Eben N. Briggs, George S. Butler, Kenneth O. Macomber, Leroy M. Peterson, Fire Engineers for 1 year.

Henry M. Griswold, Fire Engineer and Fence Viewer for 1 year.

James T. O'Neil, Special Agent for the Local Licensing Authorities.

Lawrence C. Doyle, Dog Officer for 1 year.

## REPORT OF TOWN ACCOUNTANT

---

The necessity for repeated repairs to the electric adding machine indicate that efficiency and economy would be promoted by the purchase of a new machine for this department.

I am pleased to submit the following statement of all receipts and expenditures of the Town of Duxbury for the financial year ending December 31, 1949, in accordance with Chapter 41, Section 61, General Laws. This report is arranged in accordance with the classifications prescribed by the Director of Accounts.

Appended thereto is a statement of the Appropriation Balances returned to the Treasury under date of December 31, 1949, and a further statement of the Appropriation Balances retained and carried forward January 1, 1950.

ISABELLE V. FREEMAN,

Town Accountant

June	9	High School Graduation
June	16	School Closes--Report cards

## ADMITTANCE

Children will be admitted to the schools on the following basis:

1. Children who are five years of age on September first may be admitted to the kindergarten.

2. Children who are six years of age on September first may be admitted to the first grade.

3. In 1950, children who shall have reached their sixth birthday on January first 1951, may be admitted to the first grade, provided a test administered by the Superintendent of Schools indicates a mental age of 6-0. Parents may have this test given by a recognized testing clinic, provided the action is approved by the Superintendent of Schools in advance.

---

### NO SCHOOL SIGNAL

School is usually called off only when bus transportation is unsafe. It may occasionally be called off during an extremely severe storm. On such days an announcement is made over Stations WBZ, WEEL, WHDH and WBET in Brockton, between 6:45 and 7:45. Parents are not expected to send their children to school on days when, in their opinion, the weather is such as to endanger the health of the child. Such absences are excused on receipt of a written request.

## REPORT OF THE SCHOOL COMMITTEE

---

To the Citizens of Duxbury:

Your School Committee submits the following report of its activities for the year 1949, together with the reports of the Superintendent, Principals, Doctor, Nurse and Dentists.

There have been several problems which your committee feel have been fairly well settled but others are still before us.

The new Elementary School building was opened in September and received more pupils than the building was planned to accommodate. It will be necessary to remodel the play room to provide the two (2) additional rooms needed to house the increased number of elementary pupils who will enter in September 1950. This is unfortunate as there will be no place for the pupils to play in stormy or extreme weather. We have placed a special article in the warrant for the annual town meeting to take care of this. It is also suggested that a special committee be appointed by the moderator to consider making an addition to the elementary school in the very near future.

Our high school Principal resigned in September to accept a better position. We have not elected a new Principal as yet. The Acting Principal is doing a good job.

Our Superintendent and Elementary Principal resigned in November to accept a position in a larger school system and we have been very fortunate in finding a well trained man to take his place. We

have lost a good man and believe we have found another.

Because of Legislation passed last year, it will be necessary to review our Salary Schedule and make revisions needed to conform to the Law.

The Kindergarten has been working well and we believe it is well appreciated by the parents.

The High School building continues to be a problem. The State Inspector from the Department of Public Safety has made certain demands which must be met if the school activities are to be carried on as in the past. The stage curtain, drops and lights have been condemned. We are considering plans to make the necessary changes. The showers, toilets and locker rooms are both inadequate and unsanitary AND THE TIME HAS COME TO REPLACE THEM.

The seating arrangements are not sufficient to accommodate the spectators when basketball is played, as each balcony has been limited to fifty-five persons, all sitting in their seats. We recommend that additional seats be built where the present unsatisfactory toilets and showers are located.

There are problems in reference to the bus unloading at the Elementary School and the providing of safe parking space for cars at the building. The bus turn-around was built too small and became unuseable with the first freezing of the ground. We have requested a special appropriation to take care of these two problems.

The courses of study and educational development have been reported to us by the Superintendent and we refer you to his report.

Your Committee greatly appreciates the work of the teachers and especially their cooperation during this time of change in supervision, in carrying on the school program.

We wish to thank the P.T.A. and those parents who have generously given of their time to assist in the work at the schools.

The Budget for 1950 has been very carefully prepared and we are asking for the appropriation of \$127,439.00 to carry on the school program.

An additional article has been placed in the Town Warrant to take care of the school transportation costs which will be \$15,353.00.

The School Committee appreciates the New Elementary School building provided by the citizens and expresses its great appreciation of the many hours of thought and hard work put into its development by the Building Committee. Especial thanks is extended to Mr. Marshall for his careful supervision during the erection of the building and his help during its early operation by the school department.

Respectfully submitted,

J. NEWTON SHIRLEY, Chairman  
ARLINE M. BUNTEN, Secretary  
VIRGINIA G. CRAIG  
GEORGE C. SCOTT  
HERBERT C. WIRT

**REPORT OF THE  
SUPERINTENDENT OF SCHOOLS**

---

Dr. J. Newton Shirley, Chairman

Duxbury School Committee

Duxbury, Massachusetts

Dear Dr. Shirley:

Mr. John Whitehead, who was your Superintendent of Schools in 1949 for nearly eleven months, has presented his report which immediately follows this brief message.

I would like to take this opportunity to thank individually and collectively, the members of the School Committee for the cooperation which has been extended to me, and to express my appreciation to the teachers and other members of the staff who have made it possible for me to adjust myself quickly to the school conditions in Duxbury. I am under the impression that you have a good school system here and can truly hope that the future will show promise of high standards of achievement.

Respectfully submitted,

CHARLES P. LAWRENCE,  
Superintendent of Schools.

Dr. J. Newton Shirley

Chairman of the Duxbury School Committee

Duxbury, Massachusetts

Dear Sir:

I herewith submit my last Annual Report as Superintendent of Schools in Duxbury. In 1945 I was assign-

ed the duty of working with the Committee and the staff to carry out the recommendation of the Harvard Survey insofar as this seemed to be in accordance with the wishes of the people of Duxbury. Previous reports have mentioned many specific things that we have done in order to meet those recommendations. In this report, I would like to describe briefly the present status of our progress and to mention a few of the problems which lie just ahead.

## ELEMENTARY SCHOOL CURRICULUM

The Elementary School course of study might be divided into two parts. One of them, which perhaps takes the greater amount of time, is the teaching of basic tool subjects such as reading, arithmetic, language, spelling and writing. The second division would be all of the other things we have been doing to give the children a well-rounded preparation for living later on.

READING is taught from one of the most widely used basic reading systems in the country. The material is well planned and interesting. It develops all the reading skills that children need through the sixth grade. In addition to this, supplementary materials are used for work in phonics; supplementary readers are available for those children who need extra work because of their superior ability and for children who need special help because they have difficulty keeping up with the class. Our tests show that our reading accomplishment is well above average.

ARITHMETIC is taught from another widely used basic series of books. These books are supplemented with workbooks and with a great deal of material

built by the teachers for use with their particular classes. Arithmetic has been a problem to us and to some extent still is. However, our most recent standard test results show that we are slightly above average.

LANGUAGE work consists of both oral and written practice. Language is taught as a tool and is stressed in all of the work the children do. There is probably less formal work than before, but with more stress throughout all the activities in the school day in order to build better habits.

SPELLING has been a problem to us and is one that we are starting to work on this year in the hope of finding a means of organizing our work that will give us superior results. We have tried one basic spelling system and supplemented it with other work. This has not given the results that we would like. At the present time a list of words which make up approximately 90% of adult written correspondence is being used as a basic minimum spelling list which every child should know. In addition to that, proper spelling habits and attitudes are stressed throughout all the child's work. It is hoped that this method of handling the situation will prove to have many advantages over those we have tried formerly.

WRITING has been taught by the Rinehart system. Very fine results were apparent while we were working under Mr. Rinehart who assumed responsibility for developing the program and helping our teachers, while our teachers did the actual work. It is hoped that we may be able to carry on successfully without the supervision, using the same techniques we have learned in the past four years. There are other subjects that are no less important in their contribution to the living of the children:

SOCIAL STUDIES is organized so that it follows the general plans that are considered good practice in modern schools. Our first graders study their own environment, school, family, farms, and circus. Our second graders study the workers in the community such as the firemen, policemen and other groups which serve all of us. The third graders make a study of the material things we need in order to live, such as food, clothing, shelter and transportation, and then study these same factors in various countries which show a contrast in the way people live. The fourth grade continues to study these same factors in other countries and then studies early American history with emphasis on old Duxbury. In the fifth grade the children follow the development of American history with geography closely related to it from the time of the Revolutionary War to the present. The sixth grade spends its time in studying the old world background of our country.

HEALTH AND SCIENCE are taught both from books which we have purchased for the purpose and through individual or class projects. Various kinds of health charts are used in order to build good habits. Experiments in science are attempted.

MUSIC AND ART are offered in every grade and the children's natural interest in these subjects is used as a basis for teaching them the techniques that they need to perform well in them. Art subjects which correspond with topics being studied in other courses, enrich the work in those fields.

PHYSICAL EDUCATION is supervised by a teacher who has made a special study of that particular field. All elementary children have three

periods a week and their play time is devoted to learning skills connected with various type of games and other kinds of physical activity, including folk dancing.

Aside from what is generally considered the basic work, are many other activities which we conduct to make this work more effective and at the same time to add to the general growth and development of the child. Some of the things done in the elementary school that would come under this heading would be:

PROMOTION from grade to grade on an individual basis, depending upon the welfare of the particular child rather than an over all policy.

RECORDS of the progress and health of the children are organized so that they take a minimum of the teacher's time and give a maximum of information.

VISUAL AIDS of all kinds are used increasingly throughout all grades.

KINDERGARTEN training will help considerably in getting little children accustomed to their new school life, in helping them build proper habits, and in preparing them for successful first grade work.

FIELD TRIPS to points of interest are taken to make school discussions more realistic.

TEACHING METHODS which emphasize individual welfare, and many kinds of activities serve to give every child a better chance.

**HOT LUNCHES** assure children of an adequate noon meal at very low cost.

**DENTAL WORK** financed by the Duxbury Nurse Association and the Board of Health, is making great improvement possible in the teeth of the children now and building habits which we hope will last a lifetime.

**PHYSICAL EXAMINATIONS** including eye and ear testing by modern methods, render another service to the children.

All these activities and others make our school one

of which the citizens may be proud. There is much improvement to be made, since we have not yet become accustomed to our new surroundings and have not learned to make the best use of them. The system seems to be in a good position to go on to solve these problems.

### HIGH SCHOOL CURRICULUM

As the Elementary School had two basic jobs to perform, so does the high school. All children must receive basic education that will help them to become good American citizens. This includes not only the formal subjects, but the entire extra-curricula program. In addition to this work, each child should endeavor to finish school with one skill which can be sold to a prospective employer.

A brief account of the basic subjects is as follows:

**ENGLISH AND SOCIAL STUDIES** are planned cooperatively by the teachers so that each will give added meaning and understanding to the other. In addition to the conventional work which has always been part of the High School program, there

is included units on very practical subjects such as how public opinion is formed, the newspaper industry, mental health, and a study of the various occupations. College students study the more technical phases of both subjects in order to know the things necessary to pass board examinations. In the general course, the more practical phases of the same units are taught.

PHYSICAL EDUCATION is taught to every youngster twice a week, not only for its value in teaching skillful use of muscles, but it does teach pupils to get along with each other and develops good sportsmanship.

SCIENCE is compulsory for at least one year in the high school program as well as in the seventh and eighth grades.

MATHEMATICS — algebra for the college students, or a general math for the non-college students, is required in the ninth grade.

HEALTH AND DRIVER EDUCATION which are required at some period in the high school years, complete our basic program for all students. In preparing the students to make a living, more

courses are offered in Duxbury than are customarily offered in small high schools.

GUIDANCE is given by a part time guidance councillor who has the records, information, and tests necessary to assist our students, and who confers

with them constantly on these subjects. A study of college requirements is becoming an increasing part of the work. Last year 25 % of our graduates went to a degree granting institution. The college course consists of the regular work in English and social studies, while four years of math and science are offered and two years each of two languages. This enables us to meet the requirements of practically any college.

COMMERCIAL EDUCATION divides itself into two main categories. General business background is well provided for and secretarial work includes ediphone operator certificates which are given to the graduates.

HOME-MAKING as a field of work is growing and a full program is available to those who choose to elect it.

INDUSTRIAL ARTS work is in a process of change in order to adapt our work better to the needs of our students who may later become interested in any of a variety of fields.

ART AND MUSIC are being made available to many more students in the upper four years and the response is most encouraging. A boys' glee club and a girls' glee club are getting off to a fine start.

WORK EXPERIENCE outside of Duxbury for all seniors is gradually being introduced as part of our regular school curriculum. This gives both teacher and pupils a chance to determine whether or not the work being given is practical and of a high standard.

Our High School has a broad program of extra curricula activities. Really these should be part of our regular class work, but at the present time it appears that they can be organized more efficiently as separate activities. Since few citizens realize the scope of these activities, some of them are listed below.

Student Council	Cheer Leaders Club
Athletic Association	Senior Play
Field Hockey	Tournament of Plays
Girls' Basketball	Boys' Glee Club
Softball	Girls' Glee Club
Soccer	Band
Boys' Basketball	Boys' Chef Club
Baseball	Year Book
Track	Photography

#### Special Services Club

These activities in addition to the regular social events, constitute things that we do beyond what appears on our regular school schedule. Such activities are of tremendous value in building character and responsibility, in giving students an opportunity to make friends, and to become well adjusted socially.

#### PROBLEMS

Every school system will always have pressing problems to be solved. It seems as though the solution or partial solution of one set seems to lead into another set of problems. In closing, a few of those that are facing Duxbury in the near future should be mentioned:

**BUILDINGS**—The problem of school space in Duxbury has by no means been solved. On the first of October this year, the present school plant was operating at the capacity for which it was designed. A rough estimate, using only the number of pupils in our Elementary School now, indicates that in six years the High School will increase fifty per cent. The Elementary School needs two more classrooms next year, will need one or two more the next year, and very likely will need even more in the future.

The problem of maintenance in the High School is becoming acute. The interior is badly in need of redecorating, ceilings are in need of replacement, and the gym floor will sooner or later need considerable work.

The present gym is not adequate for the purpose. This applies particularly to the locker and shower rooms which are not nearly large enough for the purpose. The materials used, particularly on the floor, are not conducive to good health. It is impossible to accommodate the number of spectators that would like to attend basketball games. This results in extra expense to the Town because pupils are unable to help finance their athletic programs in this manner. It also results in a great deal of teacher-pupil energy and time spent on money-making schemes. This all indicates a very heavy financial burden in the next few years.

**STABILITY**—One problem that is always with small school system is the problem of stability. Because larger systems pay more and since Americans in general seem to think that big things are good things, keeping teachers in a small system is difficult.

Duxbury has sought to meet this problem by adoption of an adequate Salary Schedule. This plan seems to be working well. We have a congenial, industrious, and extremely capable faculty. It is hoped that all the people will be conscious of the desirability of maintaining such a faculty and that in the system we may develop further means of attracting and holding the best professional people to teach our children.

**CURRICULUM** — We have passed through a period of rather rapid development of curriculum. In general, our practices now are equal to or superior to the curriculum commonly found in Massachusetts. At this point, the problem seems to be one of further organization and consolidation of the gains that have been made.

**FINANCE** — The problem of financing the schools is becoming increasingly acute. Our local government, in Massachusetts, must support by far the larger part of the educational system. Fortunately Duxbury is not affected to the point where only a minimum program can be offered. In spite of per pupil costs which are considerably above average for Massachusetts, the actual tax per thousand dollars of valuation paid by the people for these services is somewhat less than the average tax throughout the Commonwealth. There is some indication that the increase in valuation will offset the extra money that will be needed to support our system as it grows.

There is evidence that the Duxbury school system is now in a position to serve the children of the Town well. It is hoped that the large amount of loyal support

for a fine educational system that has been evidenced in the Town in recent years will continue.

In conclusion, I would like to thank the faculty, the School Committee, and the people of Duxbury for the very fine support they have given me in my four years here.

Respectfully submitted,

JOHN A. WHITEHEAD,  
Superintendent of Schools.

**REPORT OF THE  
SUPERVISOR OF ART**

---

Mr. John A. Whitehead  
Superintendent of Schools  
Duxbury, Massachusetts

Dear Sir:

There is a great improvement in the creative work of the children of Duxbury in Art. This is due to the increased cooperation of the teachers in the grades, the opportunity for more Art in the new building, and the enthusiasm of the children for drawing. The addition of an art room in the High School has made it possible to do kinds of work not possible before and we shall stress High School interest as much as we can. We are also being supplied with more of the necessary materials for diversified and modern methods of teaching this subject and we are looking forward to a progressive and happy year.

Respectfully submitted,

ELLA BAGOT HEBERD,  
Supervisor of Art.

## REPORT OF THE SUPERVISOR OF MUSIC

---

Mr. John A. Whitehead  
Superintendent of Schools  
Duxbury, Massachusetts

Dear Sir:

The music supervisor is now available for and does regularly visit every room in the elementary school one period every week. The lower grades have twenty-minute music classes and the older children receive instruction for thirty minutes. The music program in the first six grades gives special emphasis to training in reading and singing, but also includes work in rhythmic activity, appreciation and enjoyment, and theme recognition.

Grades seven and eight meet in three sections for one fifty-five minute period a week. Because the music period is not an elective course, the program is varied as much as possible in order that the students may all derive the maximum enjoyment from the music hour. Therefore, enjoyment and appreciation are stressed, but time is also given to some theory and harmony study.

Musical activity in the high school is confined to participation in glee clubs and band, with a very good possibility of orchestra in another year. Nearly eighty students were auditioned for membership in the glee clubs, and about fifty were chosen as regular members for the combined girls' and boys' groups with

a good reserve list available in case a vacancy should occur in the regular membership. The boys' glee club made its first public appearance at the November meeting of the Parent Teachers Association, and later appeared in conjunction with the girls' glee club at a high school Thanksgiving assembly and at the community Christmas caroling service on December 19. (Students from the first six grades also assisted at the latter program.) There is also an active male quartet composed of senior boys from the glee club.

At the present time, the high school vocal groups are preparing for the Spring Festival of Music. The band continues to grow and the boys and girls are now giving one early evening meeting a week for band practice besides the regular school period. Several new instruments have been added and the elementary school band holds promise for the future of the high school organization. The latter group provides processional music for school assembly, and is working exceptionally hard at the present time in preparing for its appearance in the Memorial Day parade.

Respectfully submitted,

MARGARET R. HADLEY,  
Supervisor of Music.

## REPORT OF THE SCHOOL NURSE

---

Mr. John A. Whitehead  
Superintendent of Schools  
Duxbury, Massachusetts

Dear Sir:

I submit herewith the report of the school nurse for the year 1949.

Probably no one entered the new elementary school building with greater joy than the school nurse. To have two rooms that are needed for nothing other than the health activities is a great boon in itself, but in addition these rooms are pleasantly and conveniently laid out and adequately equipped.

This great change makes any report for the calendar year fall into categories of before and after in many respects. Following are examples:

The physical and dental examinations were conducted under infinitely better circumstances, particularly as regards the elementary grades. It is good to know that such work no longer needs to be done in the crowded, cold and noisy quarters that were all we had in the outlying elementary schools.

The hearing tests usually done in the winter and spring by the teachers, were not done, on advice of the superintendent, due to lack of suitable space. It is very much hoped that the public address system in the new building will be a great help in improving the efficiency and reliability of these tests.

Vision testing was not completed by the end of the school term in June. All of the first three grades and about 20 in the high school remained to be done. This was largely due to lack of time and the crowded condition of the nurse's former office. In the new office, the telebinocular is permanently in place, so that doing a few eye tests as there are a few moments to spare is fairly simple (not that there have been many moments to spare.) It is hoped in this way to be able to tests all eyes by next June.

In the spring, the nurse attended, in Plymouth, a meeting to discuss the possibility of having a Child Guidance Clinic located there. She also spent one day at the state institution in Taunton attending an institute on mental health.

This fall, classes in school nursing were attended at the District Health Office in Quincy.

During the year the Nurse Association gave financial assistance, with one tonsillectomy, three eye examinations by an oculist, and two pairs of glasses.

The nurse's part in the dental program takes up the major portion of the time spent in school work. Following is a summary of a time study kept from January through May 1949, showing how the time was spent:

Total time spent in school nursing 175½ hours.

Total time spent in dental program 89½ hours or 50 % of total.

Time spent on dental records 65¼ hours or 70 % of above.

Time spent on dental appointments  $24\frac{1}{4}$  hours.

Following is the report of the school dental program from January to June:

Total permissions	189
Cancelled or withdrawn	5
Dental work completed	94
Total fees collected	\$299.93
Total visits	736

13 pupils made 1 visit
30 pupils made 2 visits
37 pupils made 3 visits
47 pupils made 4 visits
29 pupils made 5 visits
16 pupils made 6 visits
13 pupils made 7 visits
4 pupils made 8 visits

Home visits made during the year were as follows:

Suspicious rash	27
Pediculosis (infested heads)	26
Upset stomach	25
No doctor's certificate after 5 days' absence	12
Colds	12
Eye test follow-up	6
Headache	4

Inflamed eyes	3
Abrasions of face	1
Fractured wrist	1
Tonsillectomy	1
Toothache	1
Rheumatic fever	1
	<hr/>
Total	120

Respectfully submitted,

SUSAN E. CARTER, R.N..  
Duxbury School Nurse.

## REPORT OF THE SCHOOL PHYSICIAN

---

Mr. John A. Whitehead  
Superintendent of Schools  
Duxbury, Massachusetts

Dear Sir:

The complete physical examination of each school child included special examination of the eyes, ears, nose and throat. Neck examinations were carried out in cases in which infections were found in the nose and throat. The heart and lungs were examined by stethoscopic means and a few new cardiac cases uncovered. Flat feet and posture were appraised critically; it is felt by this department that the posture problem in the town of Duxbury is the chief criticism that can be directed towards the school children. An outline of exercises to correct poor posture was handed into the Physical Education department and recommendations to the parents where it seemed necessary.

Parents were informed of physical defects by letter; the general health of the children was felt to be good.

It is still felt that if money can be appropriated from the town funds that urinalysis should be carried out and also blood counts to determine early kidney trouble and diabetes and to ferret out those cases of anemia. It is felt that this would improve the general

health of the school children even more so than at the present time.

The dental program and dental education were carried out by Dr. H. E. Messier and Dr. G. K. Turner and the children's teeth continue to show a marked improvement yearly.

Respectfully submitted,

WALTER E. DEACON, M.D.,  
School Physician.

## REPORTS OF THE SCHOOL DENTISTS

---

Mr. John A. Whitehead  
Superintendent of Schools  
Duxbury, Massachusetts

Dear Sir:

The Dental Clinic was held for the fiscal year as is customary, and the teeth in general seemed to be in a fair overall condition.

The records and amount of work accomplished are on file at the Board of Health.

Respectfully submitted,

HENRY E. MESSIER, D.M.D.,  
School Dentist.

Mr. John A. Whitehead  
Superintendent of Schools  
Duxbury, Massachusetts

Dear Sir:

The School Dental Clinic for the school year 1948-49 was begun on December 14, 1948, and ended on June 12, 1949.

For the first time in the history of the school clinic, a complete individual examination of all students was accomplished, with the results becoming a part of each student's permanent dental record. Only those students who presented certificates of approval from their family dentist were excepted. All parents of students examined were notified of existing conditions and were advised of the opportunities available under the school dental program.

This comprehensive examination marks definite forward progress in a school dental health program. Not only does it provide for definite planning for clinical and preventive work, but it likewise furnishes an index to annual improvement in the general dental health of the school population.

The following operations were accomplished in my office:

- 303 Silver Amalgam restorations
- 43 Cleanings
- 22 Extractions
- 17 Treatment restorations
- 14 X-Rays
- 11 Cement restorations
- 7 Porcelain restorations

At the schools:

396 Individual examinations

Dental defects were treated in the order of their importance. Individual instruction in correct home hygiene was given where needed. Tooth brushes and dentifrices accepted by the American Dental Association were provided those children who required them. While the scope of the program did not permit all students to be included, fluorine therapy was instituted in those cases which demonstrated rampant decay.

Individual examinations for the 1949-50 school year, which I have just completed, reveal that there has been a marked improvement in the general dental health picture in the past year. There remains, however, considerable room for improvement. The continuation of the present program, at least, with the view in mind of enlargement as time and funds allow, is indicated.

I wish to express my appreciation to Miss Susan Carter, the Duxbury Nurse Association, and the Board of Public Health for their contributions to the success of the School Dental Clinic.

Respectfully submitted,

GILLIS K. TURNER, D.M.D.,  
School Dentist

## REPORT OF SCHOOL CENSUS

---

The following report of children in town and enrollment is based upon the school census taken October 1, 1949.

	4½ years and under 5 years	5 years and under 7 years	7 years and under 16 years
Number of boys living in Duxbury	31	47	234
Number of girls living in Duxbury	13	44	182

Stearns, Ray A.	Insurance	St. George St.
Thomas, Henry	Store Manager	Elm St.
Wadsworth, William	Painter	Depot St.
Walker, Donald D.	Real Estate	Tremont St.

## REPORT OF SELECTMEN

---

Fellow Citizens:

We are pleased to submit the Ninety-Eighth Annual Report of the officers and committees of the Town of Duxbury.

We have planned to continue Chapter 90 Highway Construction on Church Street. The project progressed according to schedule during 1950 and if funds are available this will be completed in 1951. Also, plans are being made to improve Tobey Garden Street and to widen Bay Road.

Because of the rapid expansion of housing since 1945 there have been demands on the Highway Department to provide suitable drainage. There are several points in the more congested areas that will have to be taken care of in 1951.

The basin at Mattakeesett Court continues to fill in. The outlook for early improvements is most discouraging at this time, as we cannot expect Federal funds for this purpose in the near future. We plan to remedy this situation somewhat by building a small pier at Howland's Lane Landing, off Crescent Street. This will permit several of the larger boats to be moored at this point. We estimate the cost of this project will be about \$700.00.

In 1940 the Tax Rate was \$22.50 per \$1000. of valuation and you are doubtless aware of the fact that the rate has steadily increased until it reached \$38.00 per thousand in 1950. The reason for this is expanded

services as well as the steady increase in the cost of those services, especially in the School and Welfare Departments. Capital expenditures, such as for school buildings and heavy equipment, have a direct and shocking effect on tax rates. We hope you will do something about this in 1951. It will help if only the most urgent projects are carried out this year.

There is some agitation for a ten per cent increase in salaries and wages in the various town departments. We have been opposed to this, but in view of the increase in the cost of living it may be fair to assume that some increase is justified.

We believe that Public Ownership of Duxbury Beach by the town is the only way to keep it under local control. We have received information that the Legislature will again be asked to take some action in regard to beaches. At this time we do not know the exact wording of the Bill, but we assume it would be detrimental to the Town to have the State control our beach. We recommend that the Town permit the Selectmen to appoint a committee to consider the Beach question, and report as soon as a decision is made, but not later than the 1952 town meeting.

Mr. Loren Nass brought suit against the Town for alleged damages to his property by an act of an agency of the Town. According to Mr. Nass and his attorney several loads of sand placed on the bathing beach at the Blue Fish River Landing changed the location of the channel and thus caused the erosion of several feet of his land.

This case was tried before a jury in the Plymouth Superior Court, and Mr. Nass was awarded \$4500.00 which was about a third of the amount he had requested and almost as much as the total assessed value of his house and land.

Upon the advice and recommendation of Town Counsel the Selectmen instructed Town Counsel to file exceptions in the Supreme Judicial Court. We believe the appeal was necessary in order to determine future action by the town regarding improvements to bathing beach facilities not only at the Blue Fish River Beach, but also in other parts of the town where such improvements might result in alleged damages to property. The decision of the Supreme Court will determine the question.

On October 24, 1950 the Selectmen accepted the United Nations Flag made by the women of Duxbury and presented to the town by Mrs. Thomas Scott at a public ceremony on the Town Office lawn.

Respectfully submitted,

PHILIP W. DELANO, Chairman

CHARLES R. CROCKER

WALTER G. PRINCE

Selectmen of Duxbury.

## REPORT OF STATE AUDITOR

---

March 24, 1950

To the Board of Selectmen

Mr. Philip W. Delano, Chairman  
Duxbury, Massachusetts

Gentlemen:

I submit herewith my report of an audit of the books and accounts of the town of Duxbury for the year ending December 31, 1949, made in accordance with the provisions of Chapter 44, General Laws. This is in the form of a report made to me by Mr. Herman B. Dine, Assistant Director of Accounts.

Very truly yours,

FRANCIS X. LANG,  
Director of Accounts.

FXL:ELD

---

Mr. Francis X. Lang  
Director of Accounts  
Department of Corporations and Taxation  
State House, Boston

Sir:

As directed by you, I have made an audit of the books and accounts of the town of Duxbury for the year ending December 31, 1949, and submit the following report thereon:

The financial transactions, as recorded on the books

of the several departments receiving or disbursing money for the town or committing bills for collection, were examined and reconciled with the reports and records in the office of the town accountant.

The town accountant's ledger was analyzed, the receipts being checked with the treasurer's books and the payments being compared with the warrants authorizing them and with the treasurer's records of payments. The appropriation accounts were checked with the town clerk's records of town meeting proceedings and the recorded transfers from the reserve fund were verified. A trial balance was taken off, proving the accounts to be in balance, and a balance sheet, which is appended to this report, was prepared showing the financial condition of the town on December 31, 1949. An examination of the appended balance sheet shows that the town is in very good financial condition.

The books and accounts of the town treasurer were examined and checked in detail. The receipts, as recorded, were analyzed and checked with the records of the several departments collecting money for the town and with other sources from which money was paid into the town treasury. The payments were compared with the selectmen's warrants authorizing the treasurer to disburse town funds.

The cash book additions were verified, and the cash balance on February 13, 1950, was proved by actual count of the cash in the office and by reconciliation of the bank balances with statements furnished by the banks of deposit.

The payments on account of debt and interest were verified by comparison with the amounts falling due and with the cancelled securities on file.

The savings bank books and securities representing

the investment of the trust and investment funds in the custody of the town treasurer and the Plymouth Five Cents Savings Bank were examined and listed, the income being proved and the transfers to the town being verified.

The records of tax titles held by the town were examined, and the town and district taxes transferred to the tax title account were compared with the collector's records. The payments to the treasurer were verified, and the outstanding accounts were listed and compared with the records in the Registry of Deeds.

The books and accounts of the tax collector were examined and checked. The taxes and motor vehicle and trailer excise outstanding at the time of the previous examination, as well as all subsequent commitments, were audited and compared with the assessors' warrants issued for their collection. The payments to the town and district treasurers were verified, the recorded abatements were checked with the assessors' records, and the outstanding accounts were listed.

The records of departmental accounts receivable were examined and checked. The commitments were proved, the payments to the treasurer were verified, and the outstanding accounts were listed.

The outstanding tax, motor vehicle and trailer excise, and departmental accounts were verified by mailing notices to a number of persons whose names appeared on the books as owing money to the town and the district, and from the replies received it appears that the accounts, as listed, are correct.

The surety bonds of the town officials required to file them for the faithful performance of their duties were examined and found to be in proper form.

The records of licenses and permits issued by the

selectmen, the town clerk, and by the police and health departments, as well as those of all other departments collecting money or committing bills for collection, were examined and checked, the reported payments to the treasurer being verified.

Appended to this report, in addition to the balance sheet, are tables showing a reconciliation of the treasurer's and the collector's cash, summaries of the tax, motor vehicle and trailer excise, tax title, and departmental accounts, together with tables showing the condition and transactions of the trust and investment funds.

For the cooperation extended by the town officials during the progress of the audit, I wish, on behalf of my assistants and for myself, to express appreciation.

Respectfully submitted,

HERMAN B. DINE,  
Assistant Director of Accounts.

## REPORT OF THE FIRE DEPARTMENT

---

January 3, 1951

To the Honorable Board of Selectmen,  
Duxbury, Massachusetts

Gentlemen:

The Board of Fire Engineers submit the following report of department activities for 1950.

The department responded this year to 91 calls:

- 7 Automobiles
- 4 Bridge
- 26 Building
- 9 Chimney
- 34 Emergency
- 2 False Alarm
- 7 Oil Burner
- 2 Stand-by

This was an increase of 16 alarms over last year's total calls and a considerable increase in building fires over the previous year. Although we have had several serious house fires in 1950 the teamwork of the officers and men of both companies, with the co-operation of the police and telephone operators, has kept losses very low, with no buildings being totally destroyed.

The fire department has answered all types of emergency calls this year and stands ready to give aid to

its townspeople in the future. For assistance call the DUXBURY Fire Department at Duxbury 333.

The board has entered an article in this year's warrant asking for \$200 to purchase an outboard motor for rescue work and \$500 for a portable lighting unit, both of which we feel are necessary additions to the department.

We do not know what Civil Defense will call upon us to do in this present emergency but we will carry out our duties to the best of our ability.

The engineers would like to thank the firemen and their officers for their faithful support of the department and to thank all the groups, departments and citizens who have co-operated in complying with fire regulations and have assisted us in preventing fires.

Respectfully submitted,

KENNETH O. MACOMBER  
 GEORGE S. BUTLER  
 CARL J. SANTHESON, JR.  
 JOHN DeLORENZO  
 LeROY M. PETERSON

Board of Fire Engineers  
 EBEN N. BRIGGS, Chief

## REPORT OF THE FOREST WARDEN

---

January 3, 1951

To the Honorable Board of Selectmen,  
Duxbury, Massachusetts

Gentlemen:

I herewith submit my report as Forest Warden for the year 1950.

There was a total of 102 calls:

- 21 Brush
- 37 Dump
- 1 False Alarm
- 6 Forest
- 33 Grass
- 4 Stand-by

As I mentioned in my report last year two of the trucks in our forest fire department are nearly obsolete. With the dry weather that has prevailed this past season and the fire hazards that result from a drought, I do not feel that our property here in Duxbury is afforded the proper protection with the equipment we have at the present time. Therefore, I have requested that an article be put in the town warrant asking that a sufficient sum of money be appropriated to buy a forest fire truck and equipment.

I want to take this opportunity to thank all my deputy wardens, the firemen, townspeople, telephone operators, and other departments for their earnest co-operation throughout the past year. By complying with forest fire regulations and reporting any fires which started immediately, the citizens of Duxbury gave a great deal of assistance to our department.

Respectfully submitted,

EBEN N. BRIGGS,

Forest Warden.

## REPORT OF HIGHWAY DEPARTMENT

---

To the Honorable Board of Selectmen.

Gentlemen:

I herewith submit the report of the Highway Department for the year ending December 31, 1950.

Approximately twelve miles of black roads in various parts of the town were given a surface treatment. Duck Hill Road was rebuilt and surfaced, as were portions of Marshall Street, Upland Road and Peterson Road. Hick's Point Road was excavated and graveled. All other streets received necessary repairs.

By special appropriations, Autumn Avenue was graveled and surfaced with tar and asphalt. Crescent Street was excavated and topped with mixed-in-place. Out of the Eben Ellison Fund, Shipyard Lane was rebuilt.

Fences were repaired and painted. Roadsides were mowed and raked.

Ten complete sections were replaced in Powder Point Bridge, and other repairs made as necessary.

A new float was built for Mattakeesett Court and the parking area given a seal-coat. The bathing beaches at all other town landings were filled in with sand as usual.

Under Chapter 90—New Construction—the seven-tenths of a mile of Church Street that was brushed out and excavated in 1949 was finished this year, 0.4 with Type I, 0.3 with mixed-in-place.

Under Chapter 90 — Maintenance — two old stone bridges on Route 14 that were in very bad condition were replaced with reinforced concrete pipe. The State, County and Town share the cost of all Chapter 90 work.

Respectfully submitted,

LEWIS B. RANDALL,

Superintendent of Streets.

## REPORT OF THE SUPERINTENDENT OF CEMETERIES

---

To the Cemetery Trustees:

I submit my report for the year 1950.

At Mayflower, Ashdod, Dingley and Myles Standish Cemeteries, the general work was done and the leaves were raked.

A number of veterans' graves were graded and there is more of this work to be done in 1951.

Myles Standish Cemetery the old slate stones were straightened, and cement put around the base of them.

Perpetual and Annual care lots were cared for. There were fifty interments this year.

Due to the increase in the cost of equipment, supplies and labor this department will need a larger appropriation for 1951.

Respectfully submitted,

LAUREL B. FREEMAN,

Superintendent of Cemeteries.

## REPORT OF THE CEMETERY TRUSTEES

---

To the Honorable Board of Selectmen  
and the Citizens of Duxbury:

We submit our report for the year 1950.

The report of the Superintendent contains the details of the work done in the various cemeteries and is made a part of this report.

Your trustees have made a study of the charges made for the work done in the cemeteries as compared with other town cemeteries and voted to make such changes as appear to be indicated.

We are glad to report a continued gain in the number of lots being cared for by Perpetual Care Funds. We believe every lot owner should make provisions for this if not already done.

An appropriation of \$11,046.00 is requested to carry on the regular work of the department. A special appropriation of \$400.00 is asked for the purchase of a new lowering device. The one in use now is 22 years old and shows evidence of failing to function properly. We believe this should be replaced now when a new one can be obtained.

Respectfully submitted,

HARRY A. TAMMETT, Chairman  
J. NEWTON SHIRLEY, Secretary  
ERNEST H. BAILEY  
EDWARD P. HOBART  
STANLEY V. JOHNSON

## REPORT OF PUBLIC HEALTH NURSE

---

To the Honorable Board of Selectmen.

Gentlemen:

I submit herewith the report of the Public Health Nurse for the year 1950, being the work for which the town pays the salary of the nurse by an annual appropriation.

Classification	Cases	Visits
Bedside Visits		
Old Age Assistance	3	88
Aid to Dependent Children	1	1
Instructive Visits		
Contagious Disease	12	12
Crippled Children	5	15
Tuberculosis (cases and contacts)	8	17
	<hr/>	<hr/>
Totals	29	133

### Other Activities:

Board of Health Diphtheria Immunization Clinic —  
35 completed

Well-Child Conference (P.T.A. sponsored)—6 meetings, 99 attended. (This is the largest attendance in ten years.)

Community TB X-ray survey—assisted with clinic and also made 7 follow-up visits where requested by Plymouth County Health Association

## Transportation to:

Brockton Orthopedic Clinic	4
Plymouth County Hospital	3
Lakeville State Sanatorium —	
Cerebral Palsy Unit	2
Tuberculosis check-up	1
Orthopedic Shoe Co.	1
Children's Hospital	1
	<hr/>
Total	11

Respectfully submitted,

SUSAN E. CARTER, R.N.,

Duxbury Public Health Nurse.

## REPORT OF THE TOWN HISTORIAN

---

### Board of Selectmen:

Through the courtesy of Miss Lura Cushman, I have had access to some very important material dealing with the Shipping Industry of Duxbury. It consists of two lists of ships, compiled by her mother, Lucie Hall Cushman, wife of Walter Cushman, whose father, Captain David Cushman, had an active sea career of forty years.

One list contains the name, description of ship, together with name of owners, and master, of all vessels built in Duxbury for Duxbury owners and manned by Duxbury men. It contains 222 names. The second list contains much of the same information of vessels which were built either in Duxbury for outside owners or outside Duxbury for Duxbury owners. Seventy-three vessels are recorded on this list.

Together these lists furnish the basis of a complete and accurate knowledge of the great shipping era of the town. One of the lists will be placed in the Town Office, one in the Library, and one in the Historical rooms. If anyone knows of any additions or has further information and will supply it, the complete record can then be put in permanent form.

The Scituate Playhouse sponsored an exhibit showing the historical and present interests of the towns on the South Shore. It attracted much interest. The Duxbury unit was gathered with the assistance of the Junior Chamber of Commerce of the High School.

The Historian receives many requests from pupils of high schools in all parts of the country for information about Duxbury history and its local monuments. The writers say the material will be used in themes or papers dealing with Colonial history. These letters receive personal replies giving sources of information, post cards and detail as far as possible.

The leader of a troop of Girl Scouts was supplied with information requested with the suggestion that if she would notify us as to the time of arrival the local Scouts would meet them and be at their service. As a result the visitors made their headquarters in Duxbury, visiting Plymouth and other points from here. An outing on the beach was arranged, personal friendships formed. So our Girl Scout troop, under its able leader, became an ambassador of good will.

The advertisement by the Selectmen of the remaining buildings on the grounds of Partridge Academy brings memories of gratitude for an institution which for generations served the youth of Duxbury well.

Interesting drawings of the Ropewalk used by King Caesar in his shipyard are in possession of Miss Knapp. They will be rebound and presented to the Historical Society.

The advent of the Duxbury Clipper, our weekly newspaper so warmly welcomed is recorded.

WALTER R. HUNT.

## REPORT OF THE MEMORIAL OFFICE BUILDING COMMITTEE

---

To the Citizens of Duxbury:

On May 31, 1950 the Moderator, as authorized by the Town Meeting, appointed a committee of five "to study the housing of the various town offices and an auditorium in a central building to be known as a War Memorial Building."

The committee organized with Harry B. Bradley as chairman and Mrs. Arthur T. Chase as secretary, and began immediately to determine the general feeling throughout the town by twice inviting the various organizations in town to discuss the problem as we outlined it to them and to send one or more representatives to present their views at open meetings of the committee. From these meetings it was evident that

1. There is definite and immediate need for improved town-office facilities:
2. There is need for an auditorium capable of seating 1000 or more persons;
3. The choice of location for such a building should be either near the Library or the Partridge Academy site.

After a careful study of these ideas, your committee makes the following suggestions:

1. That, as soon as the Town decides, the Town erect on the Partridge Academy site a town-office building to resemble Partridge Academy in size and

design. This building should be so planned as to house all town departments with the exception of the Fire Department.

The Partridge Academy site is considered the more feasible location because

- a. It is central, not only geographically but also according to population trends;
  - b. It is easily accessible, and the 13 acres there now owned by the Town offer ample parking space;
  - c. The Duxbury Rural and Historical Society, Inc., owns the land across the street on both sides of Depot Street, which ownership insures against any objectionable use of that land;
  - d. The restoration of this famous town landmark in conjunction with the erection of a much needed municipal building would accomplish a two-fold purpose, and become in itself an ideal War Memorial;
  - e. Investigation has shown that there is no advantage to the Town or the school in having the office building adjacent to the school; in every case brought to the attention of the committee such proximity has worked badly for both parties.
2. That this office building should be so constructed that, at a future date, a town auditorium can be added in the rear of and connected with it.

In making these suggestions your committee recognizes the need of proper gymnasium facilities at the High School and believes that when these are provided,

Town Meetings and other large gatherings can be held there until such time as the Town finds it financially possible to add a large auditorium to the office building.

Respectfully submitted,

RALPH N. BLAKEMAN

THOMAS W. HERRICK, JR.

LEROY PETERSON

SALLY F. D. CHASE, Secretary

HARRY B. BRADLEY, Chairman

## MEMORIAL DAY REPORT

---

To the Honorable Board of Selectmen  
and Citizens of Duxbury:

The Memorial Day Committee of 1950 wish first to express their thanks and appreciation to the citizens who so willingly voted the extra \$75. to be placed in the D.H.S. band fund, to help them to reach the goal they were trying for, a band for Duxbury.

The committee sponsored a whist party hoping to raise another \$75. Mr. Wood, principal of the D.H.S., and the students worked hard with the committee and a great big thank you goes to the merchants and citizens who gave so generously of fine articles for prizes. With this cooperation the party netted \$90. for the band fund. Both donations were gratefully received by Mr. Wood for the fund.

That spirit of determination exhibited by the band members on the march from Standish Cemetery to the First Parish Church on Memorial Day is well worthy of comment, and could well be heeded by many of us. When about half way it began to rain quite hard, the line was halted, the busses ordered forward to pick up the band and as many of the marchers as they could take aboard. When the busses came up to the band they were waved on with the remark, "We have started something, we are going to finish it." Such a spirit demands the cooperation and support of us all.

The committee felt it had one of the best programs planned it has had for a long time. Had it been the

bright day we hoped for, so that all participating in the work could have carried out their parts in full, we feel sure those who followed it would have said, "I am glad I gave my time and took part in that sacred commemoration of our nation's hero dead."

We trust that in 1951 the guiding hand of our destinies will be kind to us, so that the committee and those working with it will not meet with the disappointments they encountered this year and that more citizens will find a way to support the committee. It is your support, by your presence, that inspires the committee to better programs and shows your gratitude to those we remember.

All veterans' graves known to us were decorated as usual. Our thanks go out to all who, under trying circumstances, assisted so faithfully the committee in its work.

Respectfully submitted,

JAMES W. STARKWEATHER, Secretary

E. S. GLOVER, Chairman

O. B. RYDER

PARKER B. CHANDLER

PHILIP G. CHANDLER

RICHARD C. PRINCE

WILLIAM G. WHITE

## PLYMOUTH COUNTY AID TO AGRICULTURE

---

In the Duxbury area during the past year the Agricultural Department has been widely used, but mostly on the individual level where results are hard to dig out. The Home Economics Department under the capable local chairmanship of Mrs. Thomas Scott has had several groups of classes at work totaling some 22 women and 4 leaders covering work in clothing, United Nations flag, upholstering, children's coats, etc.

The 4H Club program, however, has shown wide activity. Duxbury now has seven active 4H Clubs (1 cattle, 1 sheep, 1 poultry, 3 sewing and 1 home decoration). These clubs have roughly 80 active members. Not only has the daily and weekly responsibility of the individual project been carried through to completion but excellent showings have been made at the fairs (Weymouth, Marshfield, Brockton, Worcester, Springfield, Boston Poultry Show). Out-of-town trips have been made. From the economic viewpoint widespread and definite aid has resulted to the home budget. For instance, the Sheep Club alone won over \$700.00 in prizes. The Poultry Club with 29 members raised 1550 birds with a total value of over \$4000.00 and a net profit of over \$1600.00 not counting prizes. The sewing clubs won many prizes and also helped the family budget.

But the greatest value of this 4H activity is in building character. Responsibility, self-discipline, the cumu-

lative worth of steady growth through work, cooperation with parents, the edge given by constantly bettering methods, fair competition — and how to lose as well as win.

Few parts of our town budget can exceed in results the aid given the Plymouth County Extension Service.

Respectfully submitted,

MALCOLM C. BROCK,

Town Director.

## PLYMOUTH COUNTY AID TO AGRICULTURE

---

This Department, generally known as the Plymouth County Extension Service, is the county organization representing the United States Department of Agriculture and the University of Massachusetts in the field of educational programs. There are three departments having programs designed primarily for farm and rural people but are available to all the people of the county.

The Agricultural Department has formal programs with regular scheduled meetings for commodity groups including dairymen, poultrymen, cranberry growers, vegetable growers, fruit growers and florists. Other programs are available for people interested in general livestock, forestry, home grounds improvement, home food production and marketing. The Agricultural Department educational programs are conducted largely on county-wide or regional basis. The work is supplemented with demonstrations, farm visits, and newspaper and radio publicity.

The Home Economics Department promotes education in home management and family economics, home furnishings and surroundings, food preservation and storage, food selection and preparation, clothing and textiles, family relationships and child development, recreation and community life. This department is dependent upon Town Committees and local leaders to sponsor local groups and to assist with the teaching program.

The 4-H Club Department deals with youth between ages of 10 and 21 years. Project work for boys includes dairy, goats, sheep, pigs, poultry, gardens and handicraft. For 4-H girls, project work is offered in clothing, canning, child care, foods, home furnishings and crafts. Four-H club work is also dependent upon Town Committees and local leaders for sponsoring 4-H clubs and for leading these clubs in their regular meetings and supervision of their project animals or crops.

Funds for County Aid to Agriculture are derived principally through the appropriation of the County Commissioners. Some Federal funds are also designated through the University of Massachusetts. Most Towns make a small appropriation which also is used for the general expenditures of the Plymouth County Extension Service. These town appropriations are an indication of the interest in the Extension Service programs and permits the town to have a Town Director. These Town Directors are unpaid volunteer leaders and serve as an Extension Service representative in their towns.

## Statistical Summary of Achievements

### Plymouth County Extension Service

November 1, 1949 - October 31, 1950

## REPORT OF THE BOARD OF APPEALS

---

To the Honorable Board of Selectmen.

Gentlemen:

The Board of Appeals held thirteen public hearings during 1950, nine of which were on petitions for variances in residence districts and four for exceptions where the Protective By-Law gives permission subject to the approval of the Board of Appeals.

On the petitions for a variance, six were denied and three were granted. Of those for exceptions, two were denied and two were granted.

The Board also rendered one decision denying a petition for a variance on which the public hearing was held in 1949.

Respectfully submitted,

WILLIAM B. COFFIN, Chairman

H. RUSSELL CHANDLER

KENNETH O. MACOMBER

## REPORT OF THE HARBOR MASTER

---

To the Honorable Board of Selectmen.

Gentlemen:

I herewith submit my annual report as Harbor Master for the year 1950.

In the waters of Duxbury Bay there were 80 registered boats, plus a large number of sail and outboard motor boats. Of this number 65 were moored in the basin. This was an increase of 15 over last year. Ten were located at the Standish Shore anchorage. The remainder were anchored at different points along the shore.

Plans have been made this spring for a more effective landing at Howland's Lane, on Standish Shore. This anchorage has a 9 foot depth and sufficient turning space for our larger boats. During the bad storm we had this year, the boats at this anchorage rode it out in comparative safety.

One of the larger problems of the summer was the congestion of boat tenders on the floats. Non-residents were excluded from permanent parking. Their cooperation was appreciated and we hope they will bear with us until more adequate facilities can be obtained.

Mooring applications were issued this year. This gives us accurate information as to ownership, type of boat, depth and mooring equipment, also where a boat owner can be reached in time of trouble.

I wish to thank Eben Briggs and the Fire Department, also boat owners and friends for their help during the bad storms we had this year. These fellows were instrumental in saving a lot of equipment and money.

Respectfully submitted,

VICTOR D. NICKERSON,

Harbor Master.

## REPORT OF THE TRUSTEES OF JONATHAN AND RUTH FORD FUND

---

To the Citizens of Duxbury:

The following is a statement of the operations of the principal and income accounts of the Jonathan and Ruth Ford Fund for the year 1950:

	Principal	Income
On hand at beginning of year	\$25,000.00	\$2,643.87
Income for 1950		677.77
		<hr/>
		\$3,321.64
Equipment, Dental Clinic		500.00
Paid for relief of worthy cases in 1950		356.20
On hand December 31, 1950	\$25,000.00	\$2,465.44

PHILIP W. DELANO

CHARLES R. CROCKER

WALTER G. PRINCE

JOSEPH T. C. JONES, Treasurer.

## REPORT OF THE ELEMENTARY SCHOOL REMODELING COMMITTEE

---

To the Citizens of Duxbury:

At the annual town meeting on March 4, 1950, it was voted that the moderator appoint a committee of five to remodel the playroom in the elementary school building into two classrooms, and study further remodeling of the building and report on the same at the next annual town meeting.

Your committee received notice of its appointment on April 10, 1950 and at once set to work.

The School Committee and the Superintendent of Schools were consulted as to recommendations regarding the altering of the playroom into two classrooms.

Inasmuch as Thomas Worcester Inc. were the architects and engineers of the building, it was decided to engage them to draw up plans and specifications for this work.

Bids were opened on July 14, 1950 and Hayes and Watkins Construction Company were designated as General Contractors. Revisions of plans and specifications were necessary as all original bids were considerably higher than the appropriation. This delayed the actual signing of the contract until August 3, 1950. Work was started on August 7, 1950 and was sufficiently completed in time for the opening of school in September.

As of January 3, 1951 all work was completed with the exception of a few minor items.

This committee after attending to the immediate needs of remodeling, proceeded to make a careful study of further remodeling and future needs of the building and makes the following recommendations:

1. Install sound absorbing ceilings in the cafeteria and the two new classrooms.
2. Install movable partition in the kindergarten.
3. Appoint a committee to further study the needs of more classroom space. Such committee to report at the regular town meeting of 1952 with definite recommendation for such additional classrooms as may be needed in the near future. This committee has made a study of the school census and population trend and finds that the anticipated pupil load of elementary pupils as of September, 1953 will be 70 to 75 greater than at present. The building will have reached its capacity as of September, 1952. If more homes are erected and the population should increase at a greater rate than at present, these figures of 70 to 75 additional pupils might be too low.
4. It is felt that an auditorium-gymnasium unit would be a valuable addition to the school in order to provide for adequate space for play, physical education and assemblies. At the present time, because of the loss of the playroom, there are no facilities

available for the elementary pupils for any activities. Such an addition could be made available for town meetings and other public assemblies.

Respectfully submitted,

LORING R. C. MUGFORD, Chairman

ANNE E. WOODSUM, Secretary

GORDON C. COUCH

EDMUND H. KENT

KENRICK S. DENYER

## REPORT OF CHIEF OF POLICE

---

To the Honorable Board of Selectmen:

Gentlemen:

Following is the report of the Police Department for the year ending December 31, 1950.

### LIST OF OFFENCES

Assault and Battery	5
Breaking and Entering and Larceny	1
Breaking glass in building	1
Drunkenness	17
Disturbing the Peace	3
Illegitimate Child Act, violating	1
Lottery Laws, violating	1
Operating to endanger life	5
Operating while intoxicated	9
Operating without a license	2
Non-support of child	2
Larceny	1
Delinquency	5
Violation of By-laws	1
Using motor vehicle without authority	3
	—
	57

### DISPOSITIONS

Fined	25
Filed	8
Dismissed	3
Not Guilty	2

Probation	8
Pending	1
Released	4
Turned over to other Authorities	6
	<hr/>
	57

### MISCELLANEOUS

Complaints investigated	1253
Emergency messages delivered	53
Emergency trips to Hospitals	6
Cars tagged for improper or illegal parking	77
Licenses recorded and operators warned for motor violation	141
Beach stickers issued	1602
Shellfish permits issued	441
Pistol permits issued	43
Arrests made for outside police	4
Summonses served for outside police	51
Motor vehicle accidents investigated	40
Animals destroyed for owners	78
Animals returned to owners	43
Automobile transfers filed	333
Miles traveled by patrol car	66343

There was a greatly increased demand for the services of the Police Department during the past year. This made it necessary to request the Finance Committee to transfer funds to the Police appropriation, and to obtain an additional appropriation at the Special Town Meeting, in order to meet the expenses for the year.

For the same reason, I have asked for an increased amount for the coming year.

I am pleased to include, in my report, the following letter:

372 Hyde Park Avenue  
Roslindale, Massachusetts  
December 6, 1950

Mr. James O'Neil  
Chief, Duxbury Police Department  
Duxbury, Mass.

Dear Sir:

Mr. Mahoney and myself wish to extend our praise and eternal thanks to Officer Frank White of your department. Officer White's devotion to duty was directly responsible for saving three lives from the fire at our residence, in the early morning of December 3, 1950.

We can well understand how alert Officer White must have been to notice the fire from the street, as he made his night patrol. His presence of mind, his prompt action, and his repeated efforts to arouse the McNulty family at the risk of his own safety deserve the highest commendation. Mere words cannot wholly express our eternal gratitude.

Officer White's actions reflect credit on you, Chief O'Neil, and the men in your department. With men of this calibre on your force, Duxbury can well be proud and rest securely in the protection given by its Police Department.

We should like to have this letter placed in your records as a testimony to Officer White's outstanding performance in the line of duty.

Sincerely and gratefully,

William E. Mahoney  
Edward McNulty

It would appear that this incident proves the value of 24 hour patrol the year round.

Respectfully submitted,

JAMES T. O'NEIL,  
Chief of Police.

Date: January 16, 1951.

## REPORT OF MOTH DEPARTMENT

---

To the Honorable Board of Selectmen.

Gentlemen:

I herewith submit my report of Insect Pest Control for the year ending December 31, 1950.

The Insect Pest Control Department's big purpose this year was to get the entire town sprayed by airplane for the control and elimination of the Gypsy Moth. This was accomplished in conjunction with county, state and federal agencies and was known as the Plymouth County Spray Program.

This spray not only controlled the Gypsy Moth but six other insects that come under the Insect Pest Control Act, together with many more. Anything that the spray material might cause harm to had to be located on a map and then the necessary precautions taken at time of spraying and the special treatments given to cover the particular areas in order to do a thorough spray job.

To insure a complete coverage of the entire area, small glass test plates 3 x 4 inches square were placed on the ground in advance of the spray planes and without the pilot's knowledge as to where they were located. There were over one thousand of these test plates hidden about town and not a single plate escaped D.D.T. The spraying started in Duxbury June 6th and was completed June 19th.

Starting July 10th and until September 10th, we were required to put out and operate 34 traps plus two extras to see if it would be possible to catch an adult

moth that might have survived the spray or that was brought in from unsprayed territory by cars. In addition, we placed one trap at the Gurnet, one at Saquish and one at Clark's Island. Each trap location was specified by the U. S. D. A. One male Gypsy Moth was caught in the town of Duxbury. Scouting for egg clusters in the vicinity where the male moth was caught did not reveal a thing. However, it will be necessary to spray all roadsides this year to eliminate the moths that are brought in from unsprayed counties in the state.

Respectfully submitted,

ROY E. PARKS,

Moth Superintendent.

## REPORT OF THE TREE WARDEN

---

To the Honorable Board of Selectmen.

Gentlemen:

I herewith submit my report of the Tree Department for the year 1950.

The Plymouth County Aerial Spray Program took care of most of the spraying necessary on our shade trees this past season. However, it was necessary to do some spraying before the air spraying got into the town of Duxbury on June 6th. There was a heavy infestation of red mite on evergreens (particularly Cedars) that required three sprays with a special material. The D.D.T. used in aerial spraying has no harmful effect on this insect.

There were 27 new trees planted along the streets of town.

All standing hurricane-damaged trees were inspected from a safety standpoint. Additional bracing was placed in some and a certain percentage of the tops removed from others to insure them standing for a number of years.

In the past we have concentrated on elms, but this year the maple trees have received more attention with cables installed where necessary.

Low-hanging branches, dead limbs and dead trees along all streets have been removed wherever they represented a danger.

Respectfully submitted,

ROY E. PARKS,  
Tree Warden.

## REPORT OF PARKS AND PLAYGROUNDS COMMITTEE

---

To the Honorable Board of Selectmen.

Gentlemen:

We submit herewith a report of the Parks and Playgrounds Committee for the year 1950.

The playground and tennis courts were put into shape as usual with the locating of the soft ball court at the northwest corner of Train Field as a permanent position. Work on this court was started by putting in two clay and gravel base lines. The School Department has erected the back stop for the court. The athletic directors at the school discussed with us the grading of the outfield of the court. A figure for the grading was obtained and it was found that there was not enough money left in the Parks and Playgrounds fund to do the job.

We have been very fortunate in having Mr. L. A. Howard donate of his time and effort in planning and putting on paper a plan for improving Island Creek Park in a conservative way. A start was made on this work by erecting a low retaining stone wall around a tree and putting in a clam shell walk.

Now that a working plan has been obtained, it can be added to from time to time if and when conditions permit.

Respectfully submitted,

ROY E. PARKS,  
Chairman.

## REPORT OF CONTROL OF DUTCH ELM DISEASE

---

To the Honorable Board of Selectmen.

Gentlemen:

I herewith submit my report on the control of Dutch Elm Disease for the year ending December 31, 1950.

We have had six new cases of Dutch Elm disease in town this year. These trees were promptly removed and burned.

The dead wood and broken branches have been removed from all elms shading the streets and the trees sprayed with the six, nine and twelve per cent solution of D. D. T.

In the control of Dutch Elm Disease, the emphasis is on sanitation work and spraying. Therefore we plan on applying four sprays instead of three in the future.

Many of the larger towns and cities that have a serious Dutch Elm Disease condition on their hands have found that a committee known as Dutch Elm Disease Committee has been very helpful and is recommended for every town. Therefore, I would like to see a Dutch Elm Disease Committee appointed in this town.

Respectfully submitted,

ROY E. PARKS.

## REPORT OF SHELLFISH CONSTABLE

---

To the Honorable Board of Selectmen:

I respectfully submit my report as Shellfish Constable for the year 1950.

There were two to five men who dug razorfish from January to the middle of September.

During the spring and fall months, twelve to fifteen men worked intermittently digging quahaugs, mussels, seaworms, and clams.

During the months of May and June 72 bushels of seed clams were planted on Standish Shore; 60 bushel coming through the State Department of Marine Fisheries at a cost of \$210.00 and 12 bushel were taken from Mr. Ralph Thompson's private grant with his permission.

From May to November two men worked part time digging, and planting seed clams and also destroying the enemies of shellfish. The men picked and destroyed 9750 horse shoe crabs and 240 pails of cockles. We paid \$817.20 for this work.

We laid brush out along the shore to help catch a set of shellfish seed; also at the request of the State Department of Marine Fisheries tried out two experiments using plastic screen and chicken wire.

In January of this year we had a balance of \$567.39 in our special shellfish account, to this the town added \$250. and the State \$550. Out of this \$1,027.00 was expended for the seed clams and work, leaving a balance of \$340.19 for future work.

During the month of August three different sets of clam seed came in and attached itself to the previously closed area from the Coal and Lumber Co. to Standish Shore. There is also natural seed on some of the flats. We will be able to tell better the prospects of this seed this spring.

Forty-four commercial permits at \$2.50 were issued — total \$110.00. Six hundred five family permits, 20 of which were free to men 70 years of age or over and the remainder at .25 each were issued during the year — total \$146.25.

Following is the record of shellfish and seaworms taken commercially during the year.

438	bushels of razorfish @ 4.00	\$1752.00
169	bushels of razorfish @ 6.00	1014.00
42	bushels of razorfish @ 7.00	294.00
420	bushels of quahaugs @ 2.00	840.00
160	bushels of quahaugs @ 2.25	360.00
15	bushels of quahaugs @ 4.00	60.00
11	bushels of quahaugs @ 3.00	33.00
30	bushels of mussels @ 2.00	60.00
61½	bushels of clams @ 6.00	369.00
60	bushels of clams @ 4.50	270.00
33	bushels of clams @ 4.00	132.00
15	bushels of clams @ 5.00	75.00
2384	seaworms @ .05	119.20
		<hr/>
		\$5,378.20

Twenty-five notices were sent grant holders requesting a report of work done on grants.

There were 954 bushels of quahaugs and  $3\frac{1}{2}$  bushels of clams planted on grants this year.

One clam grant was issued at a charge of \$5.00 during the year.

Twenty-five annual fee forms were sent out and \$20.00 collected in annual fees from grant holders.

The corner stakes were put out for four grant holders, and numerous shellfish regulations and closed area signs were built, repaired and put up around town.

Respectfully submitted,

HENRY P. McNEIL,

Shellfish Constable.

## REPORT OF VETERANS' AGENT

---

January 9, 1951.

To the Honorable Board of Selectmen:

I respectfully submit my report as Agent for the Department of Veteran's Services for the year 1950.

During the year we have had a total of 13 cases, representing 37 persons who received Ordinary Benefits.

We have handled 4 cases for other towns.

There were 3 Federal pension claims handled, and all applicants were able to obtain retroactive awards and monthly pension checks, which makes a great saving for this department.

I have advised and assisted numerous veterans and their dependents in insurance problems, education and training, V.A. hospitalization, and out-patient treatment, and at the same time have advised them of numerous other benefits to which they were entitled. World War I veterans require more time as they are reaching an age where they need more assistance in gaining employment and obtaining medical attention.

I have registered 22 local 18-year-olds for the Draft Board No. 28 in Brockton, Massachusetts.

There have been numerous house visits throughout the year to veterans and their dependents who have been receiving Ordinary Benefits. It was necessary for me to take one disabled veteran to the Veterans Ad-

ministration in Boston for a medical examination and to help him in filing his pension claim.

In my capacity as Burial Agent four cases were handled.

Our appropriation was \$5975.00 plus cancellations of \$76.00, making \$6051.00. We expended \$5880.02, leaving a balance of \$170.98 in the account. We have medical bills in the sum of \$26.25 outstanding, and these will have to wait for the March Town Meeting because they were received too late for payment in 1950.

On December 1st we received an additional appropriation at the Special Town Meeting of \$1000.00 which has not been used due to increased employment and the consequent decrease in our case load.

Half of the amount expended will be reimbursed to the town by the State.

Respectfully submitted,

HENRY P. McNEIL, Agent  
Department of Veterans Services.

Assessors of Duxbury

## REPORT OF BOARD OF HEALTH

---

Board of Health

Duxbury, Massachusetts

Gentlemen:

I herewith submit my report as agent for the Board of Health.

We had the usual communicable diseases during the past year, along with what amounted to a mild epidemic of measles during the winter months of February and March. There were also two cases of poliomyelitis, both of which are doing well.

Contagious diseases statistics were as follows:

Measles	109
German Measles	7
Scarlet Fever	14
Whooping Cough	28
Fourth Disease	1
Chicken Pox	17
Mumps	2
Poliomyelitis	2

Last year's total of communicable diseases came to 75, this year's report amounts to 180.

There were, also, 4 dog bites reported to the board.

Our School Dental Program was, once again, successfully carried along.

We are grateful to the State Board of Public Health for their assistance and co-operation in the inspecting and licensing of eating establishments, chicken farms, and the like.

We have the feeling that our statistics on communicable diseases are not complete. The chief reason for this being, that many communicable diseases, which are technically reportable to the Board of Health, are of such a mild nature, that many times no doctor is called, and so the case is never reported. I would like to ask each mother, who suspects her child of having a communicable disease, to please call my office and report the existence of the disease to us, so that in the future our statistics will give a better picture of the health of the town.

Respectfully submitted,

GEORGE ROSS STARR, JR., M.D.

# REPORT OF THE BOARD OF PUBLIC WELFARE AND BUREAU OF OLD AGE ASSISTANCE

---

To the Honorable Board of Selectmen  
and Citizens of Duxbury.

Greetings:

Your Board of Public Welfare submits the following report of its expenditures for 1950, together with an explanation of the amounts it is requesting the Town to vote for the calendar year 1951.

## ADMINISTRATION EXPENSE

\*Federal Grants Administration on the basis of 50% of administration cost.

†Federal Grants Aid for 1951 on the basis of  $\frac{1}{2}$  of \$ 27. for each dependent parent and first child; plus  $\frac{1}{2}$  of \$ 18. for each additional child in family; plus \$3. for each eligible person.

## OLD AGE ASSISTANCE

In preparing the 1951 estimates under this category, your Board desires to point out that it gave no consideration to the possibility of Old Age Assistance costs being greatly increased under the referendum as voted by the citizens of the Commonwealth in the elections last November. This referendum provided for lowering the eligible age limit from 65 to 63 years; making

aliens eligible; eliminating any legal responsibility for relatives to care for their aged parents, and increased the minimum monthly payments to \$75.00.

Your Board has been advised that there is a strong possibility that this referendum will be held as unconstitutional and therefore it was decided that it would not be fair to the citizens of Duxbury to ask them to vote this huge increase in the cost of Old Age Assistance, at the March Town Meeting. Should the General Court actually pass this Bill, to become effective as of July 1, as provided in the referendum, then your Board would have to ask for a special Town Meeting at that time, to vote an increase of as much as \$20,000.00 or \$25,000.00.

	1950 Actual Expense	1951 Estimated Expense	1950 Actual Case Load	1951 Estimated Case Load
January	\$ 5,338.77	\$ 6,000.72	79	88
February	5,208.89	6,000.72	79	88
March	5,744.00	6,137.10	82	90
April	5,785.74	6,409.86	85	94
May	5,702.43	6,341.67	84	93
June	6,643.64	6,341.67	84	93
July	5,312.94	6,341.67	85	93
August	5,949.68	6,341.67	85	93
September	5,646.13	6,341.67	85	93
October	5,773.49	6,341.67	84	93
November	5,112.80	6,341.67	85	93
December	6,180.73	6,478.05	86	95
	<hr/>	<hr/>	<hr/>	<hr/>
	\$68,399.24	\$75,418.14*	1,003	1,106

\*Average monthly payment for 1950 was \$68.19; 1951 budget of \$75,418.14 based on same monthly payments for estimated monthly case load.

### Net Cost Comparison with 1950

	1950 Actual	1951 Estimated
Cash	\$68,399.24	\$75,418.14

**REPORT OF LIBRARIAN**  
**DUXBURY FREE LIBRARY, INC.**

---

To the Board of Selectmen:

For the first time in twenty-one years illness has prevented me from getting out the formal Librarian's report. Specific data concerning attendance, circulation, new members, list of patrons who have given books and periodicals, etc., is not at hand. I can say, however, that there were no noticeable differences over recent years except in the matter of gifts. These were unusually numerous and valuable. I regret I cannot give all the names of the generous donors. I think that my assistant, Mrs. Couch, and I can look on it as a very satisfactory season so far as giving service to the public is concerned. One important functional improvement was accomplished. A motor operated machine was installed in the basement that seems to be very successful in cutting down the dampness there by drawing the moisture from the air and condensing it into water—which is deposited in a container.

Respectfully submitted,

FISHER AMES,

Librarian.

# REPORT OF THE TREASURER OF THE DUXBURY FREE LIBRARY, INC.

For the Year 1950

## INCOME ACCOUNT

### RECEIPTS:

Uninvested Principal Jan. 1, 1951	\$405.14

Respectfully,

BARTLETT B. BRADLEY,

Treasurer.

## REPORT OF THE FINANCE COMMITTEE

---

Your Finance Committee organized in early May. Francis W. Perry was elected Chairman and Clarence W. Walker was elected Secretary (a position he has ably filled for three years. He has handled so much tedious detail work with distinction. Thanks to him the Committee has functioned smoothly. The Committee and its Chairmen during this period have indeed been fortunate in having his faithful ever-willing service.)

During the early months of the year meetings of a procedural nature were held. Meetings were held prior to the Special Town Meeting of December 1 to gain sufficient knowledge in order to make our recommendations to the Town. It was gratifying to know our advice at the Meeting was seemingly well received.

Statute invests the authority for disbursement, through transfer, of the Reserve Fund with the Finance Committee. This is the Fund appropriated to provide for "extraordinary or unforeseen" expenditures which can cause any Department to exceed its particular appropriation. During the past year the following transfers were made:

Planning Board	\$77.00
Old Age Assistance	1,244.21
Election and Registrations	27.45
Police	230.00
Old Age Assistance	351.75

Gurnet Road Water Pipe Appropriation	107.94
Law Department	250.00
Memorial Day	5.00

In 1950 the sum of \$4,000.00 was appropriated for this Fund.

Since mid December your Committee has met frequently to consider the budgets of the Town Departments for the forthcoming year and the various Special Articles to be included in the Warrant for the Annual Meeting. Sub committees on General Government, The Protective Departments, Highways, Charities and Schools have worked efficiently and facilitated the Committee's work greatly.

Your Committee will report in more detail in the Copy of the Warrant for the Annual Meeting. However, in passing, note must here be made that the Town faces a sharp rise in its tax levy this year. The reasons are obvious and among them are the increased cost apparent in most budgets, the likely lessening of State reimbursements, the possible reimposition of the State Tax, and the unpredictable costs of Civil Defense. It behooves the citizens of Duxbury to study their Warrant with great care.

Your Committee expresses appreciation for the fine cooperation it has received from the various Town Departments enabling it to obtain the information necessary to recommend wisely to the Town. Special thanks are given the Board of Selectmen for their

assistance in getting information to us in advance of legal requirements and many other helpful considerations.

Respectfully submitted,

FRANCIS W. PERRY, Chairman  
CLARENCE W. WALKER, Secretary  
ALVAH R. BOYNTON  
JOHN T. BURNS  
ROBERT F. ESTABROOK  
ARTHUR R. HUTCHINSON  
NEWTON E. HYSLOP  
ALLAN C. JOHNSON  
DOUGLAS M. PEASE

## REPORT OF THE PLANNING BOARD

---

To the Honorable Board of Selectmen  
and Citizens of Duxbury:

The action of the Town Meeting last March in establishing a Planning Board under sections 81 A-Y inclusive of Chapter 41 of the General Laws as amended by Chapter 340 of the Acts of 1947 has resulted in your Planning Board devoting a large part of its activity during 1950 to the control of real estate subdivisions.

With the aid of legal counsel, the advice of the Water Board, and the Selectmen and the Highway Superintendent there has been developed a set of regulations applying to the platting of subdivisions and the construction of ways therein. In general a subdivision operator under sections 81 A-Y inclusive is required to submit an application and drawing to the Planning Board showing that his development meets the requirements of the Planning Board with regard to size of lot, street design, drainage, health, etc. Usually the lot size must agree with the zoning requirements, streets must be paved and laid out to the satisfaction of the Highway Superintendent, water supply must be installed to the satisfaction of the Water Board. The Planning Board holds a public hearing on each application at which time the abutters and others may register objection to granting of approval. The law also provides enforcement in that unless a subdivision has the approval of the Planning Board, a purchaser of such land in the subdivision will be unable to record his title at the registry of deeds. Neither can building

permits be secured unless the subdivision has Planning Board approval. Seven subdivision projects have been considered by the Planning Board during 1950, an indication of the need of directing the growth of the town at this time. The Planning Board believes that its requirements that the subdivision operator bear the cost of paving streets and installing water facilities (1) relieves the town of what in some instances has been an unfair charge on the rest of the taxpayers, (2) standardizes the basis upon which streets will be accepted and water facilities extended, (3) discourages the uneconomic development of real estate and (4) will eventually result in a more useful and more economical system of streets.

Experience frequently recommends change in procedure. While the enforcement of the regulations of the Planning Board (and Appeal Board) rests with the Selectmen, we believe that a better situation would exist if such enforcement were vested in a Building Inspector (appointed by the Selectmen). We recommend a change in the town by-laws to provide for the appointment by the Selectmen of a Building Inspector, such inspector to be compensated on a fee or part-time basis and to be specifically charged with enforcement of the regulations and decisions of the Planning and Appeal Boards and with enforcement of those by-laws of the town relating to zoning and buildings.

Mr. Oliver L. Barker of the Planning Board is preparing a large map of Duxbury showing all ways, contours, houses, etc. and which will serve as a basic tool in future planning.

With the cooperation of the Massachusetts Department of Public Works, the Board has made a traffic study of Halls Corner but is not yet ready to present findings and recommendations. A recommendation was

included in our report of a year ago. The Board welcomes the recommendations of interested citizens, particularly those shoppers and business men who use the area.

The Board feels that a re-zoning of certain portions of the town to require a lot size of not less than one acre should receive attention.

While limitations of time and funds have confined the efforts of the Planning Board largely to problems of zoning and subdivision control, the Board mentions some fields which have received passing consideration and which deserve more careful treatment. The future of Duxbury Beach should be under continuous study by some capable group. The rapid growth of the town to the point where an extremely large expenditure would be necessary to house all those citizens who are entitled to and who might wish to attend annual town meeting suggests that we consider some inexpensive substitute such as the use of representative town meeting. The increasing complexity of government, the ever-rising cost of government, the ever-increasing demands for public services suggest that we study the possibilities of other forms of town government, town managership, for instance. Such studies are too large and technical for non-professional groups without professional advice and direction. Such studies your Board believes would not only aid in preserving and improving Duxbury but would also result in a saving much greater than the expense involved (such has been the case in subdivision control). Your Board is requesting an appropriation which includes \$1,000 for the study of one problem of the type mentioned above. Our total budget for which funds are requested is as follows:

Legal advice	\$300.00
Secretarial	150.00

Engineering and advice on town planning	1,000.00
Dues, Mass. Federation of Planning Boards	12.50
Miscellaneous	37.50
	<hr/>
Total	\$1,500.00

Respectfully submitted,

PERCY L. WALKER, Chairman

MARGARET ROGERSON, Secretary

## REPORT OF TOWN MEETING

---

### TOWN MEETING, MARCH 4, 1950

The registered voters were checked from the voting list and showed 218 males and 245 females, a total of 463 checked.

The Tellers, Barclay J. Woodward, III, John A. Borgeson, Helen F. Dawes, Gerald P. Hazlehurst, Rodney W. Leach, John E. Lucey, Harry A. McNaught, Gilbert F. Redlon and Frank H. Williams were sworn in by the Town Clerk.

The meeting was called to order at 1:00 o'clock by the Moderator, Mr. William W. McCarthy.

Rev. Herman F. Lion invoked divine blessing.

Tellers reported quorum present.

There being no objection, the Moderator declared that petitioners on any article in the warrant should be given opportunity to speak on the question being voted upon before the article is tabled, as in previous years.

Voted that the reading of the Warrant be omitted on account of the number of Articles in the Warrant, to save time.

Under Article 1, Voted, the necessary Officers not chosen by ballot be appointed by the Selectmen.

Under Article 2, Voted, that the reports of the various Town Officers and Committees be accepted as printed in the Town Report.

Under Article 3, Voted, that the compensation of the elected Town Officers for 1950 be fixed as recommended in the Warrant and that we raise and appropriate the sum of \$10,865.00 to pay for same as follows:

Under Article 5, Voted, to raise and appropriate \$425.00 to be expended under the direction of Myles Standish Camp, No. 115, S.U.V.C.W., for the observance of Memorial Day.

Under Article 6, Voted, unanimously, that the Town Treasurer, with the approval of the Selectmen, be and hereby is authorized to borrow money from time to time in anticipation of the revenue of the financial year beginning January 1, 1950, and to issue a note or notes therefor, payable within one year, and to renew any note or notes as may be given for a period of less than one year, in accordance with Section 17, Chapter 44, G. L. (Yes 264 No 0).

Under Article 7, Voted, to raise and appropriate for the use of the Plymouth County Trustees for the County Aid to Agriculture, the sum of \$100.00 and chose Malcolm C. Brock, Town Director, as provided in Sections 41 and 45 of Revised Chapter 128 of the General Laws.

Under Article 8, Voted, to apply the dividend from the Plymouth County Dog Fund amounting to \$671.72 to the support of schools.

Under Article 9, Voted, to appropriate to the Cemetery Department the sum of \$40.00 now in the hands of the Town Treasurer.

Under Article 10, Voted, to appropriate \$4,000.00 to the Reserve Fund from the Overlay Reserve Fund.

Under Article 11, Voted, to raise and appropriate the sum of \$100.00 for the extermination of Poison Ivy along the streets in town. Said sum to be expended under the direction of the Tree Warden.

Under Article 12, Voted, that the Selectmen be given authority to dispose of the building known as the Abbott Barn.

Under Article 13, Voted, to raise and appropriate the sum of \$773.45 to pay unpaid bills of 1949.

(Yes—294 No 0)

Under Article 14, Voted, to raise and appropriate the sum of \$1,000.00 and transfer from available funds the sum of \$2,000.00 for Chapter 90 Highway Maintenance.

Under Article 15, Voted, to raise and appropriate the sum of \$2,500.00 and transfer from available funds the sum of \$7,500.00 for Chapter 90 Highway Maintenance.

Under Article 16, Voted, to appropriate the sum of \$30,000.00 from the Excess and Deficiency Account, to be used to reduce the tax rate.

Under Article 17, Voted, to raise and appropriate the sum of \$950.00 to be expended under the direction of American Legion Post, No. 223, July 4th, Duxbury Days Committee, in connection with this year's parade and celebration.

Under Article 18, Voted, to raise and appropriate

the sum of \$500.00 for the exchange of a car for the Police Department.

Under Article 19, Voted, to raise and appropriate the sum of \$2,500.00 to be expended on the improvement of a portion of Autumn Avenue.

Under Article 20, Voted, to raise and appropriate the sum of \$220.00 to install street lights at the following locations: Tremont Street from West Street northerly to Cox's Corner, 3 lights; Enterprise Street northerly from Cox's Corner to the Marshfield Town Line, 5 lights; Gurnet Road, 2 lights; Alden Street, 1 light.

Under Article 21, Voted, that the Moderator appoint a committee of five to investigate the matter of the sea wall at Duxbury Beach and bring in recommendations for action at the next Town Meeting, it being the understanding that the expense of any construction be shared,  $\frac{1}{2}$  by the State,  $\frac{1}{4}$  by Plymouth County, and  $\frac{1}{4}$  by the Town.

Under Article 22, Voted, to raise and appropriate the sum of \$773.00 to pay awards for property damage in connection with the taking on Church and Tremont Streets.

Under Article 23, which reads will the Town vote to instruct the Selectmen to lay out that portion of Priscilla Avenue between Brewster Street and Soule Avenue, or take any other action thereon, Voted, no action.

Under Article 24, Voted, to raise and appropriate the sum of \$1,300.00 for the purpose of continuing the Greenhead Fly Control project as recommended by the State Reclamation Board.

Under Article 25, Voted, to raise and appropriate the sum of \$1,300.00 for the purpose of continuing the Mosquito control program by spraying certain areas by airplane, or helicopter.

Under Article 26, Voted, to return to the Treasury the unexpended appropriation balances as follows:

Aero-Mist Sprayer, Moth Department	41.80
Hydrant at New Grade School	9.87
Police Department Automobile	50.00
Tractor with Attachments, Highway	65.94
Birch Street Repairs	6.80
Chapter 90 Highway Maintenance	3,000.00
Contributory Retirement System (Military)	2.51
Airport Committee	93.00

Under Article 27, Voted, to establish a Planning Board under Section 81-A of Chapter 41 of the General Laws as amended by Chapter 340 of the Acts of 1947 and that the members of the present Planning Board serve as members of the Planning Board under Section 81-A until the next annual Town Meeting.

Under Article 28, Voted, to raise and appropriate the sum of \$300.00 to be expended under the direction of the Tree Warden for certain improvements in the Town Forest.

Under Article 29, Voted, to raise and appropriate the sum of \$425.00 to buy a power chain saw for the Tree Department.

Under Article 30, which reads will the Town vote to raise and appropriate the sum of \$300.00 for the purpose of conducting the July 10th census as required by the Town By-Laws, Voted, no action.

Under Article 31, Voted, that the Moderator appoint a committee of five, three to be members of the Water District and two outside of the District to investigate and consider the advisability of the Town taking over and operating the Water District and report to the Town not later than our 1951 Annual Town Meeting,

and Voted, that \$200.00 be raised and appropriated for possible expenses of this committee.

Under Article 32, Voted, to raise and appropriate the sum of \$800.00 to combat Dutch Elm Disease.

Under Article 33, which reads will the Town vote to accept the provisions of Section 32 of Chapter 166 of the General Laws as amended by Chapter 529 of the Acts of 1949, which pertains to the appointment of an inspector of wires, Voted, no action.

Under Article 34, which reads will the Town vote to accept the amendment to the Town By-Laws concerning Electrical Wiring, Voted, no action.

Under Article 35, Voted, to raise and appropriate the sum of \$300.00 for the repair and maintenance of the tide gates at Blue Fish River.

Under Article 36, Voted, to raise and appropriate the sum of \$320.00 for the purpose of purchasing an electric adding machine for the Accounting Department.

Under Article 37, Voted, not to transfer the Ashdod School property to the local 4-H Committee for a nominal sum.

Under Article 38, Voted, to defer Articles 38 and 39 until after Articles 50 and 51.

Under Article 40, Voted, to transfer the ownership and maintenance of the Town-owned traffic control signals at the intersection of Route 3A and West Street, to the State Department of Public Works.

Under Article 41, which reads will the Town vote to raise and appropriate the sum of \$500.00 to close the opening at the northerly end of existing sea wall at Duxbury Beach adjacent to the McGinn property, the work to be done with the co-operation of the Department of Public Works, Voted, no action.

Under Article 42, Voted, to raise and appropriate the sum of \$150.00 to purchase two parcels of land at the Wright's-Dyke pond.

Under Article 43, Voted, that the Selectmen be authorized to sell or dispose of the remains of the old Partridge Academy Building only, on Tremont Street and that the Town take no action at this time in respect to the other properties listed under Article 43 in copy of Warrant.

Mr. McDonald was extended the courtesy of the floor to talk on Article 44.

Under Article 44, which reads will the Town vote to instruct the Selectmen to lay Mullens Avenue, so called, from White Street to Brewster Street, Voted, no action.

Under Article 45, Voted, to amend the By-Laws in the following manner: Under Article 2: Town Meetings, by striking out the word "First" on the second line of Section one, and inserting the word "Second" so that Section one will read as follows:

Section 1. The Annual Town Meeting shall be held on the second Saturday of March of each year, at the hour designated by the Selectmen, and under Section two, by striking out the word "Second" in the second line, and inserting the word "Third" so that Section two will read as follows:

Section 2. The election of officers designated on the official ballot shall take place on the third Saturday of March in each year, also voting on such questions or matters as may hereafter properly be submitted to vote in the official ballots, the hour of opening the polls to be designated by the Selectmen. (Yes—176 No—0).

Under Article 46, which reads will the Town vote to raise and appropriate a sum of money for the pur-

pose of purchasing a new heavy duty motor grader with suitable attachments, for the use of the Highway Department, Voted, no action.

Under Article 47, Voted, to raise and appropriate the sum of \$100.00 for the purpose of improving the Town Landing at Cove Street to make it more suitable for bathing.

Under Article 48, Voted, to raise and appropriate the sum of \$4,000.00 for the improvement of Crescent Street.

Under Article 49, which reads "will the Town vote to accept the remaining section of Longfellow Road, previously known as Wadsworth Longfellow Road, as laid out by the Selectmen, and appropriate funds for the necessary improvements, or take any action relative thereto," no action was taken.

Under Article 50, Voted, to instruct the Moderator to appoint a committee of five to study the housing of the various town offices and an auditorium in a central building to be known as a War Memorial Building.

Under Article 51, Voted, that the Moderator appoint a committee of five to investigate and bring in preliminary plans at the next Annual Town Meeting for the remodeling or enlargement of the High School to provide more auditorium space and more classroom facilities and that the sum of \$5,000.00 be raised and appropriated for the use of this committee.

Under Article 52, Voted, to raise and appropriate the sum of \$1,500.00 to surface a bus turning, unloading and loading area, and parking space, adjacent to the Elementary School.

Under Article 53, Voted, to raise and appropriate the sum of \$15,353.00 to provide for the transportation

of school children in the Town of Duxbury and that this amount be included in the appropriation for Support of Schools under Article 4.

Under Article 54, Voted, that the Town raise and appropriate the sum of \$15,000.00 to remodel the playroom in the Elementary School Building into two classrooms, and that the Moderator appoint a Committee of five to attend to this work, study further remodeling of the building and report on the same at the next Annual Town Meeting.

Under Article 55, Voted, to raise and appropriate the sum of \$600.00 for the purchase of playground equipment for the Elementary School pupils.

Under Article 56, which reads "will the Town vote to accept the street known as Bay View Way starting at Bay Ridge Lane, and appropriate a sum of money for surfacing same, or take any other action relative thereto," Voted, no action be taken.

Under Article 57, Voted, that the Town accept from the Estate of John Simmons the gift of a parcel of land adjacent to Dingley Cemetery.

Under Article 58, Voted, to raise and appropriate the sum of \$4,500.00 for the purpose of installing three water hydrants as follows: 1. Just below the Hummock on Gurnet Road; 2. Fifty feet north of Marginal Round on Gurnet Road; 3. Near the entrance of Duxbury Beach Parking Space on Gurnet Road, and that the Selectmen confer with the Marshfield Water Commissioners in regard to expense.

Under Article 59, Voted, to raise and appropriate the sum of \$1,000.00 for exchange of Pickup Truck for the Highway Department.

(Total amount to be raised and appropriated, \$440,-643.45).

At 6:40 o'clock P. M., it was voted to adjourn.

JOSEPH T. C. JONES,

Town Clerk.

JOSEPH T. C. JONES,  
Town Clerk.

April 10, 1950

Mr. Joseph T. C. Jones, Town Clerk  
Town of Duxbury, Massachusetts

Dear Mr. Jones:

In accordance with the by-laws of the town, I hereby appoint the following to the Finance Committee for a term of three years:

Alvah R. Boynton, Harrison Street, Duxbury

Newton E. Hyslop, Shipyard Lane, Duxbury

Douglas M. Pease, Elm Street, Tinkertown

Very truly yours,

WILLIAM W. McCARTHY, Moderator.

April 17, 1950

Mr. Joseph T. C. Jones, Town Clerk  
Duxbury, Massachusetts

Dear Mr. Jones:

Under Article 21, the Moderator was instructed by the Annual Town Meeting to appoint a committee of five to report on the building of a sea wall to protect property at Duxbury Beach. It was the understanding that 50% of any such construction would be paid for by the State, 25% by Plymouth County, and 25% by the Town.

I have appointed the following committee, who have indicated their willingness to serve:

Winthrop B. Coffin, Washington Street Duxbury

Kenneth R. Bunten, Elm Street, Tinkertown, Island  
Creek

C. Lincoln Dow, Jr., Cove Street, Duxbury

Pierce W. Murphy, Standish Street, South Duxbury

Walter I. Ford, Tremont Street, Duxbury

Very truly yours,

WILLIAM W. McCARTHY, Moderator.

April 17, 1950

Mr. Joseph T. C. Jones, Town Clerk  
Duxbury, Massachusetts

Dear Mr. Jones:

Under Article 31, the Moderator was instructed by the Annual Town Meeting to appoint a committee of five to report on the advisability of the Town taking

over the Water District. It was specified that three members of the committee should reside within the Water District and two members be from outside the Water District.

I have appointed the following committee, who have indicated their willingness to serve:

Edwin D. Ryer, Washington Street, Duxbury  
 Henry M. Griswold, Congress Street, West Duxbury  
 Atherton Loring, Jr., Bay Road, South Duxbury  
 Graham T. Winslow, Standish Street, South Duxbury  
 Walter C. Wrye, Jr., Summer Street, West Duxbury

Yours very truly,

WILLIAM W. McCARTHY, Moderator.

May 8, 1950

Mr. Joseph T. C. Jones, Town Clerk  
 Duxbury, Massachusetts

Dear Mr. Jones:

Under Article 51, the Town voted that a committee be appointed to study the problem of enlarging the high school and appropriated \$5,000 for their use in bringing in preliminary plans. The following have been requested by me to serve on the committee and have accepted:

Mr. Earle C. Grenquist, South Station Street, Duxbury  
 Mr. Theodore M. Chase, Chestnut Street, Duxbury  
 Mr. C. Russell Eddy, Washington Street, Duxbury  
 Mr. Earle A. Ricker, Elm Street, Duxbury  
 Mrs. Dorothy Wentworth, Samoset Road, Duxbury

I have been advised of the resignation of Morrison M. Bump from the Finance Committee due to his election to the School Committee. I have appointed Allen C. Johnson, Bay Road, Duxbury, to serve the balance of Mr. Bump's term on the Finance Committee.

Sincerely yours,

WILLIAM W. McCARTHY, Moderator.

April 10, 1950

Mr. Joseph T. C. Jones, Town Clerk  
Duxbury, Massachusetts

Dear Mr. Jones:

Under Article 54 at the Annual Town Meeting, it was voted that the Moderator appoint a committee of five for the purpose of undertaking the remodelling of the playroom at the new elementary school building into two classrooms. The following have signified their willingness to serve on the committee and are hereby appointed:

Edmund H. Kent, Depot Street, Duxbury

Gordon C. Couch, Washington Street, Duxbury

Kenrick S. Denyer, Bay Road, Duxbury

Loring R. C. Mugford, Chapel Street, Duxbury

Mrs. Richard Y. Woodsum, West Street, Duxbury

Very truly yours,

WILLIAM W. McCARTHY, Moderator.

## SPECIAL TOWN MEETING

At High School Auditorium

**Friday, December 1, 1950, at 8:00 P.M.**

At 8:15 o'clock the meeting was called to order by the Moderator, Mr. William M. McCarthy and the warrant was read by the Town Clerk.

John A. Borgeson and Helen F. Dawes were appointed Tellers and were sworn in by the Moderator. The voting list showed that 116 names of registered voters had been checked (78 Male—38 Female), 100 being a quorum. It was made a rule for this meeting that no motion to lay on the table or otherwise cut off debate will be in order until the proponents of an article have had an opportunity to be heard. Mr. Everett L. Handy, Superintendent of Schools, was granted the courtesy of the floor.

Under Article 1, it was voted unanimously to appropriate from available funds the following sums of money to defray town charges:

Veterans' Benefits	\$1,000.00
Old Age Assistance	5,084.00
School Department	450.00
Vocational and Americanization	419.76
Planning Board	100.00
Civil Defense	100.00
Police Department	600.00
Election and Registration	250.00
<b>Total</b>	<b>\$8,003.76</b>

Under Article 2, it was voted to accept with thanks from Gershom Bradford the gift of a parcel of land

comprising approximately two acres for cemetery purposes.

At 8:40 P.M. it was voted to adjourn.

JOSEPH T. C. JONES,  
Town Clerk.

The following Town Officials were duly sworn in 1950:

Charles R. Crocker, Selectman and Assessor for 3 years.

Herbert R. Nelson, Member of Board of Public Welfare for 1 year.

Alice H. Garside, Member of Board of Public Welfare for 3 years.

Sarah A. Stannard, Member of Board of Public Welfare for 3 years.

Herbert C. Wirt, Member of School Committee for 3 years.

Morrison M. Bump, Member of School Committee for 3 years.

Earl W. Chandler, Constable for 1 year.

James T. O'Neil, Constable for 1 year.

Lawrence C. Doyle, Constable for 1 year.

Henry P. McNeil, Shellfish Constable, Agent of Veterans' Bureau, Assistant Harbor Master, Wharfinger, Burial Agent for 1 year.

Percy L. Walker, Member of Planning Board for 5 years.

Edward P. Hobart, Cemetery Trustee for 5 years.

Joseph T. C. Jones, Town Clerk and Treasurer for 3 years.

Edwin M. Noyes, Collector of Taxes for 3 years.

Lewis B. Randall, Highway Superintendent and Field Driver for 1 year.

Frances R. Covell, Registrar for 3 years.

Ernest W. Chandler, Field Driver, Inspector of Slaughtered Animals and Inspector of Animals for 1 year.

Henry M. Griswold, Fence Viewer for 1 year.

Eben N. Briggs, Forest Warden for 1 year.

Michael J. Sheehan, Edward P. McNulty, Special Police Officers for 1 year.

George S. Butler, Carl J. Santheson, Jr., Kenneth O. Macomber, Henry M. Griswold, John DeLorenzo, LeRoy M. Peterson, Fire Engineers for 1 year.

## REPORT OF SHORE PROTECTION COMMITTEE

---

To the Honorable Board of Selectmen:

The Committee appointed to investigate the matter of a sea wall at Duxbury Beach has carefully studied the advisability of this project for the Town of Duxbury.

The Committee's final and unanimous decision was to drop the consideration of the sea wall until such time as labor and materials are again available for such a project which, because of the present world situation falls into the category of non-essential construction, and could not be built even overlooking the inflated cost.

When it again is feasible to carry through this project we feel a similar committee should be appointed to bring in recommendations for action by the Town, but in the face of present costs, restrictions, and material shortages, it would be unfair to the people in the area vitally affected for this Committee to make a final recommendation.

Respectfully submitted,

WINTHROP B. COFFIN, Chairman  
KENNETH R. BUNTEN  
C. LINCOLN DOW  
PIERCE W. MURPHY  
WALTER I. FORD

## REPORT OF FIRE AND WATER DISTRICT COMMITTEE

---

To the Selectmen of the Town of Duxbury :

At the annual meeting of the Town of Duxbury held March 4, 1950, it was voted that the Moderator appoint a Committee of five, three to be members of the Fire and Water District and two outside of the District to investigate and consider the advisability of the Town taking over and operating the Fire and Water District. The Moderator appointed Atherton Loring, Jr., Graham T. Winslow, and E. D. Ryer, members of the District, and Henry M. Griswold and Walter C. Wrye, Jr., outside of the District, to serve on the Committee. Mr. Griswold moved from Duxbury during the course of the investigation and his name, therefore, does not appear at the end of this report.

The Committee has consulted with State officials familiar with the operation of both District and Town operated water systems, met with Directors of the Taxpayers' Association, appeared before the October 27th meeting of the Taxpayers' Association, met with the Commissioners, Clerk, and Superintendent of the Duxbury Fire and Water District and conferred with the consulting engineering firm of Metcalf and Eddy who made a very thorough study and report on the District in 1946.

A Fire and Water District is created by legislative act and usually covers an area within which it is economically feasible to supply water for fire protection and domestic use. By limiting a District to an area of

high evaluation and relatively heavy population it is possible, through reasonable taxation, to set up the necessary plant and to have sufficient demand within the area so that water can be supplied at reasonable rates. In Duxbury the Fire and Water District includes about 90 % of the assessed valuation of the Town, 85 % of the population and covers approximately 25 % of the Town area. The District has been enlarged from time to time when it has been economically sound to do so. Taxpayers of new sections usually have been assessed directly for about 25 % of the cost of the extension and the remaining 75 % has been borne by the taxpayers of the District as a whole. This method tends to discourage uneconomical expansion. Historically, if a District is taken over by a Town it is usually after it has been extended to include practically the entire Town area.

A comparison of water rates of systems about the same size as Duxbury's indicates that the charges for water are about the same whether the systems are operated by Districts or Towns. Four systems operated by Towns averaged a rate of \$0.38 per thousand gallons and four comparable systems operated by Districts averaged a rate of \$0.32 per thousand gallons.

The Metcalf and Eddy Report of 1946 outlined a long term program for the improvement of conditions within the District. The District Commissioners have carried out some of the recommendations. A pipe loop has been completed by an extension of 1300 feet of pipe in Surplus Street. A partial extension has been made in Harrison Street and the material has been obtained to complete this loop. A partial extension has been made on Alden Street. A new wall on Partridge Road equipped with an automatic electric pump has relieved pressure conditions at the pumping station and added a new source of water. A new electric pump has been installed

at the pumping station. Numerous extensions of services have been made within the District to care for the large number of new residences. The District has been expanded most recently to include Tinkertown. Extensive and costly work is still to be done before the Engineer's recommendations are completed.

The extension of the District to include the West Duxbury and North Duxbury areas where there are centers of population still appears to be uneconomical as pointed out in the Engineer's report. However, the Committee believes that the District Commissioners should make a further study of these areas with a view to supplying them from Pembroke and Marshfield respectively and at some future date, when economically justified, connecting them to the Duxbury system.

The Committee has found no indication that the water rates would be materially changed if the District were operated as a Town Department nor that improvements and expansion could be accomplished at a more rapid rate without undue burden on the taxpayers both in and outside the District. The present conservative method of District expansion appears to be well worth retaining.

The Committee, therefore, does not consider it advisable for the Town to take over and operate the Duxbury Fire and Water District at this time.

As a result of its investigation the Committee is prompted to make several suggestions which it believes would result in benefits to both the District and the Town. These are:

- (1) That an attempt be made to increase the attendance at the District Annual Meeting by the use of mailed notices or perhaps changing the meeting date.

- (2) That the District Commissioners cooperate with the Town Planning Board and prepare a tentative plan and timetable for improvements within the District and for expansion of the District.
- (3) That the information in the booklet covering District regulations be expanded to include an explanation of how any section of the Town may become a part of the District.

In conclusion the Committee wishes to thank all those who have cooperated in this investigation.

Respectfully submitted,

ATHERTON LORING, JR.  
GRAHAM T. WINSLOW  
WALTER C. WRYE, JR.  
E. D. RYER, Chairman.

## REPORT OF THE TOWN ACCOUNTANT

---

I am pleased to submit the following statement of all receipts and expenditures of the Town of Duxbury for the financial year ending December 31, 1950, in accordance with Chapter 41, Section 61, General Laws. This report is arranged in accordance with the classifications prescribed by the Director of Accounts.

Appended thereto is a statement of the Appropriation Balances returned to the Treasury under date of December 31, 1950, and a further statement of the Appropriation Balances retained and carried forward January 1, 1951.

ISABELLE V. FREEMAN,  
Town Accountant

## REPORT OF RECREATION COMMITTEE

---

December 31, 1950

To the Honorable Board of Selectmen:

This past year has seen an increased use in the number of groups as well as the number of people using the old Town Hall. This is gratifying to the Duxbury Recreation Committee which has restored and equipped the Town Hall not only for the use of the youth groups it sponsors, but for the use of all groups needing a place for their activities.

The kitchen is now completed and equipped with sink, stove and refrigerator. It is adequate for serving light refreshments. Benches have been made and placed around the hall to provide seating without interfering with the activities on the floor. Due to the ever increasing numbers in the building, added provision for hanging coats was necessary and suitable hooks were put in. A small building was erected in the rear of the Town Hall for the storage of chairs and equipment belonging to the many groups regularly meeting in the building.

The program for the past year has been very successful. The Recreation Committee has continued sponsoring the Cub and Boy Scouts of America, the Myles Standish Club, and the Bon Homme Club. These last two are under the leadership of paid professional directors who guide the business meetings and social programs of the two groups of young people. Increased membership in these clubs attests the success of their organizations.

In addition to the groups meeting regularly in the Town Hall, a large number of other organized groups and clubs have met there from time to time and the secretary of the Recreation Committee has received letters from many of them expressing their appreciation of the restored Town Hall and its facilities. The following organizations have used the Town Hall in the past year: Unitarian Bay Conference, Catholic Women's Sodality, Duxbury Art Club Exhibit, Catholic Church, Unitarian Alliance, Flower Show, Wedding Receptions, Garden Club Meetings, and a Dancing Group. This last group meets twice a month all winter and includes 100 children from the fourth to the seventh grades. The Old Town Hall seems to fill a recognized need in the town for a place where Duxbury people can meet for recreation, business and pleasure.

The Duxbury Recreation Committee used the Town appropriation of \$1500 for director's fees, heating, lighting, telephone, and upkeep of the building. This appropriation is adequate to carry on the work of maintaining the Old Town Hall as a meeting place for all Duxbury, and no increase will be asked for.

Respectfully submitted,

JOHN HUTCHEON, Chairman

DOROTHY WENTWORTH,

Secretary-Treasurer

## THE REPORT OF THE DUXBURY SCHOOL COMMITTEE

---

To the Citizens of Duxbury :

Your School Committee submits the following report for the year 1950 together with the report of the Superintendent of schools.

Many long hours have been spent during the year trying to solve many major school problems.

In May 1950, Mr. Lawrence resigned as Superintendent of Schools. We then went to the several sources of information on possible applicants for the position, and the credentials of numerous men were sent to us. We carefully screened these and interviewed those who appeared to be best qualified. Information then was obtained from the communities where they had been located to assist us in making our selection. Dr. Everett L. Handy was selected as the best prepared to carry on the work of the Duxbury Schools. He was elected Superintendent and reported to take over the position on September first. It was necessary to make an upward adjustment in our superintendent's salary to do this. We are well satisfied with our selection.

As usual, several teachers resigned and we believe we have been able to fill those positions with good teachers. We have found the teacher shortage to be present in the elementary school level.

The teachers' salary schedule has again been said to be out of date. Recent increases reported as being made in towns of our size have called for a careful study of our schedule in view of these changes. Last March, our "cost of living adjustment" was discontinued and \$400. was added to every step in our salary schedule. Further revision may be necessary if we are to continue to be able to call good teachers to Duxbury. Several bills on teachers' salaries entered in the 1951 State Legislature may call for further changes.

The Housing Problem will again become acute in the Elementary School in September 1953. There may be a problem in the High School in September 1952. We hope a solution may result from the studies made by Elementary 2-room conversion Committee and the High School Remodeling Committee.

The Finance Committee has asked us why our per pupil cost is up near the top of the list in towns of our group. Following the Harvard Survey made in 1943, an effort was made to improve certain faults which they found in our system. In making these adjustments, it may be possible we have gone too far. We believe Duxbury wants "A Good School System" as outlined in the "Three Year Plan" and further amplified in the report of Superintendent Whitehead in the 1947 Town Report. We have started a study of this problem in co-operation with a subdivision of the Finance Committee.

We wish to thank the Principals, Teachers and Supervisors for their cooperation during the year while the changes in Superintendents were made.

Our thanks are also extended to citizens, groups and organizations whose assistance has made it possible for us to do some things for our students which otherwise

would have been impossible. The report of the Superintendent mentions these in greater detail.

We have carefully prepared our budget and ask for an appropriation of \$153,845.05 for the support of the Duxbury Schools during the year 1951. If our studies indicate that our salary schedule needs revision, we will need an additional amount to cover any increases.

Respectfully submitted,

The Duxbury School Committee

J. NEWTON SHIRLEY, Chairman

VIRGINIA G. CRAIG, Secretary

GEORGE C. SCOTT

HERBERT C. WIRT

MORRISON M. BUMP

## REPORT OF SCHOOL SUPERINTENDENT

---

Duxbury School Committee  
Duxbury, Massachusetts

Gentlemen:

I wish to submit herewith a report of the Duxbury Schools for the year 1950. The report is planned to answer the following questions:

1. Who teaches in the Duxbury schools?
2. How many pupils receive instruction?
3. What are the pupils taught?
4. How are the pupils housed?
5. What health and transportation services are provided?
6. How much does the educational program cost?

The report also includes an appendix which lists school regulations, the school calendar, graduation records and the school census. Because my work in Duxbury began in September 1950, the report must be limited in many respects.

### SCHOOL DEPARTMENT PERSONNEL

(Who Teaches in the Duxbury Schools?)

The total number of persons participating in the work of the schools, excluding those employed in transporting pupils is 46. They are distributed as follows:

Elementary School Teachers	14
High School Teachers	13
Supervisors	3
Superintendents	1
Principals	1
Special Instructors (part-time)	4
Janitors	3
Clerks	2
Dentists	2
Physician	1
Nurse	1
Attendance Officer	1
School Census	1

One high school teacher received the master's degree in 1950. One additional high school teacher expects to receive the master's degree in 1951. Twenty-two members of the faculty (grades 1-12) hold degrees. Seven have no degrees. Of the twenty-two who hold degrees, six hold the master's degree. About eighty per cent of the high school teachers attended colleges or universities for part-time advanced training in 1950.

A list of the teaching and other personnel, giving assignment, training and years of service in Duxbury follows.

Mrs. Marie Caron	Assistant	4
Mrs. Frances Sollis	Assistant	4
Mrs. Verna Schwab	Assistant	4

## PUPIL PERSONNEL

(How Many Pupils Receive Instruction?)

That the number of pupils served by the Duxbury schools is quite certain to increase to nearly twice the present number in the next ten years is shown in the tabulation below. This tabulation shows only those increases resulting from large beginning classes. There is no way of knowing how many new families will move into the community and at what grade levels their children will be enrolled. Therefore the numbers shown could easily be larger. The following tabulation indicates the probable size of the elementary and high school for a five year period, and the probable size of the high school at the end of ten years. Increase in pupil enrollment should be given careful consideration in relation to building needs.

### Membership by Grades, December 10, 1950 and for Successive Years

## CURRICULUM

(What Are the Pupils Taught )

### ELEMENTARY CURRICULUM

Grade and subject offerings were discussed in the 1949 school report. Therefore, this report will be limited to new departures from the existing program of study and to areas calling for special comment.

Special emphasis is being given to improvement in the fundamentals. A first step in this direction was the re-establishment of a handwriting course beginning in November. This course is taught by a specialist in the field who visits all classes once each month to demonstrate and supervise this area of instruction. The appointment of ten teachers who were new to the school system was one of the reasons for the re-establishment of this instruction. Good progress is already being noted.

More time is being allocated to reading at the elementary level in order to bring up pupil achievement in this skill. The practice of providing special instruction for slow readers is being continued.

Definite goals in arithmetic at each grade level are being formulated. In all of this work the pupil's "ability to do" is being kept in mind, but not to the extent of losing sight of good standards of performance.

The music program in the elementary grades has been proceeding much the same as last year. Each grade is visited each week by the music supervisor, and the instruction given emphasizes reading and singing, rhythmic activity, and music appreciation.

One of the outstanding features of the art program this year was the visit of grade six to the Boston Museum of Fine Arts to see Egyptian, Greek and Roman collections. They also viewed four rooms of fine water colors.

#### HIGH SCHOOL CURRICULUM

I am pleased to report that about one third of the graduates of the class of 1950 are in college and are doing satisfactorily. Seven additional members are doing advanced study in specialized schools. The remaining members of the class (8) are working on various jobs, are married, or are in the service.

No new courses have been instituted at the high school. However, industrial arts and home economics courses will be set up on a different schedule next year. The new arrangement will provide an excellent program and save about one fourth of two teachers' time. This saving in time will help in meeting additional teacher needs brought about by a larger entering seventh grade. Biology, an elective course for many years, is now a required course. Group guidance has been in-

troduced in grades 7, 8 and 9 to help pupils adjust to the work of the senior high grades.

In the high school the Glee Club presented a minstrel show and spring festival of music. It also participated in the community Christmas program.

The school band now meets regularly twice each week for practice. A third period is provided for special help for beginning players. The band has participated in parades and has played at basketball games. It provides real enjoyment for those who are in it and for those who hear it. A good band helps to build good school spirit. The fine support of the Parent Teacher Association, The Sons of Union Veterans, and many individuals is sincerely appreciated.

A major problem in high school art instruction is to provide a suitable place for instruction to be held. In spite of this problem much good work has been done. There has been individual work on figure drawing, cutting blocks and block printing, clay modeling, casting in plaster, and stenciling. The main object of art instruction has been to get children to enjoy art and to learn how to express themselves through art.

The Driver Education program is progressing very satisfactorily. Eight students were graduated from this course in June 1950 and all of them passed the Registry of Motor Vehicles tests and received their licenses. At the present time there are fifteen students ready to take the motor vehicles test.

The record of our athletic teams is outstanding. The basketball team won the class "C" championship, it placed second in the South Shore League, and was invited to represent the South Shore area in the playoffs in the Boston Garden.

The soccer team won seven out of eleven games. Several of the games were against college freshman teams.

It is the objective of the high school to have many students participating in a variety of sports, and to use sports to aid in the development of character and good school morale.

## SCHOOL PLANT

### (How Are the Pupils Housed?)

During the summer the playroom of the new elementary school was remodelled to provide two additional classrooms. These two rooms are now occupied by grade six. The playroom was formerly used for visual aids, for large group meetings, and for physical education classes during inclement weather. Physical education is now conducted in classrooms, in the kindergarten area, and in the cafeteria. Every room in the building is now occupied by a grade group, and as soon as one grade becomes so large that it has to be divided into three groups, the building will be inadequate. The need for additional rooms has been put off one year by making an adjustment in the kindergarten group this year. Additional rooms will probably be needed in September 1952 or 1953, however. Additional space may be needed almost immediately if the war situation causes more families to move from cities to suburbs like Duxbury.

The elementary building seems well adapted to expansion. The wing opposite the kindergarten could be extended at a minimum of cost to provide six additional classrooms. This amount of expansion would provide three rooms per grade and would take care of increases in the elementary school population for several years. (about 1960)

Growing enrollments and other conditions in the high school make this building a problem area also. Ten rooms in the building are now used for regular

classes, while certain additional spaces are used for other class activities. Inadequate accommodations for nearly all phases of the high school program is a real hindrance to good instruction. Toilets and shower room conditions are very unsatisfactory. Storage space is extremely limited. Action should be taken as early as possible to correct these conditions. Attention is called to the study of high school building needs made by the High School Building Committee.

## AUXILIARY AGENCIES

(What Health and Transportation Services  
are Provided?)

### TRANSPORTATION SERVICES

Efficient and well regulated transportation is provided under contract by T. Waldo Herrick. Mr. Herrick operates six buses regularly each school day and keeps an additional bus for emergency use. About ninety per cent of the total school population receives transportation to and from school.

The transportation services provided may be grouped into three categories:

1. Regular transportation of pupils to and from school
2. Late bus transportation
3. Special educational trips

Regular transportation provides for three separate operations. All high school pupils are brought to the high school building by 8:00 A.M., all elementary pupils by 8:45 A.M., and all kindergarten pupils by 9:30 A.M. Kindergarten pupils are returned to their homes first, leaving the building at noon. High school pupils leave at 2:00 P.M., and elementary pupils at 2:45 P.M.

A late bus is provided on Tuesdays and Thursdays to transport high school pupils who have stayed for out-of-school activities and for special help from teachers. A limited amount of transportation is provided to take pupils on educational trips to museums, places of historic interest, and the like.

Bus transportation is always hazardous and requires good pupil cooperation in order that accidents may be avoided. The continued cooperation of parents in this matter will be appreciated.

#### HEALTH SERVICES

Duxbury should be proud of its splendid health program. It is comprehensive, well staffed and progressive. The clinical facilities are very satisfactory, especially since provision has been made for dental examinations in the clinic rooms. The success of the health program reflects the fine cooperation of many organizations and individuals.

Because their reports cover the activities of the health program so well, I should like to present here the reports of the School Nurse, School Dentist, and School Physician. The School Department regrets that Dr. Messier has been unable to participate in the program since the start of the new school year.

## REPORT OF THE SCHOOL NURSE

---

Dr. Everett L. Handy  
 Superintendent of Schools  
 Duxbury, Massachusetts

Dear Dr. Handy:

Work connected with the dental program still occupies a large part of the nurse's time. However, there is some assistance from a student who has been assigned to the nurse for work experience, and even more is expected from a volunteer Red Cross Nurse's Aide who has just been discovered and is eager to help. The report of the dental program as completed last June follows:

Total permissions	217
Withdrawn	11
Work completed	66
Total visits	777
Total fees collected	\$306.75

The installation this fall of the new dental chair in the elementary school building is already proving extremely worthwhile in increased efficiency and saving of time.

The special laboratory tests, done for the first time this fall, are a valuable addition to the school health examinations. A brief report follows:

Total permissions	431 or 76% of school enrollment
-------------------	---------------------------------

Total Urinalyses done	412	
Positive for sugar	2	— both negative on re-test
Signs of infection	3	
Total Blood Counts done	281	
Retests	22	
Mild Anemia	79	or 28% of total tested
High white count (sign of infection)	25	or 8% of total tested
School staff tested		
Urinalyses	10	— all negative
Blood Counts	11	
Mild Anemia	4	

Notices were sent home to all parents of children tested, and those showing unsatisfactory results will be followed up to be sure they are receiving medical advice.

As part of the community x-ray survey in January, the nurse assisted with the details of getting grades 7-12, and the school personnel down to the clinic. Over 200 school people were x-rayed, 3 retakes were requested, and all were negative.

Vision testing is now being done only in alternate grades, due to the increase in the school population.

An experiment was done with hearing tests over the public address system in the elementary school building, but this was not successful. The present audiometer is both outdated and chronically out of order. The purchase of a new pure tone audiometer by the school department will bring this part of the school health examinations to the proper level of accuracy and efficiency.

Routine duties such as first aid, preschool roundup,

assisting with physical and dental examinations and record work, were all accomplished as usual.

A class in Red Cross Home Nursing is being taught to the Senior girls, in the former superintendent's office in the police station building as there was no suitable space in either school building.

There were 151 home visits to or in behalf of school children.

Acknowledgements should be made for the assistance of the Duxbury Nurse Association with the dental program, especially the chair, and with the financing of the special laboratory tests. Also to the American Legion and the Kiwanis for their help with the dental chair.

Respectfully submitted,

SUSAN E. CARTER, R.N,

Duxbury School Nurse.

## REPORT OF THE SCHOOL DENTIST

---

Dr. Everett L. Handy  
Superintendent of Schools  
Duxbury, Massachusetts

Dear Mr. Handy:

Work in the school dental clinic for the school year 1949-1950 was begun with individual examinations on October 27, 1949. The clinic was closed on June 15, 1950.

As in the previous year, results of the individual examinations became a part of each student's permanent record. It is encouraging to find in an analysis of those records that a marked overall improvement in the general dental health picture has occurred.

Treatment in the clinic continues to follow established patterns, with the majority of time being spent remedially. With a constant improvement in the general dental health status, however, it is to be hoped that more time may soon be devoted to educational and preventive dentistry than is now possible.

The establishment of a clinic in the Elementary School during the summer months marks one of the finest improvements in the entire history of the program. All types of dental operations can now be carried out at the school. Difficulties in transportation and scheduling of patients have been eliminated, which will result in the increased efficiency of the entire program. I wish to express my gratitude to the Duxbury Nurse Association, the Town of Duxbury, the School Depart-

ment, the Kiwanis Club, and Post 223, the American Legion, whose financial contributions have made possible the purchase and installation of this dental equipment.

Again this year I wish to express my thanks to Miss Susan Carter, the Duxbury Nurse Association, and the Board of Health, without whom the school dental program could not successfully function.

Respectfully submitted,

GILLIS K. TURNER, D.M.D.,

School Dentist.

## REPORT OF THE SCHOOL PHYSICIAN

---

Dr. Everett Handy  
Superintendent of Schools  
Duxbury, Massachusetts

Dear Sir:

The complete physical examination of each school child, numbering 563 in all, was carried out in an orderly fashion. Special examination of eyes, ears, nose, throat, neck and abdomen were included. The heart and lungs were examined by stethoscopic means and only two new heart conditions were discovered. One of these was evaluated by electro-cardiographic means through the courtesy of the Duxbury Nurse Association and recommendations were made to the parents. Flat feet and posture were appraised critically and it is felt that there is a definite improvement over last year. An outline of exercises to correct posture was put in force through the Physical Education Department. All parents were notified of the physical defect found in their children. The general health of the children was felt to be good.

We were fortunate to have the Duxbury Nurse Association appropriate the sum of five hundred dollars to evaluate the blood and urine of each child requesting this service. It was found that 76% of the total enrollment were examined.

The urine examinations were done on 412 members and a total of 3 cases revealed unsatisfactory conditions. The parents were promptly notified and these infections were brought under control by adequate

treatment. There were no cases of diabetes noted in all urines examined.

The examination of the blood showed that 28% of the school children were suffering from mild anemia. There was no differentiation in the number of cases among children of poorer parents as contrasted to children of parents in a higher income bracket. It is felt by this department that the eating of refined foods and foods low in iron is the chief cause of this trouble among the school population. Diets high in blood building elements were published in the "Clipper" to aid parents in overcoming this condition. Total high white counts (sign of infection) ran only 8% of the total tested. This was felt to be minimal because of the abundance of colds at this time of the year. It was interesting to note that one child with a very high white blood count came down with acute appendicitis two days after the test was made. On the whole the survey was extremely satisfactory from a medical point of view and well worth the trouble and expense. We are indeed indebted to the Duxbury Nurse Association for their kind cooperation in this matter.

The dental program and dental education were carried out by Dr. G. K. Turner and the children's teeth continue to show improvement yearly.

Respectfully submitted,

WALTER E. DEACON, M.D.

School Physician.

## SCHOOL FINANCE

### (What Does it Cost to Operate Our Schools?)

During the calendar year 1950 the School Department spent \$141,791.69 out of a total appropriation of \$141,974.17. This amount was \$15,889.29 or 12.6 per cent more than the 1949 expenditures. For the year 1951, \$153,845.05 will be requested to operate the schools. This amount is an increase of 8.5 per cent over last year's expenditures. This increase is in accord with the predicted average increase (10%) over the state. It is also predicted that the cost of supplies will be up ten to twenty per cent over last year. It seems clear that increased cost for services will be necessary if those who give these services are to meet increased living costs.

While the increase in school costs for 1951 over 1950 is in line with the overall increase in other towns across the state, the per pupil cost in Duxbury is a matter of concern. This does not mean that school funds are wasted or spent needlessly, but it does indicate the need for a careful study of the entire school program in relation to costs.

Such a study is being conducted by the School Committee and should result in future economies or reveal facts to justify higher per pupil costs. In this connection it is already indicated that the per pupil cost for 1951 will be less than that for 1950. If further increases in enrollment can be provided for without much increase in cost, the per pupil cost should drop materially in the next few years.

Several steps were taken by the School Committee in the interests of economy last fall. With an anticipated

enrollment of 80 in the kindergarten for 1951 the Committee voted to admit some additional children to the kindergarten in order to postpone the establishment of three first grade classes the following year. The elementary building does not have enough rooms to provide for three first grade classes. In addition, action was taken reorganizing the shop and home economics programs thereby saving one fourth of two teachers' time. This saving will help meet the teaching needs of a large entering class in grade seven. The Committee further acted to reduce the teaching staff by one half a teacher's time in the elementary grades. Although this action can apply during 1951-1952 only, it indicates a further attempt to use school funds as economically as possible.

The following tabulations show financial costs, trends and comparisons. Budget needs for 1951 are also shown.

## DUXBURY SCHOOL DEPARTMENT

### Budget for the Year 1951

#### Summary Statement

	Budget 1950	Expended 1950	Budget 1951
I. General Control	\$7,965.00	\$7,610.99	\$9,190.34

<b>Total</b>	<b>\$209.42</b>	<b>100.</b>	<b>\$183.65</b>	<b>100.</b>	<b>\$250.30†</b>	<b>100.</b>

Group III equals towns under 5,000 population maintaining high schools.

\*Number of pupils in average membership equals 549 for the year 1949-50.

Total expenditures for support equals \$137,420.95.

Please note that these expenditures are for the school year, i.e., from July 1 through June 30, and therefore are not quite the same as for the calendar year.

†Using the budget figure for 1951 (\$153,845.05) and the probable enrollment for September 1951 (649), the per pupil cost for 1951 will be reduced to \$237.00.

**Special Appropriations 1951**

PUBLIC USE OF THE AUDITORIUM	\$600.00
AMERICANIZATION AND VOCATIONAL EDUCATION	3,083.00

In closing, I should like to thank the School Committee and all other school personnel for the fine cooperation they have given me. I am confident that working together we can provide an excellent educational program at a reasonable and justifiable cost.

Respectfully submitted,

EVERETT L. HANDY,

Superintendent of Schools.

## APPENDIX

## REPORT OF SCHOOL CENSUS

The following report of children in town and enrollment is based upon the school census taken October 1, 1950.

	5 years and under 7 years	7 years and under 16 years	Illiterate Minors 16 years or over and under 21
Number of boys living in Duxbury	72	242	2
Number of girls living in Duxbury	65	223	0
Total in residence	137	465	2
Public School Member- ship*	135	438	0
Vocational School Membership†	0	1	0
Private School Member- ship‡	1	18	0
Continuation School Mem- bership	0	0	0
Not enrolled in School	1	8	2
State and County Institutions	0	0	0
Prospective Kindergar- teners, 1951	70		
Prospective First Graders, 1951	66		

\*Does not include pupils over sixteen years of age.

†4 students over 16 years of age also attend Weymouth Vocational School.

‡Does not include private kindergartens.

## **SCHOOL REGULATIONS**

---

### **Admittance**

Children who are four years and eight months on September 1st of any school year may be admitted to kindergarten.

A certificate of successful vaccination is required for admission.

A birth certificate is required to establish a child's age.

### **Health**

Any child who is absent from school for five days or more is required to bring a certificate from the doctor stating that he is now ready to return to school. After absence with a contagious disease, no matter how short, a doctor's certificate is also required.

### **No School Signal**

School is usually called off only when bus transportation is unsafe. On such days an announcement is made over Stations WBZ, WEEL, WHDH, and WBET in Brockton, between 6:45 and 7:45. Parents are not expected to send their children to school on days when, in their opinion, the weather is such as to endanger the health of the child. Such absences are excused on receipt of a written request.

**SCHOOL CALENDAR 1950-1951**

September 6 — Elementary and High School classes begin

September 11 — Kindergarten classes begin

October 12 — Columbus Day

November 7 — Teachers' Visiting Day

November 23-24 — Thanksgiving Recess

December 25-Jan. 1 — Christmas Recess

January 2 — Classes begin

February 19-23 — Winter Vacation

April 16-20 — Spring Vacation

May 30 — Memorial Day

June 8 — High School Graduation

June 15 — School Closes
